I. SUMMARY

The information set out below is a summary only and should be read in conjunction with the rest of this document. This summary is intended to convey the essential characteristics and risks associated with the Issuer, and in relation to the Securities and does not purport to be complete. It is taken from, and is qualified in its entirety by, the remainder of this document, including the Conditions, which constitute the legally binding conditions of the Securities as attached to the global security. Accordingly, this summary should be read as an introduction to the document, and any decision to invest in the Securities should be based on consideration of the document as a whole by the investor.

Prospective investors should be aware that where a claim relating to the information contained in this document is brought before a court, the investor making the claim might, under the national legislation of the respective EU member state, have to bear the costs of translating the prospectus before the legal proceedings are initiated.

Civil liability attaches to the Issuer who has tabled the summary including the translation thereof and applied for its notification, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the document.

A. SUMMARY OF RISK FACTORS

1. Risks relating to the Securities

An investment in the Securities involves risks. These risks may include, among others, equity market, bond market, foreign exchange, interest rate, market volatility and economic, political and regulatory risks and any combination of these and other risks. Prospective purchasers should be experienced with respect to transactions in instruments such as the Securities and in the underlying asset or other basis of reference for the Securities (the "**Underlying**"). Prospective purchasers should understand the risks associated with an investment in the Securities and should only reach an investment decision after careful consideration, with their legal, tax, accounting and other advisers, of (a) the suitability of an investment in the Securities in the light of their own particular financial, tax and other circumstances, (b) the information set out in this document and (c) the Underlying.

The Securities may decline in value and investors should be prepared to sustain a total loss of their investment in the Securities. The shorter the remaining term of the Securities, the higher the risk of decline in value of the Securities.

An investment in the Securities should only be made after assessing the direction, timing and magnitude of potential future changes in the value of the Underlying, and/or in the composition or method of calculation of the Underlying, as the return of any such investment will be dependent, *inter alia*, upon such changes. More than one risk factor may have simultaneous effect with regard to the Securities such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No assurance can be given as to the effect that any combination of risk factors may have on the value of the Securities.

[Add additional product specific risk factors, if necessary: [•]]

2. Issuer Risk Factors

Prospective investors should consider all information provided in the Registration Document and consult with their own professional advisers if they consider it

necessary. The following describes risk factors relating to the issuer's ability to meet its obligations under the securities.

3. Ratings

Ratings assigned to the Issuer by certain independent rating agencies are an indicator of the Issuer's ability to meet its obligations in a timely manner¹. The lower the assigned rating is on the respective scale the higher the respective rating agency assesses the risk that obligations will not be met at all or not be met in a timely manner. As of the publication date of this summary, the following ratings were assigned to Deutsche Bank:

Rating Agency	Long-term	Short-term
Standard & Poors (S&P)	AA-	A-1+
Moody's	Aa3	P-1
Fitch	AA-	F1+

Rating agencies may change their ratings at short notice. A rating's change may reflect the price of securities outstanding.

¹ A rating is not a recommendation to buy, sell, or hold certificates, and may be subject to suspension, downgrading, or withdrawal by the rating agency. Any such suspension, downgrading, or withdrawal may have a negative effect on the market price of the certificates.

[Insert relevant section, based on type of Certificates]

2.1 Single Underlying Linked [X-PERT] [Perpetual] Certificates (Type 1)

- (a) The Securities represent an investment similar to a direct investment in the Underlying, in that they reflect the performance of the Underlying between the Initial Reference Valuation Date and one or more Valuation Date(s).

[If capable of Cash Settlement and a Maximum Amount or a Minimum Amount is specified, insert: However, in contrast to a direct investment,] [If a Maximum Amount is specified, insert: the Cash Settlement Amount payable at settlement will be capped

at the Maximum Amount] *[If both a Minimum Amount and a Maximum Amount are specified, insert: , and it] [If only a Minimum Amount is specified, insert: the Cash Settlement Amount payable at settlement] will not be less than the Minimum Amount.] [If a Maximum Amount is specified, insert: Therefore, investors will forego the opportunity to participate in increases in the value or average value of the Underlying to the extent such increases would result in a Cash Settlement Amount which is above the Maximum Amount.*

A difference to a direct investment in the Underlying is that investors will forego the right to receive any dividends, interest or similar amounts paid in respect of the Underlying.

[If the Securities are perpetual, insert: The Securities do not provide for a predetermined maturity date. Accordingly, investors will only have the rights set out above, and further described in paragraph [b] below, following exercise of the Securities, which is only possible at one of the specified Exercise Dates.

[If the Securities provide for a redemption right of the Issuer, insert: The Issuer has the right to redeem the Securities during the Redemption Period in which case, in the case of cash settlement, the Cash Settlement Amount will be determined, as set out in paragraph [b] below, on the basis of the value of the Underlying on the relevant redemption date. Accordingly, investors should not rely on a certain Valuation Date or Dates relating to an exercise of the Securities as the basis for the calculation of their return under the Securities.

(b) *[If Cash Settlement only insert:*

The Securities represent the right to receive payment of the Cash Settlement Amount at settlement, which will reflect the product of (i) the Final Reference Level, which is the value or average value of the Underlying on one or more Valuation Date(s), and (ii) the Multiplier *[Delete as appropriate: [, subject to the Maximum Amount][, subject to the Minimum Amount][, subject to the Maximum Amount and the Minimum Amount]].*

[If Cash Settlement or Physical Settlement may apply at the election of the Issuer or the Securityholder, insert:

The Securities represent the right to receive either payment of the Cash Settlement Amount or delivery of the Physical Settlement Amount, being a number of specified assets, at settlement. If the *[Delete as appropriate:* [Issuer][Securityholder]] elects for physical settlement, the Physical Settlement Amount will reflect the product of (i) a specified number of units of the Underlying and (ii) the Multiplier.

[If the Settlement Currency is not the same as the Reference Currency insert: The Cash Settlement Amount will be converted into the Settlement Currency at the prevailing exchange rate.]

The payment of the Cash Settlement Amount and the delivery of Physical Settlement Amount is subject to deduction or payment (as the case may be) of certain taxes, duties and/or expenses.]

[If Physical Settlement may apply and if the Underlying is an index or commodity insert: Where the Securities are to be settled by delivery of the Physical Settlement Amount, the specified asset(s) will be [the Underlying] [certificates relating to the underlying index] [•].]

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the performance of the Underlying. Investors that buy the Securities at the Issue Date and hold the Securities for the entire term achieve a positive return on their initial investment when *[Insert if Cash Settlement applies:* the Final Reference Level exceeds the [value of the Underlying at or around issuance of the Securities] *[Insert if the Securities provide for a Maximum Amount:* subject to the Maximum Amount]. *[Insert if Physical Settlement applies:* the value which the investor is able to realise in relation to the Physical Settlement Amount delivered at settlement is greater than the [value of the Underlying at or around issuance of the Securities] *[Insert if Cash Settlement applies:* If the Final Reference Level is less than the [value of the Underlying at or around issuance of the Securities] *[Insert if the*

Securities provide for a Minimum Amount: and the Minimum Amount is less than the amount of the investor's initial investment] **[Insert if Physical Settlement applies:** If the value which the investor is able to realise in relation to the Physical Settlement Amount delivered at settlement is less than the amount of the investor's initial investment], investors that buy the Securities at the Issue Date and hold them for their entire term will suffer a loss **[Insert if no Minimum Amount applies:** and such loss can extend to their whole initial investment where **[Insert if Cash Settlement applies:** the value or average value of the Underlying on the Valuation Date(s)] **[Insert if Physical Settlement applies:** the value of the specified assets which comprise the Physical Settlement Amount] is zero. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

- (c) The Securities do not provide a guarantee of the right to receive **[Delete as appropriate:** [payment of a set amount][or][delivery of a set number of specified asset(s)] or for the right to receive repayment of the Issue Price. There is no return on the Securities other than **[Delete as appropriate:** [the potential payment of the Cash Settlement Amount][or][the delivery of the Physical Settlement Amount] at settlement. Accordingly, investors may only receive a positive return on their initial investment if the **[Delete as appropriate:** [Cash Settlement Amount][or][the value of the Physical Settlement Amount]] received at settlement or the amount received after a sale of the Securities in the secondary market during their term exceeds the price originally paid for the Securities. Investors will not receive any periodic payments in respect of the Securities and will not receive any amounts paid from time to time by way of interest or other distributions (e.g. dividends) by or in respect of the Underlying and will not have any rights against the issuer of the Underlying, any constituents of the Underlying or the issuer of any such constituents.

[If Physical Settlement may apply insert: If the Securities are settled by physical settlement and the [Underlying] **[If the Underlying is an index or commodity insert:** certificate relating to the underlying asset] [●] is delivered upon settlement of the Securities, investors will be exposed to the benefits and risks associated with the holding of that asset, and benefit from increases, or suffer losses from decreases, in the value of such asset.]

- (d) The market value of the Securities during their term depends primarily on the value and volatility of the Underlying during the life of the Securities. In general, if the value of the Underlying falls and/or there is a market perception that the value of the Underlying is likely to fall during the remaining life of the Securities, all other factors being equal, the market value of the Securities will be expected to fall. On the same basis, if the value of the Underlying rises and/or there is a market perception that the value of the Underlying is likely to rise during the remaining life of the Securities, all other factors being equal, the market value of the Securities will be expected to rise **[Delete as appropriate:** subject to the Maximum Amount].

Other factors which may influence the market value of the Securities include interest rates, potential dividend or interest payments in respect of the Underlying, changes in the method of calculating the value of the Underlying from time to time and market expectations regarding the future performance of the Underlying, its composition and the Securities.

[If the Underlying is an index or otherwise calculated by reference to constituents insert:

The value of the Underlying on any day will reflect the value of its constituents on such day. Changes in the composition of the Underlying and factors (including those described above) which either affect or may affect the value of the constituents, will

affect the value of the Underlying and therefore may affect the return on an investment in the Securities.]

[If the Settlement Currency is not the same as the Reference Currency and the Securities are capable of Cash Settlement and are quanto securities insert:

In addition, each value of the Underlying relevant for the determination of the Cash Settlement Amount is deemed to be in the Settlement Currency, without reference to any exchange rate between the Reference Currency and the Settlement Currency (so-called "**quanto securities**"). As a result, an investment in the Securities will not involve exchange rate risks. However, the relative interest rate difference between the current interest rate relating to the Reference Currency and the current interest rate relating to the Settlement Currency may influence the price of the Securities.]

[If the Settlement Currency is not the same as the Reference Currency and the Securities are capable of Cash Settlement and are NOT quanto securities insert:

The Reference Currency for the determination of the Cash Settlement Amount is not the same as the Settlement Currency. Accordingly, an investment in the Securities will involve exchange rate risks.]

In addition, investors will be exposed to exchange rate risk where the Settlement Currency is different from the currency of the investor's home jurisdiction or the currency in which an investor wishes to receive funds.

2.2 *Basket Linked [X-PERT] [Perpetual] Certificates (Type 1)*

(a) The Securities represent an investment similar to a direct investment in the Underlying, in that they reflect the performance of the Underlying between the Initial Reference Valuation Date and one or more Valuation Date(s).

[If capable of Cash Settlement and a Maximum Amount or a Minimum Amount is specified, insert: However, in contrast to a direct investment,] *[If a Maximum Amount is specified, insert:* the Cash Settlement Amount payable at settlement will be capped at the Maximum Amount] *[If both a Minimum Amount and a Maximum Amount are specified, insert:* , and it] *[If only a Minimum Amount is specified, insert:* the Cash Settlement Amount payable at settlement] will not be less than the Minimum Amount.] *[If a Maximum Amount is specified, insert:* Therefore, investors will forego the opportunity to participate in increases in the value or average value of the Underlying to the extent such increases would result in a Cash Settlement Amount which is above the Maximum Amount.

A difference to a direct investment in the Underlying is that investors will forego the right to receive any dividends, interest or similar amounts paid in respect of the Underlying.

[If the Securities are perpetual, insert: The Securities do not provide for a predetermined maturity date. Accordingly, investors will only have the rights set out above, and further described in paragraph [b] below, following exercise of the Securities, which is only possible at one of the specified Exercise Dates.

[If the Securities provide for a redemption right of the Issuer, insert: The Issuer has the right to redeem the Securities during the Redemption Period in which case, in the case of cash settlement, the Cash Settlement Amount will be determined, as set out in paragraph [b] below, on the basis of the value of the Underlying on the relevant redemption date. Accordingly, investors should not rely on a certain Valuation Date or Dates relating to an exercise of the Securities as the basis for the calculation of their return under the Securities.

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the Final Reference Level. Investors that buy the Securities at the Issue Date and hold the Securities for the entire term therefore achieve the maximum return on their investment in the Securities when the Final Reference level is equal to or greater than the Maximum Amount. In this case, investors will receive payment of the Cash Settlement Amount reflecting the sum of the Maximum Amount and the Differential Amount. Investors will not benefit from any increase in the Final Reference Level above the Maximum Amount. If the Final Reference Level is less than the value of the Underlying at or about the time of issuance of the Securities, investors that have bought the Securities at the Issue Date and hold the Securities for the entire term will receive a limited return or no return on their investment. Investors will lose their investment altogether if the Final Reference Level is zero. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

- (a) The Securities represent an investment similar to a direct investment in the Underlying. In contrast to a direct investment, the Securities offer the possibility of increased returns by a leveraged participation in the extent to which the Final Reference Level, which is the value or average value of the Underlying on one or more Valuation Dates, exceeds the predefined Determination Level but subject to a specified Maximum Amount.

A further difference from a direct investment in the Underlying is that investors will forego the right to receive any dividends, interest or similar amounts paid in respect of the Underlying.

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the Final Reference Level. In this case, investors will receive payment of the Cash Settlement Amount reflecting the sum of

the Maximum Amount and the Differential Amount. Investors will not benefit from any increase in the Final Reference Level above the Maximum Amount. If the Final Reference Level is less than the Maximum Amount but above the Determination Level, then the Cash Settlement Amount will reflect the sum of the Final Reference Level and the Differential Amount.

If the Final Reference Level is less than the value of the Underlying at or about the time of issuance of the Securities, investors that have bought the Securities at the Issue Date and hold the Securities for the entire term will receive a limited return or no return on their investment. 2.10 Basket Linked Parachute Certificates

(a) The Securities represent an investment similar to a direct investment in the Underlying. In contrast to such a direct investment, however, the Securities offer a degree of protection against decreases in the value of the Underlying on one or more Valuation Date(s). If the Final Reference Level, being the value or average value of the Underlying on one or more Valuation Date(s), is no less than the Parachute Threshold being a certain level of the Underlying, investors will receive the invested capital back (less any subscription fees); if the Final Reference Level is less than the Parachute Threshold, investors still have a degree of protection and are only partially exposed to such decreases in the value of the Underlying, but to a lesser extent, which is represented by the Parachute Factor. For that protection, however, investors [may] forego the opportunity to participate fully in increases in the value of the Underlying, as represented by the Participation Factor which represents the amount by which investors participate in increases in the Underlying as determined for the Final Reference Level as compared to the Initial Reference Level *[Insert if the Cash Settlement Amount is subject to the Maximum Amount:* However, the Cash Settlement Amount is capped at the Maximum Amount and therefore investors will forego the opportunity to participate in increases in the value or average value of the Underlying as reflected in the Final Reference Level to the extent that such increases would result in a Cash Settlement Amount which is above the Maximum Amount.]

A further difference from a direct investment in the Underlying is that investors will forego the right to receive any dividends, interest or similar amounts paid in respect of the Underlying.

[If the Securities provide for a redemption right of the Issuer, insert: The Issuer has the right to redeem the Securities on an Early Redemption Date at the relevant Early Cash Settlement Amount.

The Underlying is a basket consisting of [Please insert: [indices] [shares] [other securities] [fund shares] [commodities] [currency amounts] [futures]]. Accordingly, the value of the Underlying at any time reflects the sum of the value of each basket constituent *[If the Basketed Constituent Exchange Rate is not the same as the Reference Currency and the Security is not a quanto security insert:* converted into the [Reference Currency/Settlement Currency] at the prevailing exchange rate] multiplied by its weighting in the basket.

- (b) **[If the Issuer has the right to redeem the Securities early, insert:]** [Save where the Issuer elects to redeem the Securities early, the] [The] Securities represent the right to receive payment of the Cash Settlement Amount at settlement. The Cash Settlement Amount depends upon the performance of the Underlying. If the Final Reference Level exceeds the Initial Reference Level, the Cash Settlement Amount will reflect the sum of (i) the Initial Reference Level and (ii) a specified proportion (the Participation Factor) the difference between the Final Reference Level and the Initial Reference Level, such sum multiplied by the Multiplier.

If the Final Reference Level is equal to or less than the Initial Reference Level but equal to or greater than the Parachute Threshold, the Cash Settlement Amount will reflect the product of the Initial Reference Level and the Multiplier.

If the Final Reference Level is less than the Parachute Threshold, the Cash Settlement Amount will reflect the product of the Final Reference Level, the Parachute Factor and the Multiplier.

[Insert if the Cash Settlement Amount is subject to the Maximum Amount: If the Cash Settlement Amount so determined is equal to or exceeds the Maximum Amount, the Cash Settlement Amount will be equal to the Maximum Amount.]

[If the Issuer has the right to redeem the Securities early, insert: If the Issuer elects to redeem the Securities early, the cash amount payable at settlement will be the relevant Early Cash Settlement Amount.]

[If the Settlement Currency is not the same as the Reference Currency, insert: The Cash Settlement Amount will be converted into the Settlement Currency at the prevailing exchange rate].

The payment of the Cash Settlement Amount and any Early Cash Settlement Amount is subject to deduction of certain taxes, duties and/or expenses.

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the performance of the Underlying. Investors that buy the Securities at the Issue Date and hold the Securities for the entire term achieve a positive return on their initial investment when the Final Reference Level exceeds the Initial Reference Level. **[Insert if the Cash Settlement Amount is subject to the Maximum Amount:** Investors will receive the greatest return when the Final Reference Level exceeds the Initial Reference Level to an extent which gives rise to a Cash Settlement Amount which is equal to the Maximum Amount. In these circumstances investors will not benefit from any increase in the Final Reference Level to the extent that this would result in the Cash Settlement Amount exceeding the Maximum Amount.] They will receive no positive return, but will receive their invested capital (less any subscription fees) back, where the Final Reference Level is less than the Initial Reference Level, but equal to or greater than the Parachute Threshold. Investors that buy the Securities at the Issue Date and hold the Securities for the entire term will suffer a loss where the Final Reference Level is less than the Parachute Threshold. If the Final Reference Level is zero, the Cash Settlement Amount would be zero and an investor would lose all of his investment in the Securities. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

- (c) The Securities do not provide a guarantee of payment of a set amount or for the right to receive repayment of the Issue Price. There is no return on the Securities other than the potential Cash Settlement Amount payable at settlement **[If the Issuer has the right to redeem the Securities early, insert:** or the relevant Early Cash Settlement Amount payable on any early redemption if the Issuer elects to redeem the Securities early]. only receive a positive return on their initial investment if the Cash Settlement Amount received at settlement *[If the Issuer has the right to redeem the Securities early, insert:* or the relevant Early Cash Settlement Amount paid on any early redemption if the Issuer elects to redeem the Securities early] or the amount received after a sale of the Securities in the secondary market during their term exceeds the price originally paid for the Securities. Investors will not receive any periodic payments in respect of the Securities and will not receive any amounts paid from time to time by way of interest or other distributions (e.g. dividends) by or in respect of the Underlying and will not have any rights against the issuer of the Underlying, any constituents of the Underlying or the issuer of any such constituents.

2.11 *Single Underlying Linked Renewable Opportunity/Express Certificates*

- (a) The Securities represent an investment similar to a direct investment in the Underlying. In contrast to a direct investment, the Securities offer investors a chance to receive, following certain predefined Dates (the Barrier Determination Dates) prior to maturity of the Securities, a cash amount fixed for each such date, if the value of the Underlying on a Barrier Determination Date is greater than the defined Barrier Level *[If Barrier Level is not fixed insert:* in respect of such day]. In such case, the Cash Settlement Amount will reflect the value of the Underlying at or around issuance of the Securities plus a certain premium, which will be the higher the later such early redemption occurs. As the Securities will be sold at an issue price reflecting the level of the Underlying at or around issuance, this will allow investors to receive a return for their investment reflecting such premium. – For that option, investors forego the opportunity to participate in any further growth in the value of the Underlying beyond the Barrier Level after an early redemption of the Securities as described above has occurred.

Otherwise, investors in the Securities will receive a cash amount at maturity of the Securities, which will correspond to what they would receive if they would, at the same time, liquidate a direct investment in the Underlying entered into at the time of issuance of the Securities *[If Cash Settlement only insert:* , unless the value of the Underlying has not [at any time] [on the Valuation Date] [during the defined Barrier Determination Period] been lower than the defined Determination Level, in which case the Cash Settlement Amount will equal the value of the Underlying at or around issuance of the Securities; accordingly, the Securities provide a degree of protection against a decrease in the value of the Underlying.]

A further difference from a direct investment in the Underlying is that investors will forego the right to receive any dividends, interest or similar amounts paid in respect of the Underlying.

(b) *[If Cash Settlement only insert:*

The Securities represent the right to receive payment of the Cash Settlement Amount at settlement. The Cash Settlement Amount will depend on whether on a Barrier Determination Date, the Barrier Determination Amount has been equal to or above the Barrier Level *[If Barrier Level is not fixed insert:* in respect of such day] (such

event a "Knock-Out Event"). If a Knock-Out Event occurs, the Cash Settlement Amount will be the amount specified above in relation to such Barrier Determination Date and the Securities will be redeemed early on the relevant Settlement Date. If a Knock-Out Event does not occur, if [at any time] [on the Valuation Date] [during the Barrier Determination Period], the Barrier Determination Amount, as the value of the Underlying at the relevant time, has not been lower than the Determination Level, then the Cash Settlement Amount will reflect the value of the Underlying at or about the date of issuance of the Securities [If a Multiplier is used, insert: subject to the Multiplier], otherwise the Cash Settlement Amount will reflect the value of the Underlying on the Valuation Date [If a Multiplier is used, insert: subject to the Multiplier] divided by the [Delete as applicable: Determination Level/the value of the Underlying at or about the date of issuance of the Securities].

higher the later such early redemption occurs. Accordingly, investors will profit the more from an investment in the Securities, the later during the term of the Securities the value of the Underlying rises compared to its value at or around issuance of the Securities.

In the absence of a Knock-Out Event, investors that buy the Securities at the Issue Date and hold the Securities for the entire term will receive the Cash Settlement Amount which will reflect the value of the Underlying at or around settlement, and will thus not achieve a return on the initial investment, but will avoid a loss, unless the value of the Underlying [at any time] [on the Valuation Date] [during the Barrier Determination Period] has been lower than the Determination Level. In contrast to a direct investment, the Securities are sold at an issue price which reflects a discount to the value of the Underlying at or around their issuance, which enables investors to participate in rises in the value or average value of the Underlying up to the Maximum Amount, and to receive a return on their initial investment even if the value or average value of the Underlying falls a certain extent from the initial value of the Underlying (depending on the amount of the discount). For this discount, however, investors forgo the opportunity to participate in increases in the value or average value of the Underlying above the Maximum Amount. A further difference from a direct investment in the Underlying is that investors will forego the right to receive any dividends, interest or similar amounts paid in respect of the Underlying.

Otherwise, the Cash Settlement Amount will be payable, which will reflect the value or average value of the Underlying on the specified day(s), subject to the Maximum Amount.

[If Physical Settlement may apply insert: Where the Securities are to be settled by delivery of the Physical Settlement Amount, the specified asset(s) will be [the Underlying] [certificates relating to the underlying asset] [•].

Prospective investors should note that the return (if any) on their investment in the Securities will depend on the performance of the Underlying. Investors that buy the Securities at the Issue Date and hold the Securities for the entire term therefore achieve the maximum return on their initial investment when the value or average value of the Underlying on one or more specified days is equal to or greater than the Maximum Amount. If the value or average value of the Underlying on such day(s) is less than the Maximum Amount but above the discounted value of the Underlying at or about the time of issuance of the Securities, investors will receive a positive return on their initial investment. However, if the value or average value of the Underlying on the specified day(s) is equal to or below the discounted value of the Underlying at or about the time of issuance of the Securities, investors will receive no positive return or will make a loss. Such loss can extend to their whole initial investment where the value or average value of the Underlying is zero at this time. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

- (c) The Securities do not provide a guarantee of payment of a set amount **[If Physical Settlement may apply insert:** or delivery of a set number of specified asset(s)] or for the right to receive repayment of the Issue Price. - (d) The market value of the Securities during their term depends primarily on the value and volatility of the Underlying during the life of the Securities. In general, if the value of the Underlying falls and/or there is a market perception that the value of the Underlying is likely to fall during the remaining life of the Securities, all other factors being equal, the market value of the Securities will be expected to fall. On the same basis, if the value of the Underlying rises and/or there is a market perception that the value of the Underlying is likely to rise during the remaining life of the Securities, all other factors being equal, the market value of the Securities will be expected to rise, subject to the specified Maximum Amount.

Other factors which may influence the market value of the Securities include interest rates, potential dividend or interest payments in respect of the Underlying, changes in the method of calculating the value of the Underlying from time to time and market expectations regarding the future performance of the Underlying, its composition and the Securities.

Due to the product structure, the Securities are usually traded at an amount representing a discount to the current value of the Underlying. The discount can vary over the course of time and moves in the direction of zero towards the end of the term of the Securities. If, following the purchase of any Securities, the market value of the Securities falls below the purchase price paid for such Securities, investors should not expect the market value of the Securities to increase to or above the purchase price paid by the investor during the remainder of the term of the Securities.

[If the Underlying is an index or otherwise calculated by reference to constituents insert:

The value of the Underlying on any day will reflect the value of its constituents on such day. - (b) The Securities represent the right to receive payment of a Cash Settlement Amount at settlement. *[If the Securities do not provide for a geared upside insert:* The Cash Settlement Amount will reflect the product of the Final Reference Level and the Multiplier. If the Barrier Determination Amount (which is the value of the Underlying at the relevant time) has not at any time or, if specified above, at any time during the defined Barrier Determination Period, been equal to or less than the defined Barrier Level, investors will receive a minimum Cash Settlement Amount equal to the defined Minimum Amount.] *[If the Securities provide for a geared upside insert:* If the Final Reference Level is greater than the Protection Reference Level, then the Cash Settlement Amount will be an amount equal to the product of the Multiplier and an amount equal to (i) the Final Reference Level plus (ii) the product of the Gearing Factor and the amount by which the Final Reference Level exceeds the Protection Reference Level. However, if the Final Reference Level is equal to or lower than the Protection Reference Level, the Cash Settlement Amount will reflect the product of the Final Reference Level and the Multiplier, subject to the Minimum Amount which is payable if the Barrier Determination Amount (which is the value of the Underlying at the relevant time) has not at any time or, if specified above, at any time during the defined Barrier Determination Period been equal to or less than the defined Barrier Level. *[If the Securities provide for a maximum Cash Settlement Amount insert:* If the Cash Settlement Amount so determined is equal to or exceeds the Maximum Amount, the Cash Settlement Amount will be equal to the Maximum Amount.]

If the Settlement Currency is not the same as the Reference Currency, the Cash Settlement Amount will be converted into the Settlement Currency at the prevailing exchange rate.

In each case, the Cash Settlement Amount is subject to deduction of certain taxes, duties and/or expenses.

The return of investors that buy the Securities at the Issue Date and hold the Securities for the entire term on their initial investment therefore will be the higher, the more the Final Reference Level exceeds *[Insert if the Securities do not provide for a geared upside;* a level that would give rise to the Minimum Amount] *[Insert if the Securities provide for a geared upside:* the Protection Reference Level] *[If the Securities provide for a maximum cash settlement amount insert:*, subject to the Maximum Amount].

Prospective investors should note that the return (if any) on their investment will depend on the Final Reference Level and, for the Minimum Amount to be payable at settlement, for the Barrier Determination Amount not to have been equal to or lower than the Barrier Level. Investors will receive no return on their investment, and may suffer a loss, if the Barrier Determination Amount has been equal to or less than the Barrier Level either at any time or, if specified above, at any time during the Barrier Determination Period, and if the Final Reference Level is below the value of the Underlying at or around issuance of the Securities. Such loss can extend to their whole initial investment when the Final Reference Level is zero. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

[If the Securities provide for a maximum Cash Settlement Amount insert: Investors will not benefit from any increase in the value of the Underlying above the level which would give rise to a Cash Settlement Amount equal to the Maximum Amount.]

- (c) The Securities do not provide a guarantee of payment of a set amount or for the right to receive repayment of the Issue Price. There is no return on the Securities other than the potential payment of the Cash Settlement Amount at settlement. Accordingly, investors may only receive a positive return on their initial investment if the Cash Settlement Amount received on settlement or after a sale of the Securities in the secondary market during their term exceeds the price originally paid for the Securities. Investors will not receive any periodic payments in respect of the Securities and will not receive any amounts paid from time to time by way of interest or other distributions (e.g. dividends) by or in respect of the Underlying and will not have any rights against the issuer of the Underlying, any constituents of the Underlying or the issuer of such constituents.
- (d) The market value of the Securities during their term depends primarily on the value of the Underlying and, unless the Barrier Determination Amount has been equal to or less than the Barrier Level either at any time or, if specified above, at any time during the Barrier Determination Period, its volatility during the life of the Securities. In general, if the value of the Underlying falls and/or there is a market perception that the value of the Underlying is likely to fall during the remaining life of the Securities, all other factors being equal, the market value of the Securities will be expected to fall. On the same basis, if the value of the Underlying rises and/or there is a market perception that the value of the Underlying is likely to rise during the remaining life of the Securities, all other factors being equal, the market value of the Securities will be expected to rise *[If the Securities provide for a maximum Cash Settlement Amount insert: subject to the Maximum Amount.]* Such rise or fall will under normal conditions not fully correspond to the rise or fall in the value of the Underlying, unless the Barrier Determination Amount has been equal to or less than the Barrier Level either at any time or, if specified above, at any time during the Barrier Determination Period.

Other factors which may influence the market value of the Securities include interest rates, potential dividend or interest payments in respect of the Underlying, changes in the method of calculating the value of the Underlying from time to time and market expectations regarding the future performance of the Underlying, its composition and the Securities.

Furthermore, the

[If the Basket Constituent Currencies are not the same as the Reference Currency and/or the Reference Currency is not the same as the Settlement Currency and a currency conversion based on the exchange rate is applied on either level or both levels insert:

[Insert if a currency conversion based on the exchange rate is applied between the Basket Constituent Currencies and the Reference Currency: The Basket Constituent Currency of each Basket Constituent used to determine the value of the Underlying is not the same as the Reference Currency] [In addition,] [Insert if a currency conversion based on the exchange rate is applied between the Reference Currency and the Settlement Currency: [The] [the] Reference Currency, which is used for the determination of the Cash Settlement Amount is not the same as the Settlement Currency.] Accordingly, an investment in the Securities will involve exchange rate risks.]

In addition, investors will be exposed to exchange rate risk where the Settlement Currency is different from the currency of the investor's home jurisdiction or the currency in which an investor wishes to receive funds.

II. RISK FACTORS

A. ISSUER RISK FACTORS

An investment in debt securities, including certificates, and money market papers issued by Deutsche Bank bears the risk that Deutsche Bank is not able to fulfil its obligations created by the issuance of the securities on the relevant due date.

In order to assess the risk, prospective investors should consider all information provided in this Registration Document and consult with their own professional advisers if they consider it necessary.

The risk related to an Issuer's ability to fulfill its obligations created by the issuance of debt securities and money market papers is described by reference to the credit ratings assigned by independent rating agencies. A credit rating is an assessment of the solvency or credit-worthiness of creditors and/or bond-issuers according to established credit review procedures. These ratings and associated research help investors analyse the credit risks associated with fixed-income securities by providing detailed information of the ability of issuers to meet their obligations. The lower the assigned rating is on the respective scale, the higher the respective rating agency assesses the risk that obligations will not, not fully and/or not timely be met. A rating is not a recommendation to buy, sell or hold any notes issued and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. A suspension, reduction or withdrawal of any rating assigned may adversely affect the market price of the notes issued.

Deutsche Bank is rated by Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc. ("S&P"), Moody's Investors Service, Inc. ("Moody's") and by Fitch Ratings Limited ("Fitch", together with S&P and Moody's, the "Rating Agencies").

As of the Publication Date of this Registration Document, the ratings assigned by the Rating Agencies to debt securities and money market papers of Deutsche Bank were as follows:

by S&P:	long-term rating:	AA-
	short-term rating:	A-1+
	outlook:	positive

S&P defines:

AA-: An obligation rated "AA" differs from the highest rated obligations only in small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong.

Long-term ratings by S&P are divided into several categories ranging from "AAA", reflecting the strongest creditworthiness, over categories "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C" to category "D", reflecting that an obligation is in payment default. The ratings from "AA" to "CCC" may be modified by the addition of a plus ("+") or minus ("-") sign to show relative standing within the major rating categories.

A-1+: A short-term obligation rated "A-1" is rated in the highest category by S&P. The obligor's capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign ("+"), This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong.

Short-term ratings by S&P are divided into several categories ranging from "A-1", reflecting the strongest creditworthiness, over categories "A-2", "A-3", "B", "C" to category "D" reflecting that an obligation is in payment default.

by Moody's:	long-term rating:	Aa3
	short-term rating:	P-1
	outlook:	stable

Moody's defines:

Aa3: Obligations rated "Aa" are judged to be of high quality and are subject to very low credit risk.

Moody's long-term obligation ratings are divided into several categories ranging from "Aaa", reflecting the highest quality with minimal credit risk, over categories "Aa", "A", "Baa", "Ba", "B", "Caa", "Ca" to category "C", reflecting the lowest rated class of bonds which are typically in default with little prospect for recovery of principal or interest. Moody's appends numerical modifiers 1, 2 and 3 to each generic rating classification from "Aa" through "Caa". The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

P-1: Issuers rated Prime-1 have a superior ability to repay short-term debt obligations.

Moody's short-term ratings are divided into several categories ranging from "P-1", reflecting a superior ability of an Issuer to repay short-term debt obligations, over categories "P-2" and "P-3" to category "NP", reflecting that an Issuer does not fall within any of the Prime rating categories.

by Fitch:	long-term rating:	AA-
	short-term rating:	F1+
	outlook:	stable

Fitch defines:

AA-: A rating of "AA" denotes a very low expectation of credit risk. It indicates a very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

Fitch's long-term ratings are divided into several major categories ranging from "AAA", reflecting the highest credit quality, over categories "AA", "A", "BBB", "BB", "B", "CCC, CC, C" to category "DDD, DD, D", reflecting that an obligor has defaulted on some or all of its obligations. A plus ("+") or minus ("-") sign may be appended to a rating to denote the relative status within major rating categories. Such suffixes are not added to the "AAA" category or to categories below "CCC".

F1+: A rating of "F1" indicates the strongest capacity for timely payment of financial commitments. It may have an added plus ("+") sign to denote any exceptionally strong credit feature.

Fitch's short-term ratings are divided into several categories ranging from "F1", reflecting the highest credit quality, over categories "F2", "F3", "B", "C" to category "D" which denotes an actual or imminent payment default.

Rating of Subordinated Obligations

If Deutsche Bank enters into subordinated obligations, these obligations may be rated lower because, in the case of an insolvency or liquidation of the Bank, the claims and interest claims resulting from these obligations are subordinate to those claims of creditors of the Bank that are not also subordinated. Deutsche Bank will disclose the ratings of subordinated obligations (if any).

B. PRODUCT SPECIFIC RISK FACTORS

1. Introduction

The discussion below is intended to describe various risk factors associated with an investment in the Securities. No investment should be made in the Securities until after careful consideration of all those factors which are relevant in relation to the Securities. The Issuer believes that the factors described below represent the principal risks inherent in investing in the Securities, but does not represent that the statements below regarding risks of holding the Securities are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this document and reach their own views prior to making any investment decision.

Prospective investors should also consider carefully the description of the Underlying (as defined below) in the sections "Product Conditions" and "Information relating to the Underlying" and the further information which is available in relation to the Underlying.

This document is not, and does not purport to be, investment advice.

An investment in the Securities involves risks. These risks may include, among others, equity market, bond market, foreign exchange, interest rate, market volatility and economic, political and regulatory risks and any combination of these and other risks. Some of these are briefly discussed below. Prospective purchasers should be experienced with respect to transactions in instruments such as the Securities and in the Underlying. Prospective purchasers should understand the risks associated with an investment in the Securities and should only reach an investment decision after careful consideration, with their legal, tax, accounting and other advisers, of (a) the suitability of an investment in the Securities in the light of their own particular financial, tax and other circumstances, (b) the information set out in this document and (c) the Underlying.

The Securities may decline in value **[Insert if the Securities provide for a capital protection:** and investors should note that, whatever their investment in the Securities, the cash amount due at maturity will only be equal to **[insert if the Securities provide for a capital protection:** specified minimum cash amount]. **[Insert if relevant:** The shorter the remaining term of the Securities is, the higher the risk of decline in value of the Securities.]

An investment in the Securities should only be made after assessing the direction, timing and magnitude of potential future changes in the value of the Underlying, and/or in the composition or method of calculation of the Underlying, as the return of any such investment will be dependent, *inter alia*, upon such changes. More than one risk factor may have simultaneous effect with regard to the Securities such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No assurance can be given as to the effect that any combination of risk factors may have on the value of the Securities.

Additional Risk Factors are set out under the headings "C. General Risk Factors relating to the Securities" and "D. Market Factors". In addition prospective investors should also review section "E. Conflicts of Interest".

2. Rights under the Securities

2.1 *Single Underlying Linked [X-PERT] [Perpetual] Certificates (Type 1)*

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the performance of the Underlying. [Insert if Cash Settlement applies: If the Final Reference Level is less than the [value of

the Underlying at or around issuance of the Securities] **[Insert if the Securities provide for a Minimum Amount:** and the Minimum Amount is less than the amount of the investor's initial investment] **[Insert if Physical Settlement applies:** If the value which the investor is able to realise in relation to the Physical Settlement Amount delivered at settlement is less than the amount of the investor's initial investment], investors that buy the Securities at the Issue Date and hold them for their entire term will suffer a loss **[Insert if no Minimum Amount applies:** and such loss can extend to their whole initial investment where **[Insert if Cash Settlement applies:** the value or average value of the Underlying on the Valuation Date(s)] **[Insert if Physical Settlement applies:** the value of the specified assets which comprise the Physical Settlement Amount] is zero. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

2.2 *Basket Linked [X-PERT] [Perpetual] Certificates (Type 1)*

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the performance of the Underlying. **[Insert if Cash Settlement applies:** If the Final Reference Level is less than the [value of the Underlying at or around issuance of the Securities] **[Insert if the Securities provide for a Minimum Amount:** and the Minimum Amount is less than the amount of the investor's initial investment] **[Insert if Physical Settlement applies:** If the value which the investor is able to realise in relation to the Physical Settlement Amount delivered at settlement is less than the amount of the investor's initial investment], investors that buy the Securities at the Issue Date and hold them for their entire term will suffer a loss **[Insert if no Minimum Amount applies:** and such loss can extend to their whole initial investment where **[Insert if Cash Settlement applies:** the value or average value of the Underlying on the Valuation Date(s)] **[Insert if Physical Settlement applies:** the value of the specified assets which comprise the Physical Settlement Amount] is zero. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

2.3 *Single Underlying Linked [Capped] Outperformance Certificates*

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the Final Reference Level. Investors that buy the Securities at the Issue Date and hold the Securities for the entire term will receive no return on their investment, and may suffer a loss, if the Final Reference Level is **[If Cash Settlement only insert:** equal to or] less than the Initial Reference Level. Such loss can extend to their whole initial investment where the Final Reference Level is zero. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

2.4 *Basket Linked [Capped] Outperformance Certificates*

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the Final Reference Level. Investors that buy the Securities at the Issue Date and hold the Securities for the entire term will receive no return on their investment, and may suffer a loss, if the Final Reference Level is **[If Cash Settlement only insert:** equal to or] less than the Initial Reference Level. Such loss can extend to their whole initial investment where the Final Reference Level is zero. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a

similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

2.5 *Single Underlying Linked Double Chance Certificates*

[If Cash Settlement may apply insert:

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the Final Reference Level. If the Final Reference Level is less than the value of the Underlying at or about the time of issuance of the Securities, investors that have bought the Securities at the Issue Date and hold the Securities for the entire term will receive a limited return or no return on their investment. Investors will lose their investment altogether if the Final Reference Level is zero. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.]

[If Physical Settlement may apply insert:

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the Final Reference Level. If the Final Reference Level is equal to or less than the Determination Level at settlement a holder of a Security will, subject as provided below, receive delivery of the Physical Settlement Amount and from such time the holder will be exposed to the risk of losses associated with holding the Physical Settlement Amount. In such case, if the Final Reference Level is below the value of the Underlying at or about the time of issuance of the Securities, investors that have bought the Securities at the Issue Date and hold them for the entire term will receive a limited return or no return on their investment. Investors will lose their investment altogether if the Final Reference Level is zero. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.]

2.6 *Basket Linked Double Chance Certificates*

[If Cash Settlement may apply insert:

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the Final Reference Level. If the Final Reference Level is less than the value of the Underlying at or about the time of issuance of the Securities, investors that have bought the Securities at the Issue Date and hold the Securities for the entire term will receive a limited return or no return on their investment. Investors will lose their investment altogether if the Final Reference Level is zero. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.]

[If Physical Settlement may apply insert:

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the Final Reference Level. If the Final Reference Level is equal to or less than the Determination Level at settlement a holder of a Security will, subject as provided below, receive delivery of the Physical Settlement Amount and from such time the holder will be exposed to the risk of losses associated with holding the Physical Settlement Amount. In such case, if the Final Reference Level is below the value of the Underlying at or about the time of issuance of the Securities, investors that have bought the Securities at

the Issue Date and hold them for the entire term will receive a limited return or no return on their investment. Investors will lose their investment altogether if the Final Reference Level is zero. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.]

2.7 *Single Underlying Linked Best Chance Certificates*

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the performance of the Underlying. [Investors that buy the Securities at the Issue Date and hold the Securities for the entire term will suffer a loss if ratio between the Final Reference Level and the Best Chance Reference Level is lower than the ratio between the Initial Amount and the purchase price of the Securities Such loss will be greater if the Final Reference Level is less than the Best Chance Reference Level and can extend to the whole of their initial investment where the Final Reference Level is zero.

[If the Initial Amount is less than the Issue Price of the Securities and, if the difference between the Best Chance Reference Level and the Initial Amount is relatively small, investors may not fully participate in rises in the value or average value of the Underlying, and may suffer a loss even if the value or average value of the Underlying rises.

Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

2.8 *Basket Linked Best Chance Certificates*

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the performance of the Underlying. [Investors that buy the Securities at the Issue Date and hold the Securities for the entire term will suffer a loss if ratio between the Final Reference Level and the Best Chance Reference Level is lower than the ratio between the Initial Amount and the purchase price of the Securities Such loss will be greater if the Final Reference Level is less than the Best Chance Reference Level and can extend to the whole of their initial investment where the Final Reference Level is zero.

[If the Initial Amount is less than the Issue Price of the Securities and, if the difference between the Best Chance Reference Level and the Initial Amount is relatively small, investors may not fully participate in rises in the value or average value of the Underlying, and may suffer a loss even if the value or average value of the Underlying rises.

Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

2.9 *Single Underlying Linked Parachute Certificates*

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the performance of the Underlying.

Investors that buy the Securities at the Issue Date and hold the Securities for the entire term will suffer a loss where the Final Reference Level is less than the Parachute Threshold. If the Final Reference Level is zero, the Cash Settlement Amount would be zero and an investor would lose all of his investment in the Securities. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar

market risk to a direct investment in the Underlying and investors should take advice accordingly.

2.10 *Basket Linked Parachute Certificates*

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the performance of the Underlying.

Investors that buy the Securities at the Issue Date and hold the Securities for the entire term will suffer a loss where the Final Reference Level is less than the Parachute Threshold. If the Final Reference Level is zero, the Cash Settlement Amount would be zero and an investor would lose all of his investment in the Securities. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

2.11 *Single Underlying Linked Renewable Opportunity/Express Certificates*

Prospective investors should note that the return (if any) on their investment in the Securities will depend on the performance of the Underlying and whether a Knock-Out Event occurs.

In the absence of a Knock-Out Event, investors that buy the Securities at the Issue Date and hold the Securities for the entire term will receive the Cash Settlement Amount which will reflect the value of the Underlying at or around settlement, and will thus not achieve a return on the initial investment, but will avoid a loss, unless the value of the Underlying [at any time] [on the Valuation Date] [during the Barrier Determination Period] has been lower than the Determination Level. In the latter case, investors will receive **[If Cash Settlement only insert:** the Cash Settlement Amount reflecting the value of the Underlying on the Valuation Date **[If a Multiplier is used, insert:** subject to the Multiplier] divided by the **[Delete as applicable:** Determination Level/the value of the Underlying at or about the date of issuance of the Securities] **[If Cash Settlement or Physical Settlement may apply insert:** the Physical Settlement Amount. In such a case, if the value of the Underlying on the Valuation Date is below the value of the Underlying at or about the Issue Date, investors that have bought the Securities at the Issue Date and hold them for their entire term will make a loss on their investment and may lose their investment entirely if such value on the Valuation Date is zero.

Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

2.12 *Basket Linked Renewable Opportunity/Express Certificates*

Prospective investors should note that the return (if any) on their investment in the Securities will depend on the performance of the Underlying and whether a Knock-Out Event occurs.

In the absence of a Knock-Out Event, investors that buy the Securities at the Issue Date and hold the Securities for the entire term will receive the Cash Settlement Amount which will reflect the value of the Underlying at or around settlement, and will thus not achieve a return on the initial investment, but will avoid a loss, unless the value of the Underlying [at any time] [on the Valuation Date] [during the Barrier Determination Period] has been lower than the Determination Level. In the latter case, investors will receive **[If Cash Settlement only insert:** the Cash Settlement Amount reflecting the value of the Underlying on the Valuation Date **[If a Multiplier is used, insert:** subject to the Multiplier]

divided by the [**Delete as applicable:** Determination Level/the value of the Underlying at or about the date of issuance of the Securities] [**If Cash Settlement or Physical Settlement may apply insert:** the Physical Settlement Amount. In such a case, if the value of the Underlying on the Valuation Date is below the value of the Underlying at or about the Issue Date, investors that have bought the Securities at the Issue Date and hold them for their entire term will make a loss on their investment and may lose their investment entirely if such value on the Valuation Date is zero.

Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

2.13 *Single Underlying Linked Discount Certificates*

Prospective investors should note that the return (if any) on their investment in the Securities will depend on the performance of the Underlying. Investors that buy the Securities at the Issue Date and hold the Securities for the entire term if the value or average value of the Underlying on the specified day(s) is equal to or below the discounted value of the Underlying at or about the time of issuance of the Securities will receive no positive return or will make a loss. Such loss can extend to their whole initial investment where the value or average value of the Underlying is zero at this time. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

2.14 *Basket Linked Discount Certificates*

Prospective investors should note that the return (if any) on their investment in the Securities will depend on the performance of the Underlying. Investors that buy the Securities at the Issue Date and hold the Securities for the entire term if the value or average value of the Underlying on the specified day(s) is equal to or below the discounted value of the Underlying at or about the time of issuance of the Securities will receive no positive return or will make a loss. Such loss can extend to their whole initial investment where the value or average value of the Underlying is zero at this time. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

C. GENERAL RISK FACTORS RELATING TO THE SECURITIES

1. No Payments until Settlement

Prospective investors should note that no periodic interest payments or other distributions will be made during the term of the Security. A realisation in the secondary market of the Securities may be the only return potentially available to the investor prior to settlement of the Securities. However, investors should note the risk factors described under the headings "Market value" and "The Securities may be Illiquid" below in this regard.

2. Early Termination for Extraordinary Reasons, Illegality and Force Majeure

If the Issuer determines that, for reasons beyond its control, the performance of its obligations under the Securities has become illegal or impractical in whole or in part for any reason, or the Issuer determines that, for reasons beyond its control, it is no longer legal or practical for it to maintain its hedging arrangements with respect to the Securities for any reason, the Issuer may at its discretion and without obligation terminate early the Securities. If the Issuer terminates early the Securities, the Issuer will, if and to the extent permitted by applicable law, pay the holder of each such Security an amount determined by the Calculation Agent to be its fair market value notwithstanding the illegality or impracticality less the cost to the Issuer of unwinding any underlying related hedging arrangements.

3. Market Disruption Events, Adjustments and Early Termination of the Securities

If so indicated in the Conditions, the calculation agent may determine that a market disruption event has occurred or exists at a relevant time. Any such determination may delay valuation in respect of the Underlying which may have an effect on the value of the Securities and/or may delay settlement in respect of the Securities.

In addition, if so indicated in the Conditions, the Calculation Agent may make adjustments to the Conditions to account for relevant adjustments or events in relation to the Underlying including, but not limited to, determining a successor to the Underlying or its issuer or its sponsor, as the case may be. In addition, in certain circumstances, the Issuer may terminate early the Securities following any such event. In this case, in relation to each Security, the Issuer will pay an amount, if any, determined as provided in the Conditions.

Prospective purchasers should review the Conditions to ascertain whether and how such provisions apply to the Securities and what constitutes a event or relevant adjustment event.

4. Taxation

Potential purchasers and sellers of the Securities should be aware that they may be required to pay stamp taxes or other documentary charges in accordance with the laws and practices of the country where the Securities are transferred. Securityholders are subject to the provisions of General Condition 6 and payment and/or delivery of any amount due in respect of the Securities will be conditional upon the payment of certain taxes, duties and/or expenses as provided in the Product Conditions.

Potential purchasers who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, potential purchasers should be aware that tax regulations and their application by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time.

5. Exercise Notice and Certifications

If the Securities are subject to provisions concerning delivery of an exercise notice and such notice is received by either the relevant principal agent with a copy to the clearing agent after the latest time specified in the Conditions, it will not be deemed to be duly delivered until the next following business day. Such deemed delay may in the case of cash settled Securities increase or decrease the cash amount payable at settlement from what it would have been but for such deemed delivery. In the case of Securities which are exercisable on one day only or only during an exercise period, any exercise notice, if not delivered by the latest time specified in the Conditions, shall be void.

The failure to deliver any certifications required by the Conditions could result in the loss or inability to receive amounts or deliveries otherwise due under the Securities. Prospective purchasers should review the Conditions to ascertain whether and how such provisions apply to the Securities.

Securities not exercised in accordance with the Conditions will expire worthless. Prospective purchasers should review the Conditions to ascertain whether the Securities are subject to automatic exercise, and when and how an exercise notice may be validly delivered.

6. Time Lag after Exercise

Where the Securities are to be settled by a cash payment, then, upon their exercise, there may be a time lag between the time exercise occurs and the time the applicable cash amount relating to such exercise is determined. Any such delay between the time of exercise and the determination of the cash amount will be specified in the Conditions. However, such delay could be significantly longer, particularly in the case of a delay in exercise of such cash settled Securities arising from, as described below, any daily maximum exercise limitation or, as described below, upon the determination by the calculation agent that an event has occurred at any relevant time. The applicable cash amount could decrease or increase from what it would have been but for such delay.

Prospective purchasers should review the Conditions to ascertain whether and how such provisions apply to the Securities.

7. Re-offer Price

The Issuer may enter into distribution agreements with various financial institutions and other intermediaries as determined by the Issuer (collectively the "**Selling Agents**"). The Selling Agents will agree, subject to the satisfaction of certain conditions, to subscribe for the Securities at a price equivalent to or below the Issue Price. The Selling Agents have agreed to bear certain costs in connection with the issue of the Securities. A periodic fee may be payable to the Selling Agents in respect of all outstanding Securities up to and including the Expiry Date at a rate as determined by the Issuer. Such rate may vary from time to time. The Selling Agents will agree to comply with the selling restrictions set out in the document as amended and supplemented by the additional selling restrictions set out in the relevant distribution agreements and final terms of the prospectus.

The Issuer has the right to close the offering of the Securities prior to the end of the subscription period in case of adverse market conditions, as determined by the Issuer in its reasonable discretion, including but not limited to increased equity market volatility and increased currency exchange rate volatility.

8. [Risk Factors relating to the Underlying

The Underlying reflects the performance of certain selected funds, all of which are "hedge funds".

A hedge fund may trade and invest in a broad range of investment interests such as debt and equity securities, commodities, and foreign exchange and may enter into derivative transactions, including without limitation futures and options. A hedge fund may often be illiquid and may only be traded on a monthly, quarterly or even less frequent basis. For all these reasons and those described below, investing directly or indirectly in hedge funds is generally considered to be risky. If the underlying hedge fund does not perform sufficiently, the value of the Underlying will fall, possibly to zero.

The hedge funds reflected in the Underlying from time to time and their hedge fund trading advisors, as well as the markets and instruments in which they invest, are often not subject to review by governmental authorities, self-regulatory organisations or other supervisory authorities.

The following is a non-exhaustive list of the risks associated with investing in hedge funds:

(a) Investment Manager

The performance of a hedge fund will depend on the performance of the investments selected by key individuals associated with the day-to-day operations of the investment manager of the relevant hedge fund and upon the expertise of such key individuals. Any withdrawal or other cessation of investment activities on behalf of the Investment Manager by any of these individuals could result in losses and/or the termination or the dissolution of the relevant hedge fund. The investment strategy, investment restrictions and investment objectives of a hedge fund give its Investment Manager considerable discretion to invest the assets thereof and there can be no guarantee that the Investment Manager's investment decisions will be profitable or will effectively hedge against the risk of market or other conditions causing the value of the relevant hedge fund to decline.

An Investment Manager may receive performance related fees, which may be substantial. The manner of calculating such fees may create an incentive for the Investment Manager to make investments that are riskier or more speculative than would be the case if such fees were not paid to the Investment Manager. In addition, since the performance fees may be calculated on a basis that includes both unrealised and realised gains on the relevant hedge fund's assets, such fees may be greater than if they were based solely on realised gains. If a hedge fund does not perform or does not perform sufficiently to cover the fees, the value of the relevant hedge fund will fall and may fall to zero.

(b) Lack of segregation of assets

A prime broker may be, or may have been, appointed in relation to a hedge fund and will accordingly be responsible for custody, clearing, financing and reporting services with respect to the securities transactions entered into by the relevant Investment Manager. Where investments by a hedge fund are classified by the relevant prime broker as collateral, they may not be segregated by such prime broker from its own investments. As a result, such investments may be available to the creditors of such prime broker in the event of its insolvency and the relevant hedge fund may lose some or all of its interest in such investments.

(c) Hedging risks

An Investment Manager may utilise warrants, futures, forward contracts, swaps, options and other derivative instruments involving securities, currencies, interest rates, commodities and other asset categories (and combinations of the foregoing) for

the purposes of establishing "market neutral" arbitrage positions as part of its trading strategies and to hedge against movements in the capital markets. Hedging against a decline in the value of a portfolio position does not eliminate fluctuations in the values of portfolio positions or prevent losses if the values of such positions decline, but establishes other positions designed to gain from those same developments, thus moderating the decline in the portfolio positions' value. Such hedging transactions may also limit the opportunity for gain if the value of the portfolio position should increase. Moreover, it may not always be possible for the Investment Manager to execute hedging transactions, or to do so at prices, rates or levels advantageous to the hedge fund. The success of any hedging transactions will be subject to the movements in the direction of securities prices and currency and interest rates, and stability or predictability of pricing relationships. Therefore, while a hedge fund might enter into such transactions to reduce currency exchange rate and interest rate risks, unanticipated changes in currency or interest rates may result in poorer overall performance for the hedge fund than if it had not engaged in any such hedging transactions. In addition, the degree of correlation between price movements of the instruments used in a hedging strategy and price movements in the portfolio position being hedged may vary. Moreover, for a variety of reasons, the Investment Manager may not be able to, or may not seek to, establish a perfect correlation between such hedging instruments and the portfolio holdings being hedged. An imperfect correlation may prevent a hedge fund from achieving the intended hedge or expose a hedge fund to risk of loss.

(d) Leverage

Hedge funds may be able to borrow (or employ leverage) without limitation and may utilise various lines of credit and other forms of leverage, including swaps and repurchase agreements. While leverage presents opportunities for increasing a hedge fund's total return, it has the effect of potentially increasing losses as well. If income and appreciation on investments made with borrowed funds are less than the required interest payments on the borrowings, the value of the hedge fund will decrease. Additionally, any event which adversely affects the value of an investment by a hedge fund would be magnified to the extent such hedge fund is leveraged. The cumulative effect of the use of leverage by a hedge fund in a market that moves adversely to such hedge fund's investments could result in a substantial loss to the hedge fund that would be greater than if the hedge fund were not leveraged. Furthermore, any use by the hedge fund of swaps and other derivatives to gain exposure to certain investments may/will leverage the hedge fund's assets, and subject it to the risks described above.

(e) Risks associated with the use of margin borrowings

An Investment Manager's anticipated use of short-term margin borrowings will result in certain additional risks to the relevant hedge fund. For example, if securities pledged to brokers to secure a hedge fund's margin accounts decline in value, such hedge fund could be subject to a "margin call", pursuant to which it must either deposit additional funds with the broker or be the subject of mandatory liquidation of the pledged securities to compensate for the decline in value. In the event of a sudden drop in the value of the hedge fund's assets, the Investment Manager might not be able to liquidate assets quickly enough to pay off the margin debt. In such a case, the relevant prime broker may liquidate additional assets of the hedge fund, in its sole discretion, in order to satisfy such margin debt. The premiums for certain options traded on non-US exchanges may be paid for on margin. If the Investment Manager sells an option on a futures contract, it may be required to deposit margin in an amount equal to the margin requirement established for the futures contract underlying the option and, in addition, an amount substantially equal to the premium for the option. The margin requirements imposed on the writing of options, although adjusted to reflect the probability that out-of-the-money options will not be exercised,

can in fact be higher than those imposed in dealing in the futures markets directly. Whether any margin deposit will be required for over-the-counter options will depend on the agreement of the parties to the transaction.

(f) Low credit quality securities

Hedge funds may make particularly risky investments that also may offer the potential for correspondingly high returns. As a result, a hedge fund may lose all or substantially all of its investment in any particular instance. In addition, there is no minimum credit standard which is a prerequisite to a hedge fund's investment in any security. The debt securities in which a hedge fund is permitted to invest may be rated lower than investment grade and hence may be considered to be "junk bonds" or distressed securities.

(g) Distressed securities

Hedge funds may invest in securities of US and non-US issuers in weak financial condition, experiencing poor operating results, having substantial capital needs or negative net worth, facing special competitive or product obsolescence problems, or that are involved in bankruptcy or reorganisation proceedings. Investments of this type may involve substantial financial and business risks that can result in substantial or, at times, even total losses. Among the risks inherent in investments in troubled entities is that it frequently may be difficult to obtain information as to the true condition of such issuers. Such investments also may be adversely affected by laws relating to, among other things, fraudulent transfers and other voidable transfers or payments, lender liability and a court's power to disallow, reduce, subordinate or disenfranchise particular claims. The market prices of such securities are also subject to abrupt and erratic market movements and above-average price volatility, and the spread between the bid and asked prices of such securities may be greater than those prevailing in other securities markets. It may take a number of years for the market price of such securities to reflect their intrinsic value. In corporate reorganisations, there exists the risk that it will not be possible to effect the reorganisation (due to, for example, failure to obtain requisite approvals) and in liquidations (both in and out of bankruptcy) and reorganisations there exists the risk that the liquidation or reorganisation will be delayed (for example, until various liabilities, actual or contingent, have been satisfied) or will result in a distribution to the hedge fund of cash or a new security the value of which will be less than the purchase price of the security in respect of which such distribution was made.

(h) Derivatives

Hedge funds may invest in complex derivative instruments which seek to modify or replicate the investment performance of particular securities, commodities, currencies, interest rates, indices or markets on a leveraged or unleveraged basis. These instruments generally have counterparty risk and may not perform in the manner expected, thereby resulting in greater loss or gain to the hedge fund. These investments are all subject to additional risks that can result in a loss of all or part of an investment, in particular, interest rate and credit risk, volatility, world and local market price and demand, and general economic factors and activity. Derivatives may have very high leverage embedded in them that can substantially magnify market movements, meaning that losses could in some cases exceed the value of the investment. Hedge funds may also buy or sell options on a variety of underlying assets. The risk of writing (selling) options is unlimited in that the writer of the option must purchase (in the case of a put) or sell (in the case of a call) the underlying security at a certain price upon exercise. There is no limit on the price a hedge fund may have to pay to meet its obligations as an option writer. As assets that can have no value at settlement, options can introduce a significant additional element of leverage and risk to a hedge fund's market exposure. The use of certain options strategies can subject a hedge fund to investment losses that are significant even in

the context of positions for which the relevant Investment Manager has correctly anticipated the direction of market prices or price relationships.

(i) Special risks associated with trading in over-the-counter derivatives

Some of the markets in which a hedge fund may effect derivative transactions are "over-the-counter" or "interdealer" markets, which may be illiquid and are sometimes subject to larger spreads than exchange-traded derivative transactions. The participants in such markets are typically not subject to credit evaluation and regulatory oversight, which would be the case with members of "exchange-based" markets. This exposes the hedge fund to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a credit or liquidity problem with the counterparty. Delays in settlement may also result from disputes over the terms of the contract (whether or not bona fide) since such markets may lack the established rules and procedures for swift settlement of disputes among market participants found in "exchange-based" markets. These factors may cause a hedge fund to suffer a loss due to adverse market movements while replacement transactions are executed or otherwise. Such "counterparty risk" is present in all swaps, and is accentuated for contracts with longer maturities where events may intervene to prevent settlement, or where the hedge fund has concentrated its transactions with a single or small group of counterparties. A hedge fund generally is not restricted from dealing with any particular counterparty or from concentrating any or all of its transactions with one counterparty. In addition, if an Investment Manager engages in such over-the-counter transactions, the relevant hedge fund will be exposed to the risk that the counterparty (usually the relevant prime broker) will fail to perform its obligations under the transaction. The valuation of over-the-counter derivative transactions is also subject to greater uncertainty and variation than that of exchange-traded derivatives. The "replacement" value of a derivative transaction may differ from the "liquidation" value of such transaction, and the valuations provided by a hedge fund's counterparty to such transactions may differ from the valuations provided by a third party or the value upon liquidation of the transaction. Under certain circumstances it may not be possible for a hedge fund to obtain market quotations for the value of an over-the-counter derivatives transaction. A hedge fund may also be unable to close out or enter into an offsetting over-the-counter derivative transaction at a time it desires to do so, resulting in significant losses. In particular, the closing-out of an over-the-counter derivative transaction may usually only be effected with the consent of the counterparty to the transaction. If such consent is not obtained, a hedge fund will not be able to close out its obligations and may suffer losses.

(j) Illiquid investments

Hedge funds may make investments which are subject to legal or other restrictions on transfer or for which no liquid market exists, such as private placements. The market prices, if any, of such investments tend to be more volatile and it may be impossible to sell such investments when desired or to realise their fair value in the event of a sale. Moreover, securities in which a hedge fund may invest include those that are not listed on a stock exchange or traded in an over-the-counter market. As a result of the absence of a public trading market for these securities, they are likely to be less liquid than publicly traded securities. There may be substantial delays in attempting to sell non-publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices realised from these sales could be less than those originally paid. Furthermore, companies whose securities are not registered or publicly traded are not subject to the disclosure and other investor protection requirements which would be applicable if their securities were registered or publicly traded. In addition, futures positions may become illiquid because, for example, most US commodity exchanges limit fluctuations in certain futures contract prices during a single day by regulations referred to as "daily price fluctuation limits" or "daily limits".

Under such daily limits, no trades may be executed at prices beyond the daily limits. Once the price of a contract for a particular future has increased or decreased by an amount equal to the daily limit, positions can neither be taken nor liquidated unless traders are willing to effect trades at or within the limit. Futures contract prices in various commodities occasionally have exceeded the daily limit for several consecutive days with little or no trading. Similar occurrences could prevent an Investment Manager from promptly liquidating unfavourable positions and subject the relevant hedge fund to substantial losses. In addition, an exchange or regulatory authority may suspend trading in a particular contract, order immediate liquidation and settlement of a particular contract, or order that trading in a particular contract be conducted for liquidation only. The illiquidity of positions may result in significant unanticipated losses.

(k) Legal and regulatory risks

Legal and regulatory changes could adversely affect a hedge fund. Regulation of investment vehicles, such as hedge funds and of many of the investments an Investment Manager is permitted to make on behalf of a hedge fund, is still evolving and therefore subject to change. In addition, many governmental agencies, self-regulatory organisations and exchanges are authorised to take extraordinary actions in the event of market emergencies. The effect of any future legal or regulatory change on a hedge fund is impossible to predict, but could be substantial and adverse.

(l) Short-selling

A short sale involves the sale of a security that a hedge fund does not own in the hope of purchasing the same security (or a security exchangeable therefor) at a later date at a lower price. To make delivery to the buyer, the hedge fund must borrow the security and is obligated to return the security to the lender, which is accomplished by a later purchase of the security. The hedge fund realises a profit or a loss as a result of a short sale if the price of the security decreases or increases respectively between the date of the short sale and the date on which the hedge fund covers its short position, i.e., purchases the security to replace the borrowed security. A short sale involves the theoretically unlimited risk of an increase in the market price of the security that would result in a theoretically unlimited loss.

(m) Commodity futures

Commodity futures markets are highly volatile. Hedge funds investing in these commodity markets must be able to analyse correctly such markets, which are influenced by, among other things, changing supply and demand relationships, weather, governmental, agricultural, commercial and trade programmes and policies designed to influence commodity prices, world political and economic events, and changes in interest rates. Moreover, investments in futures and options contracts involve additional risks including, without limitation, leverage (margin is usually a percentage of the face value of the contract and exposure can be nearly unlimited). A hedge fund's futures positions may be illiquid because certain commodity exchanges limit fluctuations in certain futures contract prices during a single day by regulations referred to as "daily price fluctuation limits" or "daily limits". Under such daily limits, during a single trading day no trades may be executed at prices beyond the daily limits. Once the price of a contract for a particular future has increased or decreased by an amount equal to the daily limit, positions in the future can neither be taken nor liquidated unless traders are willing to effect trades at or within the limit. This could prevent a hedge fund from promptly liquidating unfavourable positions and subject it to substantial losses.

(n) Hedge fund compensation

A hedge fund typically provides for a performance fee or allocation, over and above a

basic advisory fee, to its general partner, Investment Manager or person serving in an equivalent capacity. Performance fees or allocations could create an incentive for an Investment Manager to choose riskier or more speculative underlying investments than would otherwise be the case.

(o) "Soft Dollar" payments

In selecting brokers, banks and dealers to effect transactions on behalf a hedge fund, an Investment Manager may consider such factors as price, the ability of the brokers, banks and dealers to effect transactions promptly and reliably, their facilities, the operational efficiency with which transactions are effected, their financial strength, integrity and stability and the competitiveness of commission rates in comparison with other brokers, banks and dealers, as well as the quality, comprehensiveness and frequency of any products or services provided, or expenses paid, by such brokers, banks and dealers. Products and services may include research items used by the Investment Manager in making investment decisions, and expenses so paid may include general overhead expenses of the Investment Manager. Such "soft dollar" benefits may cause an Investment Manager to execute a transaction with a specific broker, bank, or dealer even though it may not offer the lowest transaction fees. An Investment Manager is not required to (i) obtain the lowest brokerage commission rates or (ii) combine or arrange orders to obtain the lowest brokerage commission rates on its brokerage business. If an Investment Manager determines that the amount of commissions charged by a broker is reasonable in relation to the value of the brokerage and research products or services provided by such broker, it may execute transactions for which such broker's commissions are greater than the commissions another broker might charge. Such brokerage commissions may be paid to brokers who execute transactions for the relevant managed account and which supply, pay for or rebate a portion of the hedge fund's brokerage commissions to the hedge fund for payment of the cost of property or services (such as research services, telephone lines, news and quotation equipment, computer facilities and publications) utilised by the relevant Investment Manager or its affiliates. An Investment Manager will have the option to use "soft dollars" generated by its investment activities to pay for the property and services described above. The term "soft dollars" refers to the receipt by an Investment Manager of property and services provided by brokers (or futures commission merchants in connection with futures transactions) without any cash payment by such Investment Manager based on the volume of revenues generated from brokerage commissions for transactions executed for clients of the Investment Manager. An Investment Manager will consider the amount and nature of research services provided by brokers, as well as the extent to which such services are relied upon, and will attempt to allocate a portion of the brokerage business of the relevant managed account on the basis of those considerations.

(p) Highly volatile markets

The prices of commodities contracts and derivative instruments, including futures and options, are highly volatile. Price movements of forward contracts, futures contracts, and other derivative contracts in which hedge funds may invest are influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programmes and policies of governments, and US and international political and economic events and policies. In addition, governments from time to time intervene, directly or indirectly and by regulation in certain markets, particularly those in currencies and interest rate related futures and options. Such intervention often is intended directly to influence prices and may, together with other factors, cause all of such markets to move rapidly in the same direction because of, among other things, interest rate fluctuations. Hedge funds also are subject to the risk of the failure of any of the exchanges on which their positions trade or of their clearinghouses.

(q) Investments in emerging or developing markets

An Investment Manager may invest in securities of issuers that are not located in, or subject to regulation in, developed countries or securities which are not denominated in the currency of, or are not traded in, developed countries. Such investments involve certain special risks, including risks associated with political and economic uncertainty, adverse governmental policies, restrictions on foreign investment and currency convertibility, currency exchange rate fluctuations, possible lower levels of disclosure and regulation, and uncertainties as to the status, interpretation and application of laws, including, but not limited to, those relating to expropriation, nationalisation and confiscation. Companies not located in developed countries are also not generally subject to uniform accounting, auditing and financial reporting standards, and auditing practices and requirements may not be comparable to those applicable to companies in developed countries. Further, securities not traded in developed countries tend to be less liquid and the prices of such securities more volatile. In addition, settlement of trades in some such markets may be much slower and more subject to failure than in markets in developed countries. An investment in emerging or developing countries could impose additional costs on the relevant managed account. Brokerage commissions generally are higher in emerging or developing countries and currency conversion costs could be incurred when an Investment Manager changes investments from one country to another. Increased custodian costs as well as administrative difficulties (such as the applicability of the laws of the jurisdictions of emerging or developing countries to custodians in such jurisdictions in various circumstances, including bankruptcy, ability to recover lost assets, expropriation, nationalisation and record access) may also arise from the maintenance of assets in such emerging or developing countries.

(r) Special risks associated with trading in forward contracts

Hedge funds may engage in forward trading. Forward contracts, unlike futures contracts, are not traded on exchanges and are not standardised, rather, banks and dealers act as principals in these markets, negotiating each transaction on an individual basis. Forward and "cash" trading is substantially unregulated; there is no limitation on daily price movements and speculative position limits are not applicable. The principals who deal in the forward markets are not required to continue to make markets in the currencies or commodities they trade and these markets can experience periods of illiquidity, sometimes of significant duration. There have been periods during which certain participants in these markets have been unable to quote prices for certain currencies or commodities or have quoted prices with an unusually wide spread between the price at which they were prepared to buy and that at which they were prepared to sell. Disruptions can occur in any market traded by the hedge funds due to unusually high trading volume, political intervention or other factors. Market illiquidity or disruption could result in major losses to a hedge fund.

(s) Concentration of investments

Although in general a hedge fund will aim to invest in diversified investments, the Investment Manager in respect of a hedge fund may invest such hedge fund's assets in a limited number of investments that may be concentrated in a few countries, industries, sectors of an economy or issuers. As a result, although investments by hedge funds should be diversified, the negative impact on the value of the relevant hedge fund from adverse movements in a particular country, economy or industry or in the value of the securities of a particular issuer could be considerably greater than if such hedge fund were not permitted to concentrate its investments to such an extent.

(t) Turnover

Hedge funds may invest on the basis of certain short-term market considerations. As a result, the turnover rate within hedge funds is expected to be significant, potentially

involving substantial brokerage commissions, fees and other transaction costs.

(u) Operational and human error

The success of a hedge fund depends in part upon the relevant Investment Manager's accurate calculation of price relationships, the communication of precise trading instructions and ongoing position evaluations. In addition, an Investment Manager's strategies may require active and ongoing management of durations and other variables, and dynamic adjustments to a hedge fund's positions. There is the possibility that, through human error, oversight or operational weaknesses, mistakes could occur in this process and lead to significant trading losses and an adverse effect on the relevant net asset value.

(v) Reliability of valuations

Hedge funds are valued pursuant to the hedge fund's instrument governing such valuations. As a general matter, the governing instruments of hedge funds provide that any securities or investments which are illiquid, not traded on an exchange or in an established market or for which no value can be readily determined, will be assigned such fair value as the Investment Manager may determine in its judgement based on various factors. Such factors include, but are not limited to, aggregate dealer quotes or independent appraisals. Such valuations may not be indicative of what actual fair market value would be in an active, liquid or established market.

(w) Investment strategies

Hedge funds are a relatively heterogeneous asset class in which the managers may determine their strategies in their sole discretion. As a consequence there is no commonly accepted definition for the strategies employed by hedge funds. It can even be impossible to associate certain hedge funds with only one specific definition of a strategy. Furthermore there are various levels on which classifications can be made: any general strategy consists of various sub-strategies which may be very different from each other.]

9. [Additional Product Specific Risk Factors

CONSIDERATION OF INCLUSION OF ADDITIONAL RISK FACTORS DUE TO PARTICULAR NATURE OF UNDERLYING OR TERMS OF THE SECURITIES]

D. MARKET FACTORS

1. Market Factors

1.1 Valuation of the Underlying

An investment in the Securities involves risk regarding the value of the basket constituents comprising the Underlying. The value of the basket constituents may vary over time and may increase or decrease by reference to a variety of factors which may include corporate actions, macroeconomic factors and speculation.

1.2 The Historical Performance of the Basket Constituents is not an Indication of Future Performance

The historical value (if any) of the basket constituents does not indicate the future performance of the basket constituents. Changes in the value of the basket constituents will affect the trading price of the Securities, but it is impossible to predict whether the value of the basket constituents will rise or fall.

1.3 The Basis of Calculating the Level of the Basket Constituents may Change over Time

The basis of calculating the level of the basket constituents may from time to time be subject to change (as described in *Information relating to the Underlying*) which may affect the market value of the Securities at any time and therefore the cash amount payable on settlement.

1.4 The Value of the Basket Constituents of the Underlying will Affect its Value

The value of the Underlying on any day will reflect the value of the basket constituents on such day. Changes in the composition of the Underlying and factors (including those described in these Risk Factors) which either affect or may affect the value of the basket constituents will affect the value of the Securities. The historical value (if any) of the basket constituents does not indicate their future performance. Where the value of the constituents is determined in a different currency to the settlement currency of the Securities, investors may be exposed to exchange rate risk.

1.5 Exchange Rate Risk

Prospective investors should be aware that an investment in the Securities may involve exchange rate risks. For example, the settlement currency of the Securities may be different from the currency of an investor's home jurisdiction or the currency in which an investor wishes to receive funds.

Exchange rates between currencies are determined by factors of supply and demand in the international currency markets which are influenced by macroeconomic factors, speculation and central bank and government intervention or other political factors (including the imposition of currency controls and restrictions). Fluctuations in exchange rates may affect the value of the Securities and any amounts payable in respect of the Securities.

1.6 Interest Rate Risk

An investment in the Securities may involve interest rate risk where there are fluctuations in the interest rates payable on deposits in the settlement currency of the Securities. This may influence the market value of the Securities.

Interest rates are determined by factors of supply and demand in the international money markets which are influenced by macroeconomic factors, speculation and central bank and government intervention or other political factors. Fluctuations in short term and/or long term interest rates may affect the value of the Securities. **[Insert if required:** Since the Underlying [is/includes] a fixed income security, the value of the Securities is expected to be particularly affected by interest rate fluctuations.]

2. Market Value

The market value of the Securities during their term depends primarily on the value and the volatility of the basket constituents and the level of interest rates for instruments of comparable maturities.

The level of market volatility is not purely a measurement of the actual volatility, but is largely determined by the prices for instruments which offer investors protection against such market volatility. The prices of these instruments are determined by forces of supply and demand in the options and derivative markets generally. These forces are, themselves, affected by factors such as actual market volatility, expected volatility, macroeconomic factors and speculation.

Interest rate changes generally have the same impact on the value of the Securities as for fixed rate bonds: Rising interest rates will under normal conditions result in a lower, falling interest rates in a higher value of the Securities.

[If the Securities are capital protected, insert: The value of the Securities during their term will under normal market conditions not fall below the value of a *[If the Securities do not provide for a fixed interest insert:* zero coupon] bond with comparable maturity *[If the Underlying consists of an index or otherwise calculated by reference to constituents insert:*

The value of the Underlying on any day will reflect the value of its constituents on such day. Changes in the composition of the Underlying and factors (including those described above) which either affect or may affect the value of the constituents, will affect the value of the Underlying and therefore may affect the return on an investment in the Securities.]

3. Certain Hedging Considerations

Certain risks apply to purchasers that acquire the Securities for hedging purposes.

Prospective purchasers intending to purchase the Securities for the purpose of hedging their exposure to the Underlying or any basket constituents should recognise the risks of utilising the Securities in such manner. No assurance is or can be given that the value of the Securities will correlate with movements in the value of the Underlying or any basket constituents and the composition of the Underlying or any basket constituents may change over time. Furthermore, it may not be possible to liquidate the Securities at a price which directly reflects the value of the Underlying or any basket constituents. Therefore, there can be no assurance as to the level of any correlation between the return on an investment in the Securities and the return on a direct investment in the Underlying or any basket constituents.

Hedging transactions in order to limit the risks associated with the Securities might not be successful.

4. The Securities may be Illiquid

It is not possible to predict if and to what extent a secondary market may develop in the Securities or at what price the Securities will trade in the secondary market or whether such market will be liquid or illiquid. If so specified in this document, application has been made to list or quote or admit to trading the Securities on the stock exchange(s) or quotation system(s) specified. If the Securities are so listed or quoted or admitted to trading, no assurance is given that any such listing or quotation or admission to trading will be maintained. The fact that the Securities may be so listed or quoted or admitted to trading does not necessarily lead to greater liquidity than if they were not so listed or quoted or admitted to trading.

If the Securities are not listed or quoted or admitted to trading on any stock exchange or quotation system, pricing information for the Securities may be more difficult to

obtain and the liquidity of the Securities may be adversely affected. The liquidity of the Securities may also be affected by restrictions on offers and sales of the Securities in some jurisdictions.

The Issuer may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation. Since the Issuer may be the only market-maker in the Securities, the secondary market may be limited. The more limited the secondary market is, the more difficult it may be for holders of the Securities to realise value for the Securities prior to settlement of the Securities.

5. Creditworthiness of the Issuer

The value of the Securities is expected to be affected, in part, by investors' general appraisal of the Issuer's creditworthiness. Any reduction in the creditworthiness of the Issuer could result in a reduction in the value of the Securities. If a bankruptcy proceeding is commenced in respect to the Issuer, the return to a Securityholder may be limited and any recovery will likely be substantially delayed.

E. CONFLICTS OF INTEREST

1. Transactions Involving the Underlying

The Issuer and its affiliates may from time to time engage in transactions involving the Underlying for their proprietary accounts and for accounts under their management. Such transactions may have a positive or negative effect on the value of the Underlying and consequently upon the value of the Securities. As used in this section "Conflicts of Interest", references to the Underlying shall be deemed to include any of its constituents, if applicable.

2. Acting in other Capacities

The Issuer and its affiliates may from time to time act in other capacities with regard to the Securities, such as calculation agent, agent and/or index sponsor. Such functions can allow the Issuer to determine the composition of the Underlying or to calculate its value, which could raise conflicts of interest where securities or other assets issued by the Issuer itself or a group company can be chosen to be part of the Underlying, or where the Issuer maintains a business relationship with the issuer of such securities or assets.

3. Issuing of other Derivative Instruments in respect of the Underlying

The Issuer and its affiliates may issue other derivative instruments in respect of the Underlying and the introduction of such competing products into the marketplace may affect the value of the Securities.

4. Conducting of Hedging Transactions

The Issuer may use all or some of the proceeds received from the sale of the Securities to enter into hedging transactions. The Issuer believes that such hedging activity will under normal circumstances not have a material impact on the value of the Securities. However, it cannot be assured that the Issuer's hedging activities will not affect such value. The value of the Securities might in particular be affected by the liquidation of all or a portion of the hedging positions (a) at or about the time of the maturity or expiration of the Securities or (b), if the Securities provide for a knock-out, knock-in or a similar feature, at the time when the price or value of the Underlying approaches the relevant price or level for the knock-out, knock-in or other feature.

5. Issue Price

The issue price charged for the Securities can, in addition to loading charges, management or other fees charged, comprise a premium on the original mathematical ("fair") value of the Securities which is not visible to investors. Such premium is determined by the Issuer in its discretion and can differ from premiums charged by other issuers for comparable securities.

6. Market-Making for the Securities

The Issuer, or an agent on its behalf, may act as market-maker for the Securities. In such market-making, the Issuer or its agent will, to a large extent, determine the price of the Securities itself. The prices quoted by such market-maker will usually not correspond to the prices which would have formed without such market-making and in a liquid market.

Circumstances taken into account by the market-maker when setting the quoted bid-offer prices in the secondary market notably include the Securities' fair value, which, among other things, depends on the value of the Underlying, as well as a certain bid-offer spread targeted by the market-maker. The market-maker will in addition regularly take into account a loading charge originally raised for the Securities and

any fees or costs which at maturity of the Securities are to be subtracted from the cash amount (including management, transaction or other fees charged on the basis of the Product Conditions). Furthermore, the prices quoted in the secondary market will be influenced, for example, by a premium on the Securities' original value contained in their issue price (see under 5. above), and by dividends paid or received by the Underlying, or its constituents, or other proceeds which, due to the Securities' design, are economically attributable to the Issuer.

The bid-offer spread for the Securities will be set by the market-maker based on supply and demand for the Securities and certain revenue considerations.

Certain costs, like for example management fees charged on the basis of the Product Conditions, are in many cases not taken out of the quoted prices on a consistent basis over the term of the Securities (pro rata temporis), but are subtracted from the Securities' fair value completely at an earlier point in time, as determined by the market-maker in its discretion. The same applies for a premium contained in the issue price and for dividends and other proceeds of the Underlying which, due to the Securities' design, are economically attributable to the Issuer, which often are not subtracted when the Underlying, or its constituents, are traded "ex dividend", but at an early stage of the Securities' term based on expected dividends for the entire term or a certain time span. The rate at which such costs are subtracted depends, *inter alia*, on the net flow back of Securities to the market-maker.

Subsequently, the prices quoted by the market-maker can substantially differ from the fair value of the Securities, or the value to be expected economically on the basis of the factors mentioned above, at the relevant time. In addition, the market-maker can at any time alter the methodology used to set the quoted prices, e. g. increase or decrease the bid-offer spread.

7. Market-Making for the Underlying

The Issuer may, in certain cases, act as a market-maker for the Underlying, which might in particular be the case when the Issuer has also issued the Underlying. By such market-making, the Issuer will, to a large extent, determine the price of the Underlying, and consequently influence the value of the Securities itself. The prices quoted by the Issuer in its market-making function will not always correspond to the prices which would have prevailed without such market-making and in a liquid market.

8. Acting as Underwriter or otherwise for the issuer of Underlying

The Issuer and its affiliates may also act as underwriter in connection with future offerings of the Underlying or may act as financial adviser to the issuer of an Underlying or in a commercial banking capacity for the issuer of an Underlying. Such activities could present certain conflicts of interest and may affect the value of the Securities.

9. Obtaining of Non-public Information

The Issuer and/or its affiliates may acquire non-public information with respect to the Underlying, and neither the Issuer nor any of its affiliates undertakes to disclose any such information to any Securityholder. In addition, one or more of the Issuer's affiliates may publish research reports with respect to the Underlying. Such activities could present conflicts of interest and may affect the value of the Securities.

B. GENERAL DESCRIPTION OF THE PROGRAMME

1. General Information

The Base Prospectus published by the Issuer contains information on securities from the 'Certificates' product category, and on a variety of individual product types within this category with differing economic conditions, which may be issued under the Base Prospectus (see section 3 below for an overview of the relevant securities).

A base prospectus does not generally contain all the information necessary for an investment decision, since the design of the respective security is not complete until immediately prior to the start of the offering, rather than on publication of the base prospectus. The base prospectus thus presents a summary of the design possibilities for the securities which may be issued under the respective base prospectus.

Investors who require information about a certain security type with certain economic conditions from the Base Prospectus will find the relevant information herein if they read the sections of the document that do not specify particular security types and economic conditions, and if, when reading the sections containing information on individual security types and economic conditions, they read only those parts relating to the security type and underlying economic conditions in question. The latter sections use square brackets to indicate those parts which only apply to certain security types and economic conditions. These sections begin with instructions in italics for the respective scope of application.

Before reading the Base Prospectus, investors should first examine the table of contents. This shows which sections contain general information and which contain specific information on certain security types and economic conditions, and indicates the page numbers on which each section begins.

No investment decision should be made until the final terms published for the relevant Securities have been read in detail.

2. Information on the Conditions of the Securities

The relevant rights under the securities which can be issued under the Base Prospectus are laid down in the respective **Conditions** of the Securities. These consist of the **Product Conditions**, which are individually designed for each security, and the **General Conditions**, which contain general rules relating to the securities covered by the Base Prospectus and which apply, in the version set out in the Base Prospectus, to all securities.

Within the **Product Conditions**, **Product Condition 1 – Definitions** – contains the definitions applicable for the entire Product Conditions. This section being a definitions section, it should be read only in connection with the other Product Conditions, i.e. wherever defined terms are used in such parts, the applicable definitions would be looked up in Product Condition 1. Investors should read only the definitions for the security type they are interested in and within such definitions only such parts which contain economic features which are found to be interesting (such parts are, as mentioned above, indicated by square brackets and instruction language).

Product Condition 2 – Form – contains the relevant rules with regard to the form and transferability of the Securities. Such Product Condition exists in two variations, whereas one is relevant for all certificates and warrants and the other for all notes.

Product Condition 3 – Rights and Procedure – determines the right of the holder of the security under the security to receive – payment of a cash amount, interest and/or physical delivery of an asset. Furthermore Product Condition 3 contains rules on the exercise of the securities and if applicable the exercise procedure as well as further

rules in connection with this or the right to receive payment or delivery. The Base Prospectus contains different templates for Product Condition 3, which are applicable depending on the type of security (see below under 3a)) and economic features of each security (i.e. exercise type, exercise requirement type, settlement type, issuer redemption type, features, see below under 3b)). Investors should read only the templates applicable for the product type and the economic features, which they are interested in.

Product Condition 4 – Adjustment Provisions – contains rules relating to the occurrence of a market disruption and relating to adjustments to the securities in case of the occurrence of certain other events. The Base Prospectus contains different templates of Product Condition 4, relating to the type of underlying, to which the securities make reference; investors should read only the template applicable for the type of underlying which they are interested in.

Product Conditions 5 – Governing Law and Place of Jurisdiction – determines the governing law, which can be German or English law, as well as the jurisdiction.

V. GENERAL INFORMATION

A. GENERAL TAXATION INFORMATION

1. Introduction

Purchasers and/or sellers of Securities may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of transfer in addition to the issue price or purchase price of the Securities.

Transactions involving the Securities (including purchases, transfers, exercise or non-exercise or redemption, the accrual or receipt of any interest payable on the Securities and the death of a holder of any Securities may have tax consequences for holders and potential purchasers which may depend, amongst other things, upon the tax status of the holder or potential purchaser and may relate to – amongst other taxes and duties – stamp duty, stamp duty reserve tax, income tax, corporation tax, trade tax, capital gains tax, withholding tax, solidarity surcharge and inheritance tax.

For more specific information on the tax consequences please see the appropriate Country Specific Information.

General Condition 6 (Taxation) in the General Conditions should also be considered carefully by all potential purchasers of any Securities.

Potential purchasers of Securities are advised to consult their own tax advisors as to the tax consequences of transactions involving the Securities.

2. Taxation in Luxembourg

The following summary is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Securities should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

2.1 *Non-resident Holders of Securities*

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-residents holders of Securities, nor on accrued but unpaid interest in respect of the Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Securities held by non-resident holders of Securities.

However, under the Luxembourg laws of 21 June 2005 (the **Laws**), implementing the Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the **Territories**), payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner or a residual entity, as defined by the Laws, which are resident of, or established in, an EU Member State (other than Luxembourg) or one of the Territories will be subject to a withholding tax unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the fiscal authorities of his/her/its country of residence or establishment, or, in the case of an individual beneficial owner, has provided a tax certificate issued by the fiscal authorities of his/her country of residence in the required format to the relevant paying agent. Where withholding tax is applied, it will be levied at a rate of 15% during the first three-year period starting 1 July 2005, at a rate of 20% for the subsequent three-year period and at a rate of 35% thereafter.

Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Securities coming within the scope of the Laws would at present be subject to withholding tax of 15%.

2.2 *Resident Holders of Securities*

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Securities, nor on accrued but unpaid interest in respect of Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Securities held by Luxembourg resident holders of Securities.

However, under the Luxembourg law of 23 December 2005 (the **Law**) payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner who is resident of Luxembourg will be subject to a withholding tax of 10%. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Securities coming within the scope of the Law would be subject to withholding tax of 10%.

3. **Stamp Duty and Withholding Tax in Germany**

The following paragraphs, which are intended as a general guide on stamp duty and withholding tax only, are based on current legislation and German tax authority practice. They summarise certain aspects of German taxation only which may be applicable to the Securities but do not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase, hold, transfer or redeem the Securities. In particular, this general summary does not consider any specific facts or circumstances that may apply to a particular purchaser. Potential purchasers of the Securities who are in any doubt about their tax position on purchase, ownership, transfer or exercise or non-exercise or redemption, as the case may be, of any Security should consult their own tax advisers.

The purchase or sale of a Security is not subject to stamp, value added or similar taxes or charges in Germany, regardless of the place of issuance, execution and delivery of the Security.

Payments in respect of interest (if any) made in respect of a Security to its holder if made by an Agent having its specified office in Germany or any other financial institution in Germany or if made by the Issuer from Germany may be subject to withholding tax. For a more detailed description of the German withholding tax position the appropriate Country Specific Information should be considered carefully.

4. **Stamp Duty and Withholding Tax in the United Kingdom**

The following paragraphs, which are intended as a general guide only, are based on current legislation and United Kingdom HM Revenue & Customs practice. They summarise certain aspects of United Kingdom taxation only and customs which may be applicable to the Securities but do not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase the Securities. In particular, this general summary does not consider any specific facts or circumstances that may apply to a particular purchaser. Potential purchasers of the Securities who are in any doubt about their tax position on purchase, ownership, transfer or exercise or non-exercise or redemption, as the case may be, of any Security should consult their own tax advisers.

A purchaser or a Security may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of purchase in addition to the purchase price of such Security.

Potential purchasers of the Securities should note that the Global Security may constitute an instrument which is subject to United Kingdom stamp duty on issue by reference to the amount of the consideration paid or the value of the Security. However, the Global Security will be executed and delivered outside the United Kingdom and should not be brought into the United Kingdom save for the purposes of enforcement. So long as the Global Security is held outside the United Kingdom, it will not be necessary to pay United Kingdom stamp duty or interest or penalties in connection therewith. However, if the Global Security were brought into the United Kingdom (for example, for enforcement purposes), United Kingdom stamp duty may be required to be paid on the Global Security (subject to the availability of exemptions and reliefs). In addition, where the Global Security is executed outside the United Kingdom is subsequently brought into the United Kingdom and stamped, interest on the amount of the unpaid stamp duty will be payable in addition to the stamp duty in respect of the period from the expiry of 30 days from the date of execution of the Global Security to the date of stamping, unless the Global Security is stamped within 30 days of execution, in which case no interest is payable. No penalties are payable where the Global Security is executed outside the United Kingdom and subsequently brought into the United Kingdom and stamped, provided the Global Security is stamped within 30 days of being brought into the United Kingdom. If the Global Security is subject to United Kingdom stamp duty, it would be inadmissible in evidence in civil (as opposed to criminal) proceedings in an English court unless duly stamped. It should be noted however, that the United Kingdom HM Revenue & Customs have recently indicated that cash-settled warrants are not subject to stamp duty on issue. The Securities have some of the features of warrants (such as the requirement for there to be an exercise before any amounts become payable to holders). However, other features of the Securities are less warrant-like (such as the Issuer's right to redeem). It is possible that HM Revenue & Customs would be prepared to treat the Securities as warrants for stamp duty purposes, in which case they would not be stampable on issue.

The comments above relate to United Kingdom stamp duty on issue only.

Any interest payable on the Securities, any original issue discount in respect of the Securities and/or any proceeds on redemption or exercise of the Securities will not be subject to United Kingdom withholding tax.

B. GENERAL SELLING AND TRANSFER RESTRICTIONS

1. Introduction

The distribution of this document and the offering of the Securities in certain jurisdictions may be restricted by law. Persons into whose possession this document comes are required by the Issuer to inform themselves about and to observe any such restrictions.

2. United States of America

The Securities have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "**Securities Act**"), and trading in the Securities has not been approved by the United States Commodity Futures Trading Commission (the "**CFTC**") under the United States Commodity Exchange Act (the "**Commodity Exchange Act**"). Any offer or sale of the Securities must be made in a transaction exempt from the registration requirements of the Securities Act pursuant to Regulation S thereunder. No Securities, or interests therein, may at any time be offered, sold, resold or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person or to others for offer, sale, resale or delivery, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person. No Securities may be exercised or redeemed by or on behalf of a U.S. person or a person within the United States. As used herein, "**United States**" means the United States of America (including the States and the District of Columbia), its territories, its possessions and other areas subject to its jurisdiction; and "**U.S. person**" means either a U.S. person as defined in Regulation S under the Securities Act or a person who does not come within the definition of a non-United States person under Rule 4.7 of the Commodity Exchange Act.

3. European Economic Area

conversion of the relevant amount from the Settlement Currency, using the rate of exchange determined by the Calculation Agent by reference to such sources as the Calculation Agent may reasonably determine to be appropriate.

3.3. *General*

In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent and any Agent shall have any responsibility for any errors or omissions in the calculation of any amount payable hereunder or in any other determination pursuant to the provisions hereof.

Where the Physical Settlement Units are shares, the purchase of Securities does not confer on any holder of such Securities any rights (whether in respect of voting, distributions or otherwise) attached to such shares.

3.4. *Exercise Notice*

Unless a Security is automatically exercised as provided above, Securities may only be exercised by the delivery of a duly completed Exercise Notice to the Principal Agent, with a copy to the relevant Clearing Agent. The form of the Exercise Notice may be obtained during normal business hours from the specified office of each Agent.

An Exercise Notice shall:

- (1) specify the number of Securities being exercised;
- (2) specify the number of the account with the relevant Clearing Agent to be debited with the Securities being exercised [*if the Securityholder has the right to select Physical Settlement instead of Cash Settlement, insert:* and shall specify whether Physical Settlement or Cash Settlement will apply (failure to specify will mean that Cash Settlement will apply);
- (3) irrevocably instruct and authorise the relevant Clearing Agent to debit on or before the Settlement Date such account with such Securities and authorise the Principal Agent to so direct the relevant Clearing Agent on behalf of the relevant Securityholder;
- (4) in the case of Physical Settlement, irrevocably instruct the relevant Clearing Agent to debit on the Exercise Date a specified account with the relevant Clearing Agent with the aggregate amount of the Strikes, if any, in respect of such Securities (together with any other amounts payable);
- (5) specify the number of the account with the relevant Clearing Agent to be credited with (i) any Cash Settlement Amount less any Securityholder Expenses in the case of Cash Settlement or (ii) any Disruption Cash Settlement Price and/or Adjustment Amount and any Distributions payable pursuant to Product Condition 3 in the case of Physical Settlement less any Securityholder Expenses;
- (6) authorise the production of such notice in any applicable administrative or legal proceedings;
- (7) include an undertaking to pay all Securityholder Expenses and an authority to the relevant Clearing Agent to deduct an amount in respect thereof from any Cash Settlement Amount due to such Securityholder in the case of Cash Settlement and/or to debit a specified account with the relevant Clearing Agent in respect thereof and to pay such Securityholder Expenses and authorise the Principal Agent to so direct the relevant Clearing Agent on behalf of the relevant Securityholder;
- (8) include the account details at the Clearing Agent ("Delivery Details") in the case of Physical Settlement;

- (9) certify that neither the Securityholder nor any person on whose behalf the Security is held is a U.S. person or a person within the United States. As used herein, "U.S. person" means either a U.S. person as defined in Regulation S under the United States Securities Act of 1933, as amended, or a person who does not come within the definition of a non-United States person under Rule 4.7 of the United States Commodity Exchange Act, as amended..

[If the Securityholder has the right to select Physical Settlement instead of Cash Settlement insert:

The Security shall be settled by payment of the Cash Settlement Amount in accordance with 3.2.2 above unless the Securityholder has duly delivered an Exercise Notice stating Physical Settlement.]

3.5. *Verification*

In respect of each Exercise Notice, the relevant Securityholder must provide evidence reasonably satisfactory to the Principal Agent of its holding of such Securities.

3.6. *Settlement Details*

3.6.1 If Cash Settlement applies, the Cash Settlement Amount shall be transferred to the relevant Clearing Agent for distribution to the Securityholders.

3.6.2 If Physical Settlement applies, the delivery of the Physical Settlement Amount shall be made at the risk of the relevant Securityholder and shall be transferred to the Clearing Agent for delivery to the relevant Securityholder.

PROVIDED THAT where the Issuer determines in its sole discretion that delivery of all or any of the Physical Settlement Units is impractical, illegal or unduly onerous to the Issuer, then the Issuer shall have the option to deliver the relevant Physical Settlement Units in such other commercially reasonable manner as the Issuer shall determine to be appropriate for such delivery and shall notify to the Securityholders in accordance with General Condition 4. The Physical Settlement Amount shall be evidenced in such manner as the Issuer determines to be customary for the relevant Physical Settlement Units. The Issuer shall be under no obligation to register or procure the registration of any Securityholder or any other person as the registered holder in respect of the Physical Settlement Units in any register of holders of such Units, including, but not limited to, a register of members of a share company.

3.7. *Determinations*

Failure properly to complete and deliver an Exercise Notice, including a copy thereof, as provided above, may result in such notice being treated as null and void. Any determination as to whether an Exercise Notice has been properly completed and delivered, including a copy thereof, shall be made by the Principal Agent and shall be conclusive and binding on the Issuer and the relevant Securityholder. Subject as set out below, any Exercise Notice so determined to be incomplete or not in proper form or not delivered to the Principal Agent and which is not copied to the relevant Clearing Agent as provided in the Conditions shall be void.

If such Exercise Notice is subsequently corrected to the satisfaction of the Principal Agent, it shall be deemed to be a new Exercise Notice submitted at the time such correction is delivered to the Principal Agent and copied to such Clearing Agent.

The Principal Agent shall use all reasonable endeavours promptly to notify the relevant Securityholder if it has determined that an Exercise Notice is incomplete or not in proper form. In the absence of gross negligence or wilful misconduct on its part, neither the Issuer nor the Principal Agent shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Securityholder.

3.8. *Delivery of an Exercise Notice*

Delivery of an Exercise Notice shall constitute an irrevocable election by the relevant Securityholder to exercise the Securities specified and no Exercise Notice may be withdrawn after receipt by the Principal Agent as provided above. After the delivery of an Exercise Notice the Securities which are the subject of such notice may not be transferred.

3.9. *Securityholder Expenses*

In respect of each Security, all Securityholder Expenses in respect thereof shall be for the account of the relevant Securityholder and (1) where any Cash Settlement Amount and/or other amount in respect of a Security is payable no payment shall be made until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer or (2) where any Physical Settlement Amount in respect of a Security is deliverable it shall not be made until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer.

3.10. *Settlement Disruption*

If and to the extent Physical Settlement applies and prior to delivery in accordance with this Condition of a Physical Settlement Unit in respect of any Security, in the opinion of the Calculation Agent, a Settlement Disruption Event is subsisting, then the Settlement Date for such Physical Settlement Unit shall be postponed to the first following Business Day on which no Settlement Disruption Event is subsisting.

For so long as delivery of all or any part of the Physical Settlement Units is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement in respect of such part of the Physical Settlement Units and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Security by payment of the Disruption Cash Settlement Price not later than on the third Business Day following the date that notice of such election is given to the Securityholders in accordance with General Condition 4. Payment of the Disruption Cash Settlement Price will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 4. The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 4 that a Settlement Disruption Event has occurred.

No Securityholder or any other person shall be entitled to any payment in respect of a Security in the event of any delay in the delivery of any Physical Settlement Unit due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

3.11. *Intervening Period*

If and to the extent Physical Settlement applies, for such period of time after the Exercise Date or Termination Date, as applicable, as the Issuer or any person on behalf of the Issuer shall continue to be the legal owner of Physical Settlement Units (the "**Intervening Period**"), neither the Issuer nor any other such person shall (i) be under any obligation to deliver or procure delivery to the relevant Securityholder or any subsequent beneficial owner of such Physical Settlement Units or any other person any letter, certificate, notice, circular or any other document or payment whatsoever received by that person in its capacity as the holder of such Physical Settlement Units; (ii) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such Physical Settlement Units during the Intervening Period; or (iii) be under any liability to the relevant Securityholder or any subsequent beneficial owner of such Physical Settlement Units or any other person in respect of any loss or damage which the relevant Securityholder or subsequent beneficial owner or any other person may sustain or suffer as a result,

whether directly or indirectly, of the Issuer or any other such person being the legal owner of such Physical Settlement Units during such Intervening Period.

3.12. *Distribution*

Any dividend, coupon, interest or similar payment or distribution (each, a "**Distribution**") in respect of any Physical Settlement Unit to be delivered will be payable to the party that would receive such Distribution according to market practice for a sale of the relevant Physical Settlement Unit executed on the Valuation Date or, if more than one Valuation Date, the last occurring Valuation Date and to be delivered in the same manner as such Physical Settlement Unit. Any such Distribution to be paid to the Clearing Agent for distribution to the Securityholders.

3.13. *Exercise and Settlement Risk*

Exercise and settlement of the Securities is subject to all applicable laws, regulations and practices in force at all relevant times, and neither the Issuer nor any Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. Neither the Issuer nor the Agents shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.

3.14. *Minimum Exercise Amount*

Where a Minimum Exercise Amount has been specified in Product Condition 1, the number of Securities exercised on any Exercise Date, as determined by the Calculation Agent, must not be less than the Minimum Exercise Amount or, if a number in excess of the Minimum Exercise Amount and if an Integral Exercise Amount has been specified in Product Condition 1, an integral multiple of the Integral Exercise Amount. Any purported exercise of Securities in breach of this provision shall be void and of no effect.

3.15. *Maximum Exercise Amount*

Where a Maximum Exercise Amount has been specified in Product Condition 1, if the Calculation Agent determines that the number of Securities being exercised on any Exercise Date by any Securityholder or a group of Securityholders (whether or not acting in concert) exceeds the Maximum Exercise Amount (a number equal to the Maximum Exercise Amount being the "**Quota**"), the Issuer may deem the Exercise Date for the first Quota of such Securities, selected on the basis of the chronological order in which the relevant Exercise Notices have been delivered, to be such day and the Exercise Date for each additional Quota of such Securities (and any remaining number thereof), selected in the same way as above, to be each of the succeeding Exercise Dates until all such Securities have been attributed with an Exercise Date, provided, however, that for any such Securities for which the Exercise Date would thereby fall after the last occurring Exercise Date, such last occurring Exercise Date shall be deemed to be the Exercise Date. In any case where more than the Quota of Securities are exercised on the same day by Securityholder(s), the determination of the chronological order of settlement in respect of such Securities shall be at the sole discretion of the Issuer.

Where a Maximum Exercise Amount has been specified in Product Condition 1, if the Calculation Agent determines that the number of Securities being exercised on any Exercise Date by any Securityholder or a group of Securityholders (whether or not acting in concert) exceeds the Maximum Exercise Amount (a number equal to the Maximum Exercise Amount being the "**Quota**"), the Issuer may deem the Exercise Date for the first Quota of such Securities, selected on the basis of the chronological order in which the relevant Exercise Notices have been delivered, to be such day and the Exercise Date for each additional Quota of such Securities (and any remaining number thereof), selected in the same way as above, to be each of the succeeding Exercise Dates until all such Securities have been attributed with an Exercise Date, provided, however, that for any such Securities for which the Exercise Date would thereby fall after the last occurring Exercise Date, such last occurring Exercise Date shall be deemed to be the Exercise Date. In any case where more than the Quota of Securities are exercised on the same day by Securityholder(s), the determination of the chronological order of settlement in respect of such Securities shall be at the sole discretion of the Issuer.

No Securityholder will be required to complete an Exercise Notice.

The Issuer has the unconditional and irrevocable right (the "**Redemption Right**"), upon delivery of the Redemption Notice (as defined below), to redeem the Securities in whole, but not in part.

"**Redemption Notice**" means the irrevocable notice given by the Issuer to the Securityholders in accordance with General Condition 4.1 that the Issuer will exercise its Redemption Right, which notice shall specify the Redemption Date.

3.2 Settlement

Upon due exercise, each Security entitles its holder to receive from the Issuer on the Settlement Date

3.2.1. if and to the extent Settlement means Physical Settlement, the Physical Settlement Amount (and if applicable, any Adjustment Amount) subject to payment of [*insert for call warrants*; the Strike, if any, and] any Securityholder Expenses on or prior to the Settlement Date, or

The Issuer will be discharged of its payment and/or delivery obligations by payment and/or delivery, as the case may be, to, or to the order of, the relevant Clearing Agent in respect of the amount so paid or delivered. Each of the persons shown in the records of a Clearing Agent as the holder of a particular number of the Securities

must look solely to the relevant Clearing Agent for his share of each such payment and/or delivery, as applicable, so made by the Issuer to, or to the order of, the relevant Clearing Agent.

All payments and/or deliveries will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment and/or delivery, as the case may be, and subject to the provisions of General Condition 6.

If a payment of any amount to be paid to a Securityholder, according to the rules of the relevant Clearing Agent, cannot be made in the Settlement Currency, such payment shall be made in the currency principally used by the relevant Clearing Agent for payments to holders holding accounts with such Clearing Agent, following a conversion of the relevant amount from the Settlement Currency, using the rate of exchange determined by the Calculation Agent by reference to such sources as the Calculation Agent may reasonably determine to be appropriate.

3.3. *General*

In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent and any Agent shall have any responsibility for any errors or omissions in the calculation of any amount payable hereunder or in any other determination pursuant to the provisions hereof.

Where the Physical Settlement Units are shares, the purchase of Securities does not confer on any holder of such Securities any rights (whether in respect of voting, distributions or otherwise) attached to such shares.

[If the Securityholder has the right to select Physical Settlement instead of Cash Settlement insert:]

3.4. *Exercise Notice*

If the Securities are to be settled by delivery of the Physical Settlement Amount as described in Product Condition 3.1, in order to obtain delivery of the Physical Settlement Amount in respect of a Security the relevant Securityholder must deliver to the Principal Agent, with a copy to the relevant Clearing Agent, not later than the close of business in each place of reception on the Exercise Date, a duly completed Exercise Notice (a "**Exercise Notice**").

The Security shall be settled by payment of the Cash Settlement Amount in accordance with 3.2.2 above unless the Securityholder has duly delivered a Exercise Notice by the time specified above.

The form of the Exercise Notice may be obtained during normal business hours from the specified office of each Agent.

A Exercise Notice shall:

- (1) specify the number of the Securities which are the subject of such notice;
- (2) specify the number of the account with the relevant Clearing Agent to be debited with such Securities;
- (3) irrevocably instruct and authorise the relevant Clearing Agent to debit on or before the Settlement Date such account with such Securities and, if applicable, irrevocably instruct the relevant Clearing Agent to debit on the Exercise Date a specified account with the relevant Clearing Agent with the aggregate amount of the Strikes, if any, in respect of such Securities (together with any other amounts payable);
- (4) specify the number of the account at the relevant Clearing Agent to be credited with any Disruption Cash Settlement Price and/or Adjustment Amount and any Distributions payable pursuant to Product Condition 3 less any Securityholder Expenses;

- (6) include the account details at the Clearing Agent ("Delivery Details"); and
- (7) authorise the production of such notice in any applicable administrative or legal proceedings.

3.5. *Verification*

In respect of each Exercise Notice , the relevant Securityholder must provide evidence reasonably satisfactory to the Principal Agent of its holding of such Securities.

3.6. *Determinations*

Failure properly to complete and deliver a Exercise Notice , including a copy thereof, as provided above may result in such notice being treated as null and void. Any determination as to whether any such notice has been properly completed and delivered, including a copy thereof, shall be made by the Principal Agent and shall be conclusive and binding on the Issuer and the relevant Securityholder. Subject as set out below, any Exercise Notice so determined to be incomplete or not in proper form, or, where applicable, which is not copied to a Clearing Agent immediately after being delivered to the Principal Agent as provided in the Conditions shall be void.

If such Exercise Notice is subsequently corrected to the satisfaction of the Principal Agent, it shall be deemed to be a new Exercise Notice submitted at the time such correction is delivered to the Principal Agent and copied to such Clearing Agent.

The Principal Agent shall use all reasonable endeavours promptly to notify the relevant Securityholder if it has determined that a Exercise Notice is incomplete or not in proper form. In the absence of gross negligence or wilful misconduct on its part, neither the Issuer nor the Principal Agent shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Securityholder.

3.7. *Delivery of a Exercise Notice*

No Exercise Notice may be withdrawn after receipt thereof by the Principal Agent as provided above. After the delivery of a Exercise Notice , the Securities which are the subject of such notice may not be transferred.]

3.8. *Settlement Details*

3.8.1. If Cash Settlement applies, the Cash Settlement Amount shall be transferred to the relevant Clearing Agent for distribution to the Securityholders.

3.8.2. If Physical Settlement applies, the delivery of the Physical Settlement Amount shall be made at the risk of the relevant Securityholder and shall be transferred to the Clearing Agent for delivery to the relevant Securityholder.

PROVIDED THAT where the Issuer determines in its sole discretion that delivery of all or any of the Physical Settlement Units is impractical, illegal or unduly onerous to the Issuer, then the Issuer shall have the option to deliver the relevant Physical Settlement Units in such other commercially reasonable manner as the Issuer shall determine to be appropriate for such delivery and shall notify to the Securityholders in accordance with General Condition 4. The Physical Settlement Amount shall be evidenced in such manner as the Issuer determines to be customary for the relevant Physical Settlement Units. The Issuer shall be under no obligation to register or procure the registration of any Securityholder or any other person as the registered holder in respect of the Physical Settlement Units in any register of holders of such Units, including, but not limited to, a register of members of a share company.

3.9. *Securityholder Expenses*

In respect of each Security, all Securityholder Expenses in respect thereof shall be for the account of the relevant Securityholder and (1) where any Cash Settlement Amount and/or other amount in respect of a Security is payable no payment shall be made until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer or (2) where any Physical Settlement Amount in respect of a Security is deliverable it shall not be made until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer.

3.10. *Settlement Disruption*

If and to the extent Physical Settlement applies and prior to delivery in accordance with this Condition of a Physical Settlement Unit in respect of any Security, in the opinion of the Calculation Agent, a Settlement Disruption Event is subsisting, then the Settlement Date for such Physical Settlement Unit shall be postponed to the first following Business Day on which no Settlement Disruption Event is subsisting.

For so long as delivery of all or any part of the Physical Settlement Units is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement in respect of such part of the Physical Settlement Units and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Security by payment of the Disruption Cash Settlement Price not later than on the third Business Day following the date that notice of such election is given to the Securityholders in accordance with General Condition 4. Payment of the Disruption Cash Settlement Price will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 4. The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 4 that a Settlement Disruption Event has occurred.

No Securityholder or any other person shall be entitled to any payment in respect of a Security in the event of any delay in the delivery of any Physical Settlement Unit due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

3.11. *Intervening Period*

If and to the extent Physical Settlement applies, for such period of time after the Exercise Date or Termination Date, as applicable, as the Issuer or any person on behalf of the Issuer shall continue to be the legal owner of Physical Settlement Units (the "**Intervening Period**"), neither the Issuer nor any other such person shall (i) be under any obligation to deliver or procure delivery to the relevant Securityholder or any subsequent beneficial owner of such Physical Settlement Units or any other person any letter, certificate, notice, circular or any other document or payment whatsoever received by that person in its capacity as the holder of such Physical Settlement Units; (ii) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such Physical Settlement Units during the Intervening Period; or (iii) be under any liability to the relevant Securityholder or any subsequent beneficial owner of such Physical Settlement Units or any other person in respect of any loss or damage which the relevant Securityholder or subsequent beneficial owner or any other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or any other such person being the legal owner of such Physical Settlement Units during such Intervening Period.

3.12. *Distribution*

Any dividend, coupon, interest or similar payment or distribution (each, a "**Distribution**") in respect of any Physical Settlement Unit to be delivered will be payable to the party that would receive such Distribution according to market practice for a sale of the relevant Physical Settlement Unit executed on the Valuation Date or,

if more than one Valuation Date, the last occurring Valuation Date and to be delivered in the same manner as such Physical Settlement Unit. Any such Distribution to be paid shall be paid to the Clearing Agent for distribution to the Securityholders.

3.13. *Exercise and Settlement Risk*

Exercise and settlement of the Securities is subject to all applicable laws, regulations and practices in force at all relevant times, and neither the Issuer nor any Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. 3.6. *Settlement Details*

3.7. *Determinations*

Failure properly to complete and deliver an Exercise Notice, including a copy thereof, as provided above, may result in such notice being treated as null and void. Any determination as to whether an Exercise Notice has been properly completed and delivered, including a copy thereof, shall be made by the Principal Agent and shall be conclusive and binding on the Issuer and the relevant Securityholder. Subject as set out below, any Exercise Notice so determined to be incomplete or not in proper form or not delivered to the Principal Agent and which is not copied to the relevant Clearing Agent as provided in the Conditions shall be void.

If such Exercise Notice is subsequently corrected to the satisfaction of the Principal Agent, it shall be deemed to be a new Exercise Notice submitted at the time such correction is delivered to the Principal Agent and copied to such Clearing Agent.

The Principal Agent shall use all reasonable endeavours promptly to notify the relevant Securityholder if it has determined that an Exercise Notice is incomplete or not in proper form. In the absence of gross negligence or wilful misconduct on its part, neither the Issuer nor the Principal Agent shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Securityholder.

3.8. *Delivery of an Exercise Notice*

Delivery of an Exercise Notice shall constitute an irrevocable election by the relevant Securityholder to exercise the Securities specified and no Exercise Notice may be withdrawn after receipt by the Principal Agent as provided above. After the delivery of an Exercise Notice the Securities which are the subject of such notice may not be transferred.

3.9. *Securityholder Expenses*

In respect of each Security, all Securityholder Expenses in respect thereof shall be for the account of the relevant Securityholder and (1) where any Cash Settlement Amount and/or other amount in respect of a Security is payable no payment shall be made until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer or (2) where any Physical Settlement Amount in respect of a Security is deliverable it shall not be made until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer.

3.10. *Settlement Disruption*

If and to the extent Physical Settlement applies and prior to delivery in accordance with this Condition of a Physical Settlement Unit in respect of any Security, in the opinion of the Calculation Agent, a Settlement Disruption Event is subsisting, then the Settlement Date for such Physical Settlement Unit shall be postponed to the first following Business Day on which no Settlement Disruption Event is subsisting.

For so long as delivery of all or any part of the Physical Settlement Units is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement in respect of such part of the Physical Settlement Units and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Security by payment of the Disruption Cash Settlement Price not later than on the third Business Day following the date that notice of such election is given to the Securityholders in accordance with General Condition 4. 3.12. Distribution

Any dividend, coupon, interest or similar payment or distribution (each, a "**Distribution**") in respect of any Physical Settlement Unit to be delivered will be payable to the party that would receive such Distribution according to market practice for a sale of the relevant Physical Settlement Unit executed on the Valuation Date or, if more than one Valuation Date, the last occurring Valuation Date and to be delivered in the same manner as such Physical Settlement Unit. Any such Distribution to be paid to a Securityholder shall be paid to the Clearing Agent for distribution to the Securityholders.

3.13. Exercise and Settlement Risk

Exercise and settlement of the Securities is subject to all applicable laws, regulations and practices in force at all relevant times, and neither the Issuer nor any Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. order in which the relevant Exercise Notices have been delivered, to be such day and the Exercise Date for each additional Quota of such Securities (and any remaining number thereof), selected in the same way as above, to be each of the succeeding Exercise Dates until all such Securities have been attributed with an Exercise Date, provided, however, that for any such Securities for which the Exercise Date would thereby fall after the last occurring Exercise Date, such last occurring Exercise Date shall be deemed to be the Exercise Date. In any case where more than the Quota of Securities are exercised on the same day by Securityholder(s), the determination of the chronological order of settlement in respect of such Securities shall be at the sole discretion of the Issuer.

Clause 3 Warrants & Certificates Cash&Phys, European Type, Non-Automatic Exercise, Issuer Redemption Right

Type: European

Exercise: Non-Automatic

Any Exercise Notice delivered in the manner set out in Product Condition 3.4 prior to the Exercise Date shall be deemed to have been validly delivered on the Exercise Date.

The Issuer has the unconditional and irrevocable right (the "**Redemption Right**"), upon delivery of the Redemption Notice (as defined below), to redeem the Securities in whole, but not in part.

"**Redemption Notice**" means the irrevocable notice given by the Issuer to the Securityholders in accordance with General Condition 4.1 that the Issuer will exercise its Redemption Right, which notice shall specify the Redemption Date.

The Settlement Notice shall contain the same specifications as set out in Product Condition 3.4 for an Exercise Notice.

In case of an exercise by the Issuer of its Redemption Right, all references to an "Exercise Notice" in any Product Condition, shall be deemed also to apply for a "Settlement Notice".

If a duly completed Settlement Notice is not delivered and copied in accordance with Product Condition 3.4 by 10.00 a.m. Central European Time on the Redemption Date, then the Cash Settlement Amount or Physical Settlement Amount, as applicable, will, subject as provided below, be paid or delivered as soon as practicable after the original Settlement Date (and such date of payment shall be deemed to be, for such Securities, the Settlement Date). **If a Settlement Notice has not been delivered and copied with respect to a Security in the manner set out in Product Condition 3.4 at or prior to 10.00 a.m. (Central European Time) on the thirtieth calendar day after the Redemption Date, then the holder of such Security shall have no right to receive the Cash Settlement Amount or Physical Settlement Amount, as applicable, in respect of such Security and the Issuer's obligations in respect of such Security shall be cancelled.**

For the avoidance of doubt, in circumstances where either (i) payment of the Cash Settlement Amount or delivery of the Physical Settlement Amount, as applicable, is made after the original Settlement Date due to the delivery and/or copying of a Settlement Notice after 10.00 a.m. Central European Time on the Redemption Date as provided above or (ii) the Issuer's obligations are cancelled as provided above, the relevant Securityholder(s) shall not be entitled to any payment, whether interest or otherwise, as a result thereof.

In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent and any Agent shall have any responsibility for any

errors or omissions in the calculation of any amount payable hereunder or in any other determination pursuant to the provisions hereof.

Where the Physical Settlement Units are shares, the purchase of Securities does not confer on any holder of such Securities any rights (whether in respect of voting, distributions or otherwise) attached to such shares.

3.4. *Exercise Notice*

Securities may only be exercised by the delivery of a duly completed Exercise Notice to the Principal Agent, with a copy to the relevant Clearing Agent. The form of the Exercise Notice may be obtained during normal business hours from the specified office of each Agent.

An Exercise Notice shall:

- (8) include the account details at the Clearing Agent ("Delivery Details") in the case of Physical Settlement;

[If the Securityholder has the right to select Physical Settlement instead of Cash Settlement insert

The Security shall be settled by payment of the Cash Settlement Amount in accordance with 3.2.2 above, if the Securityholder has duly exercised the Security by delivery of an Exercise Notice and if he has not determined Physical Settlement in such Exercise Notice.]

3.5. *Verification*

In respect of each Exercise Notice, the relevant Securityholder must provide evidence reasonably satisfactory to the Principal Agent of its holding of such Securities.

3.6. *Settlement Details*

3.6.1. If Cash Settlement applies, the Cash Settlement Amount shall be transferred to the relevant Clearing Agent for distribution to the Securityholders.

3.6.2. If Physical Settlement applies, the delivery of the Physical Settlement Amount shall be made at the risk of the relevant Securityholder and shall be transferred to the Clearing Agent for delivery to the relevant Securityholder.

PROVIDED THAT where the Issuer determines in its sole discretion that delivery of all or any of the Physical Settlement Units is impractical, illegal or unduly onerous to the Issuer, then the Issuer shall have the option to deliver the relevant Physical Settlement Units in such other commercially reasonable manner as the Issuer shall determine to be appropriate for such delivery and shall notify to the Securityholders in accordance with General Condition 4. The Physical Settlement Amount shall be evidenced in such manner as the Issuer determines to be customary for the relevant Physical Settlement Units. The Issuer shall be under no obligation to register or procure the registration of any Securityholder or any other person as the registered holder in respect of the Physical Settlement Units in any register of holders of such Units, including, but not limited to, a register of members of a share company.

3.7. *Determinations*

Failure properly to complete and deliver an Exercise Notice, including a copy thereof, as provided above, may result in such notice being treated as null and void. Any determination as to whether an Exercise Notice has been properly completed and delivered, including a copy thereof, shall be made by the Principal Agent and shall be conclusive and binding on the Issuer and the relevant Securityholder. Subject as set out below, any Exercise Notice so determined to be incomplete or not in proper form or not delivered to the Principal Agent and which is not copied to the relevant Clearing Agent as provided in the Conditions shall be void.

If such Exercise Notice is subsequently corrected to the satisfaction of the Principal Agent, it shall be deemed to be a new Exercise Notice submitted at the time such correction is delivered to the Principal Agent and copied to such Clearing Agent.

The Principal Agent shall use all reasonable endeavours promptly to notify the relevant Securityholder if it has determined that an Exercise Notice is incomplete or not in proper form. In the absence of gross negligence or wilful misconduct on its part, neither the Issuer nor the Principal Agent shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Securityholder.

3.8. *Delivery of an Exercise Notice*

Delivery of an Exercise Notice shall constitute an irrevocable election by the relevant Securityholder to exercise the Securities specified and no Exercise Notice may be withdrawn after receipt by the Principal Agent as provided above. After the delivery of an Exercise Notice the Securities which are the subject of such notice may not be transferred.

3.9. *Securityholder Expenses*

In respect of each Security, all Securityholder Expenses in respect thereof shall be for the account of the relevant Securityholder and (1) where any Cash Settlement Amount and/or other amount in respect of a Security is payable no payment shall be made until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer or (2) where any Physical Settlement Amount in respect of a Security is deliverable it shall not be made until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer.

3.10. *Settlement Disruption*

If and to the extent Physical Settlement applies and prior to delivery in accordance with this Condition of a Physical Settlement Unit in respect of any Security, in the opinion of the Calculation Agent, a Settlement Disruption Event is subsisting, then the Settlement Date for such Physical Settlement Unit shall be postponed to the first following Business Day on which no Settlement Disruption Event is subsisting.

For so long as delivery of all or any part of the Physical Settlement Units is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement in respect of such part of the Physical Settlement Units and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Security by payment of the Disruption Cash Settlement Price not later than on the third Business Day following the date that notice of such election is given to the Securityholders in accordance with General Condition 4. Payment of the Disruption Cash Settlement Price will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 4. The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 4 that a Settlement Disruption Event has occurred.

No Securityholder or any other person shall be entitled to any payment in respect of a Security in the event of any delay in the delivery of any Physical Settlement Unit due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

3.11. *Intervening Period*

If and to the extent Physical Settlement applies, for such period of time after the Exercise Date or Termination Date, as applicable, as the Issuer or any person on behalf of the Issuer shall continue to be the legal owner of Physical Settlement Units (the "**Intervening Period**"), neither the Issuer nor any other such person shall (i) be under any obligation to deliver or procure delivery to the relevant Securityholder or any subsequent beneficial owner of such Physical Settlement Units or any other person any letter, certificate, notice, circular or any other document or payment whatsoever received by that person in its capacity as the holder of such Physical Settlement Units; (ii) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such Physical Settlement Units during the Intervening Period; or (iii) be under any liability to the relevant Securityholder or any subsequent beneficial owner of such Physical Settlement Units or any other person in respect of any loss or damage which the relevant Securityholder or subsequent beneficial owner or any other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or any other such person being the legal owner of such Physical Settlement Units during such Intervening Period.

3.12. *Distribution*

Any dividend, coupon, interest or similar payment or distribution (each, a "**Distribution**") in respect of any Physical Settlement Unit to be delivered will be payable to the party that would receive such Distribution according to market practice for a sale of the relevant Physical Settlement Unit executed on the Valuation Date or, if more than one Valuation Date, the last occurring Valuation Date and to be delivered

in the same manner as such Physical Settlement Unit. Any such Distribution to be paid to a Securityholder shall be paid to the Clearing Agent for distribution to the Securityholders, if the Security has been duly exercised.

3.13. *Exercise and Settlement Risk*

Exercise and settlement of the Securities is subject to all applicable laws, regulations and practices in force at all relevant times, and neither the Issuer nor any Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. 3. Exercise and Redemption

3.1. Exercise and Redemption

Subject as provided in the Conditions, unless previously redeemed the Securities are exercisable on any Exercise Date. Any Security with respect to which an Exercise Notice has been delivered after 10.00 a.m. Central European Time on any day shall be deemed to have been exercised on the next following Exercise Date, if any. Any Security with respect to which no Exercise Notice has been delivered in the manner set out in Product Condition 3.4 at or prior to 10.00 a.m. Central European Time on the last occurring Exercise Date shall be void.

The Issuer has the unconditional and irrevocable right (the "**Redemption Right**"), upon delivery of the Redemption Notice (as defined below), to redeem the Securities in whole, but not in part.

"**Redemption Notice**" means the irrevocable notice given by the Issuer to the Securityholders in accordance with General Condition 4.1 that the Issuer will exercise its Redemption Right, which notice shall specify the Redemption Date.

Subject to Product Condition 3.8, the exercise by the Issuer of the Redemption Right shall not preclude Securityholders from exercising Securities on any Exercise Date up to and excluding the Redemption Date or from selling or transferring Securities which sale or transfer, as the case may be, is effective on any day up to but excluding the Redemption Date. In such case, any Exercise Notice delivered to the Principal Agent, or copied to the Clearing Agent, in each case after 10.00 a.m. Central European Time on the last Exercise Date prior to the Redemption Date shall be void.

3.2. Settlement

Upon due exercise, each Security entitles its holder to receive from the Issuer on the Settlement Date

3.2.1. if and to the extent Settlement means Physical Settlement, the Physical Settlement Amount (and if applicable, any Adjustment Amount) subject to payment of [*insert for call warrants*; the Strike, if any, and] any Securityholder Expenses on or prior to the Settlement Date, or

[If the Issuer has the right to select either Cash Settlement or Physical Settlement insert:

The Issuer will give notice to the Securityholders in accordance with General Condition 4 not less than the Notice Period prior to the Settlement Date stating whether Cash Settlement and/or Physical Settlement applies, provided that if the Issuer fails to give such notice the Securities shall be redeemed by payment of the Cash Settlement Amount in accordance with 3.2.2 above.]

The Settlement Notice shall contain the same specifications as set out in Product Condition 3.4 for an Exercise Notice.

In case of an exercise by the Issuer of its Redemption Right, all references to an "Exercise Notice" in any Product Condition, shall be deemed also to apply for a "Settlement Notice".

If a duly completed Settlement Notice is not delivered and copied in accordance with Product Condition 3.4 by 10.00 a.m. Central European Time on the Redemption Date, then the Cash Settlement Amount or Physical Settlement Amount, as applicable, will, subject as provided below, be paid or delivered as soon as practicable after the original Settlement Date (and such date of payment shall be deemed to be, for such Securities, the Settlement Date). **If a Settlement Notice has not been delivered and copied with respect to a Security in the manner set out in Product Condition 3.4 at or prior to 10.00 a.m. (Central European Time) on the thirtieth calendar day after the Redemption Date, then the holder of such Security shall have no right to receive the Cash Settlement Amount or Physical Settlement Amount, as applicable, in respect of such Security and the Issuer's obligations in respect of such Security shall be cancelled.**

For the avoidance of doubt, in circumstances where either (i) payment of the Cash Settlement Amount or delivery of the Physical Settlement Amount, as applicable, is made after the original Settlement Date due to the delivery and/or copying of a Settlement Notice after 10.00 a.m. Central European Time on the Redemption Date as provided above or (ii) the Issuer's obligations are cancelled as provided above, the relevant Securityholder(s) shall not be entitled to any payment, whether interest or otherwise, as a result thereof.

[If a notice period of more than six months is to be observed, as provided for under the definition of "Redemption Date", insert:

Where the Issuer has exercised the Redemption Right, it shall give notice to the Securityholders not more than 60 days and not less than 30 days before the Redemption Date reminding Securityholders of such exercise of the Redemption Right and the requirement to deliver a Settlement Notice as provided herein.]

The Issuer will be discharged of its payment and/or delivery obligations by payment and/or delivery, as the case may be, to, or to the order of, the relevant Clearing Agent in respect of the amount so paid or delivered. Each of the persons shown in the records of a Clearing Agent as the holder of a particular number of the Securities must look solely to the relevant Clearing Agent for his share of each such payment and/or delivery, as applicable, so made by the Issuer to, or to the order of, the relevant Clearing Agent.

All payments and/or deliveries will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment and/or delivery, as the case may be, and subject to the provisions of General Condition 6.

If a payment of any amount to be paid to a Securityholder, according to the rules of the relevant Clearing Agent, cannot be made in the Settlement Currency, such payment shall be made in the currency principally used by the relevant Clearing Agent for payments to holders holding accounts with such Clearing Agent, following a

conversion of the relevant amount from the Settlement Currency, using the rate of exchange determined by the Calculation Agent by reference to such sources as the Calculation Agent may reasonably determine to be appropriate.

3.3. *General*

In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent and any Agent shall have any responsibility for any errors or omissions in the calculation of any amount payable hereunder or in any other determination pursuant to the provisions hereof.

Where the Physical Settlement Units are shares, the purchase of Securities does not confer on any holder of such Securities any rights (whether in respect of voting, distributions or otherwise) attached to such shares.

3.4. *Exercise Notice*

Securities may only be exercised by the delivery of a duly completed Exercise Notice to the Principal Agent, with a copy to the relevant Clearing Agent. The form of the Exercise Notice may be obtained during normal business hours from the specified office of each Agent.

- (8) include the account details at the Clearing Agent ("Delivery Details") in the case of Physical Settlement;
- (9) certify that neither the Securityholder nor any person on whose behalf the Security is held is a U.S. person or a person within the United States. a person who does not come within the definition of a non-United States person under Rule 4.7 of the United States Commodity Exchange Act, as amended.

[If the Securityholder has the right to select Physical Settlement instead of Cash Settlement insert:

The Security shall be settled by payment of the Cash Settlement Amount in accordance with 3.2.2 above, if the Securityholder has duly exercised the Security by delivery of an Exercise Notice and if he has not determined Physical Settlement in such Exercise Notice.]

3.5. *Verification*

In respect of each Exercise Notice, the relevant Securityholder must provide evidence reasonably satisfactory to the Principal Agent of its holding of such Securities.

The Issuer shall be under no obligation to register or procure the registration of any Securityholder or any other person as the registered holder in respect of the Physical Settlement Units in any register of holders of such Units, including, but not limited to, a register of members of a share company.

3.7. *Determinations*

Failure properly to complete and deliver an Exercise Notice, including a copy thereof, as provided above, may result in such notice being treated as null and void. Any determination as to whether an Exercise Notice has been properly completed and delivered, including a copy thereof, shall be made by the Principal Agent and shall be conclusive and binding on the Issuer and the relevant Securityholder. Subject as set out below, any Exercise Notice so determined to be incomplete or not in proper form or not delivered to the Principal Agent and which is not copied to the relevant Clearing Agent as provided in the Conditions shall be void.

If such Exercise Notice is subsequently corrected to the satisfaction of the Principal Agent, it shall be deemed to be a new Exercise Notice submitted at the time such correction is delivered to the Principal Agent and copied to such Clearing Agent.

The Principal Agent shall use all reasonable endeavours promptly to notify the relevant Securityholder if it has determined that an Exercise Notice is incomplete or not in proper form. In the absence of gross negligence or wilful misconduct on its part, neither the Issuer nor the Principal Agent shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Securityholder.

3.8. *Delivery of an Exercise Notice*

After the delivery of an Exercise Notice the Securities which are the subject of such notice may not be transferred.

3.9. *Securityholder Expenses*

In respect of each Security, all Securityholder Expenses in respect thereof shall be for the account of the relevant Securityholder and (1) where any Cash Settlement Amount and/or other amount in respect of a Security is payable no payment shall be made until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer or (2) where any Physical Settlement Amount in respect of a Security is deliverable it shall not be made until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer.

3.10. *Settlement Disruption*

If and to the extent Physical Settlement applies and prior to delivery in accordance with this Condition of a Physical Settlement Unit in respect of any Security, in the opinion of the Calculation Agent, a Settlement Disruption Event is subsisting, then the Settlement Date for such Physical Settlement Unit shall be postponed to the first following Business Day on which no Settlement Disruption Event is subsisting.

For so long as delivery of all or any part of the Physical Settlement Units is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement in respect of such part of the Physical Settlement Units and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Security by payment of the Disruption Cash Settlement Price not later than on the third Business Day following the date that notice of such election is given to the Securityholders in accordance with General Condition 4. Payment of the Disruption Cash Settlement Price will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 4. "**Redemption Notice**" means the irrevocable notice given by the Issuer to the Securityholders in accordance with General Condition 4.1 that the Issuer will exercise its Redemption Right, which notice shall specify the Redemption Date.

Subject to Product Condition 3.8, the exercise by the Issuer of the Redemption Right shall not preclude Securityholders from exercising Securities on any Exercise Date up to and excluding the Redemption Date or from selling or transferring Securities which sale or transfer, as the case may be, is effective on any day up to but excluding the Redemption Date. In such case, any Exercise Notice delivered to the Principal Agent, or copied to the Clearing Agent, in each case after 10.00 a.m. Central European Time on the last Exercise Date prior to the Redemption Date shall be void.

3.2. Settlement

Upon due exercise, each Security entitles its holder to receive from the Issuer on the Settlement Date, the Cash Settlement Amount less any Securityholder Expenses.

If the Issuer exercises its Redemption Right, each Security entitles its holder to receive from the Issuer on the Settlement Date, the Cash Settlement Amount less any Securityholder Expenses.

[If the Securities on WAVE Return and WAVEs XXL insert: If a Knock-Out Event occurs, each Security will be automatically exercised on the Termination Date, no Securityholder will be required to complete an Exercise Notice and each Security will entitle its holder to receive from the Issuer on the Settlement Date, the Cash Settlement Amount less any Securityholder Expenses.]

The Issuer will be discharged of its payment obligations by payment to, or to the order of, the relevant Clearing Agent in respect of the amount so paid. Each of the persons shown in the records of a Clearing Agent as the holder of a particular number of the Securities must look solely to the relevant Clearing Agent for his share of each such payment so made by the Issuer to, or to the order of, the relevant Clearing Agent.

All payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment and subject to the provisions of General Condition 6.

If a payment of any amount to be paid to a Securityholder, according to the rules of the relevant Clearing Agent, cannot be made in the Settlement Currency, such payment shall be made in the currency principally used by the relevant Clearing Agent for payments to holders holding accounts with such Clearing Agent, following a conversion of the relevant amount from the Settlement Currency, using the rate of exchange determined by the Calculation Agent by reference to such sources as the Calculation Agent may reasonably determine to be appropriate.

3.3. *General*

In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent and any Agent shall have any responsibility for any errors or omissions in the calculation of any amount payable hereunder or in any other determination pursuant to the provisions hereof.

3.4. *Exercise Notice*

Unless a Security is automatically exercised as provided above, Securities may only be exercised by the delivery of a duly completed Exercise Notice to the Principal Agent, with a copy to the relevant Clearing Agent. The form of the Exercise Notice may be obtained during normal business hours from the specified office of each Agent.

An Exercise Notice shall:

- (1) specify the number of Securities being exercised;
- (2) specify the number of the account with the relevant Clearing Agent to be debited with the Securities being exercised;
- (3) irrevocably instruct and authorise the relevant Clearing Agent to debit on or before the Settlement Date such account with such Securities and authorise the Principal Agent to so direct the relevant Clearing Agent on behalf of the relevant Securityholder;
- (4) specify the number of the account with the relevant Clearing Agent to be credited with the Cash Settlement Amount less any Securityholder Expenses;
- (5) include an undertaking to pay all Securityholder Expenses and an authority to the relevant Clearing Agent to deduct an amount in respect thereof from any Cash Settlement Amount due to such Securityholder and/or to debit a specified account with the relevant Clearing Agent in respect thereof and to pay such Securityholder Expenses and authorise the Principal Agent to so direct the relevant Clearing Agent on behalf of the relevant Securityholder;
- (6) authorise the production of such notice in any applicable administrative or legal proceedings;
- (7) certify that neither the Securityholder nor any person on whose behalf the Security is held is a U.S. person or a person within the United States. As used herein, "U.S. person" means either a U.S. person as defined in Regulation S under the United States Securities Act of 1933, as amended, or a person who does not come within the definition of a non-United States person under Rule 4.7 of the United States Commodity Exchange Act, as amended.

3.5. *Verification*

In respect of each Exercise Notice, the relevant Securityholder must provide evidence reasonably satisfactory to the Principal Agent of its holding of such Securities.

3.6. *Determinations*

Failure properly to complete and deliver an Exercise Notice, including a copy thereof, as provided above, may result in such notice being treated as null and void. Any determination as to whether an Exercise Notice has been properly completed and delivered, including a copy thereof, shall be made by the Principal Agent and shall be conclusive and binding on the Issuer and the relevant Securityholder. Subject as set out below, any Exercise Notice so determined to be incomplete or not in proper form or not delivered to the Principal Agent and which is not copied to the relevant Clearing Agent as provided in the Conditions shall be void.

If such Exercise Notice is subsequently corrected to the satisfaction of the Principal Agent, it shall be deemed to be a new Exercise Notice submitted at the time such correction is delivered to the Principal Agent and copied to such Clearing Agent.

The Principal Agent shall use all reasonable endeavours promptly to notify the relevant Securityholder if it has determined that an Exercise Notice is incomplete or not in proper form. In the absence of gross negligence or wilful misconduct on its part, neither the Issuer nor the Principal Agent shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Securityholder.

3.7. *Delivery of an Exercise Notice*

Delivery of an Exercise Notice shall constitute an irrevocable election by the relevant Securityholder to exercise the Securities specified and no Exercise Notice may be withdrawn after receipt by the Principal Agent as provided above. After the delivery of an Exercise Notice the Securities which are the subject of such notice may not be transferred.

3.8. *Securityholder Expenses*

In respect of each Security, all Securityholder Expenses in respect thereof shall be for the account of the relevant Securityholder and where any Cash Settlement Amount and/or other amount in respect of a Security is payable no payment shall be made until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer.

3.9. *Exercise and Settlement Risk*

Exercise and settlement of the Securities is subject to all applicable laws, regulations and practices in force at all relevant times, and neither the Issuer nor any Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. Neither the Issuer nor the Agents shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.

3.10. *Minimum Exercise Amount*

Where a Minimum Exercise Amount has been specified in Product Condition 1, the number of Securities exercised on any Exercise Date, as determined by the Calculation Agent, must not be less than the Minimum Exercise Amount or, if a number in excess of the Minimum Exercise Amount and if an Integral Exercise Amount has been specified in Product Condition 1, an integral multiple of the Integral Exercise Amount. Any purported exercise of Securities in breach of this provision shall be void and of no effect.

3.11. *Maximum Exercise Amount*

Where a Maximum Exercise Amount has been specified in Product Condition 1, if the Calculation Agent determines that the number of Securities being exercised on any Exercise Date by any Securityholder or a group of Securityholders (whether or not acting in concert) exceeds the Maximum Exercise Amount (a number equal to the

Maximum Exercise Amount being the "**Quota**"), the Issuer may deem the Exercise Date for the first Quota of such Securities, selected on the basis of the chronological order in which the relevant Exercise Notices have been delivered, to be such day and the Exercise Date for each additional Quota of such Securities (and any remaining number thereof), selected in the same way as above, to be each of the succeeding Exercise Dates until all such Securities have been attributed with an Exercise Date, provided, however, that for any such Securities for which the Exercise Date would thereby fall after the last occurring Exercise Date, such last occurring Exercise Date shall be deemed to be the Exercise Date. In any case where more than the Quota of Securities are exercised on the same day by Securityholder(s), the determination of the chronological order of settlement in respect of such Securities shall be at the sole discretion of the Issuer.

Clause 3 Warrants & Certificates Cash only, European Type, Non-Automatic Exercise, Issuer Redemption Right

Type: European

Exercise: Non-Automatic

3. Exercise and Redemption

3.1. Exercise and Redemption

Subject as provided in the Conditions, unless previously redeemed, the Securities are only exercisable on the Exercise Date. Any Security with respect to which no Exercise Notice has been delivered in the manner set out in Product Condition 3.4 at or prior to 10.00 a.m. Central European Time on the Exercise Date shall be void. Any Exercise Notice delivered in the manner set out in Product Condition 3.4 prior to the Exercise Date shall be deemed to have been validly delivered on the Exercise Date.

The Issuer has the unconditional and irrevocable right (the "**Redemption Right**"), upon delivery of the Redemption Notice (as defined below) by the Issuer, to redeem the Securities in whole, but not in part.

"**Redemption Notice**" means the irrevocable notice given by the Issuer to the Securityholders in accordance with General Condition 4.1 that the Issuer will exercise its Redemption Right, which notice shall specify the Redemption Date.

3.2. Settlement

Upon due exercise, each Security entitles its holder to receive from the Issuer on the Settlement Date, the Cash Settlement Amount less any Securityholder Expenses.

If the Issuer exercises its Redemption Right, each Security, upon due delivery of a duly completed Settlement Notice by the Securityholder to the Principal Agent with a copy to the Clearing Agent in the manner set out in Product Condition 3.4 for Exercise Notices at or prior to 10.00 a.m. Central European Time on the Redemption Date, entitles its holder to receive from the Issuer on the Settlement Date, the Cash Settlement Amount less any Securityholder Expenses.

The Settlement Notice shall contain the same specifications as set out in Product Condition 3.4 for an Exercise Notice.

In case of an exercise by the Issuer of its Redemption Right, all references to an "**Exercise Notice**" in any Product Condition, shall be deemed also to apply for a "**Settlement Notice**".

If a duly completed Settlement Notice is not delivered and copied in accordance with Product Condition 3.4 by 10.00 a.m. Central European Time on the Redemption Date, then the Cash Settlement Amount will, subject as provided below, be paid as soon as practicable after the original Settlement Date (and such date of payment shall be deemed to be, for such Securities, the Settlement Date). **If a Settlement Notice has not been delivered and copied with respect to a Security in the manner set out in Product Condition 3.4 at or prior to 10.00 a.m. (Central European Time) on the thirtieth calendar day after the Redemption Date, then the holder of such Security shall have no right to receive the Cash Settlement Amount in respect of such Security and the Issuer's obligations in respect of such Security shall be cancelled.**

For the avoidance of doubt, in circumstances where either (i) payment of the Cash Settlement Amount is made after the original Settlement Date due to the delivery and/or copying of a Settlement Notice after 10.00 a.m. Central European Time on the

Redemption Date as provided above or (ii) the Issuer's obligations are cancelled as provided above, the relevant Securityholder(s) shall not be entitled to any payment, whether interest or otherwise, as a result thereof.

[If a notice period of more than six months is to be observed, as provided for under the definition of "Redemption Date", insert:

Where the Issuer has exercised the Redemption Right, it shall give notice to the Securityholders not more than 60 days and not less than 30 days before the Redemption Date reminding Securityholders of such exercise of the Redemption Right and the requirement to deliver a Settlement Notice as provided herein.]

The Issuer will be discharged of its payment obligations by payment to, or to the order of, the relevant Clearing Agent in respect of the amount so paid. Each of the persons shown in the records of a Clearing Agent as the holder of a particular number of the Securities must look solely to the relevant Clearing Agent for his share of each such payment so made by the Issuer to, or to the order of, the relevant Clearing Agent.

All payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment and subject to the provisions of General Condition 6.

If a payment of any amount to be paid to a Securityholder, according to the rules of the relevant Clearing Agent, cannot be made in the Settlement Currency, such payment shall be made in the currency principally used by the relevant Clearing Agent for payments to holders holding accounts with such Clearing Agent, following a conversion of the relevant amount from the Settlement Currency, using the rate of exchange determined by the Calculation Agent by reference to such sources as the Calculation Agent may reasonably determine to be appropriate.

3.3. *General*

In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent and any Agent shall have any responsibility for any errors or omissions in the calculation of any amount payable hereunder or in any other determination pursuant to the provisions hereof.

3.4. *Exercise Notice*

Securities may only be exercised by the delivery of a duly completed Exercise Notice to the Principal Agent, with a copy to the relevant Clearing Agent. The form of the Exercise Notice may be obtained during normal business hours from the specified office of each Agent.

An Exercise Notice shall:

- (1) specify the number of Securities being exercised;
- (2) specify the number of the account with the relevant Clearing Agent to be debited with the Securities being exercised;
- (3) irrevocably instruct and authorise the relevant Clearing Agent to debit on or before the Settlement Date such account with such Securities and authorise the Principal Agent to so direct the relevant Clearing Agent on behalf of the relevant Securityholder;
- (4) specify the number of the account with the relevant Clearing Agent to be credited with the Cash Settlement Amount less any Securityholder Expenses;
- (5) include an undertaking to pay all Securityholder Expenses and an authority to the relevant Clearing Agent to deduct an amount in respect thereof from any Cash Settlement Amount due to such Securityholder and/or to debit a specified account with the relevant Clearing Agent in respect thereof and to

pay such Securityholder Expenses and authorise the Principal Agent to so direct the relevant Clearing Agent on behalf of the relevant Securityholder;

- (6) authorise the production of such notice in any applicable administrative or legal proceedings;
- (7) certify that neither the Securityholder nor any person on whose behalf the Security is held is a U.S. person or a person within the United States. 3.5. *Verification*

In respect of each Exercise Notice, the relevant Securityholder must provide evidence reasonably satisfactory to the Principal Agent of its holding of such Securities.

3.6. *Determinations*

Failure properly to complete and deliver an Exercise Notice, including a copy thereof, as provided above, may result in such notice being treated as null and void. Any determination as to whether an Exercise Notice has been properly completed and delivered, including a copy thereof, shall be made by the Principal Agent and shall be conclusive and binding on the Issuer and the relevant Securityholder. Subject as set out below, any Exercise Notice so determined to be incomplete or not in proper form or not delivered to the Principal Agent and which is not copied to the relevant Clearing Agent as provided in the Conditions shall be void.

If such Exercise Notice is subsequently corrected to the satisfaction of the Principal Agent, it shall be deemed to be a new Exercise Notice submitted at the time such correction is delivered to the Principal Agent and copied to such Clearing Agent.

The Principal Agent shall use all reasonable endeavours promptly to notify the relevant Securityholder if it has determined that an Exercise Notice is incomplete or not in proper form. In the absence of gross negligence or wilful misconduct on its part, neither the Issuer nor the Principal Agent shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Securityholder.

3.7. *Delivery of an Exercise Notice*

Delivery of an Exercise Notice shall constitute an irrevocable election by the relevant Securityholder to exercise the Securities specified and no Exercise Notice may be withdrawn after receipt by the Principal Agent as provided above. After the delivery of an Exercise Notice the Securities which are the subject of such notice may not be transferred.

3.8. *Securityholder Expenses*

In respect of each Security, all Securityholder Expenses in respect thereof shall be for the account of the relevant Securityholder and where any Cash Settlement Amount and/or other amount in respect of a Security is payable no payment shall be made until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer.

3.9. *Exercise and Settlement Risk*

Exercise and settlement of the Securities is subject to all applicable laws, regulations and practices in force at all relevant times, and neither the Issuer nor any Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. Neither the Issuer nor the Agents shall under any circumstances be liable

for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.

Clause 3 Warrants & Certificates Cash only, Non-European Type, Non-Automatic Exercise, Issuer Redemption Right

Type: Non-European (i.e. American & Bermudan)

Exercise: Non Automatic

3. Exercise and Redemption

3.1. Exercise and Redemption

Subject as provided in the Conditions, unless previously redeemed the Securities are exercisable on any Exercise Date. Any Security with respect to which an Exercise Notice has been delivered after 10.00 a.m. Central European Time on any day shall be deemed to have been exercised on the next following Exercise Date, if any. Any Security with respect to which no Exercise Notice has been delivered in the manner set out in Product Condition 3.4 at or prior to 10.00 a.m. Central European Time on the last occurring Exercise Date shall be void.

"**Redemption Notice**" means the irrevocable notice given by the Issuer to the Securityholders in accordance with General Condition 4.1 that the Issuer will exercise its Redemption Right, which notice shall specify the Redemption Date.

Subject to Product Condition 3.8, the exercise by the Issuer of the Redemption Right shall not preclude Securityholders from exercising Securities on any Exercise Date up to and excluding the Redemption Date or from selling or transferring Securities which sale or transfer, as the case may be, is effective on any day up to but excluding the Redemption Date. In such case, any Exercise Notice delivered to the Principal Agent, or copied to the Clearing Agent, in each case after 10.00 a.m. Central European Time on the last Exercise Date prior to the Redemption Date shall be void.

3.2. Settlement

Upon due exercise, each Security entitles its holder to receive from the Issuer on the Settlement Date, the Cash Settlement Amount less any Securityholder Expenses.

If the Issuer exercises its Redemption Right, each Security, upon due delivery of a duly completed Settlement Notice by the Securityholder to the Principal Agent with a copy to the Clearing Agent in the manner set out in Product Condition 3.4 for Exercise Notices at or prior to 10.00 a.m. Central European Time on the Redemption Date, entitles its holder to receive from the Issuer on the Settlement Date, the Cash Settlement Amount less any Securityholder Expenses.

The Settlement Notice shall contain the same specifications as set out in Product Condition 3.4 for an Exercise Notice.

In case of an exercise by the Issuer of its Redemption Right, all references to an "Exercise Notice" in any Product Condition, shall be deemed also to apply for a "Settlement Notice".

If a duly completed Settlement Notice is not delivered and copied in accordance with Product Condition 3.4 by 10.00 a.m. Central European Time on the Redemption Date, then the Cash Settlement Amount will, subject as provided below, be paid as soon as practicable after the original Settlement Date (and such date of payment shall be deemed to be, for such Securities, the Settlement Date). **If a Settlement Notice has not been delivered and copied with respect to a Security in the manner set out in Product Condition 3.4 at or prior to 10.00 a.m. (Central European Time) on the**

thirtieth calendar day after the Redemption Date, then the holder of such Security shall have no right to receive the Cash Settlement Amount in respect of such Security and the Issuer's obligations in respect of such Security shall be cancelled.

For the avoidance of doubt, in circumstances where either (i) payment of the Cash Settlement Amount is made after the original Settlement Date due to the delivery and/or copying of a Settlement Notice after 10.00 a.m. Central European Time on the Redemption Date as provided above or (ii) the Issuer's obligations are cancelled as provided above, the relevant Securityholder(s) shall not be entitled to any payment, whether interest or otherwise, as a result thereof.

[If a notice period of more than six months is to be observed, as provided for under the definition of "Redemption Date", insert:

Where the Issuer has exercised the Redemption Right, it shall give notice to the Securityholders not more than 60 days and not less than 30 days before the Redemption Date reminding Securityholders of such exercise of the Redemption Right and the requirement to deliver a Settlement Notice as provided herein.]

The Issuer will be discharged of its payment obligations by payment to, or to the order of, the relevant Clearing Agent in respect of the amount so paid. Each of the persons shown in the records of a Clearing Agent as the holder of a particular number of the Securities must look solely to the relevant Clearing Agent for his share of each such payment so made by the Issuer to, or to the order of, the relevant Clearing Agent.

All payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment and subject to the provisions of General Condition 6.

If a payment of any amount to be paid to a Securityholder, according to the rules of the relevant Clearing Agent, cannot be made in the Settlement Currency, such payment shall be made in the currency principally used by the relevant Clearing Agent for payments to holders holding accounts with such Clearing Agent, following a conversion of the relevant amount from the Settlement Currency, using the rate of exchange determined by the Calculation Agent by reference to such sources as the Calculation Agent may reasonably determine to be appropriate.

3.3. *General*

In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent and any Agent shall have any responsibility for any errors or omissions in the calculation of any amount payable hereunder or in any other determination pursuant to the provisions hereof.

3.4. *Exercise Notice*

As used herein, "U.S. person" means either a U.S. person as defined in Regulation S under the United States Securities Act of 1933, as amended, or a person who does not come within the definition of a non-United States person under Rule 4.7 of the United States Commodity Exchange Act, as amended.

3.5. *Verification*

In respect of each Exercise Notice, the relevant Securityholder must provide evidence reasonably satisfactory to the Principal Agent of its holding of such Securities.

3.6. *Determinations*

Failure properly to complete and deliver an Exercise Notice, including a copy thereof, as provided above, may result in such notice being treated as null and void. Any determination as to whether an Exercise Notice has been properly completed and delivered, including a copy thereof, shall be made by the Principal Agent and shall be conclusive and binding on the Issuer and the relevant Securityholder. Subject as set out below, any Exercise Notice so determined to be incomplete or not in proper form or not delivered to the Principal Agent and which is not copied to the relevant Clearing Agent as provided in the Conditions shall be void.

If such Exercise Notice is subsequently corrected to the satisfaction of the Principal Agent, it shall be deemed to be a new Exercise Notice submitted at the time such correction is delivered to the Principal Agent and copied to such Clearing Agent.

The Principal Agent shall use all reasonable endeavours promptly to notify the relevant Securityholder if it has determined that an Exercise Notice is incomplete or not in proper form. In the absence of gross negligence or wilful misconduct on its part, neither the Issuer nor the Principal Agent shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Securityholder.

3.7. *Delivery of an Exercise Notice*

Delivery of an Exercise Notice shall constitute an irrevocable election by the relevant Securityholder to exercise the Securities specified and no Exercise Notice may be withdrawn after receipt by the Principal Agent as provided above. After the delivery of an Exercise Notice the Securities which are the subject of such notice may not be transferred.

3.8. *Securityholder Expenses*

In respect of each Security, all Securityholder Expenses in respect thereof shall be for the account of the relevant Securityholder and where any Cash Settlement Amount and/or other amount in respect of a Security is payable no payment shall be made

until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer.

3.9. *Exercise and Settlement Risk*

Exercise and settlement of the Securities is subject to all applicable laws, regulations and practices in force at all relevant times, and neither the Issuer nor any Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. Neither the Issuer nor the Agents shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.

3.10. *Minimum Exercise Amount*

Where a Minimum Exercise Amount has been specified in Product Condition 1, the number of Securities exercised on any Exercise Date, as determined by the Calculation Agent, must not be less than the Minimum Exercise Amount or, if a number in excess of the Minimum Exercise Amount and if an Integral Exercise Amount has been specified in Product Condition 1, an integral multiple of the Integral Exercise Amount. Any purported exercise of Securities in breach of this provision shall be void and of no effect.

3.11. *Maximum Exercise Amount*

Where a Maximum Exercise Amount has been specified in Product Condition 1, if the Calculation Agent determines that the number of Securities being exercised on any Exercise Date by any Securityholder or a group of Securityholders (whether or not acting in concert) exceeds the Maximum Exercise Amount (a number equal to the Maximum Exercise Amount being the "**Quota**"), the Issuer may deem the Exercise Date for the first Quota of such Securities, selected on the basis of the chronological order in which the relevant Exercise Notices have been delivered, to be such day and the Exercise Date for each additional Quota of such Securities (and any remaining number thereof), selected in the same way as above, to be each of the succeeding Exercise Dates until all such Securities have been attributed with an Exercise Date, provided, however, that for any such Securities for which the Exercise Date would thereby fall after the last occurring Exercise Date, such last occurring Exercise Date shall be deemed to be the Exercise Date. 4.1.3 Adjustments to the Index

The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 4 of any determination made by it pursuant to paragraph 4.1.3.1 or 4.1.3.2 below.

4.1.3.1 If an Index is:

- 4.1.3.1.1. not calculated and announced by the relevant Index Sponsor but is calculated and published by a successor sponsor (the "**Successor Sponsor**") acceptable to the Calculation Agent; or
- 4.1.3.1.2. replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the Index,

then in each case that Index will be deemed to be the index so calculated and announced by such Successor Sponsor or that successor index, as the case may be.

4.1.3.2 If:

4.1.3.2.1 on or prior to any date with respect to which the Calculation Agent is required by the Product Conditions to determine the level of an Index, the relevant Index Sponsor or, if applicable, the Successor Sponsor (i) makes or announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation and other routine events) (an "**Index Modification**") or (ii) permanently cancels that Index (an "**Index Cancellation**") or (iii) fails to calculate and announce that Index (an "**Index Disruption**") and, in each case, Product Condition 4.1.3.1.1 or 4.1.3.1.2 does not apply,

then the Issuer may take any action described in 4.1.3.2.2 or 4.1.3.2.3 below:

4.1.3.2.2 require the Calculation Agent to determine the level of that Index on that date using, in lieu of a published level for that Index, the level for that Index as at that date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the Index Modification, Index Cancellation or Index Disruption but using only those Index Constituents that comprised that Index immediately prior to the Index Modification, Index Cancellation or Index Disruption; or

4.1.3.2.3 cancel the Securities by giving notice to Securityholders in accordance with General Condition 4. If the Securities are so cancelled, the Issuer will pay an amount to each Securityholder in respect of each Security held by such Securityholder which amount shall be the fair market value of a Security taking into account the Index Modification, Index Cancellation or Index Disruption, as the case may be, less the direct or indirect cost to the Issuer and/or any of its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its reasonable discretion. Payment will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 4.

[Insert for Deutsche Bank proprietary Index, if applicable:]

Where provisions for the calculation of an Index are set out in "Information Relating to the Underlying Asset" attached hereto then, for the avoidance of doubt, all the provisions set out in such sections are an integral part of how such Index is calculated and no calculation of such Index pursuant to any such provisions (including, but not limited to, any change in any Applicable Percentage or any operation of the provisions, if any, set out therein) will constitute an Index Modification as referred to above in Product Condition 4.1.3.2.1 or necessitate any determination by the Calculation Agent pursuant to this Product Condition 4.1.3.2.]

4.1.3.3. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Securityholder of any determination

made by it pursuant to this Product Condition 4 which occurs on or before the date of receipt of such request. The Calculation Agent shall make available for inspection by Securityholders copies of any such determinations.

4.1.4. *Additional Disruption Events*

4.1.4.1 Without prejudice to Product Condition 4.1.2 or General Condition 2, following the declaration by the Issuer of the occurrence of any Additional Disruption Event and provided that such Additional Disruption Event has an effect on the Issuer and/or any of its Affiliates in connection with (i) obligations of the Issuer under the Securities and/or (ii) any related hedging arrangements, the Issuer may take any one of the following actions:

4.1.4.1.1 require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the Conditions to account for the Additional Disruption Event and determine the effective date of that adjustment. Without limitation, such adjustment may take into account and pass on to the Securityholder(s) any increased direct or indirect cost to the Issuer and or/any of its Affiliates as a result of or in connection with the relevant Additional Disruption Event; or

4.1.4.1.2 cancel the Securities by giving notice to Securityholders in accordance with General Condition 4. If the Securities are so cancelled, the Issuer will pay an amount to each Securityholder in respect of each Security held by such Securityholder which amount shall be the fair market value of a Security taking into account the Additional Disruption Event less the direct or indirect cost to the Issuer and/or any of its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its reasonable discretion. Payment will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 4.

4.1.4.2 **"Additional Disruption Event"** means any of the following:

4.1.4.2.1 the Issuer determines that (i) due to the adoption of or any change in any applicable law or regulation (including without limitation, any tax law), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), (A) it has or will become illegal or impractical for the Issuer and/or any of its Affiliates and/or any Hedging Party to hold, acquire or dispose of the Shares or (B) the Issuer and/or any of its Affiliates has or will incur a materially increased direct or indirect cost in performing its obligations under the Securities and/or any related hedging arrangements (including, without limitation, due to any increase in tax liability, decrease in tax benefits or other adverse effect on the tax position of the Issuer and/or any of its Affiliates and/or any Hedging Party); or

4.1.4.2.2 the Issuer determines that it and/or any of its Affiliates and/or any Hedging Party is unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any arrangement(s), transaction(s) or asset(s) it deems necessary to hedge the risks

of the Issuer entering into and performing its obligations with respect to the Securities, or (B) realise, recover or remit the proceeds of any such arrangement(s), transaction(s) or asset(s); or

4.1.4.2.3 the Issuer determines that it and/or any its Affiliates and/or any Hedging Party has or would incur a materially increased amount of tax, duty, expense or fee (other than brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any arrangement(s), transaction(s) or asset(s) it deems necessary to hedge the risks of the Issuer entering into and performing its obligations with respect to the Securities or (B) realise, recover or remit the proceeds of any such arrangement(s), transaction(s) or asset(s); or

4.1.4.2.4 (i) the Issuer determines, at any time, that a Market Disruption Event pursuant to Product Condition [4.1.2.4 and/or (if specified) Product Condition 4.1.2.5 and/or 4.1.2.6] **[or if only item (ii) of Market Disruption is included, insert: 4.1.2.1 and/or (if specified) 4.1.2.2 and/or 4.1.2.3]** has existed for [•][eight] or more Trading Days and continues to exist and that any alternative valuation methods provided for in the Product Conditions would, in the determination of the Issuer, not be appropriate for the purposes of making the relevant calculation; and

(ii) the Issuer then elects to treat such Market Disruption Event as an Additional Disruption Event.

4.1.3.2 If:

- 4.1.3.2.1 on or prior to any date with respect to which the Calculation Agent is required by the Product Conditions to determine the level of an Index, the relevant Index Sponsor or, if applicable, the Successor Sponsor (i) makes or announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation and other routine events) (an "**Index Modification**") or (ii) permanently cancels that Index (an "**Index Cancellation**") or (iii) fails to calculate and announce that Index (an "**Index Disruption**") and, in each case, Product Condition 4.1.3.1.1 or 4.1.3.1.2 does not apply,

then the Calculation Agent shall substitute that Index (the "**Disrupted Index**") in the Basket with a Replacement Basket Constituent (as defined below) on the effective date of such event. Accordingly:

- (i.) the Replacement Basket Constituent and its sponsor will be deemed a "Basket Constituent" and a "Index Sponsor" respectively,
- (ii.) the Calculation Agent will adjust the Coupon Reference Level for such Replacement Basket Constituent so that the ratio of the Specified Spot Price for that Replacement Basket Constituent to the Coupon Reference Level for the Replacement Basket Constituent equals the ratio of the Specified Spot Price for the Disrupted Index to the Coupon Reference Level for the Disrupted Share immediately prior to the occurrence of such event, and, if necessary, the Calculation Agent will adjust any other relevant terms accordingly;

"**Replacement Basket Constituent**" means, in the determination of the Calculation Agent in its sole discretion, the index [...] provided that such index is not an Index.

- 4.1.3.3. The Calculation Agent shall, as soon as practicable after receipt of any written request to do so, advise a Securityholder of any determination made by it pursuant to this Product Condition 4 which occurs on or before the date of receipt of such request. 4.1.3 Potential Adjustment Events

Following any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a dilutive or concentrative or other effect on the theoretical value of the relevant Share and, if so, will (i) make the corresponding adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate to account for that dilutive or concentrative or other effect; and (ii) determine the effective date of that adjustment. The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by a Related Exchange to options contracts or futures contracts on the relevant Share traded on that Related Exchange.

Upon making any such adjustment, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 4, stating the adjustment made to the Conditions and giving brief details of the Potential Adjustment Event.

"Potential Adjustment Event" means any of the following:

- 4.1.3.7 any redemption of shareholder rights referred to in 4.1.3.6 above; and
- 4.1.3.8 any other event that may have a diluting or concentrative or other effect on the theoretical value of the relevant Shares.

4.1.4. *Merger Event, Tender Offer, De-Listing, Nationalisation and Insolvency*

If a Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency occurs in relation to relevant Shares and/or the relevant Share Company, as the case may be, the Issuer may take any action described in 4.1.4.1, 4.1.4.2 or 4.1.4.3 below:

- 4.1.4.1 require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the Conditions to account for the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment. The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency made by an options exchange to options on the Share traded on that options exchange; or
- 4.1.4.2 cancel the Securities by giving notice to Securityholders in accordance with General Condition 4. If the Securities are so cancelled, the Issuer will pay an amount to each Securityholder in respect of each Security held by such Securityholder which amount shall be the fair market value of a Security taking into account the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, as the case may be, less the direct or indirect cost to the Issuer and/or any of its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its reasonable discretion. Payment will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 4; or
- 4.1.4.3 following any adjustment to the settlement terms of options on the Shares traded on such exchange(s) or trading system(s) or quotation system(s) as the Calculation Agent in its reasonable discretion shall select (the "**Options Reference Source**") require the Calculation Agent to make a corresponding adjustment to any one or more of the Conditions, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by

the Options Reference Source. If options on the Shares are not traded on the Options Reference Source, the Calculation Agent will make such adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate, with reference to the rules and precedents (if any) set by the Options Reference Source, to account for the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, as the case may be, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Reference Source if such options were so traded.

Upon the occurrence of a Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 4 stating the occurrence of the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, as the case may be, giving details thereof and the action proposed to be taken in relation thereto. However, Securityholders should be aware that there may necessarily be some delay between the time at which any of the above events occurs and the time at which it is reported to Securityholders.

"De-Listing" means, for any Share for which the Reference Source is an exchange or a trading system or a quotation system, the Reference Source announces that pursuant to the rules of such Reference Source, such Share ceases (or will cease) to be listed, traded or publicly quoted on the Reference Source for any reason (other than a Merger Event or Tender Offer) and is not immediately re-listed, re-traded or re-quoted on an exchange, trading system or quotation system acceptable to the Calculation Agent.

"Insolvency" means that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting a Share Company (A) all the Shares of that Share Company are required to be transferred to a trustee, liquidator or other similar official or (B) holders of the Shares of that Share Company become legally prohibited from transferring them.

"Merger Date" means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent.

"Nationalisation" means that all the Shares or all or substantially all of the assets of a Share Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

4.1.5. *Additional Disruption Events*

4.1.5.1 Without prejudice to Product Condition 4.1.2 or General Condition 2, following the declaration by the Issuer of the occurrence of any Additional Disruption Event and provided that such Additional Disruption Event has an effect on the Issuer and/or any of its Affiliates in connection with (i) obligations of the Issuer under the Securities and/or (ii) any related hedging arrangements, the Issuer may take any one of the following actions:

4.1.5.1.1 require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the Conditions to account for the Additional Disruption Event and determine the effective date of that adjustment. 4.1.5.1.2 cancel the Securities by giving notice to Securityholders in accordance with General Condition 4. If the Securities are so cancelled, the Issuer will pay an amount to each Securityholder in respect of each Security held by such Securityholder which amount shall be the fair market value of a Security taking into account the Additional Disruption Event less the direct or indirect cost to the Issuer and/or any of its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its reasonable discretion. 4.1.3 Potential Adjustment Events

Following any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a dilutive or concentrative or other effect on the theoretical value of the relevant Share and, if so, will (i) make the corresponding adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate to account for that dilutive or concentrative or other effect; and (ii) determine the effective date of that adjustment. The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by a Related Exchange to options contracts or futures contracts on the relevant Share traded on that Related Exchange.

Upon making any such adjustment, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 4, stating the adjustment made to the Conditions and giving brief details of the Potential Adjustment Event.

"Potential Adjustment Event" means any of the following:

- 4.1.3.1 a subdivision, consolidation or reclassification of relevant Shares (unless it has resulted in a Merger Event) or a free distribution or dividend of any such Shares to existing holders by way of bonus, capitalisation or similar issue;
- 4.1.3.2 a distribution, issue or dividend to existing holders of the relevant Shares of (1) such Shares, or (2) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Share Company equally or proportionately with such payments to holders of such Shares, or (3) share capital or other securities of another issuer as a result of a "spin-off" or other similar transaction, or (4) any other type of

- securities, rights or warrants or other assets, in any case for payment (in cash or in other consideration) at less than the prevailing market price as determined by the Calculation Agent;
- 4.1.3.3 an extraordinary dividend;
 - 4.1.3.4 a call by the Share Company in respect of relevant Shares that are not fully paid;
 - 4.1.3.5 a repurchase by or on behalf of the Share Company or any of its subsidiaries of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
 - 4.1.3.6 in respect of a Share Company, an event that results in any shareholder rights being distributed, or becoming separated from shares of common stock or other shares of the capital stock of such Share Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value as determined by the Calculation Agent;
 - 4.1.3.7 any redemption of shareholder rights referred to in 4.1.3.6 above; and
 - 4.1.3.8 any other event that may have a diluting or concentrative or other effect on the theoretical value of the relevant Shares.

4.1.4. Merger Event, Tender Offer, De-Listing, Nationalisation and Insolvency

If a De-Listing occurs in relation to a Share (such Share being a "**Disrupted Share**"), the Calculation Agent shall substitute the Disrupted Share in the Basket with a Replacement Basket Constituent (as defined below) on the effective date for such De-Listing (the "**De-Listing Date**"), whereupon:

- (i.) the Replacement Basket Constituent and its issuer will be deemed a "Basket Constituent" and a "Share Company" respectively,
- (ii.) the Calculation Agent will adjust the Coupon Reference Level for such Replacement Basket Constituent so that the ratio of the Specified Spot Price for that Replacement Basket Constituent to the Coupon Reference Level for the Replacement Basket Constituent equals the ratio of the Specified Spot Price for the Disrupted Share to the Coupon Reference Level for the Disrupted Share immediately prior to the De-Listing Date, and
- (iii.) if necessary, the Calculation Agent will adjust any other relevant terms accordingly.

If a Share-for-Share Merger Event or a Share-for-Combined Merger Event occurs in relation to a Share (such Share being a "**Disrupted Share**") and the Issuer of the New Basket Constituents is not already a Share Company, then, on or after the relevant Merger Date, the Calculation Agent shall adjust the Basket to include the relevant quantity of the New Basket Constituents to which a holder of the Share immediately prior to the occurrence of the Merger Event would be entitled upon consummation of the Merger Event. Accordingly:

- (i.) the New Basket Constituent and its issuer will be deemed a "Basket Constituent" and a "Share Company" respectively
- (ii.) the Calculation Agent will adjust the Coupon Reference Level for such New Basket Constituent so that the ratio of the Specified Spot Price for that New Basket Constituent to the Coupon Reference Level for the New Basket Constituent equals the ratio of the Specified Spot Price for the Disrupted

Share to the Coupon Reference Level for the Disrupted Share immediately prior to the occurrence of the Merger Event, and

- (iii.) if necessary, the Calculation Agent will adjust any other relevant terms accordingly.

If a Share-for-Other Merger Event, or a Share-for-Share Merger Event or a Share-for-Combined Merger Event where the issuer of the New Basket Constituents is a Share Company, occurs in relation to a Share (such Share being a "**Disrupted Share**"), then, on or after the relevant Merger Date, the Calculation Agent shall adjust the Basket by substituting the Disrupted Share in the Basket with a Replacement Share (as defined below) upon consummation of the Merger Event. Accordingly:

- (i.) the Replacement Basket Constituent and its issuer will be deemed a "Basket Constituent" and a "Share Company" respectively,
- (ii.) the Calculation Agent will adjust the Coupon Reference Level for such Replacement Basket Constituent so that the ratio of the Specified Spot Price for that Replacement Basket Constituent to the Coupon Reference Level for the Replacement Basket Constituent equals the ratio of the Specified Spot Price for the Disrupted Share to the Coupon Reference Level for the Disrupted Share immediately prior to the occurrence of the Merger Event, and
- (iii.) if necessary, the Calculation Agent will adjust any other relevant terms accordingly;

If a Nationalisation or Insolvency occurs in relation to a Share (such Share being a "Disrupted Share"), the Calculation Agent shall substitute the Disrupted Share in the Basket with a Replacement Basket Constituent (as defined below) on the effective date of such event. Accordingly:

- (iii.) the Replacement Basket Constituent and its issuer will be deemed a "Basket Constituent" and a "Share Company" respectively,
- (iv.) the Calculation Agent will adjust the Coupon Reference Level for such Replacement Basket Constituent so that the ratio of the Specified Spot Price for that Replacement Basket Constituent to the Coupon Reference Level for the Replacement Basket Constituent equals the ratio of the Specified Spot Price for the Disrupted Share to the Coupon Reference Level for the Disrupted Share immediately prior to the occurrence of such event, and, if necessary, the Calculation Agent will adjust any other relevant terms accordingly;

Upon the occurrence of a Merger Event, De-Listing, Nationalisation or Insolvency, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 4 stating the occurrence of the Merger Event, De-Listing, Nationalisation or Insolvency, as the case may be, giving details thereof and the action proposed to be taken in relation thereto. However, Securityholders should be aware that there may necessarily be some delay between the time at which any of the above events occur and the time at which it is notified to Securityholders.

"**Insolvency**" means, in relation to a Share, that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting a Share Company (A) all the Shares of that Share Company are required to be transferred to a trustee, liquidator or other similar official or (B) holders of the Shares of that Share Company become legally prohibited from transferring them.

"**Merger Date**" means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent.

4.1.5.1.1 require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the Conditions to account for the Additional Disruption Event and determine the effective date of that adjustment. Without limitation, such adjustment may take into account and pass on to the Securityholder(s) any increased direct or indirect cost to the Issuer and or/any of its Affiliates as a result of or in connection with the relevant Additional Disruption Event; or

4.1.5.1.2 cancel the Securities by giving notice to Securityholders in accordance with General Condition 4. If the Securities are so cancelled, the Issuer will pay an amount to each Securityholder in respect of each Security held by such Securityholder which amount shall be the fair market value of a Security taking into account the Additional Disruption Event less the direct or indirect cost to the Issuer and/or any of its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its reasonable discretion. 4.1.5.2.2 the Issuer determines that it and/or any of its Affiliates and/or any Hedging Party is unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any arrangement(s), transaction(s) or asset(s) it deems necessary to hedge the risks of the Issuer entering into and performing its obligations with respect to the Securities, or (B) realise, recover or remit the

determined by the Calculation Agent in its reasonable discretion. Payment will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 4; or

- 4.1.4.3 following any adjustment to the settlement terms of options on the Other Securities traded on such exchange(s) or trading system(s) or quotation system(s) as the Calculation Agent in its reasonable discretion shall select (the "**Options Reference Source**") require the Calculation Agent to make a corresponding adjustment to any one or more of the Conditions, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Reference Source. If options on the Other Securities are not traded on the Options Reference Source, the Calculation Agent will make such adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate, with reference to the rules and precedents (if any) set by the Options Reference Source, to account for the De-Listing, Insolvency or Termination, as the case may be, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Reference Source if such options were so traded.

Calculation Agent in its reasonable discretion. Payment will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 4; or

- 4.1.4.3 following any adjustment to the settlement terms of options on the Futures traded on such exchange(s) or trading system(s) or quotation system(s) as the Calculation Agent in its reasonable discretion shall select (the "**Options Reference Source**") require the Calculation Agent to make a corresponding adjustment to any one or more of the Conditions, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Reference Source. If options on the Futures are not traded on the Options Reference Source, the Calculation Agent will make such adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate, with reference to the rules and precedents (if any) set by the Options Reference Source, to account for the De-Listing or Termination, as the case may be, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Reference Source if such options were so traded.

As used herein:

"De-Listing" means, in relation to a Future, that the relevant Reference Source announces that pursuant to the rules of such Reference Source, such Future ceases (or will cease) to be listed, traded or publicly quoted on the Reference Source for any reason and is not immediately re-listed, re-traded or re-quoted on an exchange, trading system or quotation system acceptable to the Calculation Agent;

"Termination" means, in relation to a Future, such future contract has been terminated, cancelled or otherwise ceased to be outstanding for any reason.

[4.1.5. *Replacement*

Upon the occurrence of a Replacement Event with respect to a Future, such Future shall, with effect on the Replacement Day, be replaced with the Successor Future. In such case, all references to a Future in any Product Condition shall be deemed to apply for the Successor Future. Also with effect on the Replacement Day, the Calculation Agent shall make adjustments, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate to account of the Replacement Event. The adjustments will be made to preserve the economic position of the Securityholders before the replacement, and will reflect the difference, if any, between the last price of the Future and of the Successor Future before the replacement became effective.

If the Calculation Agent determines in its reasonable discretion that a Successor Future is not available, the Issuer will cancel the Securities as provided in 4.1.4.2 above.

"Replacement Day" means the Trading Day following the day on which the Replacement Event occurs;

"Replacement Event" means [the Future has a remaining period of validity of less than [●]] [options contracts on the Future cease (or will cease) to be listed, traded or publicly quoted on the Reference Source for any reason and are not immediately re-listed, re-traded or re-quoted on an exchange, trading system or quotation system acceptable to the Calculation Agent] [●];

"Successor Future" means [the future contract following the same underlying concept and having the same Reference Source as the Future which, at the time of occurrence of the Replacement Event, has the shortest remaining period of validity[, provided that the period of validity shall not be less than [●][●].]

Such notice shall be given at least 10 Business Days before any split is to be effected and give the date of such split and specify the adjusted Multiplier following such split. *[If Non-European style and/or Non-Automatic Exercise insert: Any Exercise Notice [If the Issuer has the right to redeem the Securities and if the Securities do not provide for automatic settlement insert: or Settlement Notice]* delivered in accordance with Product Condition 3 prior to such split and in respect of Securities which remain outstanding following such split shall be deemed to apply to such Securities as adjusted following such split.] The Issuer shall also give notice to the Clearing Agents requesting that following any such split they amend their records accordingly. [Where the Securities are governed by English law, insert:

The Securities are governed by and shall be construed in accordance with English law. [No person shall have any right to enforce any term or condition of the Securities under the Contracts (Rights of Third Parties) Act 1999, but this does not affect any right or remedy of any person which exists or is available apart from that Act.]

The Securities are governed by and shall be construed in accordance with German law. The place of jurisdiction for all proceedings arising from matters provided for in these Conditions of the Securities shall, to the extent legally permitted, be [Frankfurt am Main] [●].]

B. GENERAL CONDITIONS

These General Conditions relate to the Securities and must be read in conjunction with, and are subject to, the Product Conditions set out in this document. The Product Conditions and the General Conditions together constitute the Conditions of the Securities and will be attached to the Global Security representing the Securities.

1. Status of the Securities

The Securities constitute unsubordinated, unsecured contractual obligations of the Issuer and rank *pari passu* in all respects with each other.

2. Early Exercise, Redemption or Termination for Extraordinary Reasons, Illegality and Force Majeure

If the Issuer determines that, for reasons beyond its control, the performance of its obligations under the Securities has become illegal or impractical in whole or in part for any reason, or the Issuer determines that, for reasons beyond its control, it is no longer legal or practical for it to maintain its hedging arrangements with respect to the Securities for any reason, the Issuer may at its discretion and without obligation deem exercised, redeem or terminate the Securities early by giving notice to the Securityholders in accordance with General Condition 4.

Should any one or more of the provisions contained in the Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

If the Issuer exercises, redeems or terminates the Securities early, then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Securityholder in respect of each Security held by such holder equal to the fair market value of a Security notwithstanding such illegality or impracticality less the cost to the Issuer of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its reasonable discretion. Payment will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 4.

3. Purchases

The Issuer may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation.

4. Notices

4.1 Validity

Notices to the Securityholders will be valid if delivered to the Clearing Agent(s) for communication by the Clearing Agent(s) to the Securityholders provided that so long as the Securities are listed on any stock exchange or publicly offered in any jurisdiction, any notice to the Securityholders shall be published in accordance with the rules and regulations of each such stock exchange and each such jurisdiction. In the Federal Republic of Germany it is expected that any notices to the Securityholders will normally be published in the *Börsen-Zeitung*.

4.2 Delivery

Notices given pursuant to 4.1 above will become effective on, if delivered to the Clearing Agent(s), the third day after such delivery to the Clearing Agent or all the Clearing Agents (if more than one) or, if published (whether or not also so given), on the date of such publication, or, if published more than once, on the date of the first

such publication or, if required to be published in more than one newspaper, on the date of the first such publication in all the required newspapers.

5. Agents, Calculation Agent, Determinations and Modifications

5.1 Agents

The Issuer reserves the right at any time to vary or terminate the appointment of any Agent and to appoint additional Agents, provided that no termination of appointment of the Principal Agent shall become effective until a replacement Principal Agent shall have been appointed and provided that, if and to the extent that any of the Securities are listed on any stock exchange or publicly offered in any jurisdiction, there shall be an Agent having a specified office in each country if so required by the rules and regulations of each such stock exchange and the securities regulators in each such jurisdiction. Notice of any appointment, or termination of appointment, or any change in the specified office, of any Agent will be given to Securityholders in accordance with General Condition 4. Each Agent acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders. Any calculations or determinations in respect of the Securities made by an Agent shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders.

5.2 Calculation Agent

The Issuer shall undertake the duties of calculation agent (the "**Calculation Agent**" which expression shall include any successor calculation agent) in respect of the Securities unless the Issuer decides to appoint a successor Calculation Agent in accordance with the provisions below.

The Issuer reserves the right at any time to appoint another institution as the Calculation Agent, provided that no termination of appointment of the existing Calculation Agent shall become effective until a replacement Calculation Agent shall have been appointed. Notice of any such termination or appointment will be given to the Securityholders in accordance with General Condition 4.

The Calculation Agent (except where it is the Issuer) acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders. Any calculations or determinations in respect of the Securities made by the Calculation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders.

The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate.

5.3 Determinations by the Issuer

Any determination made by the Issuer pursuant to the Conditions shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders.

5.4 Modifications

The Issuer may, to the extent permitted by applicable law, modify the Conditions without the consent of the Securityholders or any of them in any manner which the Issuer may deem reasonably necessary in order to maintain or preserve the intended commercial purpose of the Conditions if such modification does not materially adversely affect the interests of the Securityholders or is of a formal, minor or technical nature or intended to correct a manifest error or to cure, correct or supplement any defective provision contained therein. Notice of any such modification will be given to the Securityholders in accordance with General Condition 4 but failure to give, or non-receipt of, such notice will not affect the validity of any such modification.

6. Taxation

In relation to each Security the relevant Securityholder shall pay all Securityholder Expenses as provided in the Product Conditions. All payments or, as the case may be, deliveries in respect of the Securities will be subject in all cases to all applicable fiscal and other laws and regulations (including, where applicable, laws requiring the deduction or withholding for, or on account of, any tax, duty or other charge whatsoever). The Issuer shall not be liable for or otherwise obliged to pay, and the relevant Securityholder shall be liable for and/or pay, any tax, duty, charge, withholding or other payment whatsoever which may arise as a result of, or in connection with, the ownership, any transfer, any payment and/or any delivery in respect of the Securities held by such Securityholder. The Issuer shall have the right, but shall not be obliged, to withhold or deduct from any amount payable or, as the case may be, any delivery due to the Securityholder such amount or portion as shall be necessary to account for or to pay any such tax, duty, charge, withholding or other payment. Each Securityholder shall indemnify the Issuer against any loss, cost or other liability whatsoever sustained or incurred by the Issuer in respect of any such tax, duty, charge, withholding or other payment as referred to above in respect of the Securities of such holder.

7. Further Issues

The Issuer shall be at liberty from time to time without the consent of Securityholders or any of them to create and issue further securities so as to be consolidated and form a single series with the Securities.

8. Substitution

8.1 *Substitution of Issuer*

The Issuer, or any previous substituted company, may at any time, without the consent of the Securityholders substitute for itself as principal obligor under the Securities any company (the "**Substitute**"), being any subsidiary or affiliate of the Issuer, subject to:

- (a) the obligations of the Substitute under the Securities being guaranteed by Deutsche Bank AG (unless it is the Substitute);
- (b) all actions, conditions and things required to be taken, fulfilled and done (including the obtaining of any necessary consents) to ensure that the Securities represent legal, valid and binding obligations of the Substitute having been taken, fulfilled and done and being in full force and effect;
- (c) the Issuer shall have given at least 30 days' prior notice of the date of such substitution to the Securityholders in accordance with General Condition 4.

In the event of any substitution of the Issuer, any reference in the Conditions to the Issuer shall henceforth be construed as a reference to the Substitute.

8.2 *Substitution of Office*

The Issuer shall have the right upon notice to Securityholders in accordance with General Condition 4 to change the office through which it is acting for the purpose of the Securities, the date of such change to be specified in such notice provided that no change can take place prior to the giving of such notice.

9. Replacement of Securities

Should any Security be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Principal Agent (or such other place of which notice shall have been given in accordance with General Condition 4) upon payment by the claimant of the expenses incurred in connection therewith and on such terms

as to evidence and as to indemnity as the Issuer may reasonably require. Mutilated or defaced Securities must be surrendered before replacements will be issued

10. Adjustments for European Monetary Union

10.1 Redenomination

The Issuer may, without the consent of the Securityholders, on giving notice to the Securityholders in accordance with General Condition 4 elect that, with effect from the Adjustment Date specified in the notice, certain terms of the Securities shall be redenominated in euro;

The election will have effect as follows:

- (a) where the Settlement Currency is the National Currency Unit of a country which is participating in the third stage of European Economic and Monetary Union, whether as from 1999 or after such date, such Settlement Currency shall be deemed to be an amount of euro converted from the original Settlement Currency into euro at the Established Rate, subject to such provisions (if any) as to rounding as the Issuer may decide and as may be specified in the notice, and after the Adjustment Date, all payments in respect of the Securities will be made solely in euro as though references in the Securities to the Settlement Currency were to euro;
- (b) where the Conditions contain a rate of exchange or any of the Conditions are expressed in a currency (the "**Original Currency**") of a country which is participating in the third stage of European Economic and Monetary Union, whether as from 1999 or after such date, such rate of exchange and/or any other terms of the Conditions shall be deemed to be expressed in or, in the case of a rate of exchange, converted for or, as the case may be into, euro at the Established Rate; and
- (c) such other changes shall be made to the Conditions as the Issuer may decide to conform them to conventions then applicable to instruments expressed in euro.

10.2 Adjustment to Conditions

The Issuer may, without the consent of the Securityholders, on giving notice to the Securityholders in accordance with General Condition 4 make such adjustments to the Conditions as the Issuer may determine to be appropriate to account for the effect of the third stage of European Economic and Monetary Union pursuant to the Treaty on the Conditions.

10.3 Euro Conversion Costs, etc.

Notwithstanding Condition 10.1 and/or Condition 10.2, none of the Issuer, the Calculation Agent and any Agent shall be liable to any Securityholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the transfer of euro or any currency conversion or rounding effected in connection therewith.

10.4 Definitions
