| **KEY INFORMATION ON THE ISSUER** |
| **Who is the Issuer of the Securities?** |
| ***Domicile and legal form, law under which the Issuer operates and country of incorporation*** |
| Deutsche Bank Aktiengesellschaft (commercial name: Deutsche Bank) is a credit institution and a stock corporation incorporated in Germany and accordingly operates under the laws of Germany. The Legal Entity Identifier (LEI) of Deutsche Bank is 7LTWFZYICNSX8D621K86. The Bank has its registered office in Frankfurt am Main, Germany. It maintains its head office at Taunusanlage 12, 60325 Frankfurt am Main, Germany. |
| ***Issuer's principal activities*** |
| The objects of Deutsche Bank, as laid down in its Articles of Association, include the transaction of all kinds of banking business, the provision of financial and other services and the promotion of international economic relations. The Bank may realize these objectives itself or through subsidiaries and affiliated companies. To the extent permitted by law, the Bank is entitled to transact |

all business and to take all steps which appear likely to promote the objectives of the Bank, in particular to acquire and dispose of real estate, to establish branches at home and abroad, to acquire, administer and dispose of participations in other enterprises, and to conclude enterprise agreements.

Deutsche Bank is organized into the following business segments:

— Private Bank;

— Asset Management;

— Corporate Bank;

— Investment Bank; and

— Corporate & Other.

In addition, Deutsche Bank has a country and regional organizational layer to facilitate a consistent implementation of global strategies. The Bank has operations or dealings with existing and potential customers in most countries in the world. These operations and dealings include working through:

— subsidiaries and branches;

— representative offices; and

— one or more representatives assigned to serve customers.

***Major shareholders, including whether it is directly or indirectly owned or controlled and by whom***

Deutsche Bank is neither directly nor indirectly majority-owned or controlled by any other corporation, by any government or by any other natural or legal person severally or jointly. Pursuant to German law and Deutsche Bank's Articles of Association, to the extent that the Bank may have major shareholders at any time, it may not give them different voting rights from any of the other shareholders.

Deutsche Bank is not aware of arrangements which may at a subsequent date result in a change of control of the company. The German Securities Trading Act (*Wertpapierhandelsgesetz*) requires investors in publicly-traded corporations whose investments reach certain thresholds to notify both the corporation and the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht*) of such change within four trading days. The minimum disclosure threshold is 3 per cent. of the corporation's issued voting share capital. To the Bank's knowledge, there are only three shareholders holding more than 3 per cent. of Deutsche Bank shares or to whom more than 3 per cent. of voting rights are attributed, and none of these shareholders holds more than 10 per cent. of Deutsche Bank shares or voting rights.

***Key managing directors***

The key managing directors of the issuer are members of the issuer's Executive Board. These are: Christian Sewing, Fabrizio Campelli, Raja Akram, Marcus Chromik, Marie-Jeanne Deverdun, Stefan Hoops, Alexander von zur Mühlen, Laura Padovani, Claudio de Sanctis and Rebecca Short.

***Statutory auditors***

With effect as of 1 January 2020, EY GmbH & Co. KG Wirtschaftsprüfungsgesellschaft ("**EY**") has been appointed as independent auditor of Deutsche Bank. EY is a member of the German chamber of public accountants (*Wirtschaftsprüferkammer*).

**What is the key financial information regarding the Issuer?**

The key financial information included in the tables below as of and for the financial years ended 31 December 2024 and 31 December 2025 has been extracted or derived from Deutsche Bank's audited consolidated financial statements for the financial year 2025, prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("**IASB**") and adopted by the European Union ("**EU**") ("**IFRSs**") and the additional requirements of German commercial law pursuant to Sec. 315e (1) of the German Commercial Code (*Handelsgesetzbuch*, "**HGB**"). Deutsche Bank's audited consolidated financial statements for the financial years ended 31 December 2024 and 31 December 2025 were prepared in accordance with IFRSs and the additional requirements of German commercial law pursuant to Sec. 315e (1) HGB.

The key financial information included in the tables below as of 30 June 2026 and for the six months ended 30 June 2025 and 30 June 2026 has been extracted from the unaudited interim consolidated financial statements for the six months ended 30 June 2026, prepared in accordance with the requirements of IAS 34 relating to interim financial reporting.

Where financial information in the following tables is labelled "audited", it has been extracted from Deutsche Bank's audited consolidated financial statements mentioned above. The label "unaudited" is used to indicate that financial information in the following tables has not been extracted from Deutsche Bank's audited consolidated financial statements mentioned above but has been extracted or derived from Deutsche Bank's unaudited interim consolidated financial information mentioned above, Deutsche Bank's accounting records or management reporting or has been calculated on the basis of financial information from the above-mentioned sources.

**What are the key risks that are specific to the Issuer?**

The Issuer is subject to the following key risks:

**Macroeconomic, Geopolitical and Market Environment:** Deutsche Bank is materially affected by global macroeconomic, geopolitical and market conditions. Significant challenges may arise from evolving global trade tensions, political instability, asset deterioration, market volatility and a deteriorating macroeconomic environment. These risks could negatively affect the business environment, leading to weaker economic activity and a broader correction in the financial markets. Materialization of these risks could negatively affect Deutsche Bank's results of operations and financial condition as well as Deutsche Bank's ability to achieve its strategic plans and financial targets. Deutsche Bank takes steps to manage these risks through its risk management and hedging activities but remains exposed to these macroeconomic and market risks.

**Strategy and Business:** If Deutsche Bank is unable to meet its 2028 financial targets due to a significant deterioration in the global macroeconomic environment, an adverse change in market confidence in the banking sector and/or client behavior, Deutsche Bank may incur unexpected losses or experience lower than planned profitability. This could result in an erosion of Deutsche Bank's capital or liquidity base, which could adversely affect its ability to access the debt capital markets or to sell assets during periods of market or firm specific liquidity constraints. This may significantly impact Deutsche Bank's business model, results of operations, and ability to make desired cash distributions and share buybacks.

**Regulation and Supervision:** Prudential reforms and heightened regulatory scrutiny affecting the financial sector continue to have a significant impact on Deutsche Bank, which may adversely affect its business and, in cases of non-compliance, could lead to regulatory sanctions against Deutsche Bank, including prohibitions against Deutsche Bank making dividend payments, share repurchases or payments on its regulatory capital instruments, or increasing regulatory capital and liquidity requirements. Regulatory changes may impact how key subsidiaries are funded which could affect how businesses operate and negatively impact results. Regulatory actions may also require Deutsche Bank to change its business model or result in some business activities becoming unviable.

**Internal Control Environment:** A robust and effective internal control environment and adequate infrastructure (comprising people, policies and procedures, controls, testing, IT systems and data) are necessary to ensure Deutsche Bank conducts its business and performs its processes in compliance with applicable laws, regulations, and associated supervisory expectations. While Deutsche Bank seeks to enhance the effectiveness of its internal control environment to align with updated regulatory requirements and to close gaps identified by Deutsche Bank and/or by regulators and monitors, if progress is slower than anticipated or Deutsche

Bank fails to deliver durable improvements, Deutsche Bank's reputation, regulatory position and financial results could be adversely affected.

**Technology, Data and Innovation:** The speed of innovation in areas such as artificial intelligence (AI) and new market entrants may increase competition, disrupt Deutsche Bank's businesses and increase investment costs. AI has the potential to amplify existing risk factors across various domains. The emergence of agentic AI solutions has the potential to enable autonomous decision making within processes, increasing the probability of undetected mistakes. If Deutsche Bank does not address these emerging risks, it may face compliance issues, operational inefficiencies and potential losses, along with reputational risks that could weaken the market's confidence in Deutsche Bank's ability to apply AI responsibly.

**Litigation, Regulatory Enforcement Matters, Investigations and Tax Examinations:** Deutsche Bank operates in a highly regulated and litigious environment, potentially exposing Deutsche Bank to liability and other costs, the amounts of which may be substantial and difficult to estimate, as well as to legal and regulatory sanctions and reputational harm.

**Climate Change and Environmental, Social and Governance (ESG)-Related Matters:** The impacts of rising global temperatures, nature degradation and the associated policy, technology and behavioral changes required to limit global warming to no greater than 1.5°C above pre-industrial levels have led to emerging sources of financial and non-financial risks. These include the physical risk impacts from extreme weather events and the risk that financial institutions face from increased scrutiny from governments, regulators, shareholders, and other bodies. The emergence of significantly diverging (and sometimes conflicting) ESG regulatory and/or disclosure standards across jurisdictions could lead to higher costs, including compliance costs, and increased risks of failing to meet the respective regulatory requirements in each jurisdiction.

**Other Risks:** Deutsche Bank's risk management policies, procedures and methods leave Deutsche Bank exposed to unidentified or unanticipated risks, which could lead to material losses.

## KEY INFORMATION ON THE SECURITIES

### What are the main features of the Securities?

***Type, class and ISIN***

The Securities are English law governed Certificates.

The Securities will be issued in bearer form and represented by a global security.

ISIN: XS3521722606

***Currency, denomination, par value, number of securities issued and duration***

The specified currency of the Securities is Euro ("**EUR**" and the "**Specified Currency**"). The number of the Securities issued is up to 1,000 and the issue price is EUR 10,000 per Security (the "**Issue Price**").

Issue Date: 30 November 2026

Redemption Date: 27 December 2029

***Rights attached to the Securities***

The Securities are linked to the creditworthiness of BNP Paribas SA (the "**Reference Entity**").

In the event that the Reference Entity transfers all or a portion of its obligations to one or more other entities, those entities may be determined to be successors to the Reference Entity. In such circumstances, the terms of the Securities provide that such successor entity (or entities) may replace the Reference Entity for the purposes of the Securities.

**Coupon**

The Securities do not pay a Coupon Amount. In the absence of Coupon Amounts, the difference between the redemption amount and the issue price constitutes the return for investors on the Securities.

**Credit Event:** The occurrence of a "Credit Event" will be determined by a CDDC, or, in the absence of a determination by the CDDC, by the Calculation Agent, based on the rules for credit derivatives prepared and published by ISDA. A Credit Event may be determined to have occurred if any of the following occurs:

- Bankruptcy, where the Reference Entity experiences insolvency, bankruptcy or related events.
- Failure to Pay, where the Reference Entity fails to make payments due on its debt above a prescribed threshold.
- Restructuring, where the Reference Entity's debt is restructured on terms that are detrimental to the holder(s) of the relevant debt in a form that is binding on all holders.
- Governmental Intervention, where a governmental authority announces a reduction in interest and/or principal, postponement, write-down or other detrimental change to the terms of the Reference Entity's debt pursuant to restructuring and resolution law or regulation.

***Final Redemption***

If a Credit Event has not occurred during the Credit Exposure Period, a holder of the Securities will receive on the Redemption Date a redemption amount in the Specified Currency equal to the product of the Reference Amount and the Additional Rate, corresponding to a return of twelve point six two (12.62) per cent. on an initial investment in the Securities. For the avoidance of

doubt, if an Event Determination Date occurs in respect of the Reference Entity, the redemption amount shall not be adjusted to reflect the Additional Rate.

If, in respect of the Redemption Date, the determination is outstanding on whether a Credit Event has occurred, the payment of the redemption amount (if any) may be postponed. If the redemption amount is postponed, a Securityholder will not receive any interest or other payments to compensate for such postponement unless no Credit Event has occurred in which case interest at an overnight deposit rate will be payable in respect of the postponed payment of the redemption amount.

***Early Redemption***

*Early redemption following the occurrence of a Credit Event*

If a Credit Event has occurred with respect to the Reference Entity during the Credit Exposure Period, a holder of the Securities will receive on the Credit Event Redemption Date an amount in the Specified Currency equal to the product of (i) the Reference Amount and (ii) the Settlement Price (as described in more detail below). This amount is likely to be less than the Reference Amount (and in some cases may be zero) and, therefore, a Securityholder is likely to suffer a loss of a substantial portion, and possibly all, of their investment in such circumstances.

**Settlement Price:** The "Settlement Price" is determined based on the price of certain obligations of the Reference Entity of the relevant seniority following the occurrence of the relevant Credit Event. The Settlement Price will be determined, either:

(i) through a standardised auction process, organised by a CDDC. The auction will involve a bidding process by institutions participating in the relevant auction pursuant to a bidding procedure set by ISDA, to establish the value of certain eligible obligations of the Reference Entity which may include bonds, loans and guarantees. The outcome of any auction is likely to reflect the prevailing price of the cheapest relevant obligation(s) of the Reference Entity, or

(ii) where a relevant auction does not happen, by the Calculation Agent manually seeking quotes from market dealers to determine a "final price" for the relevant obligation(s).

As such, the amount a Securityholder shall receive upon early redemption of the Securities following the occurrence of a Credit Event takes into account the percentage reduction in the price of the Reference Entity's obligations of the relevant seniority following the occurrence of the relevant Credit Event.

*Early redemption following the occurrence of an Event of Default*

The occurrence of any of the following events with respect to the Issuer shall constitute an "Event of Default": (i) the Issuer fails to pay principal or interest within in respect of the Securities 30 calendar days of the relevant due date; (ii) the Issuer fails duly to perform any other obligation arising from the Securities, if such failure continues for more than 60 days after the Issuer has received notice thereof from a Securityholder; (iii) the Issuer announces its inability to meet its financial obligations or ceases its payments; or (iv) a court in Germany opens insolvency proceedings against the Issuer.

A Security may be redeemed early by the relevant Securityholder following an Event of Default. In such circumstances, the amount payable to Securityholders will be an amount (which may never be less than zero) calculated by the Calculation Agent, in good faith and a commercially reasonable manner, equal to the fair market value of the Securities held by the relevant Securityholder, together with interest accrued to (but excluding) the day the relevant Event of Default occurred. For the purposes of determining the fair market value, no account shall be taken of the financial condition of the Issuer, which shall be presumed to be able to perform fully its obligations in respect of the Securities.

*Early redemption for illegality or force majeure*

If the Issuer determines that, for reasons beyond its control:

(i) an event or circumstance (other than any action taken by the Issuer) occurs after the Issue Date of the Securities as a result of which it becomes unlawful under any applicable law (including without limitation the laws of any country in which payment, delivery or compliance is required by the Issuer), on any day, or it would be unlawful if the relevant payment, delivery or compliance were required on that day, for the Issuer to (a) make or receive payments or deliveries, (b) perform any absolute or contingent obligation to make a payment or delivery, (c) receive a payment or delivery or (d) comply with any other material provision; or

(ii) a force majeure or act of state occurs after the Issue Date of the Securities, and the Issuer cannot, using all reasonable efforts (which will not require the Issuer to incur a loss, other than immaterial, incidental expenses), overcome such prevention, impossibility or impracticability in respect of the Securities and either (a) the Issuer is prevented from performing any absolute or contingent obligation to make a payment or delivery, from receiving a payment or delivery, or from complying with any other material provision (or would be so prevented if such payment, delivery or compliance were required on that day) or (b) it becomes impossible or impracticable for the Issuer to perform any absolute or contingent obligation to make a payment or delivery, to receive a payment or delivery, or to comply with any other material provision,

the Issuer may, at its discretion and without obligation, terminate the Securities early. If the Issuer redeems the Securities early, the Issuer will pay the holder of each such Security an amount determined by the Calculation Agent, acting in good faith and a commercially reasonable manner, to be its fair market value notwithstanding the illegality or impracticality.

*Early redemption for a Merger Event*

The Securities may be redeemed early if the Issuer consolidates, amalgamates with, or merges into, or transfers all or substantially all of its assets to, the Reference Entity or vice versa, or the Issuer and the Reference Entity become affiliates. In such circumstances, each Security may be redeemed by the Issuer at an amount equal to the Reference Amount.

***Taxation***

All payments or, as the case may be, deliveries in respect of the Securities will be subject in all cases to all applicable fiscal and other laws and regulations (including, where applicable, laws requiring the deduction or withholding for, or on account of, any tax, duty or other charge whatsoever). The Issuer shall have the right, but shall not be obliged, to withhold or deduct from any amount payable or, as the case may be, any delivery due to the Securityholder, such amount or portion as shall be necessary to account for or to pay any such tax, duty, charge, withholding or other amount.

***Governing Law***:

The Securities will be governed by English law.

***Definitions:***

"**Additional Rate**" means 1.1262

"**Calculation Agent**" means Deutsche Bank AG, London Branch of 21 Moorfields, London, EC2Y 9DB, United Kingdom.

"**CDDC**" means an ISDA Credit Derivatives Determination Committee.

"**Credit Event Redemption Date**" means the Redemption Date (or the postponed Redemption Date, as applicable) or, if later, the second business day following the determination of the Settlement Price.

"**Credit Exposure Period**" means the period from (and including) the Trade Date to (and including) 20 December 2029.

"**Day Count Fraction**" 30/360.

"**ISDA**" means the International Swaps and Derivatives Association, Inc.

"**Reference Amount**" means EUR 10,000 per Security.

"**Trade Date**" means 28 October 2026.

***Rank of the Securities in the Issuer's capital structure upon insolvency***

The Securities constitute unsecured and unsubordinated preferred liabilities of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated preferred liabilities of the Issuer, subject, however, to statutory priorities conferred to certain unsecured and unsubordinated preferred liabilities in the event of resolution measures imposed on the Issuer or in the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer. In accordance with § 46f(5) of the German Banking Act (Kreditwesengesetz, "**KWG**"), the obligations under the Securities rank in priority of those under debt instruments of the Issuer within the meaning of Section 46f(6) sentence 1 KWG (also in conjunction with § 46f(9) KWG) or any successor provision, including eligible liabilities within the meaning of Articles 72a and 72b(2) of The Capital Requirements Regulation (EU) No. 575/2013.

***Restrictions on free transferability of the Securities***

The Securities are freely transferable subject to any applicable law, any rules and procedures for the time being of any clearing system through whose books the Securities are transferred and the restrictions below.

The Securities, or any interests therein, may not be offered or sold except to, or for the account or benefit of, non-U.S. persons located outside the United States in reliance on Regulation S under the United States Securities Act of 1933 (as amended). Furthermore, the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom.

**Where will the Securities be traded?**

Application will be made for the Securities to be admitted to trading on EuroTLX Market of Borsa Italiana S.p.A., which is not a regulated market for the purposes of the Markets in Financial Instrument Directive (Directive 2014/65/EU, as amended, "**MiFID II**").

**What are the key risks that are specific to the Securities?**

- An investment in the Securities bears the risk that the Issuer is not able to fulfil its obligations created by the Securities on the relevant due date. If this happens investors may lose some or all of their investment in the Securities. If a bankruptcy proceeding is commenced with respect to the Issuer, the return to an investor in the Securities may be limited and any recovery will likely be substantially delayed. Thus Securityholders may lose all or part of their investment.
- The occurrence of a Credit Event and the designation of an event determination date may result in a Securityholder losing some, and potentially all, of its initial investment.
- A Security does not represent a claim against the Reference Entity or in respect of any obligation of the Reference Entity and a Securityholder will not have recourse under a Security to the Reference Entity.
- The creditworthiness of the Reference Entity as at the Issue Date or the time of purchase of the Securities is not an indication of the likelihood of a Credit Event occurring in the future. A deterioration in the creditworthiness of the Reference Entity as will negatively affect the trading price of the Securities, and it is impossible to predict whether the creditworthiness of the Reference Entity will improve or deteriorate.
- If the Issuer determines that an illegality event or force majeure event has occurred in respect of the Securities, the Issuer may, at is discretion and without obligation, terminate the Securities early. If the Issuer redeems the Securities early, the amount payable by the Issuer to each Securityholder may be less than the amount that would have been payable if the Securities had redeemed at their scheduled redemption.
- In performing its role under the Securities, the Calculation Agent does not act on behalf of, or accept any duty of care or any fiduciary duty to any Securityholder or any other person. The Calculation Agent will pursue actions and take steps that it deems necessary or appropriate to protect its interests without regard to the consequences for Securityholders. In limited cases, the Calculation Agent shall act in its sole discretion in carrying out calculations and determinations with respect to the Securities and, in such cases, will act in the interests of the Issuer and not in the interests of the Securityholders.

- It is not possible to predict if and to what extent a secondary market may develop in the Securities or at what price the Securities will trade in the secondary market or whether such market will be liquid or illiquid. The fact that the Securities may be admitted to trading on the EuroTLX Market of Borsa Italiana S.p.A., does not necessarily lead to greater liquidity than if they were not so admitted. The liquidity of the Securities may also be affected by restrictions on offers and sales of the Securities in some jurisdictions.
