I. SUMMARY

The information set out below is a summary only and should be read in conjunction with the rest of this document. This summary is intended to convey the essential characteristics and risks associated with the Issuer, and in relation to the Securities and does not purport to be complete. It is taken from, and is qualified in its entirety by, the remainder of this document, including the Conditions, which constitute the legally binding conditions of the Securities as attached to the global security. Accordingly, this summary should be read as an introduction to the document, and any decision to invest in the Securities should be based on consideration of the document as a whole by the investor.

Prospective investors should be aware that where a claim relating to the information contained in this document is brought before a court, the investor making the claim might, under the national legislation of the respective EU member state, have to bear the costs of translating the prospectus before the legal proceedings are initiated.

Civil liability attaches to the Issuer who has tabled the summary including the translation thereof and applied for its notification, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the document.

A. SUMMARY OF RISK FACTORS

1. Risks relating to the Securities

An investment in the Securities involves risks. These risks may include, among others, equity market, bond market, foreign exchange, interest rate, market volatility and economic, political and regulatory risks and any combination of these and other risks. Prospective purchasers should be experienced with respect to transactions in instruments such as the Securities and in the underlying asset or other basis of reference for the Securities (the "**Underlying**"). Prospective purchasers should understand the risks associated with an investment in the Securities and should only reach an investment decision after careful consideration, with their legal, tax, accounting and other advisers, of (a) the suitability of an investment in the Securities in the light of their own particular financial, tax and other circumstances, (b) the information set out in this document and (c) the Underlying.

The Securities may decline in value and investors should be prepared to sustain a total loss of their investment in the Securities. The shorter the remaining term of the Securities, the higher the risk of decline in value of the Securities.

An investment in the Securities should only be made after assessing the direction, timing and magnitude of potential future changes in the value of the Underlying, and/or in the composition or method of calculation of the Underlying, as the return of any such investment will be dependent, *inter alia*, upon such changes. More than one risk factor may have simultaneous effect with regard to the Securities such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No assurance can be given as to the effect that any combination of risk factors may have on the value of the Securities.

[Add additional product specific risk factors, if necessary:[Y]]

2. Issuer Risk Factors

Prospective investors should consider all information provided in the Registration Document and consult with their own professional advisers if they consider it necessary. The following describes risk factors relating to the issuer's ability to meet its obligations under the securities.

3. Ratings

Ratings assigned to the Issuer by certain independent rating agencies are an indicator of the Issuer's ability to meet its obligations in a timely manner¹. The lower the assigned rating is on the respective scale the higher the respective rating agency assesses the risk that obligations will not be met at all or not be met in a timely manner. As of the publication date of this summary, the following ratings were assigned to Deutsche Bank:

Rating Agency	Long-term	Short-term
Standard & Poor's (S&P)	AA	A-1+
Moody's	Aa1	P-1
Fitch	AA-	F1+

Rating agencies may change their ratings at short notice. A rating's change may affect the price of securities outstanding.

¹ A rating is not a recommendation to buy, sell, or hold certificates, and may be subject to suspension, downgrading, or withdrawal by the rating agency. Any such suspension, downgrading, or withdrawal may have a negative effect on the market price of the certificates.

The Issuer pays placement and trailer fees as sales-related commissions to the relevant distributor. Placement fees are one-off payments from the proceeds of the issue; alternatively, the Issuer can grant the relevant distributor an appropriate discount on the issue price (without subscription surcharge). Trailer fees are paid from the management fee on a recurring basis based on the portfolio. If Deutsche Bank AG is both the issuer and the distributor with respect to the sale of its own securities, Deutsche Bank's distributing unit will be credited with the relevant amounts internally. – Further information on prices and price components are included in the section "Conflicts of interest" under nos. 5 and 6.

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the performance of the Underlying. Investors that buy the Securities at the Issue Date and hold the Securities for the entire term therefore achieve a positive return if

[If the Securities are settled in cash only insert: the Cash Settlement Amount is paid and if the Cash Settlement Amount]

[If Physical Settlement only insert: the Physical Settlement Amount is delivered and if the value which the investor is able to realise in relation to the Physical Settlement Amount delivered **[If Type is Call insert:** taking into account the Strike paid]

exceeds the price paid for the Securities. If the Final Reference Level is

[If Type is Call, insert: less than or equal to]

[If Type is Put, insert: greater than or equal to]

the Strike, investors that bought the Securities at the Issue Date and hold them for their entire term will suffer a loss which will extend to their whole initial investment. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

The Securities do not provide a guarantee of the right to receive **[Delete as appropriate:** payment of a set amount][or][delivery of a set number of specified asset(s)] or for the right to receive repayment of the Issue Price. There is no return on the Securities other than **[Delete as appropriate:** [the potential payment of the Cash Settlement Amount][or][the potential delivery of the Physical Settlement Amount]] at settlement. Accordingly, investors may only receive a positive return on their initial investment if the **[Delete as appropriate:** [Cash Settlement Amount] [or] [the value of the Physical Settlement Amount **[If Type is Call insert:** taking into account the Strike paid]] received at settlement or the amount received after a sale of the Securities in the secondary market during their term exceeds the price originally paid for the Securities. Investors will not receive any periodic payments in respect of the Securities and will not receive any amounts paid from time to time by way of interest or other distributions (e.g. dividends) by or in respect of the Underlying and will not have any rights against the issuer of the Underlying, any constituents of the Underlying or the issuer of such constituents.

[If Physical Settlement may apply insert: If the Securities are settled by physical settlement and the [Underlying]/**[If the Underlying is an index or commodity insert:** certificate relating to the Underlying] [•] is delivered upon settlement of the Securities, investors will be exposed to the benefits and risks associated with the holding of that asset, and benefit from increases, or suffer losses from decreases, in the value of such asset.]

[If Type is Call, insert:

The market value of the Securities during their term depends primarily on the value and volatility of the Underlying **[Insert if Basket linked Warrants:** and its constituents] during the life of the Securities. In general, if the value of the Underlying rises and/or there is a market perception that the value of the Underlying is likely to rise during the remaining life of the Securities, all other factors being equal, the market value of the Securities will under normal conditions also rise. On the same basis, if the value of the Underlying falls and/or there is a market perception that the value of the Underlying is likely to fall during the remaining life of the Securities, all other factors being equal, the market value of the Securities will under normal conditions also fall. Increases or decreases in the value of the Underlying usually will have a disproportionately higher effect on the market value of the Securities. The market value of the Securities can change even if no change in the value of the Underlying occurs, as the value of the Securities depend on additional pricing criteria which are time sensitive. The market value of the Securities is likely to fall to zero, if the market perception is that the Final Reference Level will be below the Strike.]

[If Type is Put, insert:

The market value of the Securities during their term depends primarily on the value and volatility of the Underlying **[Insert if Basket linked Warrants:** and its constituents] during the life of the Securities. In general, if the value of the Underlying falls and/or there is a market perception that the value of the Underlying is likely to fall during the remaining life of the Securities, all other factors being equal, the market value of the Securities will under normal conditions also rise. On the same basis, if the value of the Underlying rises and/or there is a market perception that the value of the Underlying is likely to rise during the remaining life of the Securities, all other factors being equal, the market value of the Securities will under normal conditions also fall. Increases or decreases in the value of the Underlying usually will have a disproportionately higher effect on the market value of the Securities. The market value of the Securities can change even if no change in the value of the Underlying occurs, as the value of the Securities depends on additional pricing criteria which are time sensitive. Other factors which may influence the market value of the Securities include interest rates, potential dividend or interest payments (as applicable) in respect of the Underlying, changes in the method of calculating the level of the Underlying, from time to time and market expectations regarding the future performance of the Underlying, its composition and the Securities.

2.2 [Single Underlying linked Knock-out Warrants (WAVES)]

Unless a Knock-Out Event (as defined below) occurs, investors in the Securities will, on their exercise, be in a similar position to the holders of an option to [If Type is Call, insert: buy] [If Type is Put, insert: sell] the Underlying on the Valuation Date following the relevant Exercise Date, at the Strike. If the Final Reference Level, which is the value of the Underlying on the Valuation Date, is [If Type is Call, insert: greater] [If Type is Put, insert: less] than the Strike, investors will receive the Cash Settlement Amount, which represents a disproportionate participation in the extent to which the Final Reference Level has [If Type is Call, insert: risen above] [If Type is Put, insert: fallen below] the value of the Underlying at or around issuance of the Securities], by reflecting the product of the amount by which the Final Reference Level is [If Type is Call insert: greater] [If Type is Put insert: less] than the Strike, and the Multiplier. If the Final Reference Level is [If Type is Call, insert: less] [If Type is Put, insert: greater] than or equal to the Strike, the Cash Settlement Amount will be zero and no amount will be payable.

If, [If the Securities are WAVES XXL, insert: during an Adjustment Period,] the Barrier Determination Amount, which is the value of the Underlying at specified times during the Barrier Determination Period, is [If Type is Call insert: less] [If Type is Put insert: greater] than or equal to the Barrier Level [If Barrier Level is not fixed, insert: in respect of such day] [If the Securities are WAVES XXL or the Strike for such Adjustment Period is zero (such event a “Knock-Out Event”),

[If the Securities are WAVES but not WAVES Return or WAVES XXL, insert: the Securities will become worthless and the Cash Settlement Amount will be zero and no amount will be payable.]

[If the Securities are WAVES Return or WAVES XXL, insert:

The Securities will be redeemed by payment of the Cash Settlement Amount, which will reflect the amount by which the Stop Loss Reference Level, which is the value of the Underlying at a time chosen by the Issuer in its reasonable discretion during the Stop Loss Reference Valuation Period, which is a specified period of time beginning when the Knock-Out Event occurred, is [If Type is Call insert: greater] [If Type is Put insert: less] than the Strike, multiplied by the Multiplier. If the Stop Loss Reference Level is [If Type is Call insert: less][If Type is Put insert: greater] than or equal to the Strike, the Securities will become worthless and no Cash Settlement Amount or other amount will be payable.]

[If the Securities are WAVES XXL, insert: The Securities do not provide for a fixed maturity date and, therefore, the Strike which is set out above for the first Adjustment Period will be adjusted for each subsequent Adjustment Period to reflect the sum of the Strike in respect of the immediately preceding Adjustment Period and the Funding Costs for the immediately preceding Adjustment Period. Further, on each occasion the issuer of the Underlying declares and pays a cash dividend, the current Adjustment Period will end and the Strike will be reduced (subject to a minimum of zero) by the Dividend Factor which reflects the amount of the cash dividend declared and paid reduced by such amount as the Calculation Agent determines to be appropriate to take account of such taxes, duties and the like which the Calculation Agent determines to be appropriate.

In addition to the adjustment of the Strike, the Barrier Level, which is set out above for the first Adjustment Period, will be adjusted for each subsequent Adjustment Period [*If Type is Call, insert: upwards*][*If Type is Put, insert: downwards*] to an amount which reflects [*If Type is Call insert: the sum of the Strike for such Adjustment Period and the Barrier Level Adjustment Amount for such Adjustment Period*] [*If Type is Put, insert: the Strike for such Adjustment Period [minus] the Barrier Level Adjustment Amount for such Adjustment Period.*]

[The Barrier Level Adjustment Amount reflects the product of the Barrier Level Adjustment Factor for the relevant Adjustment Period and the Strike for the relevant Adjustment Period. The Barrier Level Adjustment Factor is a percentage as determined by the Issuer by reference to such factors as it deems appropriate with the aim of maintaining the same probability as at the Issue Date that the Cash Settlement Amount will not be zero if a Knock-Out Event were to occur. The Issuer may consider factors such as the volatility and/or liquidity of the Underlying. It is likely that an increase in the volatility of the Underlying and/or a decrease in the liquidity of the Underlying increases the probability that the Cash Settlement Amount would be zero if a Knock-Out Event were to occur.]

[If the Securities are WAVES XXL or if the Issuer has the right to redeem the Securities insert:

In addition, the Issuer has the right to redeem the Securities during the Redemption Period in which case, the Cash Settlement Amount will be determined on the basis of the value of the Underlying on the Valuation Date.]

A further difference from a direct investment in the Underlying is that investors will forego the right to receive any dividends, interest or similar amounts paid in respect of the Underlying.

[If the Settlement Currency is not the same as the Reference Currency insert: The Cash Settlement Amount will be converted into the Settlement Currency at the prevailing exchange rate.]

The payment of the Cash Settlement Amount is subject to deduction of certain taxes, duties and/or expenses.

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the performance of the Underlying. Investors that buy the Securities at the Issue Date and hold the Securities for the entire term therefore achieve a positive return if the Cash Settlement Amount is paid and if the Cash Settlement Amount exceeds the price paid for the Securities. [*If the Securities are WAVES but not WAVES Return or WAVES XXL, insert: If a Knock-Out Event occurs, the Securities will expire worthless as the Cash Settlement Amount will be zero.*] [*If the Securities are WAVES Return or are WAVES XXL, insert: If a Knock-Out Event occurs, the Securities will be redeemed by payment of the Cash Settlement Amount, which will reflect the amount by which the Stop Loss Reference Level is [If Type is Call insert: greater] [If Type is Put insert: less] than the Strike, multiplied by the Multiplier. Prospective investors should notice that the Stop Loss Reference Level can be significantly [If Type is Call insert lower] [If Type is Put insert higher] than the relevant Barrier Level.* It reflects the proceeds which the Issuer receives in connection with the sale of its hedging positions in relation to the Securities during the

Stop Loss Reference Level Valuation Period. [The difference between the relevant Barrier Level and the Stop Loss Reference Level will primarily depend on the force of a downwards or upwards movement of the Underlying at this point in time, and its liquidity and volatility]. Typically the more illiquid the Underlying is, the lower the proceeds and, therefore, the Stop Loss Reference Level and the Cash Settlement Amount will be. No cash amount will become payable if the Stop Loss Reference Level is *[If Type is Call insert: less][If Type is Put insert: greater]* than or equal to the Strike.] If no Knock-Out Event occurs but the Final Reference Level is *[If Type is Call, insert: less than or equal to] [If Type is Put, insert: greater than or equal to]* the Strike, investors that bought the Securities at the Issue Date and hold them for their entire term will suffer a loss which will extend to their whole initial investment. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

The Securities do not provide a guarantee of the right to receive payment of a set amount or for the right to receive repayment of the Issue Price. There is no return on the Securities other than the potential payment of the Cash Settlement Amount at settlement following exercise or the occurrence of a Knock-Out Event *[If the Issuer has the right to redeem the Securities insert: or on early redemption if the Issuer elects to redeem the Securities.]* Accordingly, investors may only receive a positive return on their initial investment if the Cash Settlement Amount received at settlement or the amount received after a sale of the Securities in the secondary market during their term exceeds the price originally paid for the Securities. Investors will not receive any periodic payments in respect of the Securities and will not receive any amounts paid from time to time by way of interest or other distributions (e.g. dividends) by or in respect of the Underlying and will not have any rights against the issuer of the Underlying, any constituents of the Underlying or the issuer of such constituents.

II. RISK FACTORS

A. ISSUER RISK FACTORS

An investment in debt securities, including certificates, and money market papers issued by Deutsche Bank bears the risk that Deutsche Bank is not able to fulfil its obligations created by the issuance of the securities on the relevant due date.

In order to assess the risk, prospective investors should consider all information provided in this Registration Document and consult with their own professional advisers if they consider it necessary.

The risk related to an Issuer's ability to fulfil its obligations created by the issuance of debt securities and money market papers is described by reference to the credit ratings assigned by independent rating agencies. A credit rating is an assessment of the solvency or credit-worthiness of creditors and/or bond-issuers according to established credit review procedures. These ratings and associated research help investors analyse the credit risks associated with fixed-income securities by providing detailed information of the ability of issuers to meet their obligations. The lower the assigned rating is on the respective scale, the higher the respective rating agency assesses the risk that obligations will not, not fully and/or not timely be met. A rating is not a recommendation to buy, sell or hold any notes issued and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. A suspension, reduction or withdrawal of any rating assigned may adversely affect the market price of the notes issued.

Deutsche Bank is rated by Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc. ("S&P"), Moody's Investors Service, Inc. ("Moody's") and by Fitch Ratings Limited ("Fitch", together with S&P and Moody's, the "Rating Agencies").

As of the Publication Date of this Registration Document, the ratings assigned by the Rating Agencies to debt securities and money market papers of Deutsche Bank were as follows:

by S&P:	long-term rating:	AA
	short-term rating:	A-1+
	outlook:	positive

S&P defines:

AA: An obligation rated "AA" differs from the highest rated obligations only in small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong.

Long-term ratings by S&P are divided into several categories ranging from "AAA", reflecting the strongest creditworthiness, over categories "AA", "A", "BBB", "BB", "B" "CCC", "CC", "C" to category "D", reflecting that an obligation is in payment default. The ratings from "AA" to "CCC" may be modified by the addition of a plus ("+") or minus ("-") sign to show relative standing within the major rating categories.

A-1+: A short-term obligation rated "A-1" is rated in the highest category by S&P. The obligor's capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign ("+"). This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong.

Short-term ratings by S&P are divided into several categories ranging from "A-1", reflecting the strongest creditworthiness, over categories "A-2", "A-3", "B", "C" to category "D" reflecting that an obligation is in payment default.

by Moody's:	long-term rating:	Aa1
	short-term rating:	P-1
	outlook:	stable

Moody's defines:

Aa1: Obligations rated "Aa" are judged to be of high quality and are subject to very low credit risk.

Moody's long-term obligation ratings are divided into several categories ranging from "Aaa", reflecting the highest quality with minimal credit risk, over categories "Aa", "A", "Baa", "Ba", "B", "Caa", "Ca" to category "C", reflecting the lowest rated class of bonds which are typically in default with little prospect for recovery of principal or interest. Moody's appends numerical modifiers 1, 2 and 3 to each generic rating classification from "Aa" through "Caa". The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

P-1: Issuers rated Prime-1 have a superior ability to repay short-term debt obligations.

Moody's short-term ratings are divided into several categories ranging from "P-1", reflecting a superior ability of an Issuer to repay short-term debt obligations, over categories "P-2" and "P-3" to category "NP", reflecting that an Issuer does not fall within any of the Prime rating categories.

by Fitch:	long-term rating:	AA-
	short-term rating:	F1+
	outlook:	stable

Fitch defines:

AA-: A rating of "AA" denotes a very low expectation of credit risk. It indicates a very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

Fitch's long-term ratings are divided into several major categories ranging from "AAA", reflecting the highest credit quality, over categories "AA", "A", "BBB", "BB", "B", "CCC, CC, C" to category "DDD, DD, D", reflecting that an obligor has defaulted on some or all of its obligations. A plus ("+") or minus ("-") sign may be appended to a rating to denote the relative status within major rating categories. Such suffixes are not added to the "AAA" category or to categories below "CCC".

F1+: A rating of "F1" indicates the strongest capacity for timely payment of financial commitments. It may have an added plus ("+") sign to denote any exceptionally strong credit feature.

Fitch's short-term ratings are divided into several categories ranging from "F1", reflecting the highest credit quality, over categories "F2", "F3", "B", "C" to category "D" which denotes an actual or imminent payment default.

Rating of Subordinated Obligations

If Deutsche Bank enters into subordinated obligations, these obligations may be rated lower because, in the case of an insolvency or liquidation of the Bank, the claims and interest claims resulting from these obligations are subordinate to those claims of creditors of the Bank that are not also subordinated. Deutsche Bank will disclose the ratings of subordinated obligations (if any).

B. PRODUCT SPECIFIC RISK FACTORS

1. Introduction

The discussion below is intended to describe various risk factors associated with an investment in the Securities. No investment should be made in the Securities until after careful consideration of all those factors which are relevant in relation to the Securities. The Issuer believes that the factors described below represent the principal risks inherent in investing in the Securities, but does not represent that the statements below regarding risks of holding the Securities are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this document and reach their own views prior to making any investment decision.

Prospective investors should also consider carefully the description of the Underlying (as defined below) in the sections "Product Conditions" and "Information relating to the Underlying" and the further information which is available in relation to the Underlying.

This document is not, and does not purport to be, investment advice.

An investment in the Securities involves risks. These risks may include, among others, equity market, bond market, foreign exchange, interest rate, market volatility and economic, political and regulatory risks and any combination of these and other risks. Some of these are briefly discussed below. Prospective purchasers should be experienced with respect to transactions in instruments such as the Securities and in the Underlying. Prospective purchasers should understand the risks associated with an investment in the Securities and should only reach an investment decision after careful consideration, with their legal, tax, accounting and other advisers, of (a) the suitability of an investment in the Securities in the light of their own particular financial, tax and other circumstances, (b) the information set out in this document and (c) the Underlying.

The Securities may decline in value [*Insert if the Securities provide for a capital protection:* and investors should note that, whatever their investment in the Securities, the cash amount due at maturity will only be equal to [*insert if the Securities provide for a capital protection:* specified minimum cash amount]. [*Insert if relevant:* The shorter the remaining term of the Securities is, the higher the risk of decline in value of the Securities.]

An investment in the Securities should only be made after assessing the direction, timing and magnitude of potential future changes in the value of the Underlying, and/or in the composition or method of calculation of the Underlying, as the return of any such investment will be dependent, *inter alia*, upon such changes. More than one risk factor may have simultaneous effect with regard to the Securities such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No assurance can be given as to the effect that any combination of risk factors may have on the value of the Securities.

Additional Risk Factors are set out under the headings "C. General Risk Factors relating to the Securities" and "D. Market Factors". In addition prospective investors should also review section "E. Conflicts of Interest".

2. Rights under the Securities

2.1 *Single Underlying or Basket Linked Warrants*

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the performance of the Underlying. If the Final Reference Level is **[If Type is Call, insert: less than or equal to] [If Type is Put, insert: greater than or equal to]** the Strike, investors that bought the Securities at the Issue Date and hold them for their entire term will suffer a loss which will extend to their whole initial investment. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

2.2 *Single Underlying Linked Knock-Out Warrants (WAVES)*

Prospective investors should note that the return (if any) on their investment in the Securities will depend upon the performance of the Underlying. **[If the Securities are WAVES but not WAVES Return or WAVES XXL, insert: If a Knock-Out Event occurs, the Securities will expire worthless as the Cash Settlement Amount will be zero.] [If the Securities are WAVES Return or are WAVES XXL, insert: If a Knock-Out Event occurs, the Securities will be redeemed by payment of the Cash Settlement Amount, which will reflect the amount by which the Stop Loss Reference Level is [If Type is Call insert: greater] [If Type is Put insert: less] than the Strike, multiplied by the Multiplier.** Prospective investors should notice that the Stop Loss Reference Level can be significantly lower than the relevant Barrier Level. It reflects the proceeds which the Issuer receives in connection with the sale of its hedging positions in relation to the Securities during the Stop Loss Reference Level Valuation Period. [The difference between the relevant Barrier Level and the Stop Loss Reference Level will primarily depend on the force of a downwards or upwards movement of the Underlying at this point in time, and its liquidity and volatility]. Typically the more illiquid the Underlying is, the lower the proceeds and, therefore, the Stop Loss Reference Level and the Cash Settlement Amount will be. No cash amount will become payable if the Stop Loss Reference Level is **[If Type is Call insert: less][If Type is Put insert: greater]** than or equal to the Strike.] If no Knock-Out Event occurs but the Final Reference Level is **[If Type is Call, insert: less than or equal to] [If Type is Put, insert: greater than or equal to]** the Strike, investors that bought the Securities at the Issue Date and hold them for their entire term will suffer a loss which will extend to their whole initial investment. Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

C. GENERAL RISK FACTORS RELATING TO THE SECURITIES

1. No Payments until Settlement

Prospective investors should note that no periodic interest payments or other distributions will be made during the term of the Security. A realisation in the secondary market of the Securities may be the only return potentially available to the investor prior to settlement of the Securities. However, investors should note the risk factors described under the headings "Market value" and "The Securities may be Illiquid" below in this regard.

2. Early Termination for Extraordinary Reasons, Illegality and Force Majeure

If the Issuer determines that, for reasons beyond its control, the performance of its obligations under the Securities has become illegal or impractical in whole or in part for any reason, or the Issuer determines that, for reasons beyond its control, it is no longer legal or practical for it to maintain its hedging arrangements with respect to the Securities for any reason, the Issuer may at its discretion and without obligation terminate early the Securities. If the Issuer terminates early the Securities, the Issuer will, if and to the extent permitted by applicable law, pay the holder of each such Security an amount determined by the Calculation Agent to be its fair market value notwithstanding the illegality or impracticality less the cost to the Issuer of unwinding any underlying related hedging arrangements.

3. Market Disruption Events, Adjustments and Early Termination of the Securities

If so indicated in the Conditions, the Calculation agent may determine that a market disruption event has occurred or exists at a relevant time. Any such determination may delay valuation in respect of the Underlying which may have an effect on the value of the Securities and/or may delay settlement in respect of the Securities.

In addition, if so indicated in the Conditions, the Calculation Agent may make adjustments to the Conditions to account for relevant adjustments or events in relation to the Underlying including, but not limited to, determining a successor to the Underlying or its issuer or its sponsor, as the case may be. In addition, in certain circumstances, the Issuer may terminate early the Securities following any such event. In this case, in relation to each Security, the Issuer will pay an amount, if any, determined as provided in the Conditions.

Prospective purchasers should review the Conditions to ascertain whether and how such provisions apply to the Securities and what constitutes a event or relevant adjustment event.

4. Taxation

Potential purchasers and sellers of the Securities should be aware that they may be required to pay stamp taxes or other documentary charges in accordance with the laws and practices of the country where the Securities are transferred. Securityholders are subject to the provisions of General Condition 6 and payment and/or delivery of any amount due in respect of the Securities will be conditional upon the payment of certain taxes, duties and/or expenses as provided in the Product Conditions.

Potential purchasers who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, potential purchasers should be aware that tax regulations and their application by the relevant taxation authorities change from

time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time.

5. Exercise Notice and Certifications

If the Securities are subject to provisions concerning delivery of an exercise notice and such notice is received by either the relevant principal agent with a copy to the clearing agent after the latest time specified in the Conditions, it will not be deemed to be duly delivered until the next following business day. Such deemed delay may in the case of cash settled Securities increase or decrease the cash amount payable at settlement from what it would have been but for such deemed delivery. In the case of Securities which are exercisable on one day only or only during an exercise period, any exercise notice, if not delivered by the latest time specified in the Conditions, shall be void.

The failure to deliver any certifications required by the Conditions could result in the loss or inability to receive amounts or deliveries otherwise due under the Securities. Prospective purchasers should review the Conditions to ascertain whether and how such provisions apply to the Securities.

Securities not exercised in accordance with the Conditions will expire worthless. Prospective purchasers should review the Conditions to ascertain whether the Securities are subject to automatic exercise, and when and how an exercise notice may be validly delivered.

6. Time Lag after Exercise

Where the Securities are to be settled by a cash payment, then, upon their exercise, there may be a time lag between the time exercise occurs and the time the applicable cash amount relating to such exercise is determined. Any such delay between the time of exercise and the determination of the cash amount will be specified in the Conditions. However, such delay could be significantly longer, particularly in the case of a delay in exercise of such cash settled Securities arising from, as described below, any daily maximum exercise limitation or, as described below, upon the determination by the calculation agent that an event has occurred at any relevant time. The applicable cash amount could decrease or increase from what it would have been but for such delay.

Prospective purchasers should review the Conditions to ascertain whether and how such provisions apply to the Securities.

7. Re-offer Price

The Issuer may enter into distribution agreements with various financial institutions and other intermediaries as determined by the Issuer (collectively the "**Selling Agents**"). The Selling Agents will agree, subject to the satisfaction of certain conditions, to subscribe for the Securities at a price equivalent to or below the Issue Price. The Selling Agents have agreed to bear certain costs in connection with the issue of the Securities. A periodic fee may be payable to the Selling Agents in respect of all outstanding Securities up to and including the Expiry Date at a rate as determined by the Issuer. Such rate may vary from time to time. The Selling Agents will agree to comply with the selling restrictions set out in the document as amended and supplemented by the additional selling restrictions set out in the relevant distribution agreements and final terms of the prospectus.

The Issuer has the right to close the offering of the Securities prior to the end of the subscription period in case of adverse market conditions, as determined by the Issuer in its reasonable discretion, including but not limited to increased equity market volatility and increased currency exchange rate volatility.

8. [Additional Product Specific Risk Factors

CONSIDERATION OF INCLUSION OF ADDITIONAL RISK FACTORS DUE TO PARTICULAR NATURE OF UNDERLYING OR TERMS OF THE SECURITIES]

D. MARKET FACTORS

1. Market Factors

1.1 Valuation of the Underlying

An investment in the Securities involves risk regarding the value of the basket constituents comprising the Underlying. The value of the basket constituents may vary over time and may increase or decrease by reference to a variety of factors which may include corporate actions, macroeconomic factors and speculation.

1.2 The Historical Performance of the Basket Constituents is not an Indication of Future Performance

The historical value (if any) of the basket constituents does not indicate the future performance of the basket constituents. Changes in the value of the basket constituents will affect the trading price of the Securities, but it is impossible to predict whether the value of the basket constituents will rise or fall.

1.3 The Basis of Calculating the Level of the Basket Constituents may Change over Time

The basis of calculating the level of the basket constituents may from time to time be subject to change (as described in *Information relating to the Underlying*) which may affect the market value of the Securities at any time and therefore the cash amount payable on settlement.

1.4 The Value of the Basket Constituents of the Underlying will Affect its Value

The value of the Underlying on any day will reflect the value of the basket constituents on such day. Changes in the composition of the Underlying and factors (including those described in these Risk Factors) which either affect or may affect the value of the basket constituents will affect the value of the Securities. The historical value (if any) of the basket constituents does not indicate their future performance. Where the value of the constituents is determined in a different currency to the settlement currency of the Securities, investors may be exposed to exchange rate risk.

1.5 Exchange Rate Risk

Prospective investors should be aware that an investment in the Securities may involve exchange rate risks. For example, the settlement currency of the Securities may be different from the currency of an investor's home jurisdiction or the currency in which an investor wishes to receive funds.

Exchange rates between currencies are determined by factors of supply and demand in the international currency markets which are influenced by macroeconomic factors, speculation and central bank and government intervention or other political factors (including the imposition of currency controls and restrictions). Fluctuations in exchange rates may affect the value of the Securities and any amounts payable in respect of the Securities.

1.6 Interest Rate Risk

An investment in the Securities may involve interest rate risk where there are fluctuations in the interest rates payable on deposits in the settlement currency of the Securities. This may influence the market value of the Securities.

Interest rates are determined by factors of supply and demand in the international money markets which are influenced by macroeconomic factors, speculation and central bank and government intervention or other political factors. Fluctuations in short term and/or long term interest rates may affect the value of the Securities. **[Insert if required:** Since the Underlying [is/includes] a fixed income security, the value of the Securities is expected to be particularly affected by interest rate fluctuations.]

2. Market Value

[If Warrants Type Call, insert:

The market value of the Securities during their term depends primarily on the value and volatility of the Underlying [Insert if Basket linked Warrants: and its constituents] during the life of the Securities.

The level of market volatility is not purely a measurement of the actual volatility, but is largely determined by the prices for instruments which offer investors protection against such market volatility. The prices of these instruments are determined by forces of supply and demand in the options and derivative markets generally. These forces are, themselves, affected by factors such as actual market volatility, expected volatility, macroeconomic factors and speculation. In general, if the value of the Underlying rises and/or there is a market perception that the value of the Underlying is likely to rise during the remaining life of the Securities, all other factors being equal, the market value of the Securities will under normal conditions also rise. On the same basis, if the value of the Underlying falls and/or there is a market perception that the value of the Underlying is likely to fall during the remaining life of the Securities, all other factors being equal, the market value of the Securities will under normal conditions also fall. Increases or decreases in the value of the Underlying usually will have a disproportionately higher effect on the market value of the Securities. The market value of the Securities can change even if no change in the value of the Underlying occurs, as the value of the Securities depend on additional pricing criteria which are time sensitive. The market value of the Securities is likely to fall to zero, if the market perception is that the Final Reference Level will be below the Strike.]

The market value of the Securities will also be affected by the use of the specified Multiplier in *[Delete as appropriate: [the calculation of the Cash Settlement Amount at settlement][or][the determination of the Physical Settlement Amount deliverable at settlement.]*

Other factors which may influence the market value of the Securities include interest rates, potential dividend or interest payments (as applicable) in respect of the Underlying, changes in the method of calculating the level of the Underlying, from time to time and market expectations regarding the future performance of the Underlying, its composition and the Securities.

Interest rate changes generally have the same impact on the value of the Securities as for fixed rate bonds: Rising interest rates will under normal conditions result in a lower, falling interest rates in a higher value of the Securities.

The value of the Underlying on any day will reflect the value of its constituents on such day. Changes in the composition of the Underlying and factors (including those described above) which either affect or may affect the value of the constituents, will affect the value of the Underlying and therefore may affect the return on an investment in the Securities. Fluctuations in the value of any one constituent may be offset or intensified by fluctuations in the value of other constituents.]

3. Certain Hedging Considerations

Certain risks apply to purchasers that acquire the Securities for hedging purposes.

Prospective purchasers intending to purchase the Securities for the purpose of hedging their exposure to the Underlying or any basket constituents should recognise the risks of utilising the Securities in such manner. No assurance is or can be given that the value of the Securities will correlate with movements in the value of the Underlying or any basket constituents and the composition of the Underlying or any basket constituents may change over time. Furthermore, it may not be possible to liquidate the Securities at a price which directly reflects the value of the Underlying or any basket constituents. Therefore, there can be no assurance as to the level of any correlation between the return on an investment in the Securities and the return on a direct investment in the Underlying or any basket constituents.

Hedging transactions in order to limit the risks associated with the Securities might not be successful.

4. The Securities may be Illiquid

It is not possible to predict if and to what extent a secondary market may develop in the Securities or at what price the Securities will trade in the secondary market or whether such market will be liquid or illiquid. If so specified in this document, application has been made to list or quote or admit to trading the Securities on the stock exchange(s) or quotation system(s) specified. If the Securities are so listed or quoted or admitted to trading, no assurance is given that any such listing or quotation or admission to trading will be maintained. The fact that the Securities may be so listed or quoted or admitted to trading does not necessarily lead to greater liquidity than if they were not so listed or quoted or admitted to trading.

If the Securities are not listed or quoted or admitted to trading on any stock exchange or quotation system, pricing information for the Securities may be more difficult to

obtain and the liquidity of the Securities may be adversely affected. The liquidity of the Securities may also be affected by restrictions on offers and sales of the Securities in some jurisdictions.

The Issuer may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation. Since the Issuer may be the only market-maker in the Securities, the secondary market may be limited. The more limited the secondary market is, the more difficult it may be for holders of the Securities to realise value for the Securities prior to settlement of the Securities.

5. Creditworthiness of the Issuer

The value of the Securities is expected to be affected, in part, by investors' general appraisal of the Issuer's creditworthiness. Any reduction in the creditworthiness of the Issuer could result in a reduction in the value of the Securities. If a bankruptcy proceeding is commenced in respect to the Issuer, the return to a Securityholder may be limited and any recovery will likely be substantially delayed.

E. CONFLICTS OF INTEREST

1. Transactions Involving the Underlying

The Issuer and its affiliates may from time to time engage in transactions involving the Underlying for their proprietary accounts and for accounts under their management. Such transactions may have a positive or negative effect on the value of the Underlying and consequently upon the value of the Securities. As used in this section "Conflicts of Interest", references to the Underlying shall be deemed to include any of its constituents, if applicable.

2. Acting in other Capacities

The Issuer and its affiliates may from time to time act in other capacities with regard to the Securities, such as calculation agent, agent and/or index sponsor. Such functions can allow the Issuer to determine the composition of the Underlying or to calculate its value, which could raise conflicts of interest where securities or other assets issued by the Issuer itself or a group company can be chosen to be part of the Underlying, or where the Issuer maintains a business relationship with the issuer of such securities or assets.

3. Issuing of other Derivative Instruments in respect of the Underlying

The Issuer and its affiliates may issue other derivative instruments in respect of the Underlying and the introduction of such competing products into the marketplace may affect the value of the Securities.

4. Conducting of Hedging Transactions

The Issuer may use all or some of the proceeds received from the sale of the Securities to enter into hedging transactions. The Issuer believes that such hedging activity will under normal circumstances not have a material impact on the value of the Securities. However, it cannot be assured that the Issuer's hedging activities will not affect such value. The value of the Securities might in particular be affected by the liquidation of all or a portion of the hedging positions (a) at or about the time of the maturity or expiration of the Securities or (b), if the Securities provide for a knock-out, knock-in or a similar feature, at the time when the price or value of the Underlying approaches the relevant price or level for the knock-out, knock-in or other feature.

5. Issue Price

The issue price charged for the Securities can, in addition to loading charges, management or other fees charged, comprise a premium on the original mathematical ("fair") value of the Securities which is not visible to investors. Such premium is determined by the Issuer in its discretion and can differ from premiums charged by other issuers for comparable securities.

6. Market-Making for the Securities

The Issuer, or an agent on its behalf, may act as market-maker for the Securities. In such market-making, the Issuer or its agent will, to a large extent, determine the price of the Securities itself. The prices quoted by such market-maker will usually not correspond to the prices which would have formed without such market-making and in a liquid market.

Circumstances taken into account by the market-maker when setting the quoted bid-offer prices in the secondary market notably include the Securities' fair value, which, among other things, depends on the value of the Underlying, as well as a certain bid-offer spread targeted by the market-maker. The market-maker will in addition regularly take into account a loading charge originally raised for the Securities and

any fees or costs which at maturity of the Securities are to be subtracted from the cash amount (including management, transaction or other fees charged on the basis of the Product Conditions). Furthermore, the prices quoted in the secondary market will be influenced, for example, by a premium on the Securities' original value contained in their issue price (see under 5. above), and by dividends paid or received by the Underlying, or its constituents, or other proceeds which, due to the Securities' design, are economically attributable to the Issuer.

The bid-offer spread for the Securities will be set by the market-maker based on supply and demand for the Securities and certain revenue considerations.

Certain costs, like for example management fees charged on the basis of the Product Conditions, are in many cases not taken out of the quoted prices on a consistent basis over the term of the Securities (*pro rata temporis*), but are subtracted from the Securities' fair value completely at an earlier point in time, as determined by the market-maker in its discretion. The same applies for a premium contained in the issue price and for dividends and other proceeds of the Underlying which, due to the Securities' design, are economically attributable to the Issuer, which often are not subtracted when the Underlying, or its constituents, are traded "ex dividend", but at an early stage of the Securities' term based on expected dividends for the entire term or a certain time span. The rate at which such costs are subtracted depends, *inter alia*, on the net flow back of Securities to the market-maker.

Subsequently, the prices quoted by the market-maker can substantially differ from the fair value of the Securities, or the value to be expected economically on the basis of the factors mentioned above, at the relevant time. In addition, the market-maker can at any time alter the methodology used to set the quoted prices, e. g. increase or decrease the bid-offer spread.

7. Market-Making for the Underlying

The Issuer may, in certain cases, act as a market-maker for the Underlying, which might in particular be the case when the Issuer has also issued the Underlying. By such market-making, the Issuer will, to a large extent, determine the price of the Underlying, and consequently influence the value of the Securities itself. The prices quoted by the Issuer in its market-making function will not always correspond to the prices which would have prevailed without such market-making and in a liquid market.

8. Acting as Underwriter or otherwise for the issuer of Underlying

The Issuer and its affiliates may also act as underwriter in connection with future offerings of the Underlying or may act as financial adviser to the issuer of an Underlying or in a commercial banking capacity for the issuer of an Underlying. Such activities could present certain conflicts of interest and may affect the value of the Securities.

9. Obtaining of Non-public Information

The Issuer and/or its affiliates may acquire non-public information with respect to the Underlying, and neither the Issuer nor any of its affiliates undertakes to disclose any such information to any Securityholder. In addition, one or more of the Issuer's affiliates may publish research reports with respect to the Underlying. Such activities could present conflicts of interest and may affect the value of the Securities.

B. GENERAL DESCRIPTION OF THE PROGRAMME

1. General Information

The Base Prospectus published by the Issuer contains information on securities from the 'Warrants' product category, and on a variety of individual product types within this category with differing economic conditions, which may be issued under the Base Prospectus (see section 3 below for an overview of the relevant securities).

A base prospectus does not generally contain all the information necessary for an investment decision, since the design of the respective security is not complete until immediately prior to the start of the offering, rather than on publication of the base prospectus. The base prospectus thus presents a summary of the design possibilities for the securities which may be issued under the respective base prospectus.

Investors who require information about a certain security type with certain economic conditions from the Base Prospectus will find the relevant information herein if they read the sections of the document that do not specify particular security types and economic conditions, and if, when reading the sections containing information on individual security types and economic conditions, they read only those parts relating to the security type and underlying economic conditions in question. The latter sections use square brackets to indicate those parts which only apply to certain security types and economic conditions. These sections begin with instructions in italics for the respective scope of application.

Before reading the Base Prospectus, investors should first examine the table of contents. This shows which sections contain general information and which contain specific information on certain security types and economic conditions, and indicates the page numbers on which each section begins.

No investment decision should be made until the final terms published for the relevant Securities have been read in detail.

2. Information on the Conditions of the Securities

The relevant rights under the securities which can be issued under the Base Prospectus are laid down in the respective **Conditions** of the Securities. These consist of the **Product Conditions**, which are individually designed for each security, and the **General Conditions**, which contain general rules relating to the securities covered by the Base Prospectus and which apply, in the version set out in the Base Prospectus, to all securities.

Within the **Product Conditions**, **Product Condition 1 – Definitions** – contains the definitions applicable for the entire Product Conditions. This section being a definitions section, it should be read only in connection with the other Product Conditions, i.e. wherever defined terms are used in such parts, the applicable definitions would be looked up in Product Condition 1. Investors should read only the definitions for the security type they are interested in and within such definitions only such parts which contain economic features which are found to be interesting (such parts are, as mentioned above, indicated by square brackets and instruction language).

Product Condition 2 – Form – contains the relevant rules with regard to the form and transferability of the Securities.

Product Condition 3 – Rights and Procedure – determines the right of the holder of the security under the security to receive – payment of a cash amount, interest and/or physical delivery of an asset. Furthermore Product Condition 3 contains rules on the exercise of the securities and if applicable the exercise procedure as well as further rules in connection with this or the right to receive payment or delivery. The Base Prospectus contains different templates for Product Condition 3, which are applicable

depending on the type of security (see below under 3a)) and economic features of each security (i.e. exercise type, exercise requirement type, settlement type, issuer redemption type, features, see below under 3b)). Investors should read only the templates applicable for the product type and the economic features, which they are interested in.

Product Condition 4 – Adjustment Provisions – contains rules relating to the occurrence of a market disruption and relating to adjustments to the securities in case of the occurrence of certain other events. The Base Prospectus contains different templates of Product Condition 4, relating to the type of underlying, to which the securities make reference; investors should read only the template applicable for the type of underlying which they are interested in.

Product Conditions 5 – Governing Law and Place of Jurisdiction – determines the governing law, which can be German or English law, as well as the jurisdiction.

3. Types and Categories of Securities and Economic Features Covered by the Base Prospectus

The categories and types of securities which may be issued under the Base Prospectus and as well as the economic features relating to them can be summarised as follows:

(a) Types and categories of Securities

The Base Prospectus covers:

Warrants:

- Single Underlying linked Warrants
- Basket linked Warrants
- Single Underlying linked Knock-out Warrants (WAVES)
- Single Underlying linked perpetual Knock-out Warrants (WAVES XXL)

(b) Economic features

The Base Prospectus allows for variation depending on:

- (i) the issuer redemption type (issuer redemption right or not – does the Issuer have the right to terminate the Securities early)
- (ii) the type of underlying asset (indices, shares, other securities, fund shares, commodities, foreign exchange rates, futures)
- (iii) variations with the product type relating to the calculation of the cash amount, valuation dates and other economic features.

V. GENERAL INFORMATION

A. GENERAL TAXATION INFORMATION

1. Introduction

Purchasers and/or sellers of Securities may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of transfer in addition to the issue price or purchase price of the Securities.

Transactions involving the Securities (including purchases, transfers, exercise or non-exercise or redemption, the accrual or receipt of any interest payable on the Securities and the death of a holder of any Securities) may have tax consequences for holders and potential purchasers which may depend, amongst other things, upon the tax status of the holder or potential purchaser and may relate to – amongst other taxes and duties – stamp duty, stamp duty reserve tax, income tax, corporation tax, trade tax, capital gains tax, withholding tax, solidarity surcharge and inheritance tax.

For more specific information on the tax consequences please see the appropriate Country Specific Information.

General Condition 6 (Taxation) in the General Conditions should also be considered carefully by all potential purchasers of any Securities.

Potential purchasers of Securities are advised to consult their own tax advisors as to the tax consequences of transactions involving the Securities.

2. Taxation in Luxembourg

The following summary is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Securities should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

2.1 *Non-resident Holders of Securities*

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-residents holders of Securities, nor on accrued but unpaid interest in respect of the Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Securities held by non-resident holders of Securities.

However, under the Luxembourg laws of 21 June 2005 (the **Laws**), implementing the Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the **Territories**), payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner or a residual entity, as defined by the Laws, which are resident of, or established in, an EU Member State (other than Luxembourg) or one of the Territories will be subject to a withholding tax unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the fiscal authorities of his/her/its country of residence or establishment, or, in the case of an individual beneficial owner, has provided a tax certificate issued by the fiscal authorities of his/her country of residence in the required format to the relevant paying agent. Where withholding tax is applied, it will be levied at a rate of 15% during the first three-year period starting 1 July 2005, at a rate of 20% for the subsequent three-year period and at a rate of 35% thereafter. Responsibility for the withholding of the tax will be assumed by the Luxembourg

paying agent. Payments of interest under the Securities coming within the scope of the Laws would at present be subject to withholding tax of 15%.

2.2 *Resident Holders of Securities*

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Securities, nor on accrued but unpaid interest in respect of Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Securities held by Luxembourg resident holders of Securities.

However, under the Luxembourg law of 23 December 2005 (the **Law**) payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner who is resident of Luxembourg will be subject to a withholding tax of 10%. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Securities coming within the scope of the Law would be subject to withholding tax of 10%.

3. **Stamp Duty and Withholding Tax in Germany**

The following paragraphs, which are intended as a general guide on stamp duty and withholding tax only, are based on current legislation and German tax authority practice. They summarise certain aspects of German taxation only which may be applicable to the Securities but do not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase, hold, transfer or redeem the Securities. In particular, this general summary does not consider any specific facts or circumstances that may apply to a particular purchaser. Potential purchasers of the Securities who are in any doubt about their tax position on purchase, ownership, transfer or exercise or non-exercise or redemption, as the case may be, of any Security should consult their own tax advisers.

The purchase or sale of a Security is not subject to stamp, value added or similar taxes or charges in Germany, regardless of the place of issuance, execution and delivery of the Security.

Payments in respect of interest (if any) made in respect of a Security to its holder if made by an Agent having its specified office in Germany or any other financial institution in Germany or if made by the Issuer from Germany may be subject to withholding tax. For a more detailed description of the German withholding tax position the appropriate Country Specific Information should be considered carefully.

4. **Stamp Duty and Withholding Tax in the United Kingdom**

The following paragraphs, which are intended as a general guide only, are based on current legislation and United Kingdom HM Revenue & Customs practice. They summarise certain aspects of United Kingdom taxation only and customs which may be applicable to the Securities but do not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase the Securities. In particular, this general summary does not consider any specific facts or circumstances that may apply to a particular purchaser. Potential purchasers of the Securities who are in any doubt about their tax position on purchase, ownership, transfer or exercise or non-exercise or redemption, as the case may be, of any Security should consult their own tax advisers.

A purchaser or a Security may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of purchase in addition to the purchase price of such Security.

Potential purchasers of the Securities should note that the Global Security may constitute an instrument which is subject to United Kingdom stamp duty on issue by reference to the amount of the consideration paid or the value of the Security. However, the Global Security will be executed and delivered outside the United Kingdom and should not be brought into the United Kingdom save for the purposes of enforcement. So long as the Global Security is held outside the United Kingdom, it will not be necessary to pay United Kingdom stamp duty or interest or penalties in connection therewith. However, if the Global Security were brought into the United Kingdom (for example, for enforcement purposes), United Kingdom stamp duty may be required to be paid on the Global Security (subject to the availability of exemptions and reliefs). In addition, where the Global Security is executed outside the United Kingdom is subsequently brought into the United Kingdom and stamped, interest on the amount of the unpaid stamp duty will be payable in addition to the stamp duty in respect of the period from the expiry of 30 days from the date of execution of the Global Security to the date of stamping, unless the Global Security is stamped within 30 days of execution, in which case no interest is payable. No penalties are payable where the Global Security is executed outside the United Kingdom and subsequently brought into the United Kingdom and stamped, provided the Global Security is stamped within 30 days of being brought into the United Kingdom. If the Global Security is subject to United Kingdom stamp duty, it would be inadmissible in evidence in civil (as opposed to criminal) proceedings in an English court unless duly stamped. It should be noted however, that the United Kingdom HM Revenue & Customs have recently indicated that cash-settled warrants are not subject to stamp duty on issue. The Securities have some of the features of warrants (such as the requirement for there to be an exercise before any amounts become payable to holders). However, other features of the Securities are less warrant-like (such as the Issuer's right to redeem). It is possible that HM Revenue & Customs would be prepared to treat the Securities as warrants for stamp duty purposes, in which case they would not be stampable on issue.

The comments above relate to United Kingdom stamp duty on issue only.

Any interest payable on the Securities, any original issue discount in respect of the Securities and/or any proceeds on redemption or exercise of the Securities will not be subject to United Kingdom withholding tax.

Type: Non-European (i.e. American & Bermudan)

Exercise: Non Automatic

3. Exercise Rights and Exercise Procedure

3.1. Exercise

Subject as provided in the Conditions, the Securities are exercisable on any Exercise Date. Any Security with respect to which an Exercise Notice has been delivered after 10.00 a.m. Central European Time on any day shall be deemed to have been exercised on the next following Exercise Date, if any. Any Security with respect to which no Exercise Notice has been delivered in the manner set out in Product Condition 3.4 at or prior to 10.00 a.m. Central European Time on the last occurring Exercise Date shall be void.

3.2. Settlement

Upon due exercise, each Security entitles its holder to receive from the Issuer on the Settlement Date, the Cash Settlement Amount less any Securityholder Expenses .

The Issuer will be discharged of its payment obligations by payment to, or to the order of, the relevant Clearing Agent in respect of the amount so paid. Each of the persons shown in the records of a Clearing Agent as the holder of a particular number of the Securities must look solely to the relevant Clearing Agent for his share of each such payment so made by the Issuer to, or to the order of, the relevant Clearing Agent.

All payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment and subject to the provisions of General Condition 6.

If a payment of any amount to be paid to a Securityholder, according to the rules of the relevant Clearing Agent, cannot be made in the Settlement Currency, such payment shall be made in the currency principally used by the relevant Clearing Agent for payments to holders holding accounts with such Clearing Agent, following a conversion of the relevant amount from the Settlement Currency, using the rate of exchange determined by the Calculation Agent by reference to such sources as the Calculation Agent may reasonably determine to be appropriate.

3.3. General

In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent and any Agent shall have any responsibility for any errors or omissions in the calculation of any amount payable hereunder or in any other determination pursuant to the provisions hereof.

3.4. Exercise Notice

Securities may only be exercised by the delivery of a duly completed Exercise Notice to the Principal Agent, with a copy to the relevant Clearing Agent. The form of the Exercise Notice may be obtained during normal business hours from the specified office of each Agent.

An Exercise Notice shall:

- (1) specify the number of Securities being exercised;
- (2) specify the number of the account with the relevant Clearing Agent to be debited with the Securities being exercised;

- (3) irrevocably instruct and authorise the relevant Clearing Agent to debit on or before the Settlement Date such account with such Securities and authorise the Principal Agent to so direct the relevant Clearing Agent on behalf of the relevant Securityholder;
- (4) specify the number of the account with the relevant Clearing Agent to be credited with the Cash Settlement Amount less any Securityholder Expenses;
- (5) include an undertaking to pay all Securityholder Expenses and an authority to the relevant Clearing Agent to deduct an amount in respect thereof from any Cash Settlement Amount due to such Securityholder and/or to debit a specified account with the relevant Clearing Agent in respect thereof and to pay such Securityholder Expenses and authorise the Principal Agent to so direct the relevant Clearing Agent on behalf of the relevant Securityholder;
- (6) authorise the production of such notice in any applicable administrative or legal proceedings;
- (7) certify that neither the Securityholder nor any person on whose behalf the Security is held is a U.S. person or a person within the United States. As used herein, "U.S. person" means either a U.S. person as defined in Regulation S under the United States Securities Act of 1933, as amended, or a person who does not come within the definition of a non-United States person under Rule 4.7 of the United States Commodity Exchange Act, as amended.

3.5. *Verification*

In respect of each Exercise Notice, the relevant Securityholder must provide evidence reasonably satisfactory to the Principal Agent of its holding of such Securities.

3.6. *Determinations*

Failure properly to complete and deliver an Exercise Notice, including a copy thereof, as provided above, may result in such notice being treated as null and void. Any determination as to whether an Exercise Notice has been properly completed and delivered, including a copy thereof, shall be made by the Principal Agent and shall be conclusive and binding on the Issuer and the relevant Securityholder. Subject as set out below, any Exercise Notice so determined to be incomplete or not in proper form or not delivered to the Principal Agent and which is not copied to the relevant Clearing Agent as provided in the Conditions shall be void.

If such Exercise Notice is subsequently corrected to the satisfaction of the Principal Agent, it shall be deemed to be a new Exercise Notice submitted at the time such correction is delivered to the Principal Agent and copied to such Clearing Agent.

The Principal Agent shall use all reasonable endeavours promptly to notify the relevant Securityholder if it has determined that an Exercise Notice is incomplete or not in proper form. In the absence of gross negligence or wilful misconduct on its part, neither the Issuer nor the Principal Agent shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Securityholder.

3.7. *Delivery of an Exercise Notice*

Delivery of an Exercise Notice shall constitute an irrevocable election by the relevant Securityholder to exercise the Securities specified and no Exercise Notice may be withdrawn after receipt by the Principal Agent as provided above. After the delivery of an Exercise Notice the Securities which are the subject of such notice may not be transferred.

3.8. *Securityholder Expenses*

In respect of each Security, all Securityholder Expenses in respect thereof shall be for the account of the relevant Securityholder and where any Cash Settlement Amount and/or other amount in respect of a Security is payable no payment shall be made until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer.

3.9. *Exercise and Settlement Risk*

Exercise and settlement of the Securities is subject to all applicable laws, regulations and practices in force at all relevant times, and neither the Issuer nor any Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. Neither the Issuer nor the Agents shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.

3.10. *Minimum Exercise Amount*

Where a Minimum Exercise Amount has been specified in Product Condition 1, the number of Securities exercised on any Exercise Date, as determined by the Calculation Agent, must not be less than the Minimum Exercise Amount or, if a number in excess of the Minimum Exercise Amount and if an Integral Exercise Amount has been specified in Product Condition 1, an integral multiple of the Integral Exercise Amount. Any purported exercise of Securities in breach of this provision shall be void and of no effect.

3.11. *Maximum Exercise Amount*

Where a Maximum Exercise Amount has been specified in Product Condition 1, if the Calculation Agent determines that the number of Securities being exercised on any Exercise Date by any Securityholder or a group of Securityholders (whether or not acting in concert) exceeds the Maximum Exercise Amount (a number equal to the Maximum Exercise Amount being the "**Quota**"), the Issuer may deem the Exercise Date for the first Quota of such Securities, selected on the basis of the chronological order in which the relevant Exercise Notices have been delivered, to be such day and the Exercise Date for each additional Quota of such Securities (and any remaining number thereof), selected in the same way as above, to be each of the succeeding Exercise Dates until all such Securities have been attributed with an Exercise Date, provided, however, that for any such Securities for which the Exercise Date would thereby fall after the last occurring Exercise Date, such last occurring Exercise Date shall be deemed to be the Exercise Date. In any case where more than the Quota of Securities are exercised on the same day by Securityholder(s), the determination of the chronological order of settlement in respect of such Securities shall be at the sole discretion of the Issuer.

Clause 3 - Cash only, Non-European Type, Automatic Exercise, Issuer Redemption Right

Type: Non-European (i.e. American & Bermudan)

Exercise: Automatic

3. Exercise Rights and Redemption

3.1. Exercise and Redemption

Subject as provided in the Conditions, unless previously redeemed the Securities are exercisable on any Exercise Date. Any Security with respect to which an Exercise Notice has been delivered after 10.00 a.m. Central European Time on any day shall be deemed to have been exercised on the next following Exercise Date, if any. Any Security with respect to which no Exercise Notice has been delivered in the manner set out in Product Condition 3.4 at or prior to 10.00 am Central European Time on the last occurring Exercise Date will be deemed exercised automatically on such Exercise Date and the provisions of Product Condition 3.2 shall apply. **[If the Securities are WAVEs XXL insert:** If a Knock-Out Event occurs, any Security will be deemed exercised on the Termination Date and the provisions of Product Condition 3.2 shall apply.] The expressions "exercise", "due exercise" and related expressions shall be construed to apply to any Securities which are automatically exercised on the last occurring Exercise Date in accordance with this provision.

The Issuer has the unconditional and irrevocable right (the "**Redemption Right**"), upon delivery of the Redemption Notice (as defined below) by the Issuer, to redeem the Securities in whole, but not in part.

"**Redemption Notice**" means the irrevocable notice given by the Issuer to the Securityholders in accordance with General Condition 4.1 that the Issuer will exercise its Redemption Right, which notice shall specify the Redemption Date.

Subject to Product Condition 3.8, the exercise by the Issuer of the Redemption Right shall not preclude Securityholders from exercising Securities on any Exercise Date up to and excluding the Redemption Date or from selling or transferring Securities which sale or transfer, as the case may be, is effective on any day up to but excluding the Redemption Date. In such case, any Exercise Notice delivered to the Principal Agent, or copied to the Clearing Agent, in each case after 10.00 a.m. Central European Time on the last Exercise Date prior to the Redemption Date shall be void.

3.2. Settlement

Upon due exercise, each Security entitles its holder to receive from the Issuer on the Settlement Date, the Cash Settlement Amount less any Securityholder Expenses.

If the Issuer exercises its Redemption Right, each Security entitles its holder to receive from the Issuer on the Settlement Date, the Cash Settlement Amount less any Securityholder Expenses.

[If the Securities are WAVEs XXL insert: If a Knock-Out Event occurs, each Security will be automatically exercised on the Termination Date, no Securityholder will be required to complete an Exercise Notice and each Security will entitle its holder to receive from the Issuer on the Settlement Date, the Cash Settlement Amount less any Securityholder Expenses.]

The Issuer will be discharged of its payment obligations by payment to, or to the order of, the relevant Clearing Agent in respect of the amount so paid. Each of the persons shown in the records of a Clearing Agent as the holder of a particular number of the Securities must look solely to the relevant Clearing Agent for his share of each such payment so made by the Issuer to, or to the order of, the relevant Clearing Agent.

All payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment and subject to the provisions of General Condition 6.

If a payment of any amount to be paid to a Securityholder, according to the rules of the relevant Clearing Agent, cannot be made in the Settlement Currency, such payment shall be made in the currency principally used by the relevant Clearing Agent for payments to holders holding accounts with such Clearing Agent, following a conversion of the relevant amount from the Settlement Currency, using the rate of exchange determined by the Calculation Agent by reference to such sources as the Calculation Agent may reasonably determine to be appropriate.

3.3. *General*

In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent and any Agent shall have any responsibility for any errors or omissions in the calculation of any amount payable hereunder or in any other determination pursuant to the provisions hereof.

3.4. *Exercise Notice*

Unless a Security is automatically exercised as provided above, Securities may only be exercised by the delivery of a duly completed Exercise Notice to the Principal Agent, with a copy to the relevant Clearing Agent. The form of the Exercise Notice may be obtained during normal business hours from the specified office of each Agent.

An Exercise Notice shall:

- (1) specify the number of Securities being exercised;
- (2) specify the number of the account with the relevant Clearing Agent to be debited with the Securities being exercised;
- (3) irrevocably instruct and authorise the relevant Clearing Agent to debit on or before the Settlement Date such account with such Securities and authorise the Principal Agent to so direct the relevant Clearing Agent on behalf of the relevant Securityholder;
- (4) specify the number of the account with the relevant Clearing Agent to be credited with the Cash Settlement Amount less any Securityholder Expenses;
- (5) include an undertaking to pay all Securityholder Expenses and an authority to the relevant Clearing Agent to deduct an amount in respect thereof from any Cash Settlement Amount due to such Securityholder and/or to debit a specified account with the relevant Clearing Agent in respect thereof and to pay such Securityholder Expenses and authorise the Principal Agent to so direct the relevant Clearing Agent on behalf of the relevant Securityholder;
- (6) authorise the production of such notice in any applicable administrative or legal proceedings;
- (7) certify that neither the Securityholder nor any person on whose behalf the Security is held is a U.S. person or a person within the United States. As used herein, "U.S. person" means either a U.S. person as defined in Regulation S under the United States Securities Act of 1933, as amended, or a person who does not come within the definition of a non-United States person under Rule 4.7 of the United States Commodity Exchange Act, as amended.

3.5. *Verification*

In respect of each Exercise Notice, the relevant Securityholder must provide evidence reasonably satisfactory to the Principal Agent of its holding of such Securities.

3.6. *Determinations*

Failure properly to complete and deliver an Exercise Notice, including a copy thereof, as provided above, may result in such notice being treated as null and void. Any determination as to whether an Exercise Notice has been properly completed and delivered, including a copy thereof, shall be made by the Principal Agent and shall be conclusive and binding on the Issuer and the relevant Securityholder. Subject as set out below, any Exercise Notice so determined to be incomplete or not in proper form or not delivered to the Principal Agent and which is not copied to the relevant Clearing Agent as provided in the Conditions shall be void.

If such Exercise Notice is subsequently corrected to the satisfaction of the Principal Agent, it shall be deemed to be a new Exercise Notice submitted at the time such correction is delivered to the Principal Agent and copied to such Clearing Agent.

The Principal Agent shall use all reasonable endeavours promptly to notify the relevant Securityholder if it has determined that an Exercise Notice is incomplete or not in proper form. In the absence of gross negligence or wilful misconduct on its part, neither the Issuer nor the Principal Agent shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Securityholder.

3.7. *Delivery of an Exercise Notice*

Delivery of an Exercise Notice shall constitute an irrevocable election by the relevant Securityholder to exercise the Securities specified and no Exercise Notice may be withdrawn after receipt by the Principal Agent as provided above. After the delivery of an Exercise Notice the Securities which are the subject of such notice may not be transferred.

3.8. *Securityholder Expenses*

In respect of each Security, all Securityholder Expenses in respect thereof shall be for the account of the relevant Securityholder and where any Cash Settlement Amount and/or other amount in respect of a Security is payable no payment shall be made until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer.

3.9. *Exercise and Settlement Risk*

Exercise and settlement of the Securities is subject to all applicable laws, regulations and practices in force at all relevant times, and neither the Issuer nor any Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. Neither the Issuer nor the Agents shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.

3.10. *Minimum Exercise Amount*

Where a Minimum Exercise Amount has been specified in Product Condition 1, the number of Securities exercised on any Exercise Date, as determined by the Calculation Agent, must not be less than the Minimum Exercise Amount or, if a number in excess of the Minimum Exercise Amount and if an Integral Exercise Amount has been specified in Product Condition 1, an integral multiple of the Integral Exercise Amount. Any purported exercise of Securities in breach of this provision shall be void and of no effect.

3.11. *Maximum Exercise Amount*

Where a Maximum Exercise Amount has been specified in Product Condition 1, if the Calculation Agent determines that the number of Securities being exercised on any Exercise Date by any Securityholder or a group of Securityholders (whether or not

acting in concert) exceeds the Maximum Exercise Amount (a number equal to the Maximum Exercise Amount being the "**Quota**"), the Issuer may deem the Exercise Date for the first Quota of such Securities, selected on the basis of the chronological order in which the relevant Exercise Notices have been delivered, to be such day and the Exercise Date for each additional Quota of such Securities (and any remaining number thereof), selected in the same way as above, to be each of the succeeding Exercise Dates until all such Securities have been attributed with an Exercise Date, provided, however, that for any such Securities for which the Exercise Date would thereby fall after the last occurring Exercise Date, such last occurring Exercise Date shall be deemed to be the Exercise Date. In any case where more than the Quota of Securities are exercised on the same day by Securityholder(s), the determination of the chronological order of settlement in respect of such Securities shall be at the sole discretion of the Issuer.

- (i.) the Replacement Basket Constituent and its sponsor will be deemed a "Basket Constituent" and a "Index Sponsor" respectively,
- (ii.) the Calculation Agent will adjust the Coupon Reference Level for such Replacement Basket Constituent so that the ratio of the Specified Spot Price for that Replacement Basket Constituent to the Coupon Reference Level for the Replacement Basket Constituent equals the ratio of the Specified Spot Price for the Disrupted Index to the Coupon Reference Level for the Disrupted Share immediately prior to the occurrence of such event, and, if necessary, the Calculation Agent will adjust any other relevant terms accordingly;

"**Replacement Basket Constituent**" means, in the determination of the Calculation Agent in its sole discretion, the index [...] provided that such index is not an Index.

- 4.1.4.1.1 require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the Conditions to account for the Additional Disruption Event and determine the effective date of that adjustment. 4.1.3 Potential Adjustment Events

Following any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a dilutive or concentrative or other effect on the theoretical value of the relevant Share and, if so, will (i) make the corresponding adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate to account for that dilutive or concentrative or other effect; and (ii) determine the effective date of that adjustment. The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by a Related Exchange to options contracts or futures contracts on the relevant Share traded on that Related Exchange.

Upon making any such adjustment, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 4, stating the adjustment made to the Conditions and giving brief details of the Potential Adjustment Event.

"Potential Adjustment Event" means any of the following:

- 4.1.3.1 a subdivision, consolidation or reclassification of relevant Shares (unless it has resulted in a Merger Event) or a free distribution or dividend of any such Shares to existing holders by way of bonus, capitalisation or similar issue;
- 4.1.3.2 a distribution, issue or dividend to existing holders of the relevant Shares of (1) such Shares, or (2) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Share Company equally or proportionately with such payments to holders of such Shares, or (3) share capital or other securities of another issuer as a result of a "spin-off" or other similar transaction, or (4) any other type of

securities, rights or warrants or other assets, in any case for payment (in cash or in other consideration) at less than the prevailing market price as determined by the Calculation Agent;

- 4.1.3.3 an extraordinary dividend;
- 4.1.3.4 a call by the Share Company in respect of relevant Shares that are not fully paid;
- 4.1.3.5 a repurchase by or on behalf of the Share Company or any of its subsidiaries of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- 4.1.3.6 in respect of a Share Company, an event that results in any shareholder rights being distributed, or becoming separated from shares of common stock or other shares of the capital stock of such Share Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value as determined by the Calculation Agent;
- 4.1.3.7 any redemption of shareholder rights referred to in 4.1.3.6 above; and
- 4.1.3.8 any other event that may have a diluting or concentrative or other effect on the theoretical value of the relevant Shares.

4.1.4. *Merger Event, Tender Offer, De-Listing, Nationalisation and Insolvency*

If a Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency occurs in relation to relevant Shares and/or the relevant Share Company, as the case may be, the Issuer may take any action described in 4.1.4.1, 4.1.4.2 or 4.1.4.3 below:

- 4.1.4.1 require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the Conditions to account for the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment. The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency made by an options exchange to options on the Share traded on that options exchange; or
- 4.1.4.2 cancel the Securities by giving notice to Securityholders in accordance with General Condition 4. If the Securities are so cancelled, the Issuer will pay an amount to each Securityholder in respect of each Security held by such Securityholder which amount shall be the fair market value of a Security taking into account the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, as the case may be, less the direct or indirect cost to the Issuer and/or any of its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its reasonable discretion. Payment will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 4; or
- 4.1.4.3 following any adjustment to the settlement terms of options on the Shares traded on such exchange(s) or trading system(s) or quotation system(s) as the Calculation Agent in its reasonable discretion shall select (the "**Options Reference Source**") require the Calculation Agent to make a corresponding adjustment to any one or more of the Conditions, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by

the Options Reference Source. If options on the Shares are not traded on the Options Reference Source, the Calculation Agent will make such adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate, with reference to the rules and precedents (if any) set by the Options Reference Source, to account for the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, as the case may be, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Reference Source if such options were so traded.

Upon the occurrence of a Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 4 stating the occurrence of the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, as the case may be, giving details thereof and the action proposed to be taken in relation thereto. However, Securityholders should be aware that there may necessarily be some delay between the time at which any of the above events occurs and the time at which it is reported to Securityholders.

"De-Listing" means, for any Share for which the Reference Source is an exchange or a trading system or a quotation system, the Reference Source announces that pursuant to the rules of such Reference Source, such Share ceases (or will cease) to be listed, traded or publicly quoted on the Reference Source for any reason (other than a Merger Event or Tender Offer) and is not immediately re-listed, re-traded or re-quoted on an exchange, trading system or quotation system acceptable to the Calculation Agent.

"Insolvency" means that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting a Share Company (A) all the Shares of that Share Company are required to be transferred to a trustee, liquidator or other similar official or (B) holders of the Shares of that Share Company become legally prohibited from transferring them.

"Merger Date" means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent.

"Merger Event" means, in respect of any relevant Shares, any (i) reclassification or change of such Shares that results in a transfer of or an irrevocable commitment to transfer all of such Shares outstanding to another entity or person, (ii) consolidation, amalgamation, merger or binding share exchange of a Share Company with or into another entity or person (other than a consolidation, amalgamation, merger or binding share exchange in which such Share Company is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding), (iii) takeover offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares of the Share Company that results in a transfer of or an irrevocable commitment to transfer all such Shares (other than such Shares owned or controlled by such other entity or person), or (iv) consolidation, amalgamation, merger or binding share exchange of the Share Company or its subsidiaries with or into another entity in which the Share Company is the continuing entity and which does not result in a reclassification or change of all such Shares outstanding but results in the outstanding Shares (other than Shares owned or controlled such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Shares immediately following such event, in each case if the Merger Date is on or before the last possible date on which the Calculation Agent could be required by the Product Conditions to determine the price or value of a Share.

"Nationalisation" means that all the Shares or all or substantially all of the assets of a Share Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

"Tender Offer" means a takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing, or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the Share Company, as determined by the Calculation Agent, based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

4.1.5. *Additional Disruption Events*

4.1.5.1 Without prejudice to Product Condition 4.1.2 or General Condition 2, following the declaration by the Issuer of the occurrence of any Additional Disruption Event and provided that such Additional Disruption Event has an effect on the Issuer and/or any of its Affiliates in connection with (i) obligations of the Issuer under the Securities and/or (ii) any related hedging arrangements, the Issuer may take any one of the following actions:

4.1.5.1.1 require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the Conditions to account for the Additional Disruption Event and determine the effective date of that adjustment. Without limitation, such adjustment may take into account and pass on to the Securityholder(s) any increased direct or indirect cost to the Issuer and or/any of its Affiliates as a result of or in connection with the relevant Additional Disruption Event; or

4.1.5.1.2 cancel the Securities by giving notice to Securityholders in accordance with General Condition 4. If the Securities are so cancelled, the Issuer will pay an amount to each Securityholder in respect of each Security held by such Securityholder which amount shall be the fair market value of a Security taking into account the Additional Disruption Event less the direct or indirect cost to the Issuer and/or any of its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its reasonable discretion. Payment will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 4.

4.1.5.2 **"Additional Disruption Event"** means any of the following:

4.1.5.2.1 the Issuer determines that (i) due to the adoption of or any change in any applicable law or regulation (including without limitation, any tax law), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), (A) it has or will become illegal or impractical for the Issuer and/or any of its Affiliates and/or any Hedging Party to hold, acquire or dispose of the Shares or (B) the Issuer and/or any of its Affiliates has or will incur a materially increased direct or indirect cost in performing its obligations under the Securities and/or any related hedging arrangements (including, without limitation, due to any increase in tax liability, decrease in tax benefits or

other adverse effect on the tax position of the Issuer and/or any of its Affiliates and/or any Hedging Party); or

- 4.1.5.2.2 the Issuer determines that it and/or any of its Affiliates and/or any Hedging Party is unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any arrangement(s), transaction(s) or asset(s) it deems necessary to hedge the risks of the Issuer entering into and performing its obligations with respect to the Securities, or (B) realise, recover or remit the proceeds of any such arrangement(s), transaction(s) or asset(s); or
- 4.1.5.2.3 the Issuer determines that it and/or any of its Affiliates and/or any Hedging Party has or would incur a materially increased amount of tax, duty, expense or fee (other than brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any arrangement(s), transaction(s) or asset(s) it deems necessary to hedge the risks of the Issuer entering into and performing its obligations with respect to the Securities or (B) realise, recover or remit the proceeds of any such arrangement(s), transaction(s) or asset(s)[or]
- 4.1.5.2.4 (i) the Issuer determines, at any time, that a Market Disruption Event pursuant to Product Condition [4.1.2.4 and/or (if specified) Product Condition 4.1.2.5 and/or 4.1.2.6][*or if only item (ii) of Market Disruption is included, insert:* 4.1.2.1 and/or (if specified) 4.1.2.2 and/or 4.1.2.3] has existed for [•][eight] or more Trading Days and continues to exist and that any alternative valuation methods provided for in the Product Conditions would, in the determination of the Issuer, not be appropriate for the purposes of making the relevant calculation; and
- (ii) the Issuer then elects to treat such Market Disruption Event as an Additional Disruption Event.

4.1.3 Potential Adjustment Events

Following any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a dilutive or concentrative or other effect on the theoretical value of the relevant Share and, if so, will (i) make the corresponding adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate to account for that dilutive or concentrative or other effect; and (ii) determine the effective date of that adjustment. The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by a Related Exchange to options contracts or futures contracts on the relevant Share traded on that Related Exchange.

Upon making any such adjustment, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 4, stating the adjustment made to the Conditions and giving brief details of the Potential Adjustment Event.

"Potential Adjustment Event" means any of the following:

- 4.1.3.1 a subdivision, consolidation or reclassification of relevant Shares (unless it has resulted in a Merger Event) or a free distribution or dividend of any such Shares to existing holders by way of bonus, capitalisation or similar issue;
- 4.1.3.2 a distribution, issue or dividend to existing holders of the relevant Shares of (1) such Shares, or (2) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Share Company equally or proportionately with such payments to holders of such Shares, or (3) share capital or other securities of another issuer as a result of a "spin-off" or other similar transaction, or (4) any other type of

securities, rights or warrants or other assets, in any case for payment (in cash or in other consideration) at less than the prevailing market price as determined by the Calculation Agent;

- 4.1.3.3 an extraordinary dividend;
- 4.1.3.4 a call by the Share Company in respect of relevant Shares that are not fully paid;
- 4.1.3.5 a repurchase by or on behalf of the Share Company or any of its subsidiaries of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- 4.1.3.6 in respect of a Share Company, an event that results in any shareholder rights being distributed, or becoming separated from shares of common stock or other shares of the capital stock of such Share Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value as determined by the Calculation Agent;
- 4.1.3.7 any redemption of shareholder rights referred to in 4.1.3.6 above; and
- 4.1.3.8 any other event that may have a diluting or concentrative or other effect on the theoretical value of the relevant Shares.

4.1.4. *Merger Event, Tender Offer, De-Listing, Nationalisation and Insolvency*

If a De-Listing occurs in relation to a Share (such Share being a "**Disrupted Share**"), the Calculation Agent shall substitute the Disrupted Share in the Basket with a Replacement Basket Constituent (as defined below) on the effective date for such De-Listing (the "**De-Listing Date**"), whereupon:

- (i.) the Replacement Basket Constituent and its issuer will be deemed a "Basket Constituent" and a "Share Company" respectively,
- (ii.) the Calculation Agent will adjust the Coupon Reference Level for such Replacement Basket Constituent so that the ratio of the Specified Spot Price for that Replacement Basket Constituent to the Coupon Reference Level for the Replacement Basket Constituent equals the ratio of the Specified Spot Price for the Disrupted Share to the Coupon Reference Level for the Disrupted Share immediately prior to the De-Listing Date, and
- (iii.) if necessary, the Calculation Agent will adjust any other relevant terms accordingly.

If a Share-for-Share Merger Event or a Share-for-Combined Merger Event occurs in relation to a Share (such Share being a "**Disrupted Share**") and the Issuer of the New Basket Constituents is not already a Share Company, then, on or after the relevant Merger Date, the Calculation Agent shall adjust the Basket to include the relevant quantity of the New Basket Constituents to which a holder of the Share immediately prior to the occurrence of the Merger Event would be entitled upon consummation of the Merger Event. Accordingly:

- (i.) the New Basket Constituent and its issuer will be deemed a "Basket Constituent" and a "Share Company" respectively
- (ii.) the Calculation Agent will adjust the Coupon Reference Level for such New Basket Constituent so that the ratio of the Specified Spot Price for that New Basket Constituent to the Coupon Reference Level for the New Basket Constituent equals the ratio of the Specified Spot Price for the Disrupted

Share to the Coupon Reference Level for the Disrupted Share immediately prior to the occurrence of the Merger Event, and

- (iii.) if necessary, the Calculation Agent will adjust any other relevant terms accordingly.

If a Share-for-Other Merger Event, or a Share-for-Share Merger Event or a Share-for-Combined Merger Event where the issuer of the New Basket Constituents is a Share Company, occurs in relation to a Share (such Share being a "**Disrupted Share**"), then, on or after the relevant Merger Date, the Calculation Agent shall adjust the Basket by substituting the Disrupted Share in the Basket with a Replacement Share (as defined below) upon consummation of the Merger Event. Accordingly:

- (i.) the Replacement Basket Constituent and its issuer will be deemed a "Basket Constituent" and a "Share Company" respectively,

5. Agents, Calculation Agent, Determinations and Modifications

5.1 Agents

The Issuer reserves the right at any time to vary or terminate the appointment of any Agent and to appoint additional Agents, provided that no termination of appointment of the Principal Agent shall become effective until a replacement Principal Agent shall have been appointed and provided that, if and to the extent that any of the Securities are listed on any stock exchange or publicly offered in any jurisdiction, there shall be an Agent having a specified office in each country if so required by the rules and regulations of each such stock exchange and the securities regulators in each such jurisdiction. Notice of any appointment, or termination of appointment, or any change in the specified office, of any Agent will be given to Securityholders in accordance with General Condition 4. Each Agent acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders. Any calculations or determinations in respect of the Securities made by an Agent shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders.

5.2 Calculation Agent

The Issuer shall undertake the duties of calculation agent (the "**Calculation Agent**" which expression shall include any successor calculation agent) in respect of the Securities unless the Issuer decides to appoint a successor Calculation Agent in accordance with the provisions below.

The Issuer reserves the right at any time to appoint another institution as the Calculation Agent, provided that no termination of appointment of the existing Calculation Agent shall become effective until a replacement Calculation Agent shall have been appointed. Notice of any such termination or appointment will be given to the Securityholders in accordance with General Condition 4.

The Calculation Agent (except where it is the Issuer) acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders. Any calculations or determinations in respect of the Securities made by the Calculation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders.

The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate.

5.3 Determinations by the Issuer

Any determination made by the Issuer pursuant to the Conditions shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders.

5.4 Modifications

The Issuer may, to the extent permitted by applicable law, modify the Conditions without the consent of the Securityholders or any of them in any manner which the Issuer may deem reasonably necessary in order to maintain or preserve the intended commercial purpose of the Conditions if such modification does not materially adversely affect the interests of the Securityholders or is of a formal, minor or technical nature or intended to correct a manifest error or to cure, correct or supplement any defective provision contained therein. Notice of any such modification will be given to the Securityholders in accordance with General Condition 4 but failure to give, or non-receipt of, such notice will not affect the validity of any such modification.

6. Taxation

In relation to each Security the relevant Securityholder shall pay all Securityholder Expenses as provided in the Product Conditions. All payments or, as the case may be, deliveries in respect of the Securities will be subject in all cases to all applicable fiscal and other laws and regulations (including, where applicable, laws requiring the deduction or withholding for, or on account of, any tax, duty or other charge whatsoever). The Issuer shall not be liable for or otherwise obliged to pay, and the relevant Securityholder shall be liable for and/or pay, any tax, duty, charge, withholding or other payment whatsoever which may arise as a result of, or in connection with, the ownership, any transfer, any payment and/or any delivery in respect of the Securities held by such Securityholder. The Issuer shall have the right, but shall not be obliged, to withhold or deduct from any amount payable or, as the case may be, any delivery due to the Securityholder such amount or portion as shall be necessary to account for or to pay any such tax, duty, charge, withholding or other payment. Each Securityholder shall indemnify the Issuer against any loss, cost or other liability whatsoever sustained or incurred by the Issuer in respect of any such tax, duty, charge, withholding or other payment as referred to above in respect of the Securities of such holder.
