

# Deutsche Bank Key Information Document ("KID")

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

You are about to purchase a product that is not simple and may be difficult to understand.

## Product

Product name	Bonus Capital Protected Note with Cap linked to EURO STOXX 50® Index (Preisindex)
Product identifiers	ISIN: DE000DS0VC93   WKN: DS0VC9
PRIP manufacturer	Deutsche Bank AG
Website	www.db.com
Telephone number	Call +49-69-910-00 for more information.
Competent authority of the PRIP manufacturer	German Federal Financial Supervisory Authority (BaFin)
Date of production	24 April 2018

## 1. What is this product?

**Type** German law governed notes

**Objectives** The product is designed to provide a return in the form of a cash payment on the **maturity date** in an amount that depends on whether (Terms that the **underlying** satisfies the barrier conditions specified below.

appear in **bold** On termination of the product on the **maturity date**, you will receive:

in this section  
are described 1.  
in more detail in  
the table(s) 2.  
below.)

- if the **final reference level** at or above 140.00% of the **initial reference level** a cash payment equal to EUR 1,400;
- otherwise, if the **final reference level** above 120.00% of the **initial reference level** and below 140.00% of the **initial reference level** (i) the **product notional amount** multiplied by (ii) (A) the **final reference level** divided by (B) the **initial reference level**;
- otherwise, if the **final reference level** above the **initial reference level** and below 120.00% of the **initial reference level** a cash payment equal to EUR 1,200;
- otherwise, if the **final reference level** at or below the **initial reference level** a cash payment equal to EUR 1,000.

Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

<b>Underlying</b>	EURO STOXX 50 (ISIN: EU0009658145)	<b>Initial reference level</b>	The <b>reference level</b> on the <b>initial valuation date</b>
<b>Underlying market</b>	Equity	<b>Reference level</b>	The closing level of the <b>underlying</b> as per the <b>reference source</b>
<b>Product notional amount</b>	EUR 1,000	<b>Reference source</b>	STOXX
<b>Issue price</b>	100.00% of the <b>product notional amount</b>	<b>Final reference level</b>	The <b>reference level</b> on the <b>final valuation date</b>
<b>Product currency</b>	Euro (EUR)	<b>Initial valuation date</b>	30 April 2018
<b>Underlying currency</b>	Euro (EUR)	<b>Final valuation date</b>	30 April 2025
<b>Subscription period</b>	• Germany, Austria and Luxembourg: 30 April 2018 (inclusive) to 30 April 2018 (inclusive)	<b>Maturity date / term</b>	The 3rd business day following the <b>final valuation date</b>
<b>Issue date</b>	30 April 2018		

The issuer may terminate the product with immediate effect in the event of obvious written or mathematical errors in the terms and conditions or if certain extraordinary events provided in the terms and conditions occur. Examples of extraordinary events include (1) material changes, particularly in connection with the **underlying**, including where an index ceases to be calculated, and (2) events, in particular due to changes in certain external conditions that hinder the issuer in meeting its obligations in connection with the product or – depending on the terms and conditions of the security – otherwise affect the product and/or the issuer. In case of immediate termination, the return (if any) may be significantly lower than the purchase price, but will reflect the product's market value and, if higher, any minimum redemption (alternatively, in some cases the corresponding compounded amount may be paid out at the product's scheduled maturity). Instead of immediate termination, the issuer may also amend the terms and conditions.

**Intended retail investor** The product is intended for private clients who pursue the objective of general capital formation/asset optimization and have a long-term investment horizon. This product is a product for clients who have sufficient knowledge and / or experience to make an informed investment decision. The investor cannot bear any losses on the capital invested. In the risk and return assessment, the product is in risk class 2 on a scale of 1 (safety-oriented, very low to low yield) to 7 (very risky, highest return).

## 2. What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 7 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

**Be aware of currency risk:** If the currency of your account is different to the currency of this product, you will be exposed to the risk of suffering a loss as a result of the conversion of the currency of the product into the account currency. This risk is not considered in the indicator shown above.

If we are not able to pay you what is owed, you could lose your entire investment.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

#### Performance scenarios

<i>Investment: EUR 10,000</i>				
Scenarios		1 year	4 years	7 years (Recommended holding period)
<b>Stress scenario</b>	<b>What you might get back after costs</b>	EUR 10,064.57	EUR 9,950.00	EUR 10,000.00
	Average return each year	0.65%	-0.13%	0.00%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	EUR 10,170.57	EUR 9,950.00	EUR 10,000.00
	Average return each year	1.71%	-0.13%	0.00%
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	EUR 10,624.12	EUR 10,303.20	EUR 10,000.00
	Average return each year	6.24%	0.75%	0.00%
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	EUR 11,239.65	EUR 12,074.19	EUR 13,436.34
	Average return each year	12.40%	4.82%	4.30%

This table shows the money you could get back over the next 7 years under different scenarios, assuming that you invest EUR 10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. In addition, you should note that the results shown for the intermediate holding periods do not reflect estimates of the product's future value. You should therefore not base your investment decision on the results shown for these interim holding periods.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

### 3. What happens if Deutsche Bank AG is unable to pay out?

You are exposed to the risk that the issuer might be unable to fulfil its obligations in respect of the product – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. In case of a crisis of the issuer such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. In doing so, the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the product or convert it into shares of the issuer and suspend rights of the investors. With regard to the basic ranking of the issuer's obligations in the event of action by the resolution authority, please see [www.bafin.de](http://www.bafin.de) and search for the keyword "Haftungskaskade". A total loss of your capital invested is possible. The product is a debt instrument and as such is not covered by any deposit protection scheme.

### 4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future.

#### Costs over time

<i>Investment: EUR 10,000</i>			
Scenarios	If you cash in after 1 year	If you cash in after 4 years	If you cash in at the end of the recommended holding period
<b>Total costs</b>	EUR 267.84	EUR 261.29	EUR 204.08
<b>Impact on return (RIY) per year</b>	2.67839%	0.63277%	0.28846%

The costs shown in the table above represent how much the expected costs of the product would affect your return, assuming the product performs in line with the moderate performance scenario.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

## Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

**The table shows the impact on return per year.**

<b>The table shows the impact on return per year.</b>			
<b>One-off costs</b>	<i>Entry costs</i>	0.28846%	The impact of the costs already included in the price.
	<i>Exit costs</i>	0.00%	The impact of the costs of exiting your investment when it matures.
<b>Ongoing costs</b>	<i>Portfolio transaction costs per year</i>	0.00%	The impact of the costs of us buying and selling underlying investments for the product.
	<i>Other ongoing costs</i>	0.00%	The impact of the costs that we take each year for managing your investments.

The costs shown in the table above represent the split of the reduction in yield shown in the costs over time table at the end of the recommended holding period. The split of the actual estimated costs of the product as a percentage of the **product notional amount** is estimated to be as follows: entry costs: 2.00%, exit costs: 0.00%, portfolio transaction costs and other ongoing costs: 0.00%.

## 5. How long should I hold it and can I take money out early?

### Recommended holding period: 7 years

The product aims to provide you with the return described under “1. What is this product?” above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until maturity.

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is listed) or (2) off-exchange, where an offer for such product exists. No fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

<b>Exchange listing</b>	Börse Stuttgart and Deutsche Börse AG	<b>Last exchange trading day</b>	29 April 2025 (Börse Stuttgart) and 29 April 2025 (Deutsche Börse AG)
<b>Smallest tradable unit</b>	EUR 1,000	<b>Price quotation</b>	Percentage

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

## 6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at:
