

PROHIBITION OF SALES TO RETAIL INVESTORS IN THE UK – The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (“**UK**”). For these purposes, a retail investor means a person who is neither: (i) a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (“**EUWA**”); nor (ii) a qualified investor as defined in paragraph 15 of Schedule 1 to the Public Offers and Admissions to Trading Regulations 2024. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the “**UK PRIIPs Regulation**”) for offering or selling the Securities or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

Economic terms of the Securities

The following description of the Security explains the economic terms of the Security and its characteristics.

Product No. C34: Bonus Certificate with European Barrier Observation

With this Bonus Certificate with European Barrier Observation, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying.

- a) If the Final Reference Level is equal to or above the Barrier, the Cash Amount is equal to the Final Reference Level taking into account the Multiplier, multiplied with the Participation Factor, but a minimum of the Bonus Amount.
- b) If the Final Reference Level is below the Barrier, the Cash Amount is no longer equal to a minimum of the Bonus Amount, but instead equal to the Final Reference Level taking into account the Multiplier (1:1 participation in the performance of the Underlying).

In return for the chance to receive payment of the Bonus Amount, investors waive their claims deriving from the Underlying (e.g. voting rights, dividends).

Investors also have no claims to the/deriving from the Underlying.

Determination of the price by the Issuer

Both the Initial Issue Price of the *Bonus Certificate with European Barrier Observation* and the bid and ask prices quoted by the Issuer during its term are based on the Issuer's internal pricing models. Accordingly, unlike in an on exchange trading, for example for shares, the prices quoted during the term are not based on supply and demand. The prices in particular contain a margin which the Issuer determines at its free discretion and which may cover, in addition to the Issuer's proceeds, the costs of structuring, market making and settlement of the *Bonus Certificate with European Barrier Observation*, any applicable sales costs (distribution fee) and other costs.

Distribution fee

Placement fee: up to 2.75 per cent of the Issue Price. The Issuer will either pay the placement fee from the issue proceeds as a one-off turnover-related distribution fee to the bank that sold the *Bonus Certificate with European Barrier Observation* to the customer (principal bank), or grant the latter a corresponding discount from the Initial Issue Price.

Section B – Key information on the Issuer
Who is the issuer of the securities?
Domicile and legal form, law under which the Issuer operates and country of incorporation Deutsche Bank Aktiengesellschaft (commercial name: Deutsche Bank) is a credit institution and a stock corporation incorporated in Germany and accordingly operates under the laws of Germany. The Legal Entity Identifier (LEI) of Deutsche Bank is 7LTWFZYICNSX8D621K86. The Bank has its registered office in Frankfurt am Main, Germany. It maintains its head office at Taunusanlage 12, 60325 Frankfurt am Main, Germany. Issuer’s principal activities The objects of Deutsche Bank, as laid down in its Articles of Association, include the transaction of all kinds of banking business, the provision of financial and other services and the promotion of international economic relations. The Bank may realize these objectives itself or through subsidiaries and affiliated companies. To the extent permitted by law, the Bank is entitled to transact all business and to take all steps which appear likely to promote the objectives of the Bank, in particular to acquire and dispose of real estate, to establish branches at home and abroad, to acquire, administer and dispose of participations in other enterprises, and to conclude enterprise agreements. Deutsche Bank is organized into the following business segments: Private Bank; Asset Management; Corporate Bank; Investment Bank; and Corporate & Other. In addition, Deutsche Bank has a country and regional organizational layer to facilitate a consistent implementation of global strategies. The Bank has operations or dealings with existing and potential customers in most countries in the world. These operations and dealings include working through: subsidiaries and branches, representative offices, and one or more representatives assigned to serve customers. Major shareholders, including whether it is directly or indirectly owned or controlled and by whom Deutsche Bank is neither directly nor indirectly majority-owned or controlled by any other corporation, by any government or by any other natural or legal person severally or jointly. Pursuant to German law and Deutsche Bank’s Articles of Association, to the extent that the Bank may have major shareholders at any time, it may not give them different voting rights from any of the other shareholders. Deutsche Bank is not aware of arrangements which may at a subsequent date result in a change of control of the company. The German Securities Trading Act (<i>Wertpapierhandelsgesetz</i>) requires investors in publicly-traded corporations whose investments reach certain thresholds to notify both the corporation and the German Federal Financial Supervisory Authority (<i>Bundesanstalt für Finanzdienstleistungsaufsicht</i>) of such change within four trading days. The minimum disclosure threshold is 3 per cent. of the corporation’s issued voting share capital. To the Bank’s knowledge, there are only three shareholders holding more than 3 per cent. of Deutsche Bank shares or to whom more than 3 per cent. of voting rights are attributed, and none of these shareholders holds more than 10 per cent. of Deutsche Bank shares or voting rights. Key managing directors The key managing directors of the issuer are members of the Issuer’s Executive Board. These are: Christian Sewing, Fabrizio Campelli, Raja Akram, Marcus Chromik, Marie-Jeanne Deverdun, Stefan Hoops, Alexander von zur Mühlen, Laura Padovani, Claudio de Sanctis and Rebecca Short. What are the key risks that are specific to the issuer?

WKN/ISIN: DH5Q2L / XS3446664313

The Issuer is subject to the following key risks:

Macroeconomic, Geopolitical and Market Environment: Deutsche Bank is materially affected by global macroeconomic, geopolitical and market conditions. Significant challenges may arise from evolving global trade tensions, political instability, asset deterioration, market volatility and a deteriorating macroeconomic environment. These risks could negatively affect the business environment, leading to weaker economic activity and a broader correction in the financial markets. Materialization of these risks could negatively affect Deutsche Bank's results of operations and financial condition as well as Deutsche Bank's ability to achieve its strategic plans and financial targets. Deutsche Bank takes steps to manage these risks through its risk management and hedging activities but remains exposed to these macroeconomic and market risks.

Strategy and Business: If Deutsche Bank is unable to meet its 2028 financial targets due to a significant deterioration in the global macroeconomic environment, an adverse change in market confidence in the banking sector and/or client behavior, Deutsche Bank may incur unexpected losses or experience lower than planned profitability. This could result in an erosion of Deutsche Bank's capital or liquidity base, which could adversely affect its ability to access the debt capital markets or to sell assets during periods of market or firm specific liquidity constraints. This may significantly impact Deutsche Bank's business model, results of operations, and ability to make desired cash distributions and share buybacks.

Regulation and Supervision: Prudential reforms and heightened regulatory scrutiny affecting the financial sector continue to have a significant impact on Deutsche Bank, which may adversely affect its business and, in cases of non-compliance, could lead to regulatory sanctions against Deutsche Bank, including prohibitions against Deutsche Bank making dividend payments, share repurchases or payments on its regulatory capital instruments, or increasing regulatory capital and liquidity requirements. Regulatory changes may impact how key subsidiaries are funded which could affect how businesses operate and negatively impact results. Regulatory actions may also require Deutsche Bank to change its business model or result in some business activities becoming unviable.

Internal Control Environment: A robust and effective internal control environment and adequate infrastructure (comprising people, policies and procedures, controls, testing, IT systems and data) are necessary to ensure Deutsche Bank conducts its business and performs its processes in compliance with applicable laws, regulations, and associated supervisory expectations. While Deutsche Bank seeks to enhance the effectiveness of its internal control environment to align with updated regulatory requirements and to close gaps identified by Deutsche Bank and/or by regulators and monitors, if progress is slower than anticipated or Deutsche Bank fails to deliver durable improvements, Deutsche Bank's reputation, regulatory position and financial results could be adversely affected.

Technology, Data and Innovation: The speed of innovation in areas such as artificial intelligence (AI) and new market entrants may increase competition, disrupt Deutsche Bank's businesses and increase investment costs. AI has the potential to amplify existing risk factors across various domains. The emergence of agentic AI solutions has the potential to enable autonomous decision making within processes, increasing the probability of undetected mistakes. If Deutsche Bank does not address these emerging risks, it may face compliance issues, operational inefficiencies and potential losses, along with reputational risks that could weaken the market's confidence in Deutsche Bank's ability to apply AI responsibly.

Litigation, Regulatory Enforcement Matters, Investigations and Tax Examinations: Deutsche Bank operates in a highly regulated and litigious environment, potentially exposing Deutsche Bank to liability and other costs, the amounts of which may be substantial and difficult to estimate, as well as to legal and regulatory sanctions and reputational harm.

Climate Change and Environmental, Social and Governance (ESG)-Related Matters: The impacts of rising global temperatures, nature degradation and the associated policy, technology and behavioral changes required to limit global warming to no greater than 1.5°C above pre-industrial levels have led to emerging sources of financial and non-financial risks. These include the physical risk impacts from extreme weather events and the risk that financial institutions face from increased scrutiny from governments, regulators, shareholders, and other bodies. The emergence of significantly diverging (and sometimes conflicting) ESG regulatory and/or disclosure standards across jurisdictions could lead to higher costs, including compliance costs, and increased risks of failing to meet the respective regulatory requirements in each jurisdiction.

Other Risks: Deutsche Bank's risk management policies, procedures and methods leave Deutsche Bank exposed to unidentified or unanticipated risks, which could lead to material losses.

The Securities will be represented by a global security (the "**Global Security**"). No definitive Securities will be issued. The Securities will be issued in bearer form.

Securities identification number(s) of the securities

ISIN: XS3446664313/ WKN: DH5Q2L

Applicable law of the securities

The Securities will be governed by German law. The constituting of the Securities may be governed by the laws of the jurisdiction of the Clearing Agent.

Restrictions on the free transferability of the securities

Each Security is transferable in accordance with applicable law and any rules and procedures for the time being of any Clearing Agent through whose books such Security is transferred.

Status of the securities

The Securities constitute unsecured and unsubordinated preferred liabilities of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated preferred liabilities of the Issuer, subject, however, to statutory priorities conferred to certain unsecured and unsubordinated preferred liabilities in the event of Resolution Measures imposed on the Issuer or in the event of the dissolution, liquidation, Insolvency, composition or other proceedings for the avoidance of Insolvency of, or against, the Issuer.

Ranking of the securities

The ranking of the Issuer's liabilities in insolvency or in the event of the imposition of Resolution Measures, such as a bail-in, is determined by German law. The

WKN/ISIN: DH5Q2L / XS3446664313

Securities are unsecured unsubordinated preferred liabilities that would rank higher than the Issuer's regulatory capital, its subordinated liabilities and its unsecured unsubordinated non-preferred liabilities. The liabilities under the Securities rank *pari passu* with other unsecured unsubordinated preferred liabilities of the Issuer, including but not limited to derivatives, structured products and deposits not subject to protection. The liabilities under the Securities rank below liabilities protected in Insolvency or excluded from Resolution Measures, such as certain protected deposits.

Rights attached to the securities

The Securities provide holders of the Securities, on redemption or upon exercise, subject to a total loss, with a claim for payment of a cash amount.

With this Bonus Certificate with European Barrier Observation, investors receive a Cash Amount on the Settlement Date, the amount of which depends on the performance of the Underlying.

a) If the Final Reference Level is equal to or above the Barrier, the Cash Amount is equal to the Final Reference Level taking into account the Multiplier, multiplied with the Participation Factor, but a minimum of the Bonus Amount.

b) If the Final Reference Level is below the Barrier, the Cash Amount is no longer equal to a minimum of the Bonus Amount, but instead equal to the Final Reference Level taking into account the Multiplier (1:1 participation in the performance of the Underlying).

In return for the chance to receive payment of the Bonus Amount, investors waive their claims deriving from the Underlying (e.g. voting rights, dividends).

Investors also have no claims to the/deriving from the Underlying.

Limitations to the rights attached to the Securities Under the conditions set out in the Terms and Conditions, the Issuer is entitled to terminate the Securities and to amend the Terms and Conditions.	
Where will the securities be traded? Application will be made to admit to trading the Securities on the multilateral trading facility (MTF) EuroTLX of Borsa Italiana S.p.A., which is not a regulated market for the purposes of Directive 2014/65/EU (as amended).	
What are the key risks that are specific to the securities?	
Risks at Maturity If the Final Reference Level is below the Barrier, the Bonus Certificate with European Barrier Observation involves a risk of loss depending on the level of the Underlying at maturity. The lower the level of the Underlying at maturity, the greater the loss. In the worst-case scenario, this may result in the total loss of the capital invested. This will occur if the Final Reference Level is zero.	
Risks associated with Market Disruptions Subject to certain conditions being met, the Calculation Agent may determine that a Market Disruption has occurred. This means that the price or level of the Underlying cannot be determined, at least temporarily. Market Disruptions may occur on an exchange relevant for the Underlying, particularly in the event of trade interruptions. This may have an effect on the timing of valuation and may delay payments on or the settlement of the Securities.	
Risks associated with Adjustment and Termination Events Subject to certain conditions being met, the Issuer may replace Underlyings, adjust the Final Terms or terminate the Securities. In case of a termination, the Issuer will pay, usually prior to the scheduled settlement date of the Securities, an amount determined by the Calculation Agent. Such amount may be significantly less than an investor's initial investment in Securities and in certain circumstances may be zero. Any adjustment or termination of the Securities or replacement of an Underlying may lead to a loss in value of the Securities or may at maturity lead to the realisation of losses or even to the total loss of the invested amount. It is also not excluded that an adjustment measure will later prove to be incorrect or to be disadvantageous for Securityholders. A Securityholder could also be put in an economically worse position by the adjustment measure than before such adjustment measure.	
Risks associated with Underlying Market risk is the most significant cross-product risk factor in connection with Underlyings of all kinds. An investment in Securities linked to any Underlying may bear similar market risks to a direct investment in the relevant index. The performance of Securities depends on the performance of the price or level of the Underlying and therefore on the value of the embedded option. This value may be subject to major fluctuations during the term. The higher the volatility of the Underlying is, the greater the expected intensity of such fluctuations is. Changes in the price or level of the Underlying will affect the value of the Securities, but it is impossible to predict whether the price or level of the Underlying will rise or fall. Securityholders thus bear the risk of unfavourable performance of the Underlying, which may lead to loss in value of the Securities or a reduction of the cash amount, up to and including total loss.	
The Securities may be Illiquid It is not possible to predict if and to what extent a secondary market may develop in the Securities or at what price the Securities will trade in the secondary market or whether such market will be liquid. Insofar and as long as the Securities are listed or quoted or admitted to trading on a stock exchange, no assurance is given that any such listing or quotation or admission to trading will be maintained. Higher liquidity does not necessarily result from a listing, quotation or admission to trading. If the Securities are not listed or quoted or admitted to trading on any stock exchange or quotation system, pricing information for the Securities may be more difficult to obtain and the liquidity of the Securities may be adversely affected. The liquidity of the Securities may also be affected by restrictions on offers and sales of the Securities in some jurisdictions. Even where an investor is able to realise its investment in the Securities by selling this may be at a substantially lower value than its original investment in the Securities. Depending on the structure of the Securities, the realisation value at any time may be zero (0), which means a total loss of the capital invested. In addition, a transaction fee may be payable in respect of a sale of the Securities.	
Regulatory Bail-in and other Resolution Measures Laws enable the competent resolution authority to also take measures in respect of the Securities. These measures may have an adverse effect on the

If the legal requirements are met in respect of the Issuer, BaFin as the resolution authority, may, in addition to other measures, write down Securityholders' claims from the Securities in part or in full or convert them into equity (shares) of the Issuer ("**Resolution Measures**"). Other Resolution Measures available include (but are not limited to) transferring the Securities to another entity, varying the terms and conditions of the Securities (including, but without limitation to, varying the maturity of the Securities) or cancelling the Securities. The competent resolution authority may apply Resolution Measures individually or in any combination.
