

# Key Information Document

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## Product

Product name	Express Certificate on Bayer AG
Product identifiers	ISIN: DE000DB9UFW5   WKN: DB9UFW
PRIIP manufacturer	Deutsche Bank AG. The product issuer is Deutsche Bank AG, Frankfurt.
Website	www.db.com
Telephone number	Call +49-69-910-00 for more information.
Competent authority of the PRIIP manufacturer	German Federal Financial Supervisory Authority (BaFin)
Date of production	6 April 2020

You are about to purchase a product that is not simple and may be difficult to understand.

## 1. What is this product?

**Type** German law governed certificates

### Objectives

(Terms that appear in **bold** in this section are described in more detail in the table(s) below.)

**As of the date and time of production of this key information document, a corporate action has occurred on one or more of the underlyings. Please review the description below carefully to understand how this impacts the amount you may receive on the maturity date.**

The product is designed to provide a return in the form of a cash payment on termination of the product. The timing and amount of this payment will depend on the performance of the **underlying**.

**Early termination following an autocal:** The product will terminate prior to the **maturity date** if, on any **autocall observation date**, the **reference price** is at or above the relevant **autocall barrier price**. On any such early termination, you will on the immediately following **autocall payment date** receive a cash payment equal to the applicable **autocall payment**. The relevant dates, **autocall barrier prices** and **autocall payments** are shown in the table(s) below.

Autocall observation dates	Autocall barrier prices	Autocall payment dates	Autocall payments
21 December 2018	EUR 104.90	28 December 2018	EUR 107
20 December 2019	EUR 99.655	27 December 2019	EUR 114
18 December 2020	EUR 94.41	23 December 2020	EUR 121
17 December 2021	EUR 89.165	22 December 2021	EUR 128

**Termination on the maturity date:** If the product has not terminated early, on the **maturity date** you will receive:

- if the **final reference price** is at or above EUR 83.92, a cash payment equal to EUR 135;
- if the **final reference price** is at or above EUR 68.185 and below EUR 83.92, a cash payment equal to EUR 100; or
- if the **final reference price** is below EUR 68.185, a cash payment directly linked to the performance of the **underlying**. The cash payment will equal (i) the **product notional amount** multiplied by (ii) (A) the **final reference price** divided by (B) EUR 104.90.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

You do not have any entitlement to a dividend from the **underlying** and you have no right to any further entitlement resulting from the **underlying** (e.g., voting rights).

<b>Underlying</b>	Ordinary shares of Bayer AG (ISIN: DE000BAY0017)	<b>Initial reference price</b>	EUR 104.90
<b>Underlying market</b>	Equity	<b>Reference price</b>	The closing price of the <b>underlying</b> as per the <b>reference source</b>
<b>Product notional amount</b>	EUR 100	<b>Reference source</b>	Deutsche Börse AG, Frankfurt am Main, Exchange Electronic Trading
<b>Product currency</b>	Euro (EUR)	<b>Final reference price</b>	The <b>reference price</b> on the <b>valuation date</b>
<b>Underlying currency</b>	Euro (EUR)	<b>Valuation date</b>	16 December 2022
<b>Issue date</b>	19 December 2017	<b>Maturity date / term</b>	21 December 2022

The issuer may terminate the product with immediate effect in the event of obvious written or mathematical errors in the terms and conditions or if certain extraordinary events provided in the terms and conditions occur. Examples of extraordinary events include (1) material changes, particularly in connection with the **underlying**, and (2) events, in particular due to changes in certain external conditions that hinder the issuer in meeting its obligations in connection with the product or – depending on the terms and conditions of the security – otherwise affect the product and/or the issuer. In case of immediate termination, the return (if any) may be significantly lower than the purchase price, but will reflect the product's market value and, if higher, any minimum redemption (alternatively, in some cases the corresponding compounded amount may be paid out at the product's scheduled maturity). Instead of immediate termination, the issuer may also amend the terms and conditions.

Provided that in the event of any inconsistency and/or conflict between the foregoing paragraph and any applicable law, order, rule or other legal requirement of any governmental or regulatory authority in a territory in which this product is offered, such national requirements shall prevail.

**Intended retail investor**

The product is intended for private clients who pursue the objective of general capital formation/asset optimization and have a short-term investment horizon. This product is a product for clients who have sufficient knowledge and / or experience to make an informed investment decision. The investor can bear losses up to the total loss of the capital invested and attaches no importance to capital protection.

## 2. What are the risks and what could I get in return?

**Risk indicator**

← Lower risk Higher risk →

**The risk indicator assumes you keep the product for 2 years and 8 months. The actual risk can vary significantly if you cash in at an early stage and you may get back less.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

**Performance scenarios**

**Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.**

<i>Investment: EUR 10,000</i>			
<i>Scenarios</i>		<i>1 year</i>	<i>2 years and 8 months (Recommended holding period)</i>
<b>Stress scenario</b>	<b>What you might get back after costs</b>	EUR 2,978.71	EUR 2,495.45
	Average return each year	-70.21%	-40.01%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	EUR 4,931.75	EUR 3,725.59
	Average return each year	-50.68%	-30.47%
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	EUR 7,905.49	EUR 6,905.54
	Average return each year	-20.95%	-12.74%
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	EUR 13,119.26	EUR 18,066.85
	Average return each year	31.19%	24.32%

This table shows the money you could get back over the next 2 years and 8 months under different scenarios, assuming that you invest EUR 10,000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## 3. What happens if Deutsche Bank AG, Frankfurt is unable to pay out?

You are exposed to the risk that the issuer might be unable to fulfil its obligations in respect of the product – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. In case of a crisis of the issuer such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. In doing so, the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the product or convert it into shares of the issuer and suspend rights of the investors. With regard to the basic ranking of the issuer's obligations in the event of action by the resolution authority, please see [www.bafin.de](http://www.bafin.de) and search for the keyword "Haftungskaskade". A total loss of your capital invested is possible. The product is a debt instrument and as such is not covered by any deposit protection scheme.

## 4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for two different holding periods. They include potential early exit penalties. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future.

## Costs over time

<i>Investment: EUR 10,000</i>		
<i>Scenarios</i>	<i>If you cash in after 1 year</i>	<i>If you cash in at the end of the recommended holding period</i>
<b>Total costs</b>	EUR 90.33	EUR 0.00
<b>Impact on return (RIY) per year</b>	0.90334%	0.00%

The costs shown in the table above represent how much the expected costs of the product would affect your return, assuming the product performs in line with the moderate performance scenario.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

## Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

**The table shows the impact on return per year.**

<b>One-off costs</b>	<i>Entry costs</i>	0.00%	The impact of the costs already included in the price.
	<i>Exit costs</i>	0.00%	The impact of the costs of exiting your investment when it matures.
<b>Ongoing costs</b>	<i>Portfolio transaction costs per year</i>	0.00%	The impact of the costs of us buying and selling underlying investments for the product.
	<i>Other ongoing costs</i>	0.00%	The impact of the costs that we take each year for managing your investments.

## 5. How long should I hold it and can I take money out early?

### Recommended holding period: 2 years and 8 months

The product aims to provide you with the return described under “1. What is this product?” above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 21 December 2022 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (where the product is listed) or (2) off-exchange. No fees or penalties will be charged by the issuer for any such transaction. However if you sell the product in the secondary market you will incur a bid/offer spread. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

<b>Exchange listing</b>	Börse Stuttgart and Deutsche Börse AG	<b>Last exchange trading day</b>	15 December 2022 (Börse Stuttgart) and 15 December 2022 (Deutsche Börse AG)
<b>Smallest tradable unit</b>	1 unit	<b>Price quotation</b>	Units

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

## 6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at:
