In accordance with Section 16 para. 3 of the German Securities Prospectus Act (*Wertpapierprospektgesetz*), investors who have, in the course of an offer of securities to the public, already agreed to purchase or subscribe for the securities, before the publication of this Supplement, have the right, exercisable within two working days after the publication of the Supplement, to withdraw their acceptances, provided that the new factor, mistake or inaccuracy referred to in Section 16 para. 1 of the German Securities Prospectus Act arose before the final closing of the offer to the public and the delivery of the securities.

The right to withdraw is exercisable by notification to Deutsche Bank Aktiengesellschaft, Taunusanlage 12, 60325 Frankfurt am Main, Germany. The withdrawal does not have to provide any grounds and has to be provided in text form; dispatch of the withdrawal in good time is sufficient to comply with the time limit.

The new factor resulting in this Supplement is the publication by the rating agency DBRS Inc. on 6 June 2017 regarding the change of the outlook from “negative” to “stable” in the credit rating of the issuer with respect to long-term senior debt.

This Supplement amends and corrects the information contained in the above-mentioned prospectuses as follows:

III.

In all Base Prospectuses except for

- the Base Prospectus for the issuance of Certificates, Warrants and Notes dated 9 June 2017,
- the Base Prospectus for the issuance of Notes dated 9 June 2017, and
- the Base Prospectus for the issuance of Certificates dated 9 June 2017

in Chapter “II. Risk Factors” in section “A. Risk Factors in Respect of the Issuer” the paragraphs starting with “by DBRS:” until the sub-heading “Rating of Subordinated Obligations” shall be deleted and replaced as follows:

“by DBRS:

Long-term senior debt: A (low) (stable)
Short-term senior debt: R-1 (low) (stable)

DBRS defines:

A (low): Good credit quality. The capacity for the payment of financial obligations is substantial, but of lesser quality than “AA”. May be vulnerable to future events, but qualifying negative factors are considered manageable.

Long-term obligations ratings by DBRS are divided into several categories ranging from “AAA”, reflecting the highest credit quality, over categories “AA”, “A”, “BBB”, “BB”, “B”, “CCC”, “CC”, “C” to category “D”, reflecting when the issuer has filed under any applicable bankruptcy, insolvency or winding up statute or there is a failure to satisfy an obligation after the exhaustion of grace periods. All rating categories other than “AAA” and “D” also contain subcategories “(high)” and “(low)”. The absence of either a “(high)” or “(low)” designation indicates the rating is in the middle of the category.

R-1 (low): Good credit quality. The capacity for the payment of short-term financial obligations as they fall due is substantial. Overall strength is not as favourable as higher rating categories. May be vulnerable to future events, but qualifying negative factors are considered manageable.

DBRS’s short-term debt ratings are divided into several categories ranging from “R-1”, reflecting the highest credit quality, over categories “R-2”, “R-3”, “R-4”, “R-5” to category “D” reflecting when the issuer has filed under any applicable bankruptcy, insolvency or winding up statute or there is a failure to satisfy an obligation after the exhaustion of grace periods. The “R-1” and “R-2” rating categories are further denoted by the subcategories “(high)”, “(middle)”, and “(low)”.

stable: Rating trends provide guidance in respect of DBRS’s opinion regarding the outlook for a rating. Rating trends have three categories: “positive”, “stable” or “negative”. The rating trend indicates the direction in which DBRS considers the rating may move if present circumstances continue, or in certain cases, unless challenges are addressed by the issuer.

It is often the rating trend that reflects the initial pressures or benefits of a changing environment rather than an immediate change in the rating. A positive or negative trend is not an indication that a rating change is imminent. Rather, a positive or negative trend represents an indication that there is a

greater likelihood that the rating could change in the future than would be the case if a stable trend was assigned to the security.

Generally, the conditions that lead to the assignment of a negative or positive trend are resolved within a twelve month period. However, in some instances, new factors emerge which may cause the positive or negative trend to be maintained, even as the original factors become clarified or resolved.

DBRS places ratings "Under Review" in situations where a significant event occurs that directly impacts the credit quality of a particular entity or group of entities and if there is uncertainty regarding the outcome of the event and DBRS therefore is unable to provide an objective, forward-looking opinion in a timely fashion. DBRS also places ratings "Under Review" in situations where, in the opinion of DBRS, the current rating on the security may no longer be appropriate due to a change in the credit status of the issuing entity for other reasons and additional time is required for further analysis. Furthermore, DBRS may also place a rating "Under Review" if DBRS has announced that one or more of its methodologies that apply to such a rating is being revised and the announcement indicates that the outcome of the rating affected by the revision is uncertain. Using "Under Review Positive" or "Under Review Negative" is a more significant action than changing a rating trend to positive or negative as rating changes are considered more likely with the former than the latter."
