

Key Information Document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

| | |
|---|--|
| Product name | Coupon Certificate on UniCredit S.p.A. |
| Product identifiers | ISIN: DE000DB2G1J7 WKN: DB2G1J |
| PRIIP manufacturer | Deutsche Bank AG. The product issuer is Deutsche Bank AG, Frankfurt. |
| Website | www.db.com |
| Telephone number | Call +49-69-910-00 for more information. |
| Competent authority of the PRIIP manufacturer | German Federal Financial Supervisory Authority (BaFin) |
| Date of production | 25 May 2020 |

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type German law governed certificates

Objectives

(Terms that appear in bold in this section are described in more detail in the table(s) below.)

The product is designed to provide a return in the form of (1) conditional coupon payments and (2) a cash payment on termination of the product. The timing and amount of these payments will depend on the performance of the **underlying**.

Early termination following an autocall: The product will terminate prior to the **maturity date** if, on any **autocall observation date**, the **reference price** is at or above the **autocall barrier price**. On any such early termination, you will on the immediately following **autocall payment date** receive, in addition to any final coupon payment, a cash payment equal to the autocall payment of EUR 100.00. No coupon payments will be made on any date after such **autocall payment date**. The relevant dates and **autocall barrier prices** are shown in the table(s) below.

| Autocall observation dates | Autocall barrier prices | Autocall payment dates |
|----------------------------|-------------------------|------------------------|
| 18 November 2016 | EUR 29.67 | 23 November 2016 |
| 17 November 2017 | EUR 29.67 | 22 November 2017 |
| 16 November 2018 | EUR 29.67 | 21 November 2018 |
| 15 November 2019 | EUR 29.67 | 20 November 2019 |

Coupon: If the product has not terminated early, on each **coupon payment date** you will receive a coupon payment of EUR 5.30 together with any previously unpaid coupon payments if the **reference price** is at or above the **coupon barrier price** on any trading day in the period ending on the immediately preceding **coupon observation date** (inclusive) and beginning on the **coupon observation date** immediately preceding the prior **coupon payment date** (or the **initial valuation date**, as applicable) (exclusive). If this condition is not met, you will receive no coupon payment on such **coupon payment date**. The relevant dates are shown in the table(s) below.

| Coupon observation dates | Coupon payment dates |
|--------------------------|----------------------|
| 18 November 2016 | 23 November 2016 |
| 17 November 2017 | 22 November 2017 |
| 16 November 2018 | 21 November 2018 |
| 15 November 2019 | 20 November 2019 |
| 20 November 2020 | Maturity date |

Termination on the maturity date: If the product has not terminated early, on the **maturity date** you will receive:

- if the **final reference price** is at or above the **barrier price**, a cash payment equal to EUR 100; or
- if the **final reference price** is below the **barrier price**, a cash payment directly linked to the performance of the **underlying**. The cash payment will equal (i) the **product notional amount** multiplied by (ii) (A) the **final reference price** divided by (B) the **strike price**.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

When purchasing this product during its lifetime, the purchase price may include accrued coupon on a pro rata basis.

You do not have any entitlement to a dividend from the **underlying** and you have no right to any further entitlement resulting from the **underlying** (e.g., voting rights).

| | | | |
|--------------------------------|--|------------------------------|---|
| Underlying | Ordinary shares of UniCredit S.p.A. (ISIN: IT0005239360) | Barrier price | EUR 17.802 |
| Underlying market | Equity | Reference price | The closing price of the underlying as per the reference source |
| Product notional amount | EUR 100 | Reference source | Borsa Italiana S.p.A., Milan |
| Product currency | Euro (EUR) | Final reference price | The reference price on the valuation date |
| Underlying currency | Euro (EUR) | Valuation date | 20 November 2020 |
| Issue date | 10 November 2015 | Maturity date / term | 25 November 2020 |

| | | | |
|--------------------------------|-----------|-----------------------------|------------|
| Initial reference price | EUR 29.67 | Coupon barrier price | EUR 17.802 |
| Strike price | EUR 29.67 | | |

The issuer may terminate the product with immediate effect in the event of obvious written or mathematical errors in the terms and conditions or if certain extraordinary events provided in the terms and conditions occur. Examples of extraordinary events include (1) material changes, particularly in connection with the **underlying**, and (2) events, in particular due to changes in certain external conditions that hinder the issuer in meeting its obligations in connection with the product or – depending on the terms and conditions of the security – otherwise affect the product and/or the issuer. In case of immediate termination, the return (if any) may be significantly lower than the purchase price, but will reflect the product's market value and, if higher, any minimum redemption (alternatively, in some cases the corresponding compounded amount may be paid out at the product's scheduled maturity). Instead of immediate termination, the issuer may also amend the terms and conditions.

Provided that in the event of any inconsistency and/or conflict between the foregoing paragraph and any applicable law, order, rule or other legal requirement of any governmental or regulatory authority in a territory in which this product is offered, such national requirements shall prevail.

Intended retail investor

The product is intended for private clients who pursue the objective of general capital formation/asset optimization and have a short-term investment horizon. This product is a product for clients who have sufficient knowledge and / or experience to make an informed investment decision. The investor can bear losses up to the total loss of the capital invested and attaches no importance to capital protection.

2. What are the risks and what could I get in return?

Risk indicator

Lower risk **Higher risk**

The risk indicator assumes you keep the product for 6 months. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions are very unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

| Investment: EUR 10,000 | | 6 months |
|-------------------------------|--|-------------------------------------|
| Scenarios | | (Recommended holding period) |
| Stress scenario | What you might get back after costs | EUR 3,373.20 |
| | Percentage return (not annualised) | -66.27% |
| Unfavourable scenario | What you might get back after costs | EUR 8,496.13 |
| | Percentage return (not annualised) | -15.04% |
| Moderate scenario | What you might get back after costs | EUR 11,780.06 |
| | Percentage return (not annualised) | 17.80% |
| Favourable scenario | What you might get back after costs | EUR 16,671.06 |
| | Percentage return (not annualised) | 66.71% |

The average returns shown in the above table are not annualised, which means they may not be comparable to the average returns shown in other key information documents.

This table shows the money you could get back over the next 6 months under different scenarios, assuming that you invest EUR 10,000.

The scenarios shown illustrate how your investment could perform. The recommended holding period for this product is less than one year. The figures are therefore not calculated on a per year basis, but for the recommended holding period. Figures in this section and "4. What are the costs?" are therefore not comparable with figures given for products with a recommended holding period of at least one year. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

3. What happens if Deutsche Bank AG, Frankfurt is unable to pay out?

You are exposed to the risk that the issuer might be unable to fulfil its obligations in respect of the product – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. In case of a crisis of the issuer such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. In doing so, the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the product or convert it into shares of the issuer and suspend rights of the investors. With regard to the basic ranking of the issuer's obligations in the event of action by the resolution authority, please see www.bafin.de and search for the keyword "Haftungskaskade". A total loss of your capital invested is possible. The product is a debt instrument and as such is not covered by any deposit protection scheme.

4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for the recommended holding period. They include potential early exit penalties. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future.

Costs over time

| Investment: EUR 10,000 | |
|-------------------------------|--|
| Scenarios | If you cash in at the end of the recommended holding period |
| Total costs | EUR 238.29 |
| Impact on return (RIY) | 2.3829% |

The reduction in yield shown in the above table is not annualised, which means it may not be comparable to the reduction in yield values shown in other key information documents.

The costs shown in the table above represent how much the expected costs of the product would affect your return, assuming the product performs in line with the moderate performance scenario.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Composition of costs

The table below shows:

- The impact of the different types of costs on the investment return you might get at the end of the recommended holding period
- The meaning of the different cost categories.

| The table shows the impact on return. | | | |
|--|---|---------|--|
| One-off costs | <i>Entry costs</i> | 2.3829% | The impact of the costs already included in the price. |
| | <i>Exit costs</i> | 0.00% | The impact of the costs of exiting your investment when it matures. |
| Ongoing costs | <i>Portfolio transaction costs per year</i> | 0.00% | The impact of the costs of us buying and selling underlying investments for the product. |
| | <i>Other ongoing costs</i> | - | The impact of the costs that we take each year for managing your investments. |

5. How long should I hold it and can I take money out early?

Recommended holding period: 6 months

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 25 November 2020 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (where the product is listed) or (2) off-exchange. No fees or penalties will be charged by the issuer for any such transaction. However if you sell the product in the secondary market you will incur a bid/offer spread. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

| | | | |
|-------------------------------|---------------------------------------|----------------------------------|---|
| Exchange listing | Börse Stuttgart and Deutsche Börse AG | Last exchange trading day | 19 November 2020 (Börse Stuttgart) and 19 November 2020 (Deutsche Börse AG) |
| Smallest tradable unit | 1 unit | Price quotation | Units |

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at:

| Jurisdiction | Postal address | Email address | Website |
|---------------------|---|----------------------|----------------|
| Germany | Deutsche Bank AG, X-markets, Mainzer x-markets.team@db.com Landstrasse 11-17, 60329 Frankfurt am Main, Germany | www.xmarkets.db.com | |
| Austria | Deutsche Bank AG, X-markets, Mainzer x-markets.team@db.com Landstrasse 11-17, 60329 Frankfurt am Main, Germany | www.xmarkets.db.com | |
