

Key Information Document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

| | |
|---|--|
| Product name | Protected Participation Certificate Linked to Shares of a Fund |
| Product identifiers | ISIN: XS1809937110 WKN: DS3N58 |
| PRIIP manufacturer | Deutsche Bank AG. The product issuer is Deutsche Bank AG, Frankfurt. |
| Website | www.db.com/contact |
| Telephone number | Call +49-69-910-00 for more information. |
| Competent authority of the PRIIP manufacturer | German Federal Financial Supervisory Authority (BaFin) |
| Date of production | 6 March 2023 |

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

| | |
|---|---|
| Type | German law governed certificates |
| Term | The product has a fixed term and will be due on 30 December 2025. |
| Objectives (Terms that appear in bold in this section are described in more detail in the table(s) below.) | <p>The product is designed to provide a return in the form of a cash payment on the maturity date. The amount of this payment will depend on the performance of the underlying.</p> <p>On termination of the product on the maturity date you will receive a cash payment directly linked to the performance of the underlying. The cash payment will equal (i) the product notional amount multiplied by (ii) (A) the final reference price divided by (B) USD 42.69. However, if this cash payment is less than USD 100, you will receive USD 100 (the minimum payment).</p> <p>Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.</p> <p>You do not have any entitlement to a distribution from the underlying and you have no right to any further entitlement resulting from the underlying (e.g., voting rights).</p> |

| | | | |
|-------------------------|---|-------------------------|---|
| Underlying | Shares of the Capital Group Global High Income Opportunities (LUX) B USD (ISIN: LU0110450813) | Initial reference price | USD 42.69 |
| Underlying market | Equity | Reference price | The closing price of the underlying as per the reference source |
| Product notional amount | USD 100 | Reference source | Capital International Management Company Sàrl |
| Product currency | U.S. Dollar (USD) | Final reference price | The reference price on the valuation date |
| Underlying currency | U.S. Dollar (USD) | Valuation date | 18 December 2025 |
| Issue date | 18 February 2020 | Maturity date / term | 30 December 2025 |

The issuer may terminate the product with immediate effect in the event of obvious written or mathematical errors in the terms and conditions or if certain extraordinary events provided in the terms and conditions occur. Examples of extraordinary events include (1) material changes, particularly in connection with the **underlying**, and (2) events, in particular due to changes in certain external conditions that hinder the issuer in meeting its obligations in connection with the product or – depending on the terms and conditions of the security – otherwise affect the product and/or the issuer. In case of immediate termination, the return (if any) may be significantly lower than the purchase price, but will reflect the product's market value and, if higher, any minimum redemption (alternatively, in some cases the corresponding compounded amount may be paid out at the product's scheduled maturity). Instead of immediate termination, the issuer may also amend the terms and conditions.

Provided that in the event of any inconsistency and/or conflict between the foregoing paragraph and any applicable law, order, rule or other legal requirement of any governmental or regulatory authority in a territory in which this product is offered, such national requirements shall prevail.

Intended retail investor

The product is intended for private clients who pursue the objective of general capital formation/asset optimization and have a short-term investment horizon. This product is a product for clients who have sufficient knowledge and / or experience to make an informed investment decision. The investor cannot bear any losses on the capital invested and attaches importance to capital protection.

2. What are the risks and what could I get in return?

The risk indicator assumes you keep the product until 30 December 2025. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

To the extent the currency of the country in which you purchase this product differs from the product currency, please be aware of currency risk. You will receive payments in a different currency so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

You are entitled to receive back at least 100.00% of your capital. Any amount over this, and any additional return, depends on future market performance and is uncertain. However, this protection against future market performance will not apply if you cash in before maturity or in case of immediate termination by the issuer.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

| <i>Recommended holding period:</i> | | 2 years and 9 months | |
|------------------------------------|---|---------------------------------|--|
| <i>Example investment:</i> | | USD 10,000 | |
| <i>Scenarios</i> | | <i>If you exit after 1 year</i> | <i>If you exit after 2 years and 9 months (Recommended holding period)</i> |
| Minimum | USD 10,800. The return is only guaranteed if you hold the product to maturity. You could lose some or all of your investment. | | |
| Stress | What you might get back after costs | USD 9,584 | USD 10,800 |
| | Average return each year | -4.2% | 2.8% |
| Unfavourable | What you might get back after costs | USD 9,955 | USD 10,800 |
| | Average return each year | -0.4% | 2.8% |
| Moderate | What you might get back after costs | USD 10,405 | USD 11,295 |
| | Average return each year | 4.1% | 4.4% |
| Favourable | What you might get back after costs | USD 11,191 | USD 13,057 |
| | Average return each year | 11.9% | 9.9% |

The favourable, moderate and unfavourable scenarios represent possible outcomes that have been calculated based on simulations using the reference asset's performance over up to 5 past years. The stress scenario shows what you might get back in extreme market circumstances. This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you do not have a guarantee and you may have to pay extra costs.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

3. What happens if Deutsche Bank AG, Frankfurt is unable to pay out?

You are exposed to the risk that the issuer might be unable to fulfil its obligations in respect of the product – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. In case of a crisis of the issuer such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. In doing so, the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the product or convert it into shares of the issuer and suspend rights of the investors. With regard to the basic ranking of the issuer's obligations in the event of action by the resolution authority, please see www.bafin.de and search for the keyword "Haftungskaskade". A total loss of your capital invested is possible. The product is a debt instrument and as such is not covered by any deposit protection scheme.

4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested

| | <i>If you exit after 1 year</i> | <i>If you exit after 2 years and 9 months</i> |
|----------------------------|---------------------------------|---|
| Total costs | USD 109 | USD 1 |
| Annual cost impact* | 1.1% | 0.1% each year |

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.5% before costs and 4.4% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

| | One-off costs upon entry or exit | If you exit after 1 year |
|--------------------|--|---------------------------------|
| Entry costs | 0.1% of the amount you pay when entering this investment. These costs are already included in the price you pay. | USD 1 |
| Exit costs | 1.1% of your investment before it is paid out to you. These costs are already included in the price you receive and are only incurred if you exit before maturity. If you hold the product until maturity, no exit costs will be incurred. | USD 109 |

5. How long should I hold it and can I take money out early?

Recommended holding period: 2 years and 9 months

The product aims to provide you with the return described under “1. What is this product?” above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 30 December 2025 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product off-exchange. No fees or penalties will be charged by the issuer for any such transaction. However if you sell the product in the secondary market you will incur a bid/offer spread. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

| | | | |
|-------------------------------|--|----------------------------------|------------------|
| Exchange listing | Luxembourg Stock Exchange (Main Segment) | Last exchange trading day | 17 December 2025 |
| Smallest tradable unit | 1 unit | Price quotation | Units |

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: Mainzer Landstrasse 11-17, 60329 Frankfurt am Main, Germany, by email to: x-markets.team@db.com or at the following website: www.xmarkets.db.com.

7. Other relevant information

Any additional documentation in relation to the product and in particular the prospectus, any supplements thereto and the final terms are published on the manufacturer's website (www.xmarkets.db.com/DocumentSearch ; after entering of the respective ISIN or WKN), all in accordance with legal requirements. In order to obtain more detailed information - and in particular details of the structure and risks associated with an investment in the product - you should read these documents. These documents are also available free of charge from Deutsche Bank AG, Mainzer Landstrasse 11-17, 60329 Frankfurt am Main, Germany, in accordance with legal requirements.
