Programme for the issuance of Credit Linked Securities

Under this programme (the "**Programme**") for the issuance of credit linked securities, Deutsche Bank Aktiengesellschaft (the "**Issuer**" or "**Deutsche Bank**") may from time to time issue credit linked securities, in the form of credit linked notes ("**Notes**") or credit linked certificates ("**Certificates**") and, together with Notes, "**Securities**"). Such issuance is carried out by the Issuer as part of its general banking business (set out in article 2(1) of the Articles of Association of the Issuer).

This document constitutes a securities note (the "**Securities Note**") in respect of all Securities issued under the Programme in accordance with Article 8(1) of Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Directive 2003/71/EC, as amended (the "**EU Prospectus Regulation**"), which, together with the registration document dated 6 May 2025 and prepared by the Issuer (as supplemented from time to time, the "**Registration Document**"), constitutes a base prospectus (as supplemented from time to time, the "**Base Prospectus**" or the "**Prospectus**") in accordance with Article 8(6) and Article 10 of the EU Prospectus Regulation.

This Securities Note was approved on 16 December 2025 (the "**Date of Approval**") by the Commission de Surveillance du Secteur Financier (the "**CSSF**") in its capacity as competent authority under the EU Prospectus Regulation. The CSSF only approved this Securities Note as meeting the standards of completeness, comprehensibility and consistency imposed by the EU Prospectus Regulation and such approval does not concern the accuracy of the information contained herein. Approval by the CSSF should not be considered as an endorsement of the Issuer or the quality of the Securities that are the subject of this Securities Note. In accordance with Article 6(4) of the Luxembourg Law of 16 July 2019 on Prospectuses for Securities (loi du 16 juillet 2019 relative aux prospectus pour valeurs mobilières, the "**Luxembourg Prospectus Act**"), by approving this Securities Note, the CSSF assumes no responsibility for the economic or financial soundness of the transactions contemplated by this Securities Note or the quality and solvency of the Issuer. Investors should make their own assessment as to the suitability of investing in the Securities.

This Securities Note supersedes and replaces the Securities Note dated 8 January 2025 of the Issuer for its programme for the issuance of credit linked securities.

The Issuer has also requested the CSSF to provide the competent authorities in France and Italy with a certificate of approval in accordance with Article 25(1) of the EU Prospectus Regulation attesting that the Base Prospectus of which this Securities Note forms part has been drawn up in accordance with the EU Prospectus Regulation (each, a "**Notification**"). The Issuer may request the CSSF to provide competent authorities in additional Member States within the European Economic Area (the "**EEA**") with similar Notifications.

The CSSF has neither approved nor reviewed information contained in this Securities Note in connection with Exempt Securities (as defined in the Section entitled "*General Description of the Programme*"). Information contained in this Securities Note in connection with Exempt Securities has been reviewed by the Luxembourg Stock Exchange and this Securities Note was approved on the Date of Approval by the Luxembourg Stock Exchange pursuant to Part IV of the Luxembourg Prospectus Act with regard to Exempt Securities only.

Application has also been made by the Issuer to the Luxembourg Stock Exchange for Securities issued under the Programme to be listed on the Official List of the Luxembourg Stock Exchange and to be admitted to trading (i) (in the case of Non-Exempt Securities (as defined in the Section entitled "*General Description of the Programme*")) on the Luxembourg Stock Exchange's regulated market or the professional segment of the regulated market of the Luxembourg Stock Exchange or (ii) (in the case of Non-Exempt Securities and Exempt Securities) on the "Euro MTF"

market of the Luxembourg Stock Exchange or on the professional segment of the "Euro MTF" market of the Luxembourg Stock Exchange.

Securities issued under the Programme may also be admitted to trading or listed on the EuroTLX Market (a multilateral trading facility organised and managed by Borsa Italiana S.p.A) ("**Borsa Italiana**"), which is not a regulated market for the purposes of Markets in Financial Instrument Directive (Directive 2014/65/EU, as amended "**MiFID II**").

The Base Prospectus may be filed in Switzerland with a review body (Prüfstelle) approved by the Swiss Financial Market Supervisory Authority FINMA ("**FINMA**") as a foreign prospectus that is deemed approved according to Article 54(2) of the Swiss Federal Financial Services Act ("**FinSA**") for entry on the list of approved prospectuses according to Article 64(5) FinSA, deposited with this review body and published according to Article 64 FinSA. Notwithstanding anything else in this Securities Note, the Issuer may make offers of Securities to the public in Switzerland ("**Swiss Non-exempt Offers**"), in respect of which the Issuer shall complete Final Terms (as defined below). In accordance with Article 36(4)(b) FinSA, the Issuer consents, to the extent and under the conditions, if any, specified in the applicable Final Terms, to the use of the Base Prospectus and the applicable Final Terms by any financial intermediary specified in the applicable Final Terms under "Financial intermediaries granted specific consent to use the Base Prospectus for Swiss Non-exempt Offers" for a Swiss Non-exempt Offer on the basis of and in accordance with the Base Prospectus and the applicable Final Terms. The Issuer and the relevant financial intermediary/intermediaries may also make offers of Securities in Switzerland pursuant to an exemption under Article 36(1) FinSA or where such offers do not qualify as a public offer in Switzerland.

The Securities issued under the Programme are securities in respect of which the amount payable at redemption and/or any interest are linked to the credit risk of one or more corporate or sovereign entities or their successors (each a "**Reference Entity**").

The Base Prospectus (comprising this Securities Note and the Registration Document) is valid for a period of twelve months from the Date of Approval, i.e. until (and including) 16 December 2026. The obligation to supplement the Base Prospectus (comprising this Securities Note and the Registration Document) in the event of a significant new factor, material mistake or material inaccuracy shall not apply once the Base Prospectus (comprising this Securities Note and the Registration Document) is no longer valid. During its time of validity the Issuer shall not be obliged to supplement the Base Prospectus (comprising this Securities Note and the Registration Document) in case it is not being used in connection with an issue of Securities which shall be (i) admitted to trading on a regulated market in the EEA and/or offered to the public in the EEA in circumstances where no exemption is available under Article 1(4) and/or Article 3(2) of the EU Prospectus Regulation, or (ii) admitted to trading on the "Euro MTF" market of the Luxembourg Stock Exchange or on the professional segment of the "Euro MTF" market of the Luxembourg Stock Exchange.

This Securities Note, the Registration Document, any document incorporated by reference in this Securities Note and the Registration Document and any supplement relating to information contained in this Securities Note or the Registration Document are available in electronic form on the Luxembourg Stock Exchange's website (www.luxse.com) and on the website of the Issuer (www.xmarkets.db.com) and will be viewable on, and obtainable free of charge from, such websites. Neither the delivery of this Securities Note or the Registration Document nor any sale made hereunder shall, under any circumstances, create any implication that the information herein is correct as of any time subsequent to the date hereof.

Neither this Securities Note nor the Registration Document nor any other information supplied in connection with the Programme or any Securities (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation by the Issuer or any Distributor (as defined below) that any recipient of this Securities Note or the Registration Document or any recipient of any other information supplied in connection with the Programme or any Securities should purchase any Securities. Each investor contemplating purchasing any Securities should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Securities Note nor the Registration Document nor any other information supplied in connection with the Programme or the issue of any Securities constitutes an offer or invitation by or on behalf of the Issuer or any Distributor to subscribe for or to purchase any Securities.

This Securities Note as well as any applicable Issue Terms reflects the status as of their respective dates of issue. Neither the delivery of this Securities Note nor the offering, sale of any Securities shall in any circumstances imply that the information contained in the aforementioned related documents is accurate and complete subsequent to the date hereof or that there has been no adverse change in the financial condition of the Issuer since such date or that any other information supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The Issuer shall not be liable for or otherwise obliged to pay, and the relevant Securityholder shall be liable for and/or pay, any tax, duty, charge, withholding or other payment whatsoever in connection with the Securities. All payments made by the Issuer shall be made subject to any tax, duty, charge, withholding or other payment which may be required to be made, paid, withheld or deducted.

Prohibition of Sales to Retail Investors in the European Economic Area – If the Issue Terms in respect of any Securities includes a legend entitled "*Prohibition of Sales to Retail Investors in the European Economic Area*", the Securities are not intended to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive (EU) 2016/97 of the European Parliament and of the Council of 20 January 2016 on insurance distribution, as amended (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the EU Prospectus Regulation. If the relevant Issue Terms include the above-mentioned legend, no key information document required by Regulation (EU) No 1286/2014, as amended (the "**PRIPs Regulation**") for offering or selling those Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling those Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIPs Regulation.

If Issue Terms specify "*Prohibition of Sales to Retail Investors in the European Economic Area*" as "*Not Applicable*", except to the extent sub-paragraph (ii) below may apply, in relation to each Member State of the EEA (each, a "**Relevant Member State**"), any offer of Securities will be made pursuant to an exemption under the EU Prospectus Regulation from the requirement to publish a prospectus for offers of Securities. Accordingly, any person making or intending to make an offer in that Relevant Member State of Securities which are the subject of an offering/placement contemplated in this Securities Note as completed by Issue Terms in relation to the offer of those Securities may only do so (i) in circumstances in which no obligation arises for the Issuer or any Distributor to publish a prospectus pursuant to Article 3 of the EU Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the EU Prospectus Regulation, in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State and (in either case) published, all in accordance with the EU Prospectus Regulation, provided that any such prospectus has subsequently been completed by the relevant Issue Terms which specify that offers may be made other than pursuant to Article 1(4) of the EU Prospectus Regulation in that Relevant Member State and such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus or relevant Issue Terms, as applicable, and the Issuer has consented in writing to the use of such prospectus for the purpose of such offer. Except to the extent sub-paragraph (ii) above may apply, neither the Issuer nor any Distributor have authorized, nor do they authorize, the making of any offer of Securities in circumstances in which an obligation arises for the Issuers or any Distributor to publish or supplement a prospectus for such offer.

Prohibition of Sales to Retail Investors in the United Kingdom – If the Issue Terms in respect of any Securities include a legend entitled "*Prohibition of Sales to Retail Investors in the United Kingdom*", the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) 2017/565 as it forms part of the domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); or (ii) a customer within the meaning of the provisions of the United Kingdom Financial Services and Markets Act 2000 (as amended,

the "FSMA") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (8) of Article 2(1) of Regulation (EU) 600/2014 as it forms part of the domestic law of the United Kingdom by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation EU 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently, no key information document required by Regulation (EU) 1286/2014, as amended, as it forms part of the domestic law of the United Kingdom by virtue of the EUWA (the "**United Kingdom PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the United Kingdom has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the United Kingdom may be unlawful under the United Kingdom PRIIPs Regulation.

If the relevant Issue Terms specify "*Prohibition of Sales to Retail Investors in the United Kingdom*" as "*Not Applicable*", except to the extent sub-paragraph (ii) below may apply, in relation to the United Kingdom, any offer of Securities will be made pursuant to an exemption under the EU Prospectus Regulation as it forms part of the domestic law of the United Kingdom by virtue of the EUWA (the "**UK Prospectus Regulation**") from the requirement to publish a prospectus for offers of Securities. Accordingly, any person making or intending to make an offer in the United Kingdom of Securities which are the subject of an offering/placement contemplated in this Securities Note as completed by Issue Terms in relation to the offer of those Securities may only do so (i) in circumstances in which no obligation arises for the Issuer or any Distributor to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation, in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in the United Kingdom and published, all in accordance with the UK Prospectus Regulation, provided that any such prospectus has subsequently been completed by Issue Terms which specify that offers may be made other than pursuant to Article 1(4) of the UK Prospectus Regulation and such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus or relevant Issue Terms, as applicable, and the Issuer has consented in writing to the use of such prospectus for the purpose of such offer. Except to the extent sub-paragraph (ii) above may apply, neither the Issuer nor any Distributor have authorized, nor do they authorize, the making of any offer of Securities in circumstances in which an obligation arises for the Issuer or any Distributor to publish or supplement a prospectus for such offer.

MiFID II Product Governance / Target Market – The Issue Terms in respect of any Securities may include a legend entitled "*MiFID II Product Governance*" which will outline the target market assessment in respect of the Securities and which channels for distribution of the Securities are appropriate. Any person subsequently offering, selling or recommending the Securities (a "**Distributor**") should take into consideration the target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the product governance rules under Commission Delegated Directive (EU) 2017/593 (the "**MiFID II Product Governance Rules**"), any Distributor subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise neither the arranger nor any other Distributor nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID II Product Governance Rules.

UK MiFIR Product Governance / Target Market – The Issue Terms in respect of any Securities may include a legend entitled "*UK MiFIR Product Governance*" which will outline the target market assessment in respect of the Securities and which channels for distribution of the Securities are appropriate. Any Distributor should take into consideration the target market assessment; however, a Distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Distributor subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise neither the arranger nor any other Distributor nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

Neither this Securities Note nor the Registration Document constitutes an offer to sell or the solicitation of an offer to buy any Securities in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Securities Note and the Registration Document and the offer or sale of Securities may be restricted by law in certain jurisdictions. Neither the Issuer nor any Distributor represent that this Securities Note or the Registration Document may be lawfully distributed, or that any Securities may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no

action has been taken by the Issuer or any Distributor which would permit a public offering of any Securities in any jurisdiction (other than any EEA Member State into which the Base Prospectus (of which this Securities Note forms part) has been notified) or distribution of this Securities Note or the Registration Document in any jurisdiction where action for that purpose is required. Accordingly, no Securities may be offered or sold, directly or indirectly, and neither this Securities Note nor the Registration Document nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Securities Note, the Registration Document or any Securities may come must inform themselves about, and observe, any such restrictions on the distribution of this Securities Note and the Registration Document and the offering and sale of Securities. Please see the Section XI entitled "*Selling and Transfer Restrictions*" of this Securities Note. In making an investment decision, investors must rely on their own examination of the Issuer and the terms of the Securities being offered, including the merits and risks involved.

Neither this Securities Note nor the Registration Document nor any Issue Terms may be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer or solicitation.

Neither this Securities Note nor the Registration Document nor any Issue Terms constitutes an offer or an invitation to subscribe for or purchase any Securities and should not be considered as a recommendation or a statement of an opinion (or a report of either of those things) by Deutsche Bank, any Distributor or any of them that any recipient of this Securities Note, the Registration Document or any Issue Terms should subscribe for or purchase any Securities. Each recipient of this Securities Note or any Issue Terms shall be taken to have made its own appraisal of the condition (financial or otherwise) of the Issuer.

Neither the Issuer nor any Distributor makes any representation to any purchaser of the Securities regarding the legality of its investment under any applicable laws. Any purchaser of the Securities should be able to bear the economic risk of an investment in the Securities for an indefinite period of time.

The Securities have not been and will not be registered with the U.S. Securities and Exchange Commission (the "SEC") under the United States Securities Act of 1933, as amended (the "**Securities Act**"), or any state securities laws in the United States, and trading in the Securities has not been approved by the United States Commodity Futures Trading Commission (the "CFTC") under the United States Commodity Exchange Act of 1936, as amended (the "**Commodity Exchange Act**"). The Securities may not be offered, sold, resold, pledged or otherwise transferred except in a transaction exempt from, or not subject to, the registration requirements of the Securities Act. The Securities may be offered and sold at any time outside the United States to non-U.S. persons (as defined in Regulation S) in offshore transactions in reliance on Regulation S ("**Regulations S**") under the Securities Act who also come within the definition of a non-United States person under Rule 4.7 of the United States Commodity Exchange Act, as amended. For a description of certain restrictions on the sale and transfer of the Securities, please refer to the "*Selling and Transfer Restrictions*", in Section XI of this Securities Note.

THE SECURITIES HAVE NOT BEEN AND WILL NOT BE APPROVED OR DISAPPROVED BY THE U.S. SECURITIES AND EXCHANGE COMMISSION, ANY STATE SECURITIES COMMISSION IN THE UNITED STATES OR ANY OTHER U.S. REGULATORY AUTHORITY, NOR HAVE ANY OF THE FOREGOING AUTHORITIES PASSED UPON OR ENDORSED THE MERITS OF THE OFFERING OF SECURITIES OR THE ACCURACY OR THE ADEQUACY OF THE OFFERING DOCUMENTS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

Pursuant to this Securities Note, Securities may be issued whose interest payments will be calculated by reference to a specific benchmark which will be provided by an administrator (the "**Benchmark-linked Securities**")

As at the date of this Securities Note, the specific benchmark applicable to an issue of Benchmark-linked Securities has not yet been determined. However, amounts payable under Benchmark-linked Securities may be calculated by reference to (i) €STR (Euro short-term rate) which is provided by the European Central Bank (the "**ECB**"); (ii) SOFR (Secured Overnight Financing Rate), which is provided by the Federal Reserve Bank of New York (the "**Federal Reserve**"); (iii) SONIA (Sterling Overnight Index Average), which is provided by the Bank of England (the "**BoE**"); (iv) certain CMS (constant maturity swap) rates which are provided by ICE Benchmark Administration Limited ("**IBA**"); (v) EURIBOR, which is provided by the European Money Markets Institute ("**EMMI**"); or, in respect of Exempt Securities, (vi) another benchmark (any "**Other Benchmark**").

As at the date of this Securities Note, EMMI appears on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") (the "**ESMA Register**") pursuant to Article 36 of Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and

amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014, as amended (the "**EU Benchmark Regulation**")

As at the date of this Securities Note, none of the ECB, IBA, the Federal Reserve or the BoE appear on the ESMA Register. As far as the Issuer is aware:

- (i) the transitional provisions in Article 51 of the Benchmarks Regulation apply to IBA, so that certain CMS rates provided by IBA may currently continue to be used without any recognition, endorsement or equivalence; and
- (ii) the exemption set out in point (a) of Article 2(2) of the Benchmarks Regulation applies to the ECB, the Federal Reserve and the BoE, so that €STR, SOFR and SONIA may be used without any recognition, endorsement or equivalence.

In case Securities are issued which make reference to any Other Benchmark, the relevant Issue Terms will specify the name of the specific benchmark and the relevant administrator. In such case the Issue Terms will further specify whether the relevant administrator is included in the ESMA Register and, if not, (i) whether the transitional provisions in Article 51 of the Benchmarks Regulation apply or (ii) whether an exemption pursuant to Article 2 of the Benchmarks Regulation applies.

Stabilising Manager

In connection with the issue of any Tranche of Securities, any Distributor(s) named as the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in the relevant Issue Terms may over-allot Securities or effect transactions with a view to supporting the market price of the Securities at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Securities is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Securities and 60 days after the date of the allotment of the relevant Tranche of Securities. Any stabilisation action or over-allotment shall be conducted in accordance with all applicable laws and rules.

Listing on other exchanges

Securities may, subject to compliance with all relevant laws, also be listed on other exchanges which are not regulated markets for the purposes of MiFID II or Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA (as amended, "**UK MiFIR**"), as indicated in the relevant Issue Terms.

Risk Factors: Prospective purchasers should ensure to carefully read and consider the risks relating to the Issuer and the risks relating to the Securities set out in "*Risk Factors*" below. Prospective purchasers should consult their own financial and legal advisers about risks associated with investment in any Securities and the suitability of investing in any Securities in light of their particular circumstances.

Status of Securities: In case of Securities the ranking of which is specified in the relevant Issue Terms of the Securities as preferred, such Securities constitute unsecured and unsubordinated preferred liabilities of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated preferred liabilities of the Issuer, subject, however, to statutory priorities conferred to certain unsecured and unsubordinated preferred liabilities in the event of Resolution Measures imposed on the Issuer or in the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer.

In accordance with § 46f(5) of the German Banking Act (Kreditwesengesetz, "**KWG**"), the obligations under such Securities rank in priority of those under debt instruments of the Issuer within the meaning of § 46f(6) sentence 1 KWG (also in conjunction with § 46f(9) KWG) or any successor provision, including eligible liabilities within the meaning of Articles 72a and 72b(2) of The Capital Requirements Regulation (EU) No. 575/2013 ("**CRR**").

In case of Securities the ranking of which is specified in the relevant Issue Terms of the Securities as non-preferred, such Securities constitute unsecured and unsubordinated non-preferred liabilities of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated non-preferred liabilities of the Issuer. This is subject to statutory priorities conferred to certain unsecured and unsubordinated non-preferred liabilities in the event of Resolution Measures imposed on the Issuer or in the event of the dissolution, liquidation, Insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer.

In accordance with § 46f(5) KWG, in the event of resolution measures being imposed on the Issuer or in the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against the Issuer, the obligations under such Securities shall rank behind the claims of unsubordinated creditors of the Issuer not qualifying as obligations within the meaning of § 46f(6) sentence 1 KWG (also in conjunction with § 46f(9) KWG) or any successor provision; this includes eligible liabilities within the meaning of Article 72b(2) CRR where point (d) of such Article does not apply. In any such event, no amounts shall be payable in

respect of the Securities until the claims of such other unsubordinated creditors of the Issuer have been satisfied in full.

**Merger Event
Redemption:**

The Securities (other than FTD Securities) may be redeemed early if the Issuer consolidates, amalgamates with, or merges into, or transfers all or substantially all of its assets to, a Reference Entity or vice versa, as applicable, or the Issuer and a Reference Entity become Affiliates. In such circumstances, each Security will be redeemed by the Issuer at the Merger Event Redemption Amount (if any) as set out in Product Condition 5.10, together with any Coupon Amount accrued as provided in Product Condition 4.8, on the day falling 10 Business Days after the date on which notice is given to the Securityholders in accordance with Product Condition 10.

Negative Pledge:

None.

Cross Default:

None.

Events of Default:

The occurrence at any time with respect to the Issuer of any of the following events:

- (a) the Issuer fails to pay principal or interest in respect of the Securities within 30 calendar days of the relevant due date;
- (b) the Issuer fails duly to perform any other obligation arising from the Securities, if such failure continues for more than 60 days after the Issuer has received notice thereof from a Securityholder;
- (c) the Issuer announces its inability to meet its financial obligations or ceases its payments; or
- (d) a court in Germany opens insolvency proceedings against the Issuer.

A Security may be redeemed by the relevant Securityholder prior to final redemption following an Event of Default as set out in Product Condition 19. In such circumstances, the amount payable to the relevant Securityholder will be an amount (which may never be less than zero) calculated by the Calculation Agent equal to the fair market value of the Securities held by the relevant Securityholder, together with coupon amount accrued to (but excluding) the day the relevant Event of Default occurred. For such purposes, the fair market value shall be determined by the Calculation Agent in good faith and a commercially reasonable manner. For the purposes of determining the fair market value, no account shall be taken of the financial condition of the Issuer, which shall be presumed to be able to perform fully its obligations in respect of the Securities.

**Illegality or Force
Majeure Event:**

If the Issuer determines, for reasons beyond its control, that an Illegality Event or Force Majeure Event has occurred, the Issuer may, at its option, redeem the Securities early by giving notice to the Securityholders in accordance with Product Condition 10.

If the Issuer exercises, redeems or terminates the Securities early in accordance with this provision, then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Securityholder in respect of each Security held by such holder equal to the fair market value of a Security notwithstanding such illegality or impracticality, as determined by the Calculation Agent acting in good faith and a commercially reasonable manner.

Taxation:

In relation to each Security, Securityholder Expenses will be for the account of the relevant Securityholder as provided in the Product Conditions.

All payments in respect of the Securities will be subject in all cases to all applicable fiscal and other laws and regulations (including, where applicable, laws requiring the deduction or withholding for, or on account of, any tax, duty or other charge whatsoever).

The Issuer shall not be liable for or otherwise obliged to pay, and the relevant Securityholder shall be liable for or pay, any tax, duty, charge, withholding or other amount whatsoever which may arise as a result of, or in connection with, the ownership, any transfer, any payment or any delivery in respect of the Securities held by such Securityholder.

The Issuer shall have the right, but shall not be obliged, to withhold or deduct from any amount payable due to the Securityholder, such amount or portion as shall be necessary to account for or to pay any such tax, duty, charge, withholding or other amount.

Each Securityholder shall indemnify the Issuer against any loss, cost or other liability whatsoever sustained or incurred by the Issuer in respect of any such tax, duty, charge, withholding or other amount as referred to above in respect of the Securities of such holder.

Coupon:

The Securities to be issued under the Programme may pay either (a) fixed amounts of coupon, (b) variable amounts of coupon or (c) no coupon at all. Please also see Commonly Asked Question 20 “*How is the coupon amount calculated?*” in the “Commonly Asked Question” section herein.

Credit Linked

The coupon amount payable in respect of the Securities may be linked to the credit risk of one or more corporate or sovereign entities or their successors. Please see “*Credit Linked Provisions*” below for more detail and Commonly Asked Questions 21.13 and 21.14 in the “Commonly Asked Question” section herein.

Credit Linked Provisions:

The Securities are securities in respect of which the amount payable at redemption (other than in respect of Securities that are Final Redemption Capital Protected Securities for which the applicable Capital Protection Percentage is 100%) and, depending on the terms of the Securities, the amount payable on each Coupon Payment Date (if any) are linked to the credit risk of one or more corporate or sovereign entities or their successors (each a “**Reference Entity**”). In exchange for a higher coupon or other return on the Securities in the absence of a Credit Event (as described below), investors take the risk that the amount which they receive at redemption will be less than the face value of the Security and any Coupon Amounts they receive may be reduced and/or cease if a Reference Entity has, amongst other similar things, become insolvent or defaulted on its obligations.

Insolvency of or default by a Reference Entity (or, where applicable, other events such as the restructuring of debt liabilities, the declaration of a moratorium on payments or the imposition by a governmental authority of reductions in debt liabilities) is referred to as a “Credit Event” having occurred. If a Credit Event has occurred with respect to a Reference Entity to which your Securities are linked and, as a result, an Event Determination Date under the Conditions of the Securities occurs in relation to such Reference Entity, depending on the type of the Securities, you may receive a reduced percentage (which may be zero) of the face value of each Security you hold. Depending on the type of the Securities, such reduced percentage may be calculated by reference to the recovery rate achieved by creditors of the Reference Entity (or, if “Zero Recovery Principal Amount Reduction Securities” is specified to be applicable in the relevant Issue Terms, you may suffer a loss of your entire principal).

The Product Conditions specify seven Credit Events which may apply to a Reference Entity, the applicable Credit Events depend on the identity of the

Reference Entity and will be determined either by reference to market standards that relate to credit default swaps or will be specified in the relevant Issue Terms. Such Credit Events are:

- Bankruptcy (broadly, one or more reference entities becomes insolvent or enters into formal bankruptcy or rehabilitation proceedings or an administrator is appointed);
- Failure to Pay (subject to a minimum threshold amount, the Reference Entity fails to pay any amounts due on any of its borrowings (including its bonds or loans) or guarantees);
- Obligation Acceleration (the Reference Entity defaults on a minimum amount of its borrowings (including its bonds or loans) or guarantees and as a result such obligations are accelerated);
- Obligation Default (the Reference Entity defaults on a minimum amount of its borrowings (including its bonds or loans) or guarantees and as a result such obligations are capable of being accelerated);
- Restructuring (following a deterioration of the Reference Entity's creditworthiness, any of its borrowings or guarantees, subject to a minimum threshold amount of such borrowings or guarantees, are restructured in such a way as to adversely affect a creditor (such as a reduction or postponement of the interest or principal payable on a bond or loan));
- Repudiation/Moratorium ((i) the Reference Entity repudiates or rejects, in whole or in part, its obligations in relation to its borrowings or its guarantees, or it declares or imposes a moratorium with respect to its borrowings or guarantees and (ii) thereafter within a certain period it fails to pay any amounts due on any of its borrowings (including its bonds or loans) or its guarantees, or it restructures any of its borrowings or guarantees in such a way as to adversely affect a creditor); and
- Governmental Intervention (as a result of the action taken or announcement made by a governmental authority pursuant to, or by means of, a restructuring and resolution law or regulation (or any other similar law or regulations) applicable to the relevant Reference Entity, certain binding changes are made to the relevant obligations of the Reference Entity. The changes include, without limitation, a reduction in the rate or amount (as applicable) of interest, principal or premium payable when due, a postponement or other deferral of the date or dates for payment of interest, principal or premium, a change in the ranking in priority of payment of any obligation, or a mandatory cancellation, conversion or exchange),

in each case, subject to and as more fully described in the Product Conditions.

The Product Conditions deal with how the payments relating to the Securities are calculated and the consequences following a Credit Event in respect of a Reference Entity. In the case of Exempt Securities, the applicable Pricing Supplement may also specify any amendments to the Product Conditions applicable to such Securities. In purchasing the Securities, you are assuming credit risk exposure to the relevant Reference Entity(ies).

Following the occurrence of a Credit Event with respect to any such Reference Entity and an Event Determination Date under the Conditions of the Securities, you may lose some or all of your investment in the Securities.

By investing in the Securities, you will be a seller of credit protection (and hence a buyer of credit risk), whilst the Issuer will be a buyer of credit protection (and therefore a seller of credit risk).

If one or more Event Determination Dates occurs, the Securities will be subject to redemption at a price which may be at a considerable discount to par and could be zero, depending on the type of Securities as specified in the relevant Issue Terms and Coupon Amounts may cease to accrue from (and including) the Coupon Payment Date immediately preceding the relevant Event Determination Date (or, if “Credit Event Accrued Coupon Securities” is specified to be applicable, coupon amounts will cease to accrue from (and including) the relevant Event Determination Date). The Securities explicitly bear the credit risk of the Reference Entity or Reference Entities specified in the relevant Issue Terms and any Successor(s) thereto identified by the Calculation Agent or the Credit Derivatives Determinations Committee, in each case, in accordance with the definition of “Successor” in the Product Conditions. Even where a Credit Event has not occurred, the market value of the Securities may be adversely affected when the probability or perceived probability of a Credit Event occurring in relation to the relevant Reference Entity increases.

An Event Determination Date may occur at any time during the period from, and including, the Credit Event Backstop Date (which, depending on the terms of the Securities, may fall prior to the Trade Date) to, and including, the Credit Period End Date (subject to extension in certain circumstances). Therefore, Credit Events occurring prior to the Trade Date may, depending on the Conditions of the Securities, be taken into account for the purposes of the Securities.

Subject as more fully described in the Product Conditions, an Event Determination Date may occur:

- as a result of the publication by ISDA of a resolution by a Credit Derivatives Determinations Committee (“**CDDC**”) that a Credit Event has occurred in relation to that Reference Entity (in which case the Event Determination Date will be the date of the relevant request for a resolution); or
- in the absence of a resolution of a CDDC, if the Calculation Agent delivers to the Issuer a notice and, if applicable, supporting information derived from specified sources (that is, public news or information sources, the Reference Entity itself, court or other public filings or paying agents, trustees or other intermediaries appointed in respect of obligations of the Reference Entity), in order to trigger settlement of the Securities following a Credit Event.

Types of Securities

The Securities may be:

- Single Reference Entity Securities, which are Securities linked to the performance of a single Reference Entity under which if a Credit Event and related Event Determination Date occurs in respect of the Reference Entity, the Securities will be redeemed at an amount determined by reference to the settlement price of obligations of the Reference Entity and which may be at a considerable discount to par and could be zero.
- FTD Securities (first to default securities), which are Securities linked to more than one Reference Entity. Where a Credit Event and related Event Determination Date occurs in relation to a Reference Entity, the Securities may be redeemed by the Issuer as set out above but an Event Determination Date may only occur on one occasion (such that redemption may follow the ‘first to default’ of the Reference Entities in the basket), unless the Calculation Agent delivers a Credit Event Notice in respect of only part of the principal amount outstanding of each Security, in which case an Event Determination Date may occur, as applicable, on one further occasion and in respect of any Reference Entity. If an Event Determination Date occurs in respect of more than one Reference Entity on the same date, the Calculation Agent will determine which Reference Entity is the Reference Entity in respect of which the Event Determination Date has occurred. The Securities will be redeemed at an amount determined by reference to the settlement price of obligations of the relevant Reference Entity which

triggered redemption and which may be at a considerable discount to par and could be zero. As FTD Securities are linked to the performance of more than one Reference Entity, this increases the likelihood that a Credit Event may occur prior to the maturity/redemption date of the Securities.

- Basket Securities, which are Securities linked to the performance of a portfolio of Reference Entities (including where such portfolio is comprised of the constituents of a credit default swap index). Under Basket Securities the amount of principal and coupon (if any) payable by the Issuer is dependent on whether a Credit Event and related Event Determination Date in respect of one or more of Reference Entities has occurred. Where such Securities are Zero Principal Amount Reduction Securities (“zero recovery”) Basket Securities, the loss suffered by investors on a Credit Event occurring in respect of a Reference Entity will be equal to the entire weighting of that Reference Entity in the portfolio. The portfolio of Reference Entities may in some cases be determined in relation to a credit default swap index.
- Single Reference Entity Securities that are Zero Principal Amount Reduction Securities, which are Securities linked to the performance of a single Reference Entity under which if a Credit Event and related Event Determination Date occurs in respect of the Reference Entity, the Securities will cease to pay coupon and will be cancelled at zero and investors will lose their entire investment.
- Single Reference Entity Securities that are Zero Coupon Securities, which are Securities linked to the performance of a single Reference Entity and which do not pay a coupon but will pay at redemption, in the absence of a Credit Event and related Event Determination Date in respect of the Reference Entity, an amount reflecting the Nominal Amount (in the case of Notes) or Notional Amount or Reference Amount, as the case may be (in the case of Certificates), as may be adjusted by a specified Additional Rate. The difference between the redemption amount and the issue price of such Securities (or, if different, the amount paid by an investor in the Securities), in the absence of a Credit Event and related Event Determination Date in respect of the Reference Entity, constitutes the return on the Securities.
- Fixed Recovery Securities, which are Securities where the amount payable on redemption of the Securities following the occurrence of a Credit Event and related Event Determination Date is fixed.
- Final Redemption Capital Protected Securities, which are Securities in respect of which following a Credit Event and related Event Determination Date in respect of a Reference Entity will be redeemed at specified portion of the Nominal Amount (in the case of Notes) or Notional Amount or Reference Amount, as the case may be (in the case of Certificates) of the Securities.
- Loss at Final Redemption Securities, which are Securities where, notwithstanding the occurrence of a Credit Event and related Event Determination Date in respect of a Reference Entity, the Securities will continue to redeem on the Maturity Date (in the case of Notes) or the Redemption Date (in the case of Certificates) in accordance with Product Condition 5.4.

If no Event Determination Date occurs then, subject as noted in “*Potential extension of the Maturity/Redemption Date*” below, the Securities are scheduled to redeem on the Scheduled Maturity Date (in the case of Notes) or the Scheduled Redemption Date (in the case of Certificates) as specified in the relevant Issue Terms.

As described in Commonly Asked Question 21.12 (*How much will holders receive if the Securities are partially redeemed following an M(M)R Restructuring*) below, in certain circumstances the Securities may be partially redeemed following the

occurrence of an Event Determination Date in respect of which the Credit Event is an M(M)R Restructuring.

Potential extension of the Maturity/Redemption Date

Redemption of the Securities may be extended beyond the Scheduled Maturity Date (in the case of Notes) or Scheduled Redemption Date (in the case of Certificates) even where no Event Determination Date is ultimately deemed to have occurred. For further information please see Commonly Asked Question 21.15 “*In what circumstances might the maturity of the Securities be extended?*” in the “Commonly Asked Question” section herein.

Reference Entities

For Non-Exempt Securities that are linked to the performance of a single Reference Entity or where Non-Exempt Securities are linked to a pool of underlying’s where one Reference Entity represents 20% or more of the pool, the Reference Entity will be an entity that has its securities already admitted to trading on a regulated market in the European Union, an equivalent third country market or SME Growth Market.

Product Conditions:

The Issuer may issue Securities in the form of either Notes or Certificates.

Product Conditions 1 to 25 of the Product Conditions relate to the issuance of Notes. Where the Issue Terms in respect of a Series of Securities specifies that such Securities are in the form of Certificates, such Product Conditions 1 to 25 shall apply as amended pursuant to Product Condition 26 (*Certificates*).

Green and Social Securities:

The Issuer may issue Securities under this Securities Note as part of the Programme for the issuance of Credit Linked Securities for which the applicable Issue Terms specifies under the “Reasons for the offer” that the Issuer will designate, at issuance, an amount corresponding to the net proceeds of an issuance for the financing or refinancing of assets within a portfolio of Green Assets (as defined below) (“**Green Securities**”) or Social Assets (as defined below) (“**Social Securities**”) in accordance with the Issuer’s Sustainable Instruments Framework (the “**Sustainable Instruments Framework**”).

The Securities (excluding French Law Notes) shall be governed by English law.

French Law Notes shall be governed by French law.

Potential investors should also carefully review the "Risk Factors" section on pages 3 to 33 of the Registration Document.

The Issuer believes that the Risk Factors described below represent the specific risks inherent in investing in the Securities issued under the Programme but the inability of the Issuer to pay principal, interest or other amounts may occur or arise for other reasons and there may be other factors which are material to the risks associated with the Securities. In the case of Exempt Securities, the Pricing Supplement in respect of a Series of Securities may contain additional issue specific risk factors in respect of such Series.

The Securities issued under the Programme may not be a suitable investment for all investors. Each potential investor in the Securities must determine the suitability and appropriateness of that investment in light of its own circumstances. In particular, each potential investor should:

Prospective purchasers should understand the risks associated with an investment in the Securities and should only reach an investment decision after careful consideration, with their legal, tax, accounting and other advisers as they determine appropriate under the circumstances, of (i) the suitability of an investment in the Securities in light of their own particular financial, fiscal, tax and other circumstances, (ii) the information set out in this document and (iii) such independent investigation and analysis regarding the Reference Entity(ies).

During the life of each Series of Securities the Risk Factors specified below may impact such Securities at different points in time and for different lengths of time. Each Series of Securities may have a risk profile that changes over time. Prospective investors should seek advice from a professional financial adviser in order to further discuss and understand how the risk profile of a particular Series of Securities will affect their overall investment portfolio.

More than one risk factor may have simultaneous effect with regard to the Securities such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No assurance can be given as to the effect that any combination of the Risk Factors set out below may have on the value of the Securities.

If one or more of the risks described below occurs, this may result in material decreases in the price of the Securities or, in the worst-case scenario, in total loss of interest and capital invested by the investor.

Terms used in this section and not otherwise defined shall have the meanings given to them elsewhere in this Securities Note.

The Risk Factors are presented according to their nature in the following categories:

1. Risks related to credit linked Securities

2. Risks related to the Securities
3. Risks related to market factors, market value and potential illiquidity of the Securities
4. Conflicts of interest in respect of the Securities

1. RISKS RELATED TO CREDIT LINKED SECURITIES

The Securities feature an embedded credit derivative, which means that the Coupon Amount(s) and/or the Redemption Amount payable in respect of the Securities is dependent on whether one or more credit-risk-related events (known as Credit Events) occur with respect to one or more third party corporates or sovereigns, each termed a Reference Entity and, if so and in respect of Securities that are not Fixed Recovery Securities, Final Redemption Capital Protected Securities or Zero Recovery Principal Amount Reduction Securities and depending on the terms of the Securities, on the value of certain specified assets of the Reference Entity(ies). In these circumstances, since the relevant assets will be issued, guaranteed or insured by the Reference Entity affected by the Credit Event, the value of such assets at the relevant time may be considerably less than would be the case if the Credit Event had not occurred. The Coupon Amount and the Redemption Amount may be dependent on the non-occurrence of Credit Events with respect to the Reference Entity(ies).

In some cases, the Redemption Amount may be dependent on the non-occurrence of Credit Events with respect to any Reference Entity(ies) and the Coupon Amount shall not be credit linked (known as "**Non Credit Linked Coupon Securities**").

If the Securities are not Final Redemption Capital Protected Securities for which the applicable Capital Protection Percentage is 100% ("**100% Final Redemption Capital Protected Securities**"), the Securities will only be redeemable at their Nominal Amount (in the case of Notes) or Notional Amount or Reference Amount, as the case may be (in the case of Certificates) at final redemption (and as adjusted, in the case of Zero Coupon Securities, by the Additional Rate) if, as further described in the Product Conditions, none of the Credit Events specified in the Product Conditions (being one or more of Bankruptcy, Failure to Pay, Obligation Acceleration, Obligation Default, Restructuring, Repudiation/Moratorium or Governmental Intervention) and related Event Determination Dates has occurred with respect to one or more Reference Entities. If the Securities are not Non Credit Linked Coupon Securities, the payment of the Coupon Amount will be dependent on the non-occurrence of a Credit Event with respect to one or more Reference Entities.

The credit risk of the Reference Entity(ies) is distinct from the credit risk of the Issuer, to which investors in the Securities are also exposed. In addition to the credit risk of the Issuer in performing its obligations when due under the Securities, an investment in the Securities provides exposure to the credit risk and obligations of the Reference Entity(ies).

Credit risk refers to the risk that a company or entity (including, if applicable, a sovereign entity) may fail to perform its payment obligations under a transaction when they are due to be performed as a result of a deterioration in its financial condition. The terms "transactions" and "obligations" are used widely and can include (but are not limited to) loan agreements entered into by the company or entity and also securities issued by the company or entity. This risk arises for other companies or parties which enter into transactions with the company or entity or in some other way have exposure to the credit risk of the company or entity and this is a risk for a holder of the Securities (a "**Securityholder**") as, via the Credit Events, they have exposure to the credit of the Reference Entity(ies). This is because if a Credit Event is determined to have occurred in respect of a Reference Entity, or one or more Reference Entities, if applicable, and an Event Determination Date has occurred with respect thereto, the amounts (if any) payable in respect of the Securities will be reduced and in certain circumstances may be zero.

The market price of the Securities may be volatile and may be affected by, among other things, the creditworthiness of the Reference Entity (which in turn may be affected by the economic, financial and political events in one or more jurisdictions) and the time remaining until final redemption.

1.1 Risks related to credit linked securities

1.1.1 *Risks related to the occurrence of a Credit Event*

For the purposes of the Securities, a "**Credit Event**" will be one or more of the following:

- (a) Bankruptcy (broadly, one or more Reference Entities becomes insolvent or enters into formal bankruptcy or rehabilitation proceedings or an administrator is appointed);
- (b) Failure to Pay (subject to a minimum threshold amount, the Reference Entity fails to pay any amounts due on any of its borrowings (including its bonds or loans) or guarantees);
- (c) Obligation Acceleration (the Reference Entity defaults on a minimum amount of its borrowings (including its bonds or loans) or guarantees and as a result such obligations are accelerated);
- (d) Obligation Default (the Reference Entity defaults on a minimum amount of its borrowings (including its bonds or loans) or guarantees and as a result such obligations are capable of being accelerated);
- (e) Restructuring (following a deterioration of the Reference Entity's creditworthiness, any of its borrowings or guarantees, subject to a minimum threshold amount of such borrowings or guarantees, are restructured in such a way as to adversely affect a creditor (such as a reduction or postponement of the interest or principal payable on a bond or loan));
- (f) Repudiation/Moratorium ((i) the Reference Entity repudiates or rejects, in whole or in part, its obligations in relation to its borrowings or its guarantees, or it declares or imposes a moratorium with respect to its borrowings or guarantees and (ii) thereafter within a certain period it fails to pay any amounts due on any of its borrowings (including its bonds or loans) or its guarantees, or it restructures any of its borrowings or guarantees in such a way as to adversely affect a creditor); and
- (g) Governmental Intervention (as a result of the action taken or announcement made by a governmental authority pursuant to, or by means of, a restructuring and resolution law or regulation (or any other similar law or regulations) applicable to the relevant reference entity, certain binding changes are made to the relevant obligations of the reference entity. The changes include, without limitation, a reduction in the rate or amount (as applicable) of interest, principal or premium payable when due, a postponement or other deferral of the date or dates for payment of interest, principal or premium, a change in the ranking in priority of payment of any obligation, or a mandatory cancellation, conversion or exchange),

in each case, subject to and as more fully described in the Product Conditions.

The Credit Events which are applicable shall be determined by reference to the most recent Credit Derivatives Physical Settlement Matrix published by the International Swaps and Derivatives Association, Inc. ("ISDA") as at the Trade Date of the Securities. Whether a Credit Event occurs will be determined in accordance with the Product Conditions. The occurrence of a Credit Event and the designation of an Event Determination Date may result in a Securityholder losing some, and potentially all, of its initial investment.

Prospective investors should note that not all of the possible Credit Events require an actual default with respect to the obligations of a relevant Reference Entity. Securityholders could bear losses based on deterioration in the credit of any relevant Reference Entity(ies) short of a default, subject to the provisions set out in the Product Conditions and the applicable Issue Terms.

1.1.2 *Risks related to determinations by a Credit Derivatives Determinations Committee and ISDA Auctions*

As further provided in the Product Conditions and as described above, the determination as to whether or not a Credit Event has occurred may be determined on the basis of a determination of a committee established by ISDA for the purposes of making certain determinations in connection with credit derivative transactions (a "**Credit Derivatives Determinations Committee**").

By way of the 2014 ISDA Credit Derivatives Definitions and the Credit Derivatives Determinations Committees Rules (as published by ISDA and made available on the website of the Credit Derivatives Determinations Committees at www.cdsdeterminationscommittees.org (or any successor website thereto), as may be amended and/or supplemented from time to time) (the "**DC Rules**"), a mechanism has been introduced into the credit derivatives market for convening Credit Derivatives Determinations Committees for the purposes of making various determinations in connection with certain credit derivatives transactions.

In such circumstances the relevant determination pursuant to the Conditions of the Securities is subject to the announcements, publications, determinations and resolutions made by ISDA and/or the Credit Derivatives Determinations Committees.

Certain other determinations under the Securities, including without limitation determinations with respect to Successors and Substitute Reference Obligations, may also follow determinations and/or approvals of the relevant Credit Derivatives Determinations Committee and which in such circumstances would be binding on the Securityholders.

In any such cases any such announcements, publications, determinations and resolutions could therefore affect the amount and timing of payments of Coupon Amounts and principal of the Securities pursuant to the terms of the Securities. None of the Issuer, the Fiscal Agent or any other related person will have any liability to any person for any determination or calculation and/or any delay or suspension of payments and/or redemption of the Securities resulting from or relating to any announcements, publications, determinations and resolutions made by ISDA and/or any of the Credit Derivatives Determinations Committees. Further information regarding the ISDA Credit Derivatives Determinations Committees can be found at www.isda.org/credit.

A Credit Derivatives Determinations Committee will comprise dealer ISDA members selected based on various factors including the level of their trading volume of credit derivatives transactions globally and non-dealer ISDA members in each case identified in accordance with the applicable provisions for the composition of a Credit Derivatives Determinations Committee under the DC Rules. A Credit Derivatives Determinations Committee will make decisions on issues submitted to it which are agreed to be deliberated in accordance with the DC Rules ("**DC Issues**") by resolution ("**DC Resolutions**"), based on the Credit Derivatives Determinations Committee's members' votes on the relevant DC Issue. If a resolution cannot be reached a decision may be made by an external review panel. Thus, the content of a DC Resolution in respect of a Reference Entity will depend on the votes cast by the members of the relevant Credit Derivatives Determinations Committee. The members may have current or future business relationships with each other or with a Reference Entity and, due to possible conflicts of interest, may rate the creditworthiness of a Reference Entity (the deterioration of which may be relevant to the determination of a Restructuring Credit Event) differently in their business relationships with the Reference Entity than in their vote.

The external reviewers within the external review panel may not consider new information that was unavailable to the relevant Credit Derivatives Determinations Committee at the time of the binding vote and questions may be returned to the Credit Derivatives Determinations Committee for another vote if new information becomes available. In addition, if the external reviewers fail to arrive at a decision for any reason, the entire process will be repeated. As a result, the external review process may be elongated in certain situations, leaving questions unresolved for a period of time which may materially negatively affect the interests of the Securityholders and their position in respect of the Securities.

Membership of a Credit Derivatives Determinations Committee is generally reviewed each year, meaning that the composition of such a committee at the time of acquiring the Securities is not an indication of future voting behaviour of the relevant committee. Deutsche Bank AG may be a member of the Credit Derivatives Determinations Committee responsible for determining the occurrence of Credit Events at any time. For any resulting conflicts of interest, investors are advised to refer to the risk factors presented in Section 4 ("*Conflicts of interest in respect of the Securities*") below.

In certain circumstances, following the occurrence of a Credit Event if the relevant Credit Derivatives Determinations Committee determines that one or more auctions will be held in accordance with any Credit Derivatives Auction Settlement Terms published by ISDA in relation to obligations of appropriate seniority of the Reference Entity applicable to credit derivatives transactions incorporating the 2014 ISDA Credit Derivatives Definitions (an "**ISDA Auction**"), the Securities may be redeemed by the Issuer by payment of an amount linked to the value determined pursuant to the relevant auction. If an ISDA Auction is held, there is a high probability that the Issuer (or one of its affiliates) will act as a participating bidder in any such ISDA Auction. In such capacity, it may take certain actions which may influence the final price determined in such ISDA Auction (the "**Auction Final Price**") including (without limitation): (i) providing rates of conversion to determine the applicable currency conversion rates to be used to convert any obligations which are not denominated in the auction currency into such currency for the purposes of the ISDA Auction; and (ii) submitting bids, offers and physical settlement requests with respect to the relevant Deliverable Obligations (as defined in Commonly Asked Question 21.9 below). In deciding whether to take any such action (or whether to act as a participating bidder in any auction), the Issuer (or its affiliate) shall be under no obligation to consider the interests of any Securityholder.

Investors should note that the value determined pursuant to such ISDA Auction (if applicable) will be determined by reference to obligations of the Reference Entity which may not include the Reference Obligation and such value may be lower than the market value that would otherwise have been determined

in respect of the Reference Obligation. In addition, if the Credit Event is a Restructuring Credit Event, in certain circumstances the ISDA Auction determined to be applicable may be for obligations of the Reference Entity of considerably longer tenor than the Reference Obligation, and as a result it is very likely that the value determined pursuant to such ISDA Auction will be lower than the market value that would otherwise have been determined in respect of the Reference Obligation.

If Auction Settlement is applicable and an Auction occurs, a lack of limit offers sufficient to clear an open interest to purchase Deliverable Obligations will result in an Auction Final Price of 100 per cent. and a lack of limit bids sufficient to clear an open interest to sell Deliverable Obligations will result in an Auction Final Price of zero. If the Auction Final Price is zero, this will have a material negative effect on the value of the Securities.

If a Reference Obligation is a subordinated debt obligation, investors in the Securities should be aware that, on the occurrence of a Credit Event, the value of that Reference Obligation or the value determined pursuant to the ISDA Auction in respect of obligations of appropriate seniority (being subordinated obligations) and (if the Credit Event is a restructuring) tenor of the relevant Reference Entity, as applicable, will be less than that of senior unsecured obligations of the Reference Entity and therefore the amount (if any) payable to investors in the Securities on redemption following a Credit Event will be lower (and is more likely to be zero) than if that Reference Obligation were a senior unsecured obligation.

Any references in these risk factors to ISDA will include any other entity which succeeds to or is performing functions previously undertaken by ISDA in relation to Credit Derivatives Determinations Committees and references to Credit Derivatives Determinations Committees in relation to ISDA will include any successor thereto. The Calculation Agent may make such adjustments to the Product Conditions and/or the applicable or Issue Terms as it determines appropriate to account for any other entity so succeeding to or performing functions previously undertaken by ISDA.

1.1.3 *Potential conflicts of interest due to the involvement of the Calculation Agent with the Credit Derivatives Determinations Committees*

Since, as of the Issue Date, the Calculation Agent (or one of its affiliates) is a voting member on each of the Credit Derivatives Determinations Committees and is a party to transactions which incorporate, or are deemed to incorporate, the 2014 ISDA Credit Derivatives Definitions, it may take certain actions which may influence the process and outcome of decisions of the Credit Derivatives Determinations Committees. Such action may be adverse to the interests of the Securityholders and may result in an economic benefit accruing to the Calculation Agent. In taking any action relating to the Credit Derivatives Determinations Committees or performing any duty under the DC Rules, the Calculation Agent shall have no obligation to consider the interests of the Securityholders and may ignore any conflict of interest arising due to its responsibilities under the Securities.

1.1.4 *Securityholders will have no recourse against either the institutions serving on the Credit Derivatives Determinations Committees or the external reviewers*

Institutions serving on the Credit Derivatives Determinations Committees and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the performance of duties or the provision of advice under the DC Rules, except in the case of gross negligence, fraud or wilful misconduct. Furthermore, the member institutions of the Credit Derivatives Determinations Committees from time to time will not owe any duty to the Securityholders and the Securityholders will be prevented from pursuing legal claims with respect to actions taken by such member institutions or external reviewers under the DC Rules.

Securityholders should also be aware that member institutions of the Credit Derivatives Determinations Committees have no duty to research or verify the veracity of information on which a specific determination is based. In addition, the Credit Derivatives Determinations Committees are not obligated to follow previous determinations and, therefore, could reach a conflicting determination for a similar set of facts which may not be favourable to the interests of the Securityholders in relation to the Securities.

1.1.5 *Risks related to an amendment of terms in accordance with Market Convention*

The Calculation Agent may from time to time amend the terms of the Securities in any manner which the Calculation Agent determines, in good faith and a commercially reasonable manner, is necessary or

desirable from the perspective of the Issuer, the Calculation Agent or any Affiliate of the Issuer hedging the Issuer's obligations in respect of the Securities:

- (a) to incorporate and/or reflect further or alternative documents or protocols from time to time published by ISDA with respect to the documentation, trading or settlement of credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees; and/or
- (b) to reflect or account for market practice for credit derivative transactions.

Any such amendment may have an adverse effect on the value of the Securities.

1.1.6 *Investors are subject to the risk that a Credit Event may occur prior to the Trade Date.*

In certain cases where "Lookback" is specified as "Applicable" in the relevant Issue Terms (or "Lookback" is not specified as "Not Applicable" in the relevant Issue Terms), the credit exposure period commences up to 60 days prior to the Credit Event Resolution Request Date. A Credit Event that occurred in relation to the Reference Entity or any Obligation thereof up to 60 days prior to such date may therefore impact the Securities. Securityholders should conduct their own review of any recent developments with respect to the Reference Entity by consulting publicly available information. If a request to convene a Credit Derivatives Determinations Committee has been delivered prior to the Trade Date to determine whether a Credit Event has occurred with respect to the Reference Entity, details of such request may be found on the DC Secretary's website (www.cdsdeterminationscommittees.org). If a Credit Derivatives Determinations Committee has not been convened to determine such matter as of the Trade Date, one may still be convened after the Trade Date in respect of an event which occurs up to 60 days before the date of a request to convene such Credit Derivatives Determinations Committee.

1.1.7 *Risks related to a Merger Event redemption*

If the Securities are not FTD Securities, the Securities may be redeemed early if the Issuer consolidates, amalgamates with, or merger into, or transfers all or substantially all of its assets to, a Reference Entity or vice versa, as applicable, or the Issuer and a Reference Entity become Affiliates. In such circumstances, the Securities will be redeemed at a Merger Event Redemption Amount equal to:

- (a) if the Securities are linked to a single Reference Entity, the Nominal Amount (in the case of Notes) or Notional Amount or Reference Amount (in the case of Certificates), subject if the Securities are Final Redemption Capital Protected Securities only, to a minimum amount equal to the Minimum Redemption Amount; and
- (b) if the Securities are linked to a basket of Reference Entities:
 - (i) where the Securities are not Zero Recovery Principal Amount Reduction Securities or Fixed Recovery Securities, the sum of (A) the Outstanding Nominal Amount (in the case of Notes) or Outstanding Notional Amount or Outstanding Reference Amount, as the case may be (in the case of Certificates) as of the Merger Redemption Date and (B) the Reference Entity Nominal Amounts (in the case of Notes) or Reference Entity Notional Amounts or Reference Entity Reference Amounts, as the case may be (in the case of Certificates) for each Reference Entity with respect to which an Event Determination Date has occurred and the relevant Settlement Price is not determined as of the Merger Event Redemption Date, subject (if the Securities are Final Redemption Capital Protected Securities only) to a minimum amount equal to the Minimum Redemption Amount;
 - (ii) where the Securities are Zero Recovery Principal Amount Reduction Securities, the Outstanding Nominal Amount (in the case of Notes) or Outstanding Notional Amount or Outstanding Reference Amount, as the case may be (in the case of Certificates) as of the Merger Event Redemption Date; and
 - (iii) where the Securities are Fixed Recovery Securities, the sum of (A) the Outstanding Nominal Amount (in the case of Notes) or Outstanding Notional Amount or Outstanding Reference Amount, as the case may be (in the case of Certificates) as of the Merger Event Redemption Date and (B) the Reference Entity Nominal Amounts (in the case of Notes) or Reference Entity Notional Amounts or Reference Entity Reference Amounts, as the case may be (in the case of Certificates)

for each Reference Entity with respect to which an Event Determination Date has occurred and the relevant Partial Redemption Date has not occurred as of the Merger Event Redemption Date multiplied by the Settlement Price, subject (if the Securities are Final Redemption Capital Protected Securities only) to a minimum amount equal to the Minimum Redemption Amount.

Where Securities are redeemed early following a Merger Event, the Merger Event Redemption Amount payable pursuant to the above may be less than the amount Securityholders would have received if the Securities had redeemed at their scheduled final redemption.

1.1.8 *Risks related to Callable Securities*

If the Securities are Callable Securities, the Issuer has an early redemption option and therefore has the right, on giving not less than a specified period of notice to Securityholders in accordance with Product Condition 10, to redeem all outstanding Securities at a Redemption Amount equal to (i) the product of any Applicable Call Percentage specified and the Nominal Amount (in respect of Notes) or Notional Amount or Reference Amount, as the case may be (in respect of Certificates) or (ii) if no Applicable Call Percentage is specified, the Nominal Amount or Notional Amount or Reference Amount (as applicable), together in each case with any Coupon Amount accrued as provided in the Product Conditions or, if the Securities are both Basket Securities and Callable Securities, to redeem all outstanding Securities at a Redemption Amount determined in accordance with Product Condition 5.9.2, together with any Coupon Amount accrued as provided in the Product Conditions. The early redemption of the Securities in such circumstances may result in the Securityholders receiving less than their expected return if the Securities had been redeemed as their scheduled redemption.

1.1.9 *Risks related to the 2014 ISDA Credit Derivatives Definitions*

This Securities Note contains Product Conditions for credit linked securities, some of which are based on the 2014 ISDA Credit Derivatives Definitions (the "**2014 ISDA Definitions**"). While there are similarities between the Product Conditions and the terms used in the 2014 ISDA Definitions, as applicable, there are a number of differences (including, without limitation, the operation of the credit protection period and, if auction settlement applies, the auction(s) which may be applicable on an M(M)R Restructuring Credit Event). In particular, the Issuer has determined that certain provisions of the 2014 ISDA Definitions, which are intended for use by market participants in "over the counter" transactions, require amendment when incorporated in the terms of an offering of securities such as the Securities. Therefore, a prospective investor should understand that the complete Conditions of the Securities are as set out in this Securities Note and the applicable Issue Terms and that the 2014 ISDA Definitions are not incorporated by reference herein. Consequently, investing in Securities is not necessarily equivalent to being a party to a credit default swap that incorporates the 2014 ISDA Definitions.

While ISDA has published and, where applicable, supplemented the 2014 ISDA Definitions in order to facilitate transactions and promote uniformity in the credit derivatives market, the credit derivatives market has evolved over time and is expected to continue to change. Consequently, the 2014 ISDA Definitions and the terms applied to credit derivatives, including Securities are subject to further evolution. Past events have shown that the view of market participants may differ as to how the 2014 ISDA Definitions operate or should operate. As a result of the continued evolution of the market, the Securities may not conform to future market standards. Such a result may have a negative impact on the Securities. Furthermore, changes to the terms applicable to credit derivatives generally may be less favourable to the Issuer or the Securityholders.

1.1.10 *Securityholders will have no role in the composition of the Credit Derivatives Determinations Committees*

Separate criteria apply with respect to the selection of dealer and non-dealer institutions to serve on the Credit Derivatives Determinations Committees and the Securityholders will have no role in establishing such criteria. In addition, the composition of the Credit Derivatives Determinations Committees will change from time to time in accordance with the rules which govern the DC Rules, as the term of a member institution may expire or a member institution may be required to be replaced. The Securityholders will have no control over the process for selecting institutions to participate on the Credit Derivatives Determinations Committees and, to the extent provided for in the Securities, will be subject to the determinations made by such selected institutions in accordance with the DC Rules.

1.1.11 *Securityholders are responsible for obtaining information relating to deliberations of the Credit Derivatives Determinations Committees*

Notices of questions referred to the Credit Derivatives Determinations Committees, meetings convened to deliberate such questions, lists of voting members attending meetings and the results of binding votes of the Credit Derivatives Determinations Committees will be published on the website of the Credit Derivatives Determinations Committees (www.cdsdeterminationscommittees.org) (or any successor website thereto) and neither the Issuer, the Calculation Agent nor any of their respective affiliates shall be obliged to inform the Securityholders of such information (other than as expressly provided in the terms of the Securities). Failure by the Securityholders to be aware of information relating to determinations of a Credit Derivatives Determinations Committee will have no effect under the Securities and Securityholders are solely responsible for obtaining any such information.

1.1.12 *Securityholders (in their capacity as holders of the Securities) will not be able to refer questions to the Credit Derivatives Determinations Committees*

The Securityholders, in their capacity as holders of the Securities, will not have the ability to refer questions to a Credit Derivatives Determinations Committee since the Securities are not a credit default swap transaction and the Securities do not incorporate and are not deemed to have incorporated, the 2014 ISDA Definitions. As a result, Securityholders will be dependent on other market participants to refer specific questions to the Credit Derivatives Determinations Committees that may be relevant to the Securityholders. The Calculation Agent has no duty to the Securityholders to refer specific questions to the Credit Derivatives Determinations Committees.

1.1.13 *Additional risks related to a Restructuring Credit Event*

If a Restructuring Credit Event occurs, the relevant Credit Derivatives Determinations Committee may determine that multiple ISDA Auctions should be held for Deliverable Obligations (as to which see Commonly Asked Question 21.9 (*How is the Redemption Amount or Partial Redemption Amount calculated?*) below) of the relevant Reference Entity with varying times remaining to maturity which will apply to certain credit derivatives transactions depending on their scheduled termination dates and whether they are triggered by the credit protection buyer thereunder ("**Buyer Credit Derivatives Transactions**") or the credit protection seller thereunder ("**Seller Credit Derivatives Transactions**"). Depending on the time remaining to maturity of appropriate Deliverable Obligations of the Reference Entity, the applicable ISDA Auction for Buyer Credit Derivatives Transactions may be for Deliverable Obligations of the Reference Entity with maturity dates falling earlier or later than the scheduled termination dates of those credit derivatives transactions.

If a Restructuring Credit Event is determined for the purposes of the Securities and the relevant ISDA Auction(s) are announced and held by the cut-off dates provided in the Product Conditions, the Settlement Price will be the Auction Final Price determined in respect of the ISDA Auction (the "**Matching ISDA Auction**") for Buyer Credit Derivatives Transactions with a range of scheduled termination dates within which the Credit Period End Date falls. If no such ISDA Auction is held, the Settlement Price will be the Auction Final Price determined in respect of the ISDA Auction for Buyer Credit Derivatives Transactions with a range of scheduled termination dates falling next earliest to the Credit Period End Date. If no such ISDA Auction is held, the Settlement Price will be the Auction Final Price determined in respect of the ISDA Auction for Seller Credit Derivatives Transactions. For the avoidance of doubt, the Settlement Price will only be calculated using this Auction Final Price if no other ISDA Auction is held.

If the applicable ISDA Auction is for Buyer Credit Derivatives Transactions with scheduled termination dates falling after those that would be covered by the Matching ISDA Auction or for Seller Credit Derivatives Transactions, the Auction Final Price for such ISDA Auction will be determined on the basis of obligations of the Reference Entity of (potentially considerably) longer tenor than those that would have fallen within any Matching ISDA Auction and then the Reference Obligation(s), and as a result it is very likely that the value determined pursuant to such ISDA Auction will be lower than the value that would have been determined for any Matching ISDA Auction or the market value that would have been determined in respect of the Reference Obligation(s).

1.1.14 *Risks related to the ability of the Calculation Agent or its Affiliates to influence the outcome of an Auction*

As of the date of this Securities Note, the Calculation Agent (or one of its Affiliates) is a leading dealer in the credit derivatives market. There is a high probability that the Calculation Agent (or one of its Affiliates)

would act as a participating bidder in any Auction held with respect to the relevant Reference Entity. In such capacity, it may take certain actions which may influence the Auction Final Price. In deciding whether to take any such action (or whether to act as a participating bidder in any Auction), the Calculation Agent (or its Affiliate) shall be under no obligation to consider the interests of any Securityholders and may take such action that has the effect of reducing a Securityholders return on the Securities.

1.2 **Risks related to Reference Entities**

1.2.1 *Exposure to Reference Entity(ies) and effects on performance*

A Security does not represent a claim against a Reference Entity or in respect of any obligation of a Reference Entity and, as mentioned above, a holder of the Securities will not have recourse under a Security to a Reference Entity.

An investment in the Securities may differ significantly from a direct investment in debt securities issued by the Reference Entity(ies).

However, investors in the Securities will be exposed to the credit risk of each Reference Entity. If the creditworthiness of a Reference Entity deteriorates, this could trigger a Credit Event which in turn may result in Securityholders suffering a loss of some, and potentially all, of their initial investment in the Securities.

Neither the Issuer, the Fiscal Agent, the Calculation Agent nor any other person on their behalf or any of their respective affiliates makes any representation or warranty, express or implied, as to the credit quality of the Reference Entity(ies) or any obligations of the Reference Entity(ies) (including any Reference Obligation). Each of such persons may have acquired, or during the term of the Securities may acquire, confidential information with respect to the Reference Entity(ies) or any of its/their respective obligations. None of such persons is under any obligation to make such information available to Securityholders.

If the Securities are FTD Securities, the nature of the Securities is "first to default" which means that if there is a Credit Event in relation to any one of a number of Reference Entities, the Redemption Amount (if any) payable in respect of the Securities will be reduced, regardless of how the other Reference Entities perform.

If the Securities are linked to a basket of Reference Entities which are not weighted equally and are not FTD Securities, although in the case of a direct investment in debt securities issued by the Reference Entities investors would also bear the risk of a payment default, losses suffered by Securityholders following a Credit Event will not be evenly-distributed and if a Credit Event occurs in relation to a higher-weighted Reference Entity, Securityholders will suffer a greater loss.

None of the Issuer, the Fiscal Agent, the Calculation Agent or any of their respective affiliates has undertaken any investigation of the Reference Entity(ies), as the case may be, for or on behalf of any investor in the Securities.

1.2.2 *Risks related to accumulation of credit risks with multiple Reference Entity(ies) - Securities that are Basket Securities*

If a Credit Event occurs in respect of multiple Reference Entity(ies) this may make it more likely that a Credit Event will occur in respect of other Reference Entity(ies). This risk will be particularly prevalent where the occurrence of a Credit Event in respect of one Reference Entity is likely to negatively affect the creditworthiness or the financial position of one or more other Reference Entity(ies), which in turn may negatively affect the market value of the Securities.

1.2.3 *Risks related to the replacement of one or more of the Reference Entities or one or more Reference Obligations*

If the Securities are linked to one or more corporate Reference Entities, a corporate Reference Entity may be replaced by a Successor following a merger, amalgamation, consolidation, transfer of assets or liabilities, demerger or similar restructuring event. Such replacement Reference Entity may have a greater credit risk than the replaced Reference Entity.

If the Securities are linked to one or more sovereign Reference Entities, a sovereign Reference Entity may be replaced by a Successor following an annexation, unification or partition or similar event. Such replacement Reference Entity may have a greater credit risk than the replaced Reference Entity.

A Successor will be determined if a Credit Derivatives Determinations Committee has resolved a Successor to a Reference Entity or, if the Calculation Agent determines that there is a Successor to a Reference Entity, all as further provided in the Product Conditions. In addition, if the Securities are Index Basket Securities, a Successor may also be identified by the Index Sponsor of the relevant credit index, as further provided in the Product Conditions.

If the Securities are FTD Securities and an existing Reference Entity of the Reference Entities stated or the Issuer would otherwise be a Successor, such entity shall not be a Successor and (if no other Successor has been identified) the Calculation Agent will attempt to identify an alternative entity as a Successor and, if that is not possible, will determine a corresponding reduction to the Coupon Amount payable in respect of the Securities.

Where more than one Successor is determined pursuant to the Product Conditions, the Calculation Agent shall adjust such of the conditions as it determines to be appropriate to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment.

In addition, where one or more existing Reference Entities are determined as Successor(s) in accordance with the Product Conditions, the Calculation Agent shall adjust such of the conditions as it determines appropriate, including without limitation, the relevant Reference Entity Nominal Amount(s) (in the case of Notes) or Reference Entity Notional Amount or Reference Entity Reference Amount, as the case may be (in the case of Certificates) and Reference Obligation(s) to reflect that the original Reference Entity has been replaced by an existing Reference Entity.

Furthermore in certain circumstances (for example if a Reference Entity is replaced by a Successor or a Reference Obligation is redeemed early) a Reference Obligation may be replaced with a Substitute Reference Obligation. Such replacement may have an adverse effect on the Redemption Amount.

If the Securities are Fixed Recovery Securities or Final Redemption Capital Protected Securities for which the Capital Protection Percentage is less than 100%, such replacement may have an adverse effect on the Redemption Amount as the amount payable on the redemption of the Securities is dependent, amongst other things, on whether a Credit Event occurs and an Event Determination Date has occurred with respect to a Reference Entity.

If the Securities are not Final Redemption Capital Protected Securities or Fixed Recovery Securities, such replacement may have an adverse effect on the Redemption Amount payable to investors should a Credit Event occur if the Settlement Price in respect of the replacement Reference Obligation is lower than would have been the case in respect of the replaced Reference Obligation.

1.2.4 *Reference Entity will not be replaced to avoid Credit Events or successions*

Following the Trade Date, the Issuer will not be able to replace any Reference Entity to avoid Credit Events or successions. Consequently, the occurrence of Credit Events may lead to an Event Determination Date which in turn may result in a reduction in the value of the Securities, a reduction, potentially to zero, in the outstanding nominal, notional or reference amount, as applicable, of the Securities held and an early redemption of the Securities.

1.2.5 *Risks related to credit risk of a corporate Reference Entity - Securities that are linked to one or more corporate Reference Entity(ies)*

The credit risk of a corporate Reference Entity will be heavily influenced by company-specific and economic and legal conditions, for example by national and international economic development or the industry sector in which the Reference Entity operates and its development. Such conditions could lead the deterioration of the creditworthiness of a Reference Entity which, in turn, could negatively affect the value of the Securities.

1.2.6 *Risks related to credit risk of a Sovereign Reference Entity - Securities that are linked to one or more Sovereign Reference Entities*

Securities may be linked to the credit of one or more sovereign or governmental entity or quasi-governmental entity, and therefore payment of amounts due pursuant to the Conditions of the Securities, including any applicable Coupon Amount payments, may be subject to sovereign risks. These include the potential default by such sovereign, government/quasi government issuer or the occurrence of political or economic events resulting in or from governmental action such as the declaration of a moratorium on debt repayment or negating repayment obligations of the sovereign issuer. If any such event were to occur, holders of such Securities may lose up to all of their initial investment in such Securities. The credit risk of a sovereign Reference Entity will be particularly influenced by the stability or instability of the relevant country's political and economic systems.

Emerging market countries may be subject to greater political and economic changes than developed nations. Furthermore, some of emerging market countries may have less predictable and stable, or developing, economic and legal systems. Investors should be aware that all changes (whether current or future) in the governmental politics and the economic and monetary policy of such a Reference Entity could have a significant negative affect on the market value of the Securities.

1.2.7 *No Claim against any Reference Entity*

A Security will not represent a claim against any Reference Entity or any Credit Reference Item (as defined below) in respect of which any amount of principal and/or Coupon Amount payable is dependent and, in the event that the amount paid by the Issuer is less than the principal amount of the Securities, a Securityholder will not have recourse under a Security to the Issuer or any Reference Entity or any Credit Reference Item.

An investment in Securities linked to one or more Reference Entities may entail significant risks which are not associated with investments associated with conventional debt securities, including but not limited to the risks set out in this section. The amount paid or value of the specified assets delivered by the Issuer on redemption or settlement of such Securities may be less than the principal amount of the Securities, together with any accrued interest, and may in certain circumstances be zero.

1.2.8 *No Investigation or Due Diligence of Reference Entities*

No investigation, due diligence or other enquiries have been made by the Issuer, the Fiscal Agent or any other related person in respect of any Reference Entity (including its existing or future creditworthiness) or any Reference Obligation, Obligation, Valuation Obligation or other obligations of the Reference Entity (as applicable) (each, a "**Credit Reference Item**"). No representations, warranties or undertakings whatsoever have been or will be made by the Issuer, any Distributor or any other related person in respect of the Reference Entity (including its existing or future creditworthiness) or any Reference Obligation, Obligation, Valuation Obligation or other obligations of the Reference Entity (as applicable). Prospective investors in Securities should make their own evaluation as to the creditworthiness of each Reference Entity and the likelihood of the occurrence of a Credit Event.

1.2.9 *Risks related to an Early Redemption on Redemption in whole of Reference Obligation for Reference Obligation Only Securities Relating to a Single Reference Entity*

If the Securities are Reference Obligation Only Securities relating to a single Reference Entity and the Reference Obligation is redeemed in whole, the Issuer will redeem the Credit Linked Notes early at the Early Redemption Amount and such amount may be less than the amount Securityholders would have received if the Securities had redeemed at their scheduled final redemption.

1.2.10 *No Exposure to Reference Entities*

The Issuer's obligations in respect of Securities are irrespective of the existence or amount of the Issuer's and/or any affiliates' credit exposure to a Reference Entity and the Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

1.2.11 *Nature of synthetic credit exposure*

The Securities do not create any legal relationship between Securityholders and the Reference Entity(ies). Investment in the Securities does not constitute a purchase or other acquisition or assignment of any interest in any obligation of a Reference Entity. Neither the Issuer nor the Securityholders will have recourse against the Reference Entity(ies) with respect to the Securities including in the event of any loss. None of the holders of the Securities or any other entity will have any rights to acquire from the Issuer any interest in any obligation of a Reference Entity.

Holders of Securities will not have rights equivalent to those of a holder of the obligations of a Reference Entity. For example, if a Restructuring Credit Event occurs in respect of a Reference Entity, a Securityholder, unlike a direct holder of the Reference Entity's obligations, will have no right to challenge or participate in any element of the restructuring. In addition, unlike a direct investment, holders of the Securities will have no claim for payment against any relevant Reference Entity. In relation to Securities that are not 100% Final Redemption Capital Protected Securities, the Settlement Price for the relevant Reference Entity which is applied in the calculation of the Redemption Amount may be considerably lower than the equivalent insolvency dividend payable in the case of a direct investment in the relevant Reference Entity.

1.2.12 *Risks related to Reference Obligation(s) which are "Subordinated Level" - Securities which are not Final Redemption Capital Protected Securities, Zero Recovery Principal Amount Reduction Securities or Fixed Recovery Securities.*

Investors in the Securities should be aware that if the Securities are linked to a Reference Obligation of a Reference Entity that is a "Subordinated Level" debt obligation of the Reference Entity (and/or) if there is only a subordinated Reference Obligation of the Reference Entity, on the occurrence of a Credit Event and the occurrence of an Event Determination Date with respect to any such Reference Entity, the value of the relevant Reference Obligation or the value determined pursuant to an ISDA Auction, as applicable, will be less than that of senior unsecured obligations of the relevant Reference Entity and therefore the amount payable to investors in the Securities on redemption (or, if the Securities are Basket Securities, partial redemption) of the Securities following the occurrence of an Event Determination Date will be lower (and is more likely to be zero) than if the relevant Reference Obligation were a senior unsecured obligation.

1.2.13 *Risks related to Senior Transactions & Subordinated Transactions*

For a Reference Entity, a Government Intervention or Restructuring Credit Event solely affecting subordinated debt will not trigger an Event Determination Date where the Seniority Level is "Senior Level" and will only trigger an Event Determination Date where the Seniority Level is "Subordinated Level" and, therefore, investors in Securities where the Seniority Level is "Subordinated Level" are more likely to suffer a loss in such circumstances than investors in Securities where the Seniority Level is "Senior Level".

1.3 **Risks of a loss of investment and or Coupon Amounts and/or postponement**

1.3.1 *Investors risk losing all of their investment in the Securities*

If the Securities are not 100% Final Redemption Capital Protected Securities, the Redemption Amounts payable in respect of the Securities are credit-linked to the Reference Entity(ies) and accordingly are dependent on, amongst other things, the creditworthiness of the Reference Entity(ies). Any potential investor in the Securities should therefore form its own independent opinion of the financial, legal and other circumstances of the Reference Entity(ies).

Potential investors should be aware that depending on the terms of the relevant Securities (i) they may receive no or a limited amount of interest, (ii) payments may occur at a different time than expected and (iii) except in the case of 100% Final Redemption Capital Protected Securities, they may lose all or a substantial portion of their investment.

An investor may also lose some or all of its investment if it seeks to sell the relevant Securities prior to their scheduled final redemption, and the sale price of the Securities in the secondary market is less than the initial investment or the relevant Securities are subject to certain adjustments in accordance with the Conditions of such Securities that may result in the scheduled amount to be paid upon redemption being reduced to or being valued at an amount less than an investor's initial investment.

1.3.2 *Risks related to a Postponed Maturity/Redemption Date*

Where an Event Determination Date has not occurred but (a) on or prior to the Credit Period End Date, the Repudiation/Moratorium Extension Condition has been satisfied, (b) on or prior to the Credit Period End Date a Potential Failure to Pay has occurred or (c) if on the Scheduled Maturity Date, the Repudiation/Moratorium Evaluation Date or the Grace Period Extension Date (as applicable) the Calculation Agent determines that a Credit Event may have occurred or a Potential Repudiation/Moratorium may have occurred, the relevant Maturity Date (in respect of Notes) or Redemption Date (in respect of Certificates) and/or the redemption of the Securities may be extended pursuant to the Conditions of the Securities such that investors may experience delays in receipt of payments that would otherwise have occurred in accordance with the terms of the Securities.

The period of such deferral may be substantial and no interest will accrue in respect of any such deferral if an Event Determination Date occurs.

1.3.3 *Redemption of the Securities may be deferred even where no Event Determination Date occurs*

In certain circumstances (as more fully described in Product Conditions), the redemption of the Securities may be postponed beyond the Scheduled Maturity Date (in respect of Notes) or Scheduled Redemption Date (in respect of Certificates) even if no Event Determination Date actually occurs.

If the redemption of the Securities is postponed as described above, even if an Event Determination Date has not occurred with respect to the relevant Reference Entity, during such postponement period, any Coupon Amount will only accrue during such postponement period on the Securities (if the Securities are linked to a single Reference Entity or are FTD Securities) or the Reference Entity Nominal Amount (in respect of Notes) or Reference Entity Notional Amount or Reference Entity Reference Amount, as the case may be (in respect of Certificates) for such Reference Entity (if the Securities are Basket Securities) if "Extension Period Interest" is specified as applicable in the relevant Issue Terms in which case interest shall accrue at an overnight deposit rate determined by the Calculation Agent in good faith and a commercially reasonable manner. If "Extension Period Interest" is not specified as applicable in the relevant Issue Terms, no interest will accrue in respect of any such deferral.

Investors should note that where the redemption of the Securities is postponed in accordance with the above, payment of the final redemption amount and any applicable coupon shall be delayed (and such delay may be substantial).

1.3.4 *Risks related to the Settlement Price*

In respect of Securities that are not Fixed Recovery Securities, Redemption Capital Protected Securities or Zero Recovery Principal Amount Reduction Securities, following an Event Determination Date in respect of a Reference Entity, depending on the terms of the Securities, the Redemption Amount may be determined by reference to the Settlement Price in respect of such Reference Entity. The Settlement Price will be determined based upon the applicable Settlement Method which will be Auction Settlement (pursuant to which the "**Auction Final Price**" will be determined pursuant to an ISDA Auction) or Cash Settlement (pursuant to which the "**Final Price**" will be determined).

The Auction Final Price will be determined pursuant to an ISDA Auction for obligations of appropriate seniority of the Reference Entity (with, where more than one such ISDA Auction is held, the applicable ISDA Auction being as determined pursuant to the Product Conditions). The Credit Derivatives Determinations Committee will determine whether an ISDA Auction will be held for a Reference Entity following an Event Determination Date and the members of which may participate in that ISDA Auction.

However, if an ISDA Auction is not announced or the relevant Auction Final Price determined by certain cut-off dates as provided in the Product Conditions, or Cash Settlement is the applicable Settlement Method specified in the relevant Issue Terms or is applicable as the Fallback Settlement Method, the Settlement Price and therefore the Redemption Amount payable in respect of the Securities, will be determined pursuant to the Cash Settlement provisions and, for the purposes of determining the Final Price, the market value of the Reference Obligation(s) for the relevant Reference Entity, will be determined by the Calculation Agent by reference to a Valuation Obligation of the Reference Entity selected by the Calculation Agent and, in such circumstances, the amount received by investors may be less than if the Redemption Amount had been determined by reference to an Auction Final Price. It is likely that the Valuation Obligation selected by the Calculation Agent is an obligation of the Reference Entity with the

lowest market value that are permitted to be valued in accordance with the terms of the Securities. This could result in a lower recovery value and hence greater losses for Securityholders. In addition, the Valuation Obligation may be illiquid and such illiquidity may be more pronounced following the occurrence of a Credit Event, thereby adversely affecting the value of the relevant Valuation Obligation which in turn would result in a lower recovery value for holders of Securities.

1.3.5 *Risks related to other types of Securities*

FTD Securities

The Issuer may issue FTD Securities which provides exposure to the credit risk of more than one Reference Entity. If the Securities are FTD Securities, the nature of the Securities is "first to default" which means that if there is a Credit Event and a related Event Determination Date is determined to have occurred in relation to any one of the Reference Entities, the amounts (if any) payable in respect of the Securities will be reduced, regardless of how the other Reference Entities perform. As FTD Securities are linked to the performance of more than one Reference Entity, this increases the likelihood that a Credit Event may occur prior to the maturity of the Securities.

The risk to an investor is therefore not diversified among all of the Reference Entities; rather, on the occurrence of the first Credit Event and related Event Determination Date in respect of any one of the Reference Entities in the basket, if the Securities are not 100% Final Redemption Capital Protected Securities, the entire principal amount of the Securities (if the Securities are Final Redemption Capital Protected Securities, by the Capital Protection Percentage being applied thereto and if the Securities are Fixed Recovery Securities by the Settlement Price being applied thereto) become exposed to that one Reference Entity and, if the Securities are not Non Credit Linked Coupon Securities, the Coupon Amount otherwise payable under the Securities become exposed to that one Reference Entity. The remaining Reference Entities to which the Securities are linked then become irrelevant for the purposes of the Securities.

FTD Securities are therefore potentially riskier than Securities that are simply linked to a basket of Reference Entities with risk diversified equally among each Reference Entity. They are also riskier than Securities that are exposed to the credit risk of just one Reference Entity.

Being FTD Securities, an investment in the Securities can become more or less risky, throughout their life, depending on how likely it is that the Reference Entities to which the Securities are linked will experience a Credit Event at the same time. This is a concept known as default correlation. For example, if all of the Reference Entities had similar capital structures and were in a similar industry or geographical location, they might be expected to all experience financial difficulties and ultimately a Credit Event at the same time on the occurrence or non-occurrence of a small number of events (for example, an industry downturn). As the linkage, or correlation, between the default risk of the Reference Entities decreases (for example, if the Reference Entities are each in different industries) it becomes less likely that all of the Reference Entities will experience a Credit Event simultaneously, but more likely that one of the Reference Entities will experience a Credit Event at any given time. Since investors suffer their maximum loss on the first Credit Event occurring, a lower correlation or linkage between the chance of default of the entities exposes investors to greater risks of a first default occurring, which in turn increases the chance of loss on the Securities. In practice, the default correlation risk between a basket of Reference Entities will never be 100 per cent. and FTD Securities will therefore always be riskier than Securities referencing the credit risk of a single Reference Entity.

Basket Securities

The Issuer may issue Basket Securities which are Securities linked to the performance of a portfolio of Reference Entities. Under Basket Securities the amount of principal and interest (if any) payable by the Issuer is dependent on whether a Credit Event and related Event Determination Date in respect of one or more of Reference Entities has occurred and, if applicable to the relevant Securities, the related Settlement Price. Where such Securities are Zero Recovery Principal Amount Reduction Securities, the loss suffered by investors on a Credit Event occurring in respect of a Reference Entity will be equal to the entire weighting of that Reference Entity in the portfolio.

Fixed Recovery Securities

The Issuer may issue Fixed Recovery Securities which are Securities where the amount payable on redemption of the Securities following the occurrence of a Credit Event is fixed. Where the Securities are Fixed Recovery Securities, the Settlement Price may be lower than the price which would have been determined by reference to a credit derivatives auction sponsored by ISDA or by reference to a market value based determination. Accordingly, an investor in such Securities may suffer an increased loss in such circumstance.

Zero Recovery Principal Amount Reduction Securities

The Issuer may issue Securities which are Zero Recovery Principal Amount Reduction Securities under which, if an Event Determination Date occurs in respect of the Reference Entity, the Settlement Price will be zero, and investors in such Securities will not benefit from any recovery which might otherwise have been determined in respect of the relevant Reference Entity. In respect of Single Reference Entity Securities which are Zero Recovery Principal Amount Reduction Securities, following an Event Determination Date, the Securities will cease to pay interest and will be cancelled at zero and investors will lose their entire investment.

Zero Coupon Securities

The Issuer may issue Securities which are Zero Coupon Securities which are Securities that do not pay a coupon but instead will pay at redemption, in the absence of a Credit Event in respect of the Reference Entity, an amount reflecting the Nominal Amount (in the case of Notes) or Notional Amount or Reference Amount, as the case may be (in the case of Certificates), as may be adjusted by a specified Additional Rate. The difference between the redemption amount and the issue price of such Securities constitutes the return on the Securities. However, as, if an Event Determination Date occurs in respect of the Reference Entity, no such Additional Rate will be applied and the amount payable at redemption will be determined by reference to the Settlement Price, in the event of any Event Determination Date investors will receive no coupon amounts and will not benefit from the application of any Additional Rate, regardless of when such Event Determination Date occurs.

100% Final Redemption Capital Protected Securities

The Issuer may issue Securities which are Final Redemption Capital Protected Securities in which case, if an Event Determination Date has occurred with respect to a Reference Entity, the Redemption Amount, shall be determined taking into account the Capital Protection Percentage. If the Securities are 100% Final Redemption Capital Protected Securities, the Securities will be redeemed on the Maturity Date (in the case of Notes) or Redemption Amount (in the case of Certificates) at a Redemption Amount equal to the Nominal Amount (in respect of Notes) or Notional Amount or Reference Amount, as the case may be (in respect of Certificates). However, investors may still be subject to loss of some or all of their investment if the relevant Issuer is subject to bankruptcy or insolvency proceedings or some other event occurs which impairs its ability to meet its obligations under the Securities.

Credit linked Coupon Amount

If the Securities are not Non Credit Linked Coupon Securities, any Coupon Amount payable in respect of the Securities throughout their life is credit-linked to the Reference Entity(ies) and accordingly is dependent on, amongst other things, the creditworthiness of the Reference Entity(ies). Any potential investor in the Securities should therefore form its own independent opinion of the financial, legal and other circumstances of each relevant Reference Entity. The payment of any Coupon Amount for Non Credit Linked Coupon Securities is not credit linked.

If Securities are not Non Credit Linked Coupon Securities, depending on the terms of the Securities, if an Event Determination Date occurs in respect of a Reference Entity, Coupon Amounts may cease to accrue, either in whole or in part from the start of the Coupon Period in which the Event Determination Date occurs or the Event Determination Date, and investors will receive no or a reduced return on their investment for the remainder of the life of the Securities, notwithstanding that the Securities may remain outstanding until the Maturity Date (in respect of Notes) or Redemption Date (in respect of Certificates).

In a worst case scenario, in respect of Single Reference Entity Securities or FTD Securities, provided that the Securities are not Credit Event Accrued Coupon Securities, if an Event Determination Date has occurred

prior to the first Coupon Payment Date, no Coupon Amount will be payable in respect of the Securities and investors will receive no return on their investment.

Suspension or postponement of payment of Coupon Amount

If, in the determination of the Calculation Agent, on the last day of a Coupon Period (other than the Final Coupon Period) a Potential Credit Event has occurred but an Event Determination Date has not occurred with respect to the Reference Entity, the payment of any Coupon Amount in respect of such Coupon Period may be suspended, notwithstanding that an Event Determination Date has not occurred. In such circumstances, if an Event Determination Date has not occurred on or prior to the Coupon Payment Date for the following Coupon Period, the Coupon Amount that would otherwise have been payable in respect of the earlier Coupon Period may be payable on that next Coupon Payment Date or, if later and applicable, the next succeeding Coupon Payment Date in respect of which, two days before such Coupon Payment Date, the relevant DC Resolution is no longer pending. No further or other amount in respect of Coupon Amount shall be payable and no additional amount shall be payable in respect of such delay.

In respect of Basket Securities, if, in the determination of the Calculation Agent, on the last day of a Coupon Period (other than the Final Coupon Period) a Potential Credit Event has occurred in respect of a Reference Entity but an Event Determination Date has not occurred with respect to such Reference Entity (or, if there is more than one such Reference Entity, each such Reference Entity), the Coupon Calculation Amount on which the Coupon Amount in respect of such Coupon Period is calculated shall be reduced by the Reference Entity Nominal Amount (in respect of Notes) or the Reference Entity Notional Amount or Reference Entity Reference Amount, as the case may be (in respect of Certificates), notwithstanding that an Event Determination Date has not occurred with respect thereto. In such circumstances, if an Event Determination Date has not occurred on or prior to the Coupon Payment Date for the next Coupon Period, the Coupon Amount that would otherwise have been payable in respect of the earlier Coupon Period may be payable on that next Coupon Payment Date or, if later and applicable, the next succeeding Coupon Payment Date in respect of which, two days before such Coupon Payment Date, the relevant DC Resolution is no longer pending. No further or other amount in respect of Coupon Amount shall be payable and no additional amount shall be payable in respect of such delay.

2. RISKS RELATED TO THE SECURITIES

2.1 Investors in the Securities are subject to the Issuer's credit risk

An investment in the Securities bears the risk that the Issuer is not able to fulfil its obligations created by the Securities on the relevant due date. If this happens investors may lose some or all of their investment in the Securities. If a bankruptcy proceeding is commenced with respect to the Issuer, the return to an investor in the Securities may be limited and any recovery will likely be substantially delayed. Thus investors may lose all or part of their investment.

Investors are dependent on the Issuer's ability to pay all amounts due on the Securities, and therefore investors are subject to the Issuer's credit risk. Changes in the Issuer's credit ratings and credit spreads may adversely affect the market value of the Securities even if there was no default on the Issuer's obligations under the Securities. The value of the Securities is expected to be affected, in part, by investors' general appraisal of the Issuer's credit worthiness. Any deterioration of the creditworthiness of the Issuer during the term of the Securities may result in increasing refinancing costs for the Issuer and thus adversely affect the value of the Securities. However, any improvement of the creditworthiness of the Issuer during the term of the Securities may not increase the value of the Securities. If the Issuer was to default on its payment or other obligations, an investor may not receive any amounts owed to it under the Securities and could lose up to its entire investment amount.

2.2 Value of Securities

If the Securities are not 100% Final Redemption Capital Protected Securities, the Securities may decline in value and investors should note that they may not receive any Coupon Amount and that the amount/aggregate amount(s) payable on redemption of the Securities may be less than a Securityholders initial investment.

If the Securities are not Final Redemption Capital Protected Securities, in certain circumstances the amount(s) payable on redemption of the Securities may be zero and as a result investors should be prepared to sustain a total loss of their investment.

2.3 **No payments until settlement**

Prospective investors should note that a realisation in the secondary market of the Securities may be the only return potentially available to the investor prior to settlement of the Securities. Unless otherwise specified in the relevant Issue Terms, there may be no periodic Coupon Amount or other distributions made during the term of the Securities.

Investors should also note the risk factors described under the headings "*Market value*" and "*Potential illiquidity of the Securities*" below in this regard.

2.4 **Early termination of the Securities**

Securities which include a redemption option by the Issuer are likely to have a lower market value than similar securities which do not contain an Issuer redemption option. An optional redemption feature is likely to limit the market value of Securities. During any period when the Issuer may elect to redeem the Securities, the market value of those Securities generally will not rise substantially above the price at which they may be redeemed. This may also be the case prior to any redemption period.

The Issuer may be expected to redeem Securities when its cost of borrowing is lower than the interest rate on the Securities. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Securities being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

The applicable Issue Terms will indicate whether the Issuer has the right to redeem the Securities prior to final redemption. The Issuer may exercise its right to redeem the Securities if the yield on comparable Securities in the market falls which may result in the investor only being able to invest the redemption proceeds in Securities with a lower yield.

If the Issuer redeems the Securities prior to final redemption, a holder of such Securities is exposed to the risk that as a result of such early redemption its investment will have a lower than expected yield.

2.5 **Acceleration of Securities**

A Security may be accelerated by the holder thereof in certain circumstances described in the "Events of Default" set out in Product Condition 19. In such circumstances, the amount payable to Securityholders will be an amount (which may never be less than zero) calculated by the Calculation Agent equal to the fair market value of the Securities held by the relevant Securityholder, together with coupon amount accrued to (but excluding) the day the relevant Event of Default occurred. For such purposes, the fair market value shall be determined by the Calculation Agent in good faith and a commercially reasonable manner. For the purposes of determining the fair market value, no account shall be taken of the financial condition of the Issuer, which shall be presumed to be able to perform fully its obligations in respect of the Securities. All of the above may result in the Securityholders receiving less upon such early redemption than they would have expected to have received if the Securities had redeemed at their scheduled redemption.

2.6 **Termination for extraordinary reasons, illegality and force majeure**

If the Issuer determines that, for reasons beyond its control:

- (a) an event or circumstance (other than any action taken by the Issuer) occurs after the Issue Date of the Securities as a result of which it becomes unlawful under any applicable law (including without limitation the laws of any country in which payment, delivery or compliance is required by the Issuer), on any day, or it would be unlawful if the relevant payment, delivery or compliance were required on that day, for the Issuer to (i) make or receive payments (ii) perform any absolute or contingent obligation to make a payment or delivery, (iii) receive a payment or delivery or (iv) comply with any other material provision; or
- (b) a force majeure or act of state occurs after the Issue Date of the Securities, and the Issuer cannot, using all reasonable efforts (which will not require the Issuer to incur a loss, other than immaterial, incidental expenses), overcome such prevention, impossibility or impracticability in respect of the Securities and either (i) the Issuer is prevented from performing any absolute or contingent obligation to make a payment or delivery, from receiving a payment or delivery, or from complying with any other material

provision (or would be so prevented if such payment, delivery or compliance were required on that day) or (ii) it becomes impossible or impracticable for the Issuer to perform any absolute or contingent obligation to make a payment or delivery, to receive a payment or delivery, or to comply with any other material provision,

the Issuer may, at its discretion and without obligation, terminate the Securities early. If the Issuer redeems the Securities early, the Issuer will pay the holder of each such Security an amount determined by the Calculation Agent in good faith and a commercially reasonable manner to be its fair market value notwithstanding the illegality or impracticability, which may be less than the amount that would have been payable if the Securities had redeemed at their scheduled redemption.

2.7 Risks related to Securities where a Coupon Amount is payable

2.7.1 *Risks related to Floating Rate Securities*

The Coupon Amount payable in respect of Floating Rate Securities is calculated by reference to a Reference Rate described in the Product Conditions, which is a variable rate. The Coupon Amount payable in respect of the Securities may therefore be reduced as a result of a fall in the Reference Rate regardless of whether a Credit Event has occurred.

Prospective investors should be aware that they may therefore receive no or a limited return on Floating Rate Securities.

In addition, the Reference Rate used to calculate the Coupon Amount in respect of Floating Rate Securities may be subject to a maximum coupon rate or a minimum coupon rate if specified in the applicable Issue Terms. If a floor or a minimum coupon rate is specified in respect of any Floating Rate Securities, the Reference Rate used to calculate the Coupon Amount in respect of such Floating Rate Securities will be floored at such minimum rate (i.e. regardless of the actual performance of the Reference Rate). However, if a cap or a maximum coupon rate is specified in respect of any Floating Rate Securities, the Reference Rate in respect of such Floating Rate Securities will be limited to such maximum rate, even if the actual market level of such Reference Rate is greater than such maximum rate. In such circumstances, Securityholders would receive a lesser Coupon Amount than if such maximum coupon rate had not been applied to the Floating Rate Securities. Investors should note that this risk may also apply to Fixed/Floating Switch Option Securities and Floating/Fixed Switch Option Securities to which a Floating Rate is used to calculate the Coupon Amount and a maximum coupon rate or a minimum coupon rate if specified in the applicable Issue Terms.

2.7.2 *Risks related to Fixed Rate Securities*

The Coupon Amount payable in respect of Fixed Rate Securities is calculated by reference to a fixed coupon rate. Prospective investors should be aware that the coupon rate will remain fixed and may be less than prevailing interest rates and the prevailing costs of borrowing.

2.7.3 *Risks related to Fixed/Floating Switch Option Securities*

In relation to any Fixed/Floating Switch Option Securities, the Issuer may elect on any Coupon Accrual Date that (or a Fixed/Floating Switch Option Date may automatically occur on a Coupon Accrual Date, so that) with effect from (and including) that Coupon Accrual Date, the rate by reference to which the Coupon Amount payable in respect of the Securities is calculated changes from fixed rate to floating rate.

After such election or automatic switch, the Coupon Rate will be determined by reference to a Reference Rate described in the Product Conditions which is a variable rate. The Coupon Amount payable in respect of the Securities may therefore be reduced as a result of a fall in the Reference Rate regardless of whether a Credit Event has occurred.

The Issuer is likely to exercise this right if it is of the opinion that the relevant fixed rate is likely to be higher than the sum of the prevailing cost of purchasing credit protection in respect of the Reference Entity(ies) and prevailing interest rates and the prevailing cost of borrowing, in each case for a period of time equal to the time to final redemption of the Securities. If the Issuer exercises this right, the return on an investor's investment may be lower than if the Issuer had not exercised such right. This may also affect the market value of the Securities.

Prospective investors should be aware that they may therefore receive no or a limited return on Fixed/Floating Switch Option Securities.

2.7.4 *Risks related to Floating/Fixed Switch Option Securities*

In relation to any Floating/Fixed Switch Option Securities, the Issuer may elect on any Coupon Accrual Date that (or a Floating/Fixed Switch Option Date may automatically occur on a Coupon Accrual Date, so that) with effect from (and including) that Coupon Accrual Date, the rate by reference to which the Coupon Amount payable in respect of the Securities is calculated changes from floating rate to fixed rate.

After such election or automatic switch, the Coupon Rate will be determined by reference to a Reference Rate described in the Product Conditions which is a fixed rate. The Coupon Amount payable in respect of the Securities may therefore be reduced as a result of a fall in the Reference Rate regardless of whether a Credit Event has occurred.

The Issuer is likely to exercise this right if it is of the opinion that the relevant floating rate is likely to be higher than the sum of the prevailing cost of purchasing credit protection in respect of the Reference Entity(ies) and prevailing interest rates and the prevailing cost of borrowing, in each case for a period of time equal to the time to final redemption of the Securities. If the Issuer exercises this right, the return on an investor's investment may be lower than if the Issuer had not exercised such right. This may also negatively affect the market value of the Securities.

Prospective investors should be aware that they may therefore receive no or a limited return on Floating/Fixed Switch Option Securities.

2.7.5 *Risks related to Range Accrual Securities*

The Coupon Amount payable in respect of Range Accrual Securities is calculated by reference to a Reference Rate described in the Product Conditions which is a variable rate and observed in respect of a specified period referred to as the Accrual Period. The Coupon Amount payable in respect of Range Accrual Securities may therefore be reduced as a result of a fall in the Reference Rate regardless of whether a Credit Event has occurred.

In addition investors should note that the Coupon Rate in respect of Range Accrual Securities will also depend on the frequency with which the Reference Rate falls within the specified percentage during the relevant Accrual Period. The fewer the number of calendar days the Reference Rate falls within this range during the relevant Accrual Period, the lower the relevant Coupon Rate and thereby the level of the Coupon Amount payable in respect of such Accrual Period. As a result, the level of the Coupon Amount payable in respect of the Securities may be more volatile than for floating rate securities that do not include this feature.

Prospective investors should be aware that they may therefore receive no or a limited return on Range Accrual Securities.

If the Coupon Rate is subject to a floor, the Coupon Rate is also subject to the Minimum Coupon Rate and if the Coupon Rate is subject to a cap, the Coupon Rate is also subject to the Maximum Coupon Rate.

2.8 **Risks related to Securities Linked to a "Benchmark"**

Interest rates and indices or other figures which are deemed to be "benchmarks" are the subject of relatively recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or to have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Securities linked to or referencing such a benchmark.

The EU Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds, Regulation (EU) 2016/1011 (the "**EU Benchmarks Regulation**") is a key element of the ongoing regulatory reform in the EU and has applied since 1 January 2018.

In addition to "critical benchmarks", other interest rates, foreign exchange rates, and indices, including equity and commodity indices, will in most cases be within scope of both versions of the EU Benchmarks

Regulation as "benchmarks" where they are used to determine the amount payable under, or the value of, certain financial instruments.

The EU Benchmarks Regulation applies to the contribution of input data to a benchmark, the administration of a benchmark, and the use of a benchmark in the EU. Amongst other things, the EU Benchmarks Regulation requires EU benchmark administrators to be authorised or registered as such and to comply with extensive requirements relating to benchmark administration. It also prohibits certain uses by EU supervised entities of (a) benchmarks provided by EU administrators which are not authorised or registered in accordance with the EU Benchmarks Regulation and (b) subject to certain transitional provisions, benchmarks provided by non-EU administrators where (i) the administrator's regulatory regime has not been determined to be "equivalent" to that of the EU, (ii) the administrator has not been recognised in accordance with the EU Benchmarks Regulation, and (iii) the benchmark has not been endorsed in accordance with the EU Benchmarks Regulation.

The ESMA maintains a public register of benchmark administrators and third country benchmarks pursuant to the EU Benchmarks Regulation (the "**ESMA Register**").

The EU Benchmarks Regulation could have a material impact on Securities linked to a benchmark, in particular if the methodology or other terms of a benchmark are changed in order to comply with the requirements of the EU Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level such benchmark.

Furthermore, the occurrence of an Administrator/Benchmark Event may cause early redemption or adjustment of the Securities, which may include selecting one or more successor benchmarks and making related adjustments to the Securities, including if applicable to reflect increased costs. An Administrator/Benchmark Event may arise if any of the following circumstances occurs or may occur: (1) a benchmark is materially changed or cancelled; or (2) (i) the relevant authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of the benchmark or the administrator or sponsor of the benchmark is not obtained, (ii) an application for authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register is rejected or (iii) any authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or inclusion in any official register is withdrawn; (3) it is not fair and commercially reasonable from the perspective of the Issuer or the Calculation Agent to continue the use of the benchmark or the Issuer or the Calculation Agent suffer increased costs in each case due to licensing restrictions or changes in licence costs; or (4) a relevant supervisor officially announces a benchmark is longer representative of any relevant underlying market(s).

Investors should be aware that if a benchmark used to calculate the Coupon Rate under the Securities were discontinued or otherwise unavailable, were no longer permitted for use by the Issuer or were its methodology of calculation to be materially changed, the benchmark used in the calculation of the Coupon Amount will then be determined by the fall-back provisions set out in the Product Conditions which may (depending on market circumstances at the relevant time, including uncertainty concerning availability of replacement rates) not operate as intended. The fall-back provisions may in certain circumstances (i) result in the Calculation Agent or an Independent Adviser appointed by the Issuer, or the Issuer itself, determining a replacement rate (if any at the relevant time) to be used, with or without the application of an adjustment spread (which, if applied, could be positive or negative, and would be applied with a view to reducing or eliminating, to the extent reasonably practicable in the circumstances, any transfer of economic value between the Issuer and Securityholders arising out of the replacement of the relevant rate) and making such other adjustments to the terms of the Securities as it determines appropriate to account for such replacement; (ii) result in the effective application of a fixed rate based on the rate which applied in the previous period when the benchmark was available; (iii) result in the early redemption of the Securities; or (iv) result in paragraphs (i) and (ii), or (ii) and (iii), both applying. Any such replacement and adjustment may result in an Coupon Rate in respect of the Securities which is different and may perform differently from the rate originally anticipated (and result in a lower Coupon Amount) and unless any such replacement rate is itself discontinued or otherwise unavailable, is no longer permitted for use by the Issuer or its methodology of calculation is materially changed, such replacement rate will be used to calculate the Coupon Rate for the remainder of the life of the Securities, regardless of any change in industry or market practice as to the appropriate replacement for the rate originally anticipated. Due to the uncertainty concerning the availability of replacement rates, the involvement of an Independent Adviser and the potential for further regulatory developments, there is a risk that the relevant fall-back provisions may not operate as intended at the relevant time. All of this could have an adverse effect on the value or liquidity of, and return on, the Securities.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation or any other relevant international or national reforms and the possible application of any benchmark provisions of Securities as described above in making any investment decision with respect to any Securities linked to or referencing a benchmark.

2.8.1 *The Market Continues to Develop in Relation to SONIA as a Reference Rate*

Where the applicable Issue Terms for a Series of Floating Rate Securities identifies that the Coupon Rate for such Securities will be determined by reference to SONIA, the Coupon Rate will be determined on the basis of Compounded Daily SONIA (Compounding with Observation Period Shift), Compounded Daily SONIA (Compounding with Lockout), Compounded Daily SONIA (Compounding with Lookback) or Compounded SONIA Index. Compounded Daily SONIA differs from the former London Interbank Offered Rate (“LIBOR”) in a number of material respects, including (without limitation) that Compounded Daily SONIA is a backwards-looking, compounded, risk-free overnight rate, whereas LIBOR is expressed on the basis of a forward-looking term and includes a risk-element based on inter-bank lending. As such, investors should be aware that LIBOR and SONIA may behave materially differently as interest reference rates for Securities issued under the Programme than LIBOR may have in the past.

The use of compounded daily SONIA as a reference rate for Eurobonds is still less established as a reference rate for debt capital markets instruments than LIBOR was, and is subject to change and development, both in terms of the substance of the calculation and in the development and adoption of market infrastructure for the issuance and trading of bonds referencing compounded daily SONIA.

Accordingly, prospective investors in any Securities referencing compounded daily SONIA should be aware that the market continues to develop in relation to SONIA as a reference rate in the capital markets and its adoption as an alternative to the former Sterling LIBOR. For example, in the context of backwards-looking SONIA rates, market participants and relevant working groups are currently assessing the differences between compounded rates and weighted average rates, and such groups are also exploring forward-looking 'term' SONIA reference rates (which seek to measure the market's forward expectation of an average SONIA rate over a designated term). The adoption of SONIA may also see component inputs into swap rates or other composite rates transferring from LIBOR or another reference rate to SONIA.

The market or a significant part thereof may adopt an application of SONIA that differs significantly from that set out in the Product Conditions and used in relation to Securities referencing SONIA that are issued under the Programme. Furthermore, the Issuer may in future issue Securities referencing SONIA that differ materially in terms of interest determination when compared with any previous SONIA-referenced Securities issued under the Programme. The nascent development of SONIA as an interest reference rate for the Eurobond markets, as well as continued development of SONIA-based rates for such market and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of any SONIA-referenced Securities issued under the Programme from time to time.

Furthermore, the Coupon Rate on Securities which reference compounded daily SONIA is only capable of being determined at the end of the relevant Coupon Period prior to the relevant Coupon Payment Date. It may be difficult for investors in Securities which reference compounded daily SONIA to estimate reliably the amount of coupon which will be payable on such Securities, and some investors may be unable or unwilling to trade such Securities without changes to their IT systems, both of which factors could adversely impact the liquidity of such Securities. Further, if Securities referencing compounded daily SONIA are redeemed early and accrued coupon is payable on such redemption in respect of a period which is not a Coupon Period, the final Coupon Amount payable in respect of such Securities shall only be determined immediately prior to the due date for redemption.

In addition, the manner of adoption or application of SONIA reference rates in the Eurobond markets may differ materially compared with the application and adoption of SONIA in other markets, such as the derivatives and loan markets. Investors should carefully consider how any mismatch between the adoption of SONIA reference rates across these markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Securities referencing compounded daily SONIA.

To the extent the daily SONIA rate is discontinued or is no longer published on the SONIA Screen Page or published by authorised distributors, the applicable rate to be used to calculate the Coupon Rate on Securities referencing SONIA will be determined using the fall-back provisions set out in the Product Conditions. Any of these fall-back provisions may result in coupon payments that are lower than, or do not

otherwise correlate over time with, the payments that would have been made on the Securities if the SONIA rate had been so published in its current form. In addition, use of the fall-back provisions may result in the effective application of a fixed rate of coupon to the Securities.

Any of the foregoing could have a material adverse effect on the value or liquidity of, and return on, the Securities.

Investors should carefully consider all of these matters when making their investment decision with respect to any such Securities.

2.8.2 *The Market Continues to Develop in Relation to SOFR as a Reference Rate*

Where the applicable Issue Terms for a Series of Floating Rate Securities identifies that the Coupon Amount for such Securities will be determined by reference to SOFR, the Coupon Amount will be determined on the basis of Compounded Daily SOFR (Compounding with Observation Period Shift), Compounded Daily SOFR (Compounding with Lockout), Compounded Daily SOFR (Compounding with Lookback) or Compounded SOFR Index, as specified in such Issue Terms. SOFR is published by the Federal Reserve Bank of New York ("**FRBNY**") and is intended to be a broad measure of the cost of borrowing cash overnight collateralised by Treasury securities. The Federal Reserve reports that SOFR includes all trades in the Broad General Collateral Rate, being a measure of rates on overnight Treasury general collateral repurchase agreement (repo) transactions, plus bilateral Treasury repurchase agreement transactions cleared through the delivery-versus-payment service offered by the Fixed Income Clearing Corporation (the "**FICC**"), a subsidiary of the Depository Trust and Clearing Corporation ("**DTCC**"). SOFR is filtered by the Federal Reserve to remove a portion of the foregoing transactions considered to be "specials".

The Federal Reserve reports that SOFR is calculated as a volume-weighted median of transaction-level tri-party repo data collected from The Bank of New York Mellon as well as transaction data from repurchase agreements in the form of general collateral financing trades and data on bilateral Treasury repurchase transactions cleared through the FICC's delivery-versus-payment service. The Federal Reserve notes that it obtains information from DTCC Solutions LLC, an affiliate of DTCC. The Federal Reserve further notes on its publication page for SOFR that use of SOFR is subject to important limitations and disclaimers, including that the Federal Reserve may alter the methods of calculation, publication schedule, rate revision practices or availability of SOFR at any time without prior notice.

Because SOFR is published by the Federal Reserve based on data received from other sources, the Issuer has no control over its determination, calculation or publication. There can be no guarantee that SOFR will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in the Securities. If the manner in which SOFR is calculated is changed, that change may result in a reduction of the amount of coupon payable on the Securities and the trading prices of the Securities. SOFR in respect of any calendar day may decline to zero or become negative.

The Federal Reserve began to publish SOFR in April 2018. The Federal Reserve has also begun publishing historical indicative SOFR going back to 2014. Investors should not rely on any historical changes or trends in SOFR as an indicator of future changes in SOFR. Also, since SOFR is a relatively new market index, the Securities will likely have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Market terms for debt instruments indexed to SOFR, such as the spread over the index reflected in interest rate provisions, may evolve over time, and trading prices of the Securities may be lower than those of later-issued indexed debt instruments as a result.

The Issuer may in the future also issue other Securities referencing SOFR that differ materially in terms of interest determination when compared with any previous Securities referencing SOFR issued under the Programme. The nascent development of SOFR as reference interest rate for the Eurobond markets, as well as continued development of rates based on SOFR for such markets and market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or otherwise affect the market price of any Securities referencing SOFR to be issued under the Programme from time to time.

The Coupon Rate on any Securities referencing SOFR is only capable of being determined at the end of the relevant Coupon Period and immediately prior to the relevant Coupon Payment Date. It may be difficult for investors in such Securities to reliably estimate the amount of interest that will be payable on such Securities.

In addition, the manner of adoption or application of reference rates based on SOFR in the Eurobond markets may differ materially compared with the application and adoption of SOFR in other markets, such as the derivatives and loan markets. Investors should carefully consider how any mismatch between the adoption of reference rates based on SOFR across these markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of the Securities referencing SOFR.

Further, if SOFR does not prove to be widely used in debt instruments like the Securities, the trading price of any Securities may be lower than those of debt instruments linked to indices that are more widely used. Investors in Securities referencing SOFR may not be able to sell their Securities at all or may not be able to sell their Securities at prices that will provide them with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

Investors should be aware that, if SOFR were temporarily unavailable or permanently discontinued, the rate of interest on the Securities referencing SOFR will be determined for the relevant Coupon Period by the fallback provisions applicable to the Securities, which include, inter alia, the application of certain successor rates.

Investors should further be aware that, if SOFR were permanently discontinued, the rate of interest on the Securities referencing SOFR will be determined for the relevant Coupon Period by fallback provisions which differ from those applicable in case SOFR were temporarily unavailable.

Any of the foregoing could have a material adverse effect on the value or liquidity of, and return on, the Securities.

Investors should carefully consider all of these matters when making their investment decision with respect to any such Securities.

2.8.3 *The Market Continues to Develop in Relation to €STR as a Reference Rate*

Where the applicable Issue Terms for a Series of Floating Rate Securities identifies that the Coupon Rate for such Securities will be determined by reference to €STR, the Coupon Rate will be determined on the basis of Compounded Daily €STR (Compounding with Observation Period Shift), Compounded Daily €STR (Compounding with Lockout), Compounded Daily €STR (Compounding with Lookback) or Compounded €STR Index, as specified in such Issue Terms. €STR is published by the European Central Bank and is intended to reflect the wholesale euro unsecured overnight borrowing costs of banks located in the euro area and to complement existing benchmark rates produced by the private sector, serving as a backstop reference rate. The ECB reports that €STR will be calculated based entirely on actual individual transactions in Euro that are reported by banks in accordance with the ECB's money market statistical reporting (the "MMSR").

The ECB reports that €STR is calculated as a volume-weighted trimmed mean based on borrowing transactions in Euro conducted with financial counterparties that banks report in accordance with Regulation (EU) No 1333/2014 (the "MMSR Regulation"), the concepts and definitions of which underlie the €STR conceptual framework. The ECB notes that €STR is based on daily confidential statistical information relating to money market transactions collected in accordance with the MMSR Regulation. The regular data collection started on 1 July 2016. €STR is based exclusively on the eligible data from the unsecured market segment of the MMSR.

The ECB further notes that the use of €STR is subject to limitations and disclaimers, including that the ECB may (i) materially change the €STR methodology or the €STR determination process, or (ii) cease the determination and publication of €STR (in each case after consulting with stakeholders to the extent it is possible or practicable and all as described in Guideline (EU) 2019/1265 of the European Central Bank of 10 July 2019 on the Euro short-term rate (€STR) (ECB/2019/19)).

Because €STR is published by the ECB based on data received from other sources, the Issuer has no control over its determination, calculation or publication. There can be no guarantee that €STR will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in Securities referencing €STR. If the manner in which €STR is calculated is changed, that change may result in a reduction of the amount of coupon payable on the Securities and the trading price of the Securities. €STR in respect of any calendar day may be zero or negative.

The ECB began to publish €STR as of 2 October 2019. The ECB had also begun publishing historical indicative pre-€STR going back to March 2017. Investors should not rely on any historical changes or trends in €STR as an indicator of future changes in €STR. Also, since €STR is a new market index, Securities referencing €STR will be likely to have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Market terms for debt instruments indexed to €STR, such as the spread over the index reflected in Coupon Rate provisions, may evolve over time, and trading prices of any Securities referencing €STR may be lower than those of later-issued indexed debt instruments as a result.

The Issuer may in future also issue Securities referencing €STR that differ materially in terms of interest determination when compared with any previous Compounded Daily €STR-referenced Securities issued by it under the Programme. The development of Compounded Daily €STR as interest reference rates for the Eurobond markets, as well as continued development of €STR-based rates for such markets and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of any €STR-referenced Securities issued under the Programme from time to time.

Furthermore, the Coupon Rate on Securities which reference Compounded Daily €STR is only capable of being determined at the end of the relevant Coupon Period prior to the relevant Coupon Payment Date. It may be difficult for investors in Securities which reference Compounded Daily €STR to estimate reliably the amount of coupon which will be payable on such Securities, and some investors may be unable or unwilling to trade such Securities without changes to their IT systems, both of which factors could adversely impact the liquidity of such Securities.

In addition, the manner of adoption or application of €STR reference rates in the Eurobond markets may differ materially compared with the application and adoption of €STR in other markets, such as the derivatives and loan markets. Investors should carefully consider how any mismatch between the adoption of €STR reference rates across these markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Securities referencing Compounded Daily €STR.

Further, if €STR does not prove to be widely used in debt instruments like the Securities, the trading price of any Securities referencing €STR may be lower than those of debt instruments linked to indices that are more widely used. Investors in Securities referencing €STR may not be able to sell their Securities at all or may not be able to sell their Securities at prices that will provide them with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

Investors should be aware that, if €STR were temporarily unavailable or permanently discontinued, the rate of interest on Securities referencing €STR will be determined for the relevant Coupon Period by the fallback provisions applicable to the Securities, which include, inter alia, the application of certain successor rates.

Investors should further be aware that, if €STR were permanently discontinued, the Coupon Rate on Securities referencing €STR will be determined for the relevant Coupon Period by fallback provisions which differ from those applicable in case €STR were temporarily unavailable.

2.9 Taxation

2.9.1 *Risks related to Stamp Taxes*

Potential purchasers and sellers of the Securities should be aware that they may be required to pay stamp taxes or other documentary charges in accordance with the laws and practices of the country where the Securities are transferred. Securityholders are subject to the provisions of Product Condition 12, and payment of any amount due in respect of the Securities will be conditional upon the payment of certain taxes, duties and/or expenses as provided in the Product Conditions.

Potential purchasers who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, potential purchasers should be aware that tax regulations and their application by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time and there is the risk that the applicable tax treatment at the relevant time may have an adverse effect on the value of the Securities.

2.9.2 *Risks related to Securities pursuant to which no Tax Gross-Up Is Paid*

The Issuer is not obliged to gross up any payments in respect of the Securities and all amounts payable in respect of the Securities shall be made with such deduction or withholding of taxes duties or governmental charges of any nature whatsoever imposed, levied or collected by way of deduction or withholding, if such deduction or withholding is required by law.

2.9.3 *Risks related to changes in applicable tax law or practice*

Changes in any applicable tax law or practice may have an adverse effect on a Securityholder. Any relevant tax law or practice applicable as at the date of this Securities Note and the date of purchase or subscription of any Securities may change at any time (including during any subscription period or the term of any Securities). Any such change may have an adverse effect on a Securityholder, including that their liquidity may decrease and the amounts payable or deliverable to an affected Securityholder may be less than the amount expected by such Securityholder.

2.10 **Transaction costs**

Minimum or fixed commission rates per transaction (buy and sell) may, in combination with a low order value, result in increased costs, which reduce the return on the Securities.

2.11 **Additional loss potential for borrowing**

If an investor's purchase of the Securities is financed by a loan, and its expectation of any investment return on the Securities are not met, the investor may suffer the loss of some or all of its initial investment in the Securities, and the investor must also repay such loan, including payment of any interest thereon. This results in a considerable increase in an investor's risk of loss. Investors should not rely on the possibility of using any amounts payable on the Securities to repay any loan (including interest thereon) taken to finance the purchase of such Securities. Investors should instead assess their financial situation before purchasing the Securities or before taking on any loan for such purchase to determine whether or not they have sufficient funds available to repay such loan (and interest thereon) on short notice if they lose their investment in the Securities.

2.12 **Regulatory Bail-in and other Resolution Measures**

On 15 May 2014, the European Parliament and the Council of the European Union adopted Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms (commonly referred to as the "Bank Recovery and Resolution Directive" or the "**BRRD**") which was transposed into German law by the Recovery and Resolution Act (*Sanierungs- und Abwicklungsgesetz*, or the "**SAG**") with effect from 1 January 2015. For banks established in the eurozone, such as the Issuer, which are supervised within the framework of the Single Supervisory Mechanism (the "**SSM**"), Regulation (EU) No 806/2014 of the European Parliament and of the Council (the "**SRM Regulation**") provides for a coherent application of the resolution rules across the SSM under responsibility of the European Single Resolution Board, with effect since 1 January 2016 (referred to as the "Single Resolution Mechanism" or the "**SRM**"). Under the SRM, the Single Resolution Board is responsible for adopting resolution decisions in close cooperation with the European Central Bank, the European Commission, and national resolution authorities in the event that a significant bank directly supervised by the European Central Bank, such as the Issuer, is failing or likely to fail and certain other conditions are met. National resolution authorities in the European Union member states concerned would implement such resolution decisions adopted by the Single Resolution Board in accordance with the powers conferred on them under national law transposing the BRRD.

If the competent authority determines that the Issuer is failing or likely to fail and certain other conditions are met (as set forth in the SRM Regulation, the SAG and other applicable rules and regulations), the competent resolution authority has the power to write down, including to write down to zero, claims for payment of the principal and any other claims under the Securities, interest or any other amount in respect of the Securities, to convert the Securities into ordinary shares or other instruments qualifying as common equity tier 1 capital (the write-down and conversion powers are hereinafter referred to as the "**Regulatory Bail-in**"), or to apply any other resolution measure including (but not limited to) a transfer of the Securities to another entity, a variation of the Conditions of the Securities (including, but not limited to, the variation of final redemption of the Securities) or a cancellation of the Securities. The Regulatory Bail-in and each

of these other resolution measures are hereinafter referred to as a "**Resolution Measure**". The competent resolution authority may apply Resolution Measures individually or in any combination.

The competent resolution authority will have to exercise the Regulatory Bail-in in a way that results in (i) common equity tier 1 instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) subsequently, the principal amount of other capital instruments (additional tier 1 instruments and tier 2 instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) subsequently, the Issuer's unsecured and subordinated liabilities that are not additional tier 1 instruments or tier 2 instruments being written down on a permanent basis or converted into common equity tier 1 instruments in accordance with their order of priority and (iv) finally, the Issuer's unsecured and unsubordinated liabilities (unless exempted by the SRM Regulation, the BRRD or the SAG) – such as those under the unsubordinated Securities – being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority under Section 46f(5)-(9) of the German Banking Act (Kreditwesengesetz, "**KWG**") as set out below. Within the mentioned ranks, the competent resolution authority is generally required to include all relevant liabilities within any Resolution Measures. However, in exceptional circumstances, it may exclude certain liabilities in whole or in part, including where it is not practicable to effect their bail-in within a reasonable time. Accordingly, liabilities of the same rank could be treated differently by the resolution authority.

If the resolution authority takes a measure in accordance with the SAG, a holders of Securities may not redeem the Securities or assert any other contractual rights purely on the grounds of such measure as long as the Issuer as an institution continues to meet its main obligations under the Conditions of the Securities, including payment and performance obligations.

The holders of Securities are bound by any Resolution Measure. They would have no claim or any other right against the Issuer arising out of any Resolution Measure. Depending on the Resolution Measure, there would be no obligation of the Issuer to make payments under the Securities. The extent to which payment obligations under the Securities may be affected by Resolution Measures would depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, Resolution Measures will occur. The exercise of any Resolution Measure would not constitute any right to terminate the Securities. Potential investors should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest, if Resolution Measures are initiated, and should be aware that extraordinary public financial support for troubled banks, if any, would only potentially be used as a last resort after having assessed and exploited, to the maximum extent practicable, the Resolution Measures, including the Regulatory Bail-in. If the power of write-down or conversion of relevant capital instruments or the Regulatory Bail-in is applied to the Issuer, the principal amount of the Securities may be fully or partially written down or converted into instruments of ownership, although claims of other creditors of the Issuer might not be affected.

2.12.1 *Risks Arising from the Ranking of Senior Non-Preferred Debt Instruments*

The KWG establishes a category of notes which are not subordinated, but rank below other unsubordinated notes of banks (Section 46f(6) KWG). As a consequence, in the event of insolvency proceedings or Resolution Measures affecting the Issuer, these senior non-preferred debt instruments rank below other unsubordinated (senior preferred) obligations of the Issuer, such as debt instruments that are "structured" as defined in Section 46f(7) KWG, derivatives, money market instruments and deposits, and in priority to subordinated liabilities of the Issuer. Thus, such senior non-preferred debt instruments would bear losses before other unsubordinated liabilities of the Issuer.

Since 21 July 2018, only those unsecured and unsubordinated debt instruments will qualify as senior nonpreferred debt instruments, which are not only "non structured" and have at the time of their issuance a maturity of at least one year, but also explicitly refer to the lower ranking in their Conditions and any related prospectus.

2.13 **Risk factors relating to Securities where amounts payable are calculated by reference to a formula**

A Coupon Amount or Redemption Amount may be determined by reference to a formula. Potential investors should ensure that they understand the relevant formula and if necessary seek advice from their own adviser(s).

In addition, the effects of the formula may be complex with respect to expected Coupon Amounts or Redemption Amounts and in certain circumstances may result in decreases in the Coupon Amounts and/or Redemption Amount, as the case may be.

2.14 Settlement Systems

An investor will need to be able to hold the Securities (directly or through an intermediary). Securities (excluding French Law Notes) may only be held directly through the relevant Clearing Agent on behalf of their customers, which includes any custodian banks appointed by Euroclear Bank S.A./N.V., and Clearstream Banking S.A. for the purpose of holding accounts on behalf of Euroclear Bank S.A./N.V. and Clearstream Banking S.A. and Clearstream Frankfurt, Aktiengesellschaft. French Law Notes will be inscribed in the books of Euroclear France (acting as central depository) which shall credit the account of Account Holders. Where Securities are held indirectly, a Securityholder will depend on the relevant intermediary(ies) through which it holds the Securities for receipt of payments, notices and for all other purposes in connection to the Securities.

As of the date of this Securities Note, the registered office address of each of Euroclear Bank S.A./N.V., Clearstream Banking S.A. and Euroclear France are as follows:

- Euroclear Bank S.A.: 1 Boulevard du Roi Albert II, 1210 Brussels, Belgium;
- Clearstream Bank S.A.: 42 Avenue JF Kennedy, L-1855 Luxembourg; and
- Euroclear France: 10-12 Place de la Bourse, 75002 Paris, France.

If Securities are issued in one or more integral multiples of a minimum Nominal Amount (in respect of Notes) or Notional Amount or Reference Amount, as the case may be (in respect of Certificates) plus one or more higher integral multiples of another smaller amount, it is possible that such Securities may be traded in amounts in excess of the minimum Nominal Amount or Notional Amount or Reference Amount (as applicable) that are not integral multiples of such minimum Nominal Amount or Notional Amount or Reference Amount (as applicable). In such a case a holder who, as a result of trading such amounts, holds an amount which is less than such minimum Nominal Amount or Notional Amount or Reference Amount (as applicable) in its account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Securities at or in excess of the minimum Nominal Amount or Notional Amount or Reference Amount (as applicable) such that its holding amounts to a Nominal Amount or Notional Amount or Reference Amount (as applicable). Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Nominal Amount or Notional Amount or Reference Amount (as applicable) in its account with the relevant clearing system at the relevant time may not receive a definitive Security in respect of such holding (should definitive Securities be printed) and would need to purchase a principal amount of Securities at or in excess of the minimum Nominal Amount or Notional Amount or Reference Amount (as applicable) such that its holding amounts to Nominal Amount or Notional Amount or Reference Amount (as applicable).

2.15 Risks associated with the Issue of Green Securities and Social Securities

The Issue Terms relating to any specific Tranche of Securities may provide that the Issuer will designate, at issuance, an amount corresponding to the net proceeds from an issue of the relevant Tranche of Securities specifically to finance and/or refinance a portfolio of loans to and investments in corporations, assets or projects that support the transition to a climate-friendly, energy-efficient, and environmentally sustainable global economy ("**Green Assets**") in accordance with the Issuer's Sustainable Instruments Framework (the "**Green Securities**") which further specifies the eligibility criteria for such Green Assets (the "**Sustainable Instruments Framework**").

The relevant Issue Terms relating to any specific Tranche of Securities may also provide that the Issuer will designate, at issuance, an amount corresponding to the net proceeds from an issue of the relevant Tranche of Securities specifically to finance and/or refinance a portfolio of loans to and investments in corporations, assets, or projects that further societal progress ("**Social Assets**") in accordance with the Issuer's Sustainable Instruments Framework (the "**Social Securities**") which further specifies the eligibility criteria for such Social Assets.

For the avoidance of doubt, such Sustainable Instruments Framework may be amended from time to time. Such amendments will not affect the eligibility of any loans or investments in corporations, assets, or projects that have already been included in the Sustainable Asset Pool (as defined in "*General Information – Green and Social Securities*") based on the prevalent eligibility criteria at the time of inclusion. There

will only be a single Sustainable Asset Pool, but the Issuer will identify eligible assets as being either Green Assets or Social Assets, even if the respective asset may meet both, the eligibility criteria for the Green Assets and the eligibility criteria for the Social Assets (each as defined in “*General Information – Green and Social Securities*”).

For the further avoidance of doubt, such Sustainable Instruments Framework is not, nor shall be deemed to be, incorporated in, and/or does not form part of, this Securities Note.

The Issuer gives no assurance that the designation, at issuance, of amounts corresponding to such net proceeds for the financing and/or refinancing of any Green Assets or Social Assets (as the case may be) will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any sustainability or other investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental or sustainability impact of any projects or uses, which are the subject of or related to, any Green Assets or Social Assets (as the case may be).

While the Issuer will designate, at issuance, an amount corresponding to the net proceeds for the financing and/or refinancing of any Green Assets or Social Assets (as the case may be), after the date of issuance the Sustainable Asset Pool may experience a shortfall in the amount of Green or Social Assets (as the case may be) to the amount of the aggregate net proceeds from Green Securities or Social Securities (as the case may be) outstanding. Should a shortfall occur, the Issuer’s Treasury department will direct, at its own discretion, an amount corresponding to any shortfall amount towards the Issuer’s liquidity portfolio, consisting of cash and/or cash equivalents, and/or other liquid marketable instruments for which the Issuer can demonstrate that they adhere to the exclusion criteria in respect of activities related to the exploration, production, storage or transportation of fossil fuels, nuclear and nuclear-related technologies, weapons, alcohol, tobacco, gambling, and adult entertainment, deforestation of primary tropical forests and degradation of forests, business activities associated with adverse human rights impacts; or activities within or in close proximity to world heritage sites, unless the respective government and UNESCO confirm that such activity will not adversely affect the site’s outstanding universal value.

No assurance or representation is given by the Issuer as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer), including but not limited to the second party opinion issued by Institutional Shareholder Services ESG (ISS), in connection with the issue of any Green Securities or Social Securities (as the case may be) and in particular with any Green Assets or any Social Assets (as the case may be) to fulfil any environmental, social, sustainability and/or other criteria set out in the Sustainable Instruments Framework (“**Sustainable Evaluation**”). For the avoidance of doubt, any such Sustainable Evaluation is not, nor shall be deemed to be, incorporated in and/or form part of this Securities Note. Such Sustainable Evaluation provides an opinion on certain environmental, social and related considerations and may not address risks that may affect the value of Green Securities or any Green Assets or of Social Securities or any Social Assets (as the case may be) and is not intended to address any credit, market or other aspects of an investment in Green Securities or Social Securities (as the case may be), including without limitation market price, marketability, investor preference or suitability of any Green Securities or Social Securities (as the case may be). Such Sustainable Evaluation is a statement of opinion, not a statement of fact. Any such Sustainable Evaluation is not, nor should be deemed to be, a recommendation by the Issuer or any other person to buy, sell or hold any Green Securities or any Social Securities. Any such Sustainable Evaluation is only current as of the date that opinion was initially issued and may be updated, suspended or withdrawn by the relevant provider(s) at any time. Prospective investors must determine for themselves the relevance of any such Sustainable Evaluation and/or the information contained therein and/or the provider of such Sustainable Evaluation for the purpose of any investment in Green Securities or Social Securities (as the case may be).

Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. Holders of Green Securities or Social Securities (as the case may be) will have no recourse against the provider(s) of any Sustainable Evaluation.

In the event that any Green Securities or Social Securities (as the case may be) are listed or admitted to trading on any dedicated “green”, “environmental”, “social”, “sustainable” or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which any investor or its investments are required to comply, whether by any

present or future applicable law or regulations or under its own by-laws or other governing rules or investment portfolio mandates. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. No representation or assurance is given or made by the Issuer or any other person that any such listing or admission to trading will be obtained in respect of any Green Securities or Social Securities (as the case may be) or, if obtained, that any such listing or admission to trading will be maintained during the life of the Green Securities or the Social Securities.

While the Issuer will designate, at issuance, an amount corresponding to the net proceeds of any Green Securities so specified for the financing and/or refinancing of Green Assets and while the Issuer will designate, at issuance, an amount corresponding to the net proceeds of any Social Securities so specified for the financing and/or refinancing of Social Assets, in each case in, or substantially in, the manner as described in the relevant Issue Terms and the Sustainable Instruments Framework, there can be no assurance that any time after the issue date sufficient Green Assets or Social Assets (as the case may be) can be created, acquired or identified to ensure the continued designation of the aggregate net proceeds of all Green Securities or Social Securities (as the case may be) outstanding or that the relevant project(s) or use(s) which are the subject of, or related to, any Green Assets or Social Assets (as the case may be) will be capable of being implemented in or substantially in such manner and/or in accordance with any timing schedule or at all or with the results or outcome (whether or not related to the environment) as originally expected by the Issuer and that accordingly there will be a disbursement of funds as originally expected by the Issuer. Also, while the Issuer strives to have a portfolio of Green Assets at all times meeting or exceeding the amount of net proceeds received from issued and still outstanding Green Securities and a portfolio of Social Assets at all times meeting or exceeding the amount of net proceeds received from issued and still outstanding Social Securities, the Issuer is under no legal obligation to make any efforts to reduce the aggregate principal amounts of Green Securities or Social Securities outstanding to avoid any shortfall in the Sustainable Asset Pool.

Any such event or failure by the Issuer or any failure by the Issuer to provide any reporting or obtain any opinion or the maturity or removal for other reasons of any Green Assets or Social Assets (as the case may be) from the balance sheet of the Issuer and any shortfall in the Sustainable Asset Pool will not (i) constitute an event of default under any Green Securities or any Social Securities, (ii) give rise to any claim by a Securityholder against the Issuer, (iii) give a right to holders of any Green Securities to request the early redemption or acceleration of the relevant Green Securities or give a right to holders of any Social Securities to request the early redemption or acceleration of the relevant Social Securities, (iv) lead to an obligation of the Issuer to redeem the Green Securities or Social Securities (as the case may be) or (v) be a relevant factor for the Issuer in determining whether or not to exercise any optional redemption rights in respect of any Green Securities or Social Securities (as the case may be). The designation, at issuance, of an amount corresponding to the net proceeds of any Green Securities or Social Securities (as the case may be) for the financing and/or refinancing of any Green Assets or Social Assets (as the case may be) will not lead to any assets or amounts corresponding to the net proceeds not being available to cover losses from a regulatory or accounting perspective, arising from such or other assets on the Bank's balance sheet. The designation, at issuance, of an amount corresponding to the net proceeds of any Green Securities or Social Securities (as the case may be) for the financing and/or refinancing of any Green Assets or Social Assets (as the case may be) will also not result in any claim of a holder of Green Securities or Social Securities (as the case may be) over such Green Assets or Social Assets (as the case may be), participation in the performance of such Green Assets or Social Assets (as the case may be) nor any segregation of assets nor security, pledge or lien over such Green Assets or Social Assets (as the case may be) nor imply or prevent any change in ownership, pledge or lien for the benefit of third parties in respect of such Green Assets or Social Assets (as the case may be). The designation, at issuance, of an amount corresponding to the net proceeds of any Green Securities or Social Securities for the financing and/or refinancing of any Green Assets or Social Assets will also not change the ranking of any Green Securities or any Social Securities nor the legal position of any holder in the application of the Regulatory Bail-in or any other Resolution Measures.

Any such event or failure to maintain an excess in Green Assets or Social Assets (as the case may be) over the amount of the net proceeds of Green Securities or Social Securities outstanding, respectively, as aforesaid, and/or withdrawal of any such Sustainable Evaluation or any such opinion or certification attesting that the Issuer is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any Green Securities or Social Securities no longer being listed or admitted to trading on any stock exchange or securities market as aforesaid and/or the update of the Sustainable Instruments Framework from time to time may have a material adverse effect on the value of the Green Securities or Social Securities (as the case may be) and also potentially the value of any other

securities of the Issuer and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

2.15.1 *Specific Risks relating to Green Securities*

Furthermore, it should be noted that the definition (legal, regulatory or otherwise) of, and market consensus as to what constitutes, or may be classified as a "green" or "sustainable" or an equivalently-labelled asset, project or use is currently under development. In addition, it is an area which has been, and continues to be, the subject of voluntary, regulatory and legislative initiatives to develop rules, guidelines, standards, taxonomies and objectives. No assurance is or can be given to investors that any projects or uses which are the subject of, or related to, any Green Assets will meet any or all investor expectations regarding such "green", "sustainable" or other equivalently-labelled performance objectives or that any adverse environmental and/or other impacts will not occur during the implementation of any projects or uses which are the subject of, or related to, any Green Assets. Also, the criteria for what constitutes a Green Asset may be changed from time to time.

Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088, (as amended, the "**Taxonomy Regulation**") establishes the criteria for determining whether an economic activity qualifies as environmentally sustainable for the purposes of environmentally sustainable investments. The Taxonomy Regulation entered into force on 12 July 2020 and applies in whole since 1 January 2023. The Taxonomy Regulation empowers the European Commission to adopt delegated acts and to establish technical screening criteria, do no significant harm criteria and minimum safeguard criteria to specify the requirements set out in the Taxonomy Regulation. On 29 December 2021, Commission Delegated Regulation (EU) 2021/2139 (as amended, the "**Climate Delegated Act**") as the first delegated act on sustainable activities for climate change mitigation and adaptation entered into force. The Climate Delegated Act, which is applicable since 1 January 2022, establishes the technical screening criteria for determining the conditions under which an economic activity qualifies as contributing substantially to climate change mitigation or climate change adaptation and for determining whether that economic activity causes no significant harm to any of the other environmental objectives. The Climate Delegated Act was amended by Commission Delegated Regulation (EU) 2022/1214 of 9 March 2022 as regards economic activities in the fossil gas and nuclear energy sectors and by Commission Delegated Regulation (EU) 2023/2485 of 27 June 2023 establishing additional technical screening criteria. On 11 December 2023, Commission Delegated Regulation (EU) 2023/2486 entered into force. This delegated act, which is applicable since 1 January 2024, establishes the technical screening criteria for determining the conditions under which an economic activity qualifies as contributing substantially to the sustainable use and protection of water and marine resources, to the transition to a circular economy, to pollution prevention and control, or to the protection and restoration of biodiversity and ecosystems and for determining whether that economic activity causes no significant harm to any of the other environmental objectives.

On 20 December 2023, Regulation (EU) 2023/2631 on European Green Bonds and optional disclosures for bonds marketed as environmentally sustainable and for sustainability-linked bonds entered into force. The regulation, which will apply from 21 December 2024, introduces a voluntary label (the "European Green Bond Standard") for issuers of green use of proceeds bonds where the proceeds will be invested in economic activities aligned with the Taxonomy Regulation. Green Securities of the Issuer will not be eligible to use the designation "European green bond" or "EuGB". The Issuer is under no obligation to take steps to have any Green Securities become eligible for such designation.

It can also not be excluded that the establishment of the European Green Bond Standard might have a negative effect on the trading and market value of Green Securities issued by the Issuer, if they do not conform with the requirements of such standard.

The product approval process pursuant to MiFID II of any manufacturer in respect of any Green Securities of the Issuer may lead to the conclusion that (a) an amount corresponding to the net proceeds of the issuance of the Green Securities is expected to be invested to a minimum proportion in environmentally sustainable investments as defined by the Taxonomy Regulation; (b) an amount corresponding to the net proceeds of the issuance of the Green Securities is expected to be invested to a minimum proportion in sustainable investments as defined by Regulation (EU) 2019/2088 (as amended, "**SFDR**"), (c) the Issuer or the Green Securities consider(s) principal adverse impacts on sustainability factors and/or (d) the Green Securities have a focus on either environmental, social or governance criteria or a combination of them. Unless

specifically outlined in the relevant Pricing Supplement, projects or uses which are the subject of, or related to, any Green Assets may be aligned with the Taxonomy Regulation.

2.15.2 *Specific Risks relating to Social Securities*

It should be noted that the definition (legal, regulatory or otherwise) of, and market consensus as to what constitutes, or may be classified as a "social" or "sustainable" or an equivalently-labelled asset, project or use is currently under development. In addition, it is an area which has been, and continues to be, the subject of voluntary, regulatory and legislative initiatives to develop rules, guidelines, standards, taxonomies and objectives. No assurance is or can be given to investors that any projects or uses which are the subject of, or related to, any Social Assets will meet any or all investor expectations regarding such "social", "sustainable" or other equivalently-labelled performance objectives or that any adverse environmental and/or other impacts will not occur during the implementation of any projects or uses which are the subject of, or related to, any Social Assets. Also, the criteria for what constitutes a Social Asset may be changed from time to time.

The product approval process pursuant to MiFID II of any manufacturer in respect of any Social Securities of the Issuer may lead to the conclusion that (a) an amount corresponding to the net proceeds of the issuance of the Social Securities is expected to be invested to a minimum proportion in sustainable investments as defined by Regulation (EU) 2019/2088 (as amended, "**SFDR**"), (b) the Issuer or the Social Securities consider(s) principal adverse impacts on sustainability factors and/or (c) the Social Securities have a focus on either environmental, social or governance criteria or a combination of them.

3. **RISKS RELATED TO MARKET FACTORS, MARKET VALUE, POTENTIAL ILLIQUIDITY OF THE SECURITIES AND OFFERING OF THE SECURITIES**

3.1 **Market factors**

3.1.1 *Factors affecting the credit risk of the Reference Entity(ies)*

An investment in the Securities provides investors with exposure to the risk that a Credit Event and subsequent Event Determination Date may occur in respect of one or more Reference Entities. The likelihood of a Credit Event occurring in respect of one or more Reference Entities may change over time and is dependent on a variety of factors.

If the Securities are linked to one or more corporate Reference Entities, those factors will be influenced by company-specific and economic and legal conditions, such as national and international economic development or the industry sector in which the Reference Entity operates and its development.

If the Securities are linked to one or more sovereign Reference Entities, those factors will be particularly influenced by the stability or instability of the political and economic systems of the Reference Entity.

Any of the above factors could result in the deterioration of the creditworthiness of a Reference Entity, which in turn would have an adverse effect on the trading price of the Securities and could result in a decreased return on the Securities.

3.1.2 *Changes in credit risk*

The creditworthiness of the Reference Entities as at the Issue Date or the time of purchase of the Securities is not an indication of the likelihood of a Credit Event occurring in the future. A deterioration in the creditworthiness of the Reference Entities will negatively affect the trading price of the Securities, and it is impossible to predict whether the creditworthiness of the Reference Entity(ies) will improve or deteriorate.

3.1.3 *The Reference Entity(ies) may change over time*

If the Securities are linked to a basket of Reference Entities in certain circumstances, any Reference Entities may be replaced by one or more Successors (as provided in Product Condition 3.6, and as described above) and this may result in an increased credit risk of the relevant Reference Entities which in turn could negatively affect the value of the Securities.

If the Securities are linked to a single Reference Entity, in certain circumstances the Reference Entity may be replaced by one or more Successor (as provided in Product Condition 3.6, and as described above) and

this may result in an increased credit risk of the relevant Reference Entities which in turn could negatively affect the value of the Securities.

3.1.4 *Interest rate risk*

An investment in the Securities may involve interest rate risk where there are fluctuations in the interest rate payable on deposits in the settlement currency of the Securities. Such fluctuations may adversely affect the market value of the Securities.

Interest rates are determined by factors of supply and demand in the international money markets which are influenced by macroeconomic factors, speculation and central bank and government intervention or other political factors. Fluctuations in short term and long term interest rates may negatively affect the market value of the Securities and, in turn, the return under the Securities.

3.1.5 *Exchange rate risk*

Prospective investors should be aware that any returns on the Securities may be payable to Securityholders in a currency (i.e. the settlement currency) other than the currency in which the Credit Reference Item is denominated (i.e. the reference currency). In addition, the settlement currency may be different from the currency which an investor wishes to receive payments. Changes in the rate of exchange between the settlement currency of the Securities and the currency of an investor's home jurisdiction could negatively affect any return that a Holder may receive on the Securities.

Exchange rates between currencies are determined by various factors, including supply and demand for currencies in the international currency exchange markets which are influenced by macroeconomic factors, speculation, measures taken by central banks, government intervention or other international political factors (including the imposition of currency controls and restrictions). Fluctuations in exchange rates may adversely affect the value of the Securities and any amounts payable in respect of the Securities.

3.2 **Market value**

The market value of the Securities during their term will be influenced primarily by changes in the credit risk of the Issuer and the Reference Entity(ies) as well as by changes in the level of prevailing interest rates (for Fixed Rate Securities (including securities with a Fixed/Floating Switch Option and securities with a Floating/Fixed Switch Option)). These factors are subject to fluctuations which may be due to, amongst other things, general economic conditions, conditions in financial markets and political events at European and international level, developments or trends in certain sectors (including, without limitation, those in which the Issuer and the Reference Entity(ies) operate) and the financial position of the Issuer and the Reference Entity.

A deterioration in the credit rating of the Issuer and a Reference Entity will be very likely to have an adverse effect on the market value of the Securities. The market value of the Securities will fall significantly if a Credit Event occurs in respect of a Reference Entity, or if there is a market perception that a Credit Event is likely to occur.

Furthermore, the initial market value of the Securities is likely to be lower, and may be significantly lower, than the issue or initial purchase price of the Securities as a result of, inter alia, (where permitted by applicable law) amounts with respect to commissions relating to the issue, sale and marketing of the Securities. Accordingly, the issue or purchase price of the Securities is likely to be more than the initial market value of the Securities, and this could result in a loss if you sell the Securities prior to scheduled redemption. Any secondary market prices of the Securities will also likely be lower than the original issue price of the Securities because, among other things, (as above) secondary market prices will likely be reduced by selling commissions and marketing commissions that are accounted for in the original issue price of the Securities. As a result, the price, if any, at which any person would be willing to buy Securities from you in secondary market transactions, if at all, is likely to be lower than the original issue price. Any sale by you prior to their scheduled redemption could result in a substantial loss.

For Securities with a Fixed/Floating Switch Option, the Issuer may elect on any Coupon Accrual Date falling on or after the specified switch option exercise date that with effect from (and including) that Coupon Accrual Date, the rate by reference to which the Coupon Amount payable in respect of the Securities is calculated changes from fixed rate to floating rate which may result in Securityholders receiving a lesser Coupon Amount than if such switch did not occur.

The Issuer is likely to exercise this right if it is of the opinion that the relevant fixed rate is likely to be higher than the sum of the prevailing cost of purchasing credit protection in respect of the Reference Entity(ies) and prevailing interest rates and the prevailing cost of borrowing, in each case for a period of time equal to the time to final redemption of the Securities. If the Issuer exercises this right, the return on an investor's investment may be lower than would otherwise have been the case. This may also negatively affect the market value of the Securities.

For Securities with a Floating/Fixed Switch Option, the Issuer may elect on any Coupon Accrual Date falling on or after the specified switch option exercise date that with effect from (and including) that Coupon Accrual Date, the rate by reference to which the Coupon Amount payable in respect of the Securities is calculated changes from floating rate to fixed rate, which may result in Securityholders receiving a lesser Coupon Amount than if such change did not take place.

The Issuer is likely to exercise this right if it is of the opinion that the relevant floating rate is likely to be higher than the sum of the prevailing cost of purchasing credit protection in respect of the Reference Entity(ies) and prevailing interest rates and the prevailing cost of borrowing, in each case for a period of time equal to the time to final redemption of the Securities. If the Issuer exercises this right, the return on an investor's investment may be lower than would otherwise have been the case. This may also negatively affect the market value of the Securities.

3.2.1 *Risks related to Fixed Rate Securities and Securities with a Fixed/Floating Switch Option and Securities with a Floating/Fixed Switch Option*

If the Securities have a (i) Fixed/Floating Switch Option, prior to any exercise by the Issuer of this right (ii) Floating/Fixed Switch Option, post exercise by the Issuer of this right, interest rate changes will generally have the same impact on the value of the Securities as for fixed rate bonds. Rising interest rates will under normal conditions result in a lower market value of the Securities, falling interest rates in a higher market value of the Securities. If the Issuer has an early redemption option, investors should note that even when interest rates are falling, increases in the price of the Securities may be limited, given the Issuer's option to redeem the Securities early.

If the Securities do not have a Fixed/Floating Switch Option or a Floating/Fixed Switch Option, interest rate changes will generally have the same impact on the value of the Securities as for fixed rate bonds. Rising interest rates will under normal conditions result in a lower market value of the Securities, falling interest rates in a higher market value of the Securities. If the Issuer has an early redemption option, investors should note that even when interest rates are falling, increases in the price of the Securities may be limited, given the Issuer's option to redeem the Securities early.

3.3 **Potential illiquidity of the Securities**

It is not possible to predict if and to what extent a secondary market may develop in the Securities or at what price the Securities will trade in the secondary market or whether such market will be liquid or illiquid. Application may be made to list the Securities on the Official List of the Luxembourg Stock Exchange and admit to trading on the regulated market or professional segment of the regulated market of the Luxembourg Stock Exchange, to admit Securities to trading on the Luxembourg Stock Exchange's Euro MTF or to admit Securities to trading on the EuroTLX market of Borsa Italiana. If the Securities are so listed, no assurance is given that any such listing will be maintained. The fact that the Securities may be so listed does not necessarily lead to greater liquidity than if they were not so listed. If the Securities are not listed or traded on any relevant stock exchange, the Securities may have no liquidity or the market for such Securities may be limited. This may adversely impact the value of the Securities and the ability of investors to resell or trade in the Securities. The liquidity of the Securities may also be affected by restrictions on offers and sales of the Securities in some jurisdictions.

As of the Issue Date, it is the normal practice of the initial Clearing Agents that the transfer resulting from a sale of securities in the secondary market will not be reflected in the records of the Clearing Agent until a number of days after the sale date. Accordingly, any purchaser of the Securities in the secondary market would not become the holder of the relevant Securities until a period of time after such sale date. This will also be relevant in determining which investors are the relevant Securityholders who are entitled to receive payment of any cash amount.

3.4 **Offering of the Securities**

If the Securities are distributed by means of a public offer, under certain circumstances indicated in the relevant Issue Terms, the Issuer and/or the other entities indicated in the relevant Issue Terms will have the right to withdraw or revoke the offer, and the offer will be deemed to be null and void according to the terms indicated in the relevant Issue Terms. The Issuer and/or the other entities specified in the relevant Issue Terms may also terminate the offer early by immediate suspension of the acceptance of further subscription requests and by giving notice to the public in accordance with the relevant Issue Terms. Any such termination may occur even where the maximum amount for subscription in relation to that offer (as specified in the relevant Issue Terms), has not been reached. In such circumstances, the early closing of the offer may have an impact on the aggregate number of Securities issued and, therefore, may have an adverse effect on the liquidity of the Securities. Furthermore, under certain circumstances indicated in the relevant Issue Terms, the Issuer and/or the other entities indicated in the relevant Issue Terms will have the right to shorten and/or extend the offer period and/or to postpone the originally designated issue date, and related interest payment dates and the maturity date. For the avoidance of doubt, this right applies also in the event that the Issuer publishes a supplement to this Securities Note in accordance with the provisions of the EU Prospectus Regulation.

If the relevant Issue Terms provide that the Issuer or the placer, as applicable, will apply or has applied for admission to trading of the Securities on the EuroTLX Market, a multilateral trading facility organised and managed by Borsa Italiana S.p.A., then the relevant Issue Terms may also provide that the effectiveness of the offer of such Securities will be conditional upon such admission to trading occurring by the Issue Date. In such case, in the event that admission to trading of the Securities does not take place by the Issue Date for whatever reason, the Issuer will withdraw the offer, the offer will be deemed to be null and void and the relevant Securities will not be issued. As a consequence, you will not receive any Securities, any subscription rights you have for the Securities will be cancelled and you will not be entitled to any compensation thereof.

4. **CONFLICTS OF INTEREST IN RESPECT OF THE SECURITIES**

4.1 **Acting in other capacities**

The Issuer and any of its affiliates may from time to time act in other capacities with respect to the Securities, for example as Calculation Agent and Agent.

The Calculation Agent, the Issuer (in its capacity as Calculation Agent) or Deutsche Bank AG, London Branch (in its capacity as Calculation Agent) may be responsible for deciding whether a Credit Event has occurred, determining a Successor or a Substitute Reference Obligation or a Settlement Price, as applicable.

In performing each of these roles the relevant entities do not act on behalf of, or accept any duty of care or any fiduciary duty to any Securityholder or any other person. Each such entity will pursue actions and take steps that it deems necessary or appropriate to protect its interests without regard to the consequences for Securityholders.

Any failure by the Issuer or any of its affiliates to meet its obligations in any one of these capacities is likely to have a negative impact on the Securities and may result in delays in making determinations, calculations and payments with respect to the Securities.

In performing these roles each such entity shall only have the duties and responsibilities expressly agreed to by it in the relevant capacity and shall not, by virtue of acting in any other capacity, be deemed to have any other duties or responsibilities. In addition, such entities shall be entitled to receive fees or other payments and exercise all rights, including rights of termination or resignation, which they may have in such capacities notwithstanding that this may have a detrimental effect on the Securities.

In limited cases as specified in the Product Conditions, the Calculation Agent acts in its sole discretion in carrying out calculations and determinations with respect to the Securities and, in such cases, will act in the interests of the Issuer and not in the interests of the Securityholders.

Any determination and/or calculation by the Calculation Agent shall, in the absence of manifest error, be final and binding on the Issuer and Securityholders and may have a negative effect on the value of the Securities.

4.2 Transactions with and through the Reference Entity(ies)

The Issuer and its affiliates may, for their own account as well as for the account of funds under their management, enter into transactions with or through one or more Reference Entities. Such transactions may have a negative effect on the credit risk of the Reference Entity(ies) and, in turn, negatively impact the value of the Securities.

4.3 Issuance of other securities linked to the Reference Entity(ies)

The Issuer and any of its affiliates may issue other securities linked to the Reference Entity or an identical or similar basket of Reference Entities. The issue of such securities may adversely affect the value of the Securities.

4.4 Hedging arrangements

In its normal course of business, the Issuer and any of its affiliates may trade in securities issued by the Reference Entity(ies). The Issuer may also trade the obligations of the Reference Entity and other financial instruments related to the obligations of the Reference Entity on a regular basis as part of its general businesses. Furthermore, the Issuer and any of its affiliates may use some or all of the issue proceeds of the Securities to enter into hedging arrangements with respect to its obligations under the Securities. The Issuer's hedging activities may have a material adverse impact on the value of the Securities, in particular, the value of the Securities may be negatively affected by the liquidation of all or a portion of the hedging positions at or about the time of the redemption of the Securities.

4.5 Issue Price

The Issue Price of the Securities may, in addition to loading charges or other fees, include a premium on what would otherwise represent the "fair" value of the Securities which may not be ascertainable by investors. Such premium will be determined by the Issuer in its reasonable discretion and may, for example due to factors specific to the Reference Entity(ies) and the relevant Reference Obligation(s), be higher than equivalent premiums included in the issue price for comparable securities issued by other issuers. Moreover, the level of the premium may be higher than premiums the Issuer has included in the issue price for comparable securities under different market conditions.

4.6 Market-making for the Securities

The Issuer, or an agent on its behalf, may but is not required to, act as market-maker for the Securities. In such market-making, the Issuer or its agent will, to a large extent, determine the price of the Securities itself. The prices quoted by such market-maker will not usually correspond to the prices which would otherwise have prevailed without such market-making and in a liquid market.

Circumstances the market-maker may take into account when setting the bid-offer prices it quotes in the secondary market will include the Securities' fair value, which, amongst other things, will depend on the credit risk of the Reference Entity(ies) as well as a certain bid-offer spread targeted by the market-maker. The market-maker will also take into account a loading charge originally raised for the Securities. Furthermore, prices quoted in the secondary market will be influenced by, amongst other things, any premium included in the Issue Price (see Risk Factor 4.5 (*Issue Price*) above), and by dividends or other distributions paid or expected to be paid in respect of debt securities of the Reference Entity(ies).

The bid-offer spread for the Securities will be set by the market-maker based on supply and demand for the Securities and certain revenue considerations.

Prices quoted by the market-maker may be substantially less than the fair value of the Securities, or the value that might be expected on the basis of the factors mentioned above, at the relevant time. In addition, the market-maker can at any time alter the methodology used to set its quoted prices, for example increasing or decreasing the bid-offer spread, which in turn may negatively affect the value of the Securities in the secondary market.

4.7 Other business relationships and conflicts of interest

Each of the Issuer, the Fiscal Agent and the Calculation Agent or any of their respective affiliates may have existing or future business relationships with each other or a Reference Entity (including, but not limited

to, lending, depository, derivative counterparty, risk management advisory and banking relationships) and will pursue actions and take steps that it deems necessary or appropriate to protect its interests arising therefrom without regard to the consequences for a Securityholder. Furthermore, the Issuer, the Fiscal Agent, the Calculation Agent or any of their respective affiliates may buy, sell or hold positions in obligations of, or credit protection in relation to, a Reference Entity or may act as investment or commercial bankers, advisers or fiduciaries to, or hold officer positions at, a Reference Entity.

The Issuer, the Fiscal Agent or the Calculation Agent and any of their respective affiliates may invest and deal, for their own respective accounts or for accounts for which they have investment discretion, in securities or in obligations of a Reference Entity or in credit derivatives (whether as protection buyer or seller) or other instruments enabling credit and other risks in respect of a Reference Entity to be traded. Such investments, credit derivatives or instruments may have the same or different terms from the Securities. The Issuer, the Fiscal Agent or the Calculation Agent and any of their respective affiliates may act as adviser to, may be lenders to, and may have other ongoing relationships with, a Reference Entity. The Issuer, the Fiscal Agent or the Calculation Agent may at certain times be simultaneously seeking to purchase or sell investments and protection under credit derivatives or other instruments enabling credit and other risks to be traded for any entity for which it serves as manager in the future.

Various potential and actual conflicts of interest may arise from the overall activities of the Issuer, the Fiscal Agent, the Calculation Agent, their respective affiliates and the directors, officers, employees and agents of the Issuer, the Fiscal Agent or the Calculation Agent and their respective affiliates may, among other things and as applicable (a) serve as directors (whether supervisory or managing), officers, employees, agents, nominees or signatories for a Reference Entity; (b) receive fees for services of any nature a Reference Entity; (c) be a secured or unsecured creditor of, or hold an equity interest in, the Reference Entity; (d) invest for its own account in a Reference Entity; (e) serve as a member of any "creditors' committee" with respect to a Reference Entity if it has defaulted; (f) act as the adviser, manager or investment adviser to any other person, entity or fund; and (g) maintain other relationships with a Reference Entity.

Any such activities could present certain conflicts of interest and may negatively affect the value of the Securities. As at the date of this document, the Issuer is a member of the regional Credit Derivatives Determinations Committee responsible for determining Credit Events, Successors and Sovereign Succession Events, designating a Successor and determining a Substitute Reference Obligation. Membership of Credit Derivatives Determinations Committees will generally be reviewed annually, but Deutsche Bank Aktiengesellschaft may nonetheless continue to be a member of this Credit Derivatives Determinations Committee. Current or future conflicts of interest which may potentially negatively affect the value of the Securities could arise for the Issuer because of this membership if the respective determination or designation to be made by the Credit Derivatives Determinations Committee directly or indirectly relates to the/one of the Reference Entity(ies) or the/one of the Reference Obligation(s).

4.8 Obtaining non-public information

The Issuer, the Fiscal Agent or the Calculation Agent or any of their respective affiliates may be in possession of information in relation to a Reference Entity that is or may be material in the context of the Securities and/or may or may not be publicly available to Securityholders. There is no obligation on the Issuer, the Fiscal Agent or the Calculation Agent or any of their respective affiliates to disclose to Securityholders any such information.

Furthermore, the Issuer or any of its affiliates could publish research with respect to the Reference Entity(ies). Such activities could present conflicts of interest and may negatively affect the value of the securities.

III. COMMONLY ASKED QUESTIONS

This section is intended to answer some of the questions which investors may have when considering an investment in Non-Exempt Securities. However, any decision to invest in Non-Exempt Securities should only be made after careful consideration of all relevant sections of the Base Prospectus, including the Product Conditions, and the relevant Issue Terms. This section should be treated as an introduction to the Issuer, the types of Non-Exempt Securities which may be issued under the Programme and certain terms of such Securities. Capitalised not otherwise defined herein shall have the same meaning as in the Product Conditions. References in this Section III to “Securities” are references to Non-Exempt Securities.

1. WHAT DOCUMENTS DO YOU NEED TO READ IN RESPECT OF AN ISSUANCE OF SECURITIES?

There are several legal documents which you must read in respect of any Securities: (i) each applicable section of this Securities Note; (ii) the Registration Document and (iii) the Issue Terms in respect of such Securities (including any issue-specific summary annexed thereto). You may request copies of any such documents from the Issuer.

1.1 *What information is included in this Securities Note?*

This Securities Note contains the general terms and conditions of all Non-Exempt Securities in the section entitled “*Product Conditions for Non-Exempt Securities*”. The Product Conditions must be read together with the applicable Issue Terms - see Commonly Asked Question 1.2 (*What information is included in the Issue Terms?*) below.

Furthermore, this Securities Note includes risk factors relating to the Securities and discloses restrictions about who can buy such Securities and to whom the Securities may be transferred. It also contains certain tax disclosure, although you should always seek specialist advice which has been tailored to your circumstances.

The Registration Document, which together with this Securities Note constitutes the Base Prospectus, discloses financial and other information about the Issuer and incorporates by reference further information about such entities. It also includes risk factors relating to the Issuer. Therefore, the Registration Document must be read in conjunction with this Securities Note.

This Securities Note and the Registration Document are available in electronic form on the website of the Luxembourg Stock Exchange's website (www.luxse.com) and on the website of the Issuer (www.xmarkets.db.com).

1.2 *What information is included in the Issue Terms?*

While this Securities Note includes general information about all Securities, the Issue Terms is the document that sets out the specific details of each issuance of Securities. The Issue Terms will contain, for example, the issue date, the maturity date and the methods used to calculate the redemption amount and any coupon payments, if applicable.

The Issue Terms for each issuance of Securities will complete the Product Conditions. Therefore, the Issue Terms for such Securities must be read in conjunction with this Securities Note.

2. WHO IS THE ISSUER UNDER THE PROGRAMME?

Securities may be issued by Deutsche Bank Aktiengesellschaft (“**Deutsche Bank AG**”) through its head office in Frankfurt am Main or acting through its London branch in relation to any Series, as specified in the applicable Issue Terms.

Deutsche Bank AG (commercial name: Deutsche Bank) is a banking institution and a stock corporation incorporated in Germany and accordingly operates under the laws of Germany. Deutsche Bank AG has its registered office in Frankfurt am Main, Germany. It maintains its principal office at Taunusanlage 12, 60325 Frankfurt am Main, Germany.

Deutsche Bank AG is described in the Registration Document and in the section entitled “*General Information*” of this Securities Note.

The Issuer may, at any time, without the consent of the holders of Securities opt to be replaced as principal obligor by a company (the “**Substitute**”) which is either a subsidiary or Affiliate of the Issuer provided that (a) the Substitute's obligations are guaranteed by Deutsche Bank AG, (b) all actions, conditions and tasks required to be taken, fulfilled and completed (including the obtaining of any necessary consents) to ensure that the Securities represent legal, valid and binding obligations of the Substitute have been taken, fulfilled and completed and are in full force and effect, and

(c) the Issuer shall have given at least 30 days' prior notice of the date of such substitution to the holders of the Securities.

3. WHAT TYPE OF SECURITIES CAN BE ISSUED UNDER THE PROGRAMME?

Under this Programme, the Issuer may issue notes and certificates, which together are known as "Securities". Securities may have any maturity. Securities may or may not be rated.

The Securities shall be cleared either through Clearstream Frankfurt, a common depositary for Euroclear and Clearstream, Luxembourg or such other Clearing System specified in the applicable Issue Terms, including Euroclear France for French Law Notes.

All Securities (excluding French Law Notes) will be governed by English law. The French Law Notes will be governed by French Law.

4. WHAT ARE THE REFERENCE ASSETS TO WHICH SECURITIES MAY BE LINKED?

The payment of a coupon amount under the Securities may be linked to a reference rate. A reference rate may be any one or more of the following rates, which rate may be applied either directly or as a compounded rate:

- (a) €STR, being the Euro short-term rate published on each TARGET2 Business Day by the European Central Bank;
- (b) SOFR (the US-Dollar Secured Overnight Financing Rate), being a broad measure of the cost of borrowing cash overnight collateralized by U.S. Treasury securities which is provided each business day by the Federal Reserve Bank of New York;
- (c) SONIA (the daily Sterling Overnight Index Average), being the average of the interest rates that banks pay to borrow Sterling in unsecured overnight transactions from other financial institutions in the London market;
- (d) a CMS (constant maturity swap) or other swap rate;
- (e) EURIBOR, being the Euro Interbank Offered Rate as provided by the European Money Markets Institute; and
- (f) a rate calculated on the same basis as the floating rate under a notional interest rate swap incorporating the 2006 ISDA Definitions,

(each a "**Reference Rate**").

Furthermore, the payment of the redemption amount and/or any coupon amount under the Securities may be linked to the credit risk of one or more corporate or sovereign entities or their successors (each a "**Reference Entity**").

For the purposes of this "*Commonly Asked Questions*" section, each Reference Rate and Reference Entity shall constitute a "**Reference Asset**".

5. IS THE MARKET VALUE AND AMOUNTS PAYABLE IN RESPECT OF YOUR SECURITIES SUBJECT TO THE CREDIT RISK OF THE ISSUER?

Yes. You will be exposed to the credit risk of the Issuer, and you will have no recourse to the Reference Asset(s) (see Commonly Asked Question 8 (*If your Securities are linked to a Reference Asset, will you have recourse to that asset if the Issuer defaults?*) below). The market value of the Securities will not only be affected by the value of the Reference Asset(s), but will also depend in part on the credit ratings of the relevant Issuer, together with various other factors (see the section of this Securities Note entitled "*Risk Factors*" including, but not limited to, Risk Factor 3.1 "*Market Factors*" and Risk Factor 3.2 "*Market Value*" therein).

The credit ratings of the Issuer are specified in the Registration Document.

6. WILL YOU BE ABLE TO SELL YOUR SECURITIES?

The relevant Issue Terms will specify whether your Securities will be listed on any securities exchange or not listed. There may be little or no secondary market for the Securities. Even if there is a secondary market for the Securities,

it may not provide enough liquidity to allow you to trade or sell the Securities easily. See also Risk Factor 3.3 “*Potential Illiquidity of the Securities*” in the section of this Securities Note entitled “*Risk Factors*”.

The Issuer, or an agent on its behalf, may but is not required to, act as market-maker for the Securities. In such market-making, the Issuer or its agent will, to a large extent, determine the price of the Securities itself. The prices quoted by such market-maker will not usually correspond to the prices which would otherwise have prevailed without such market-making and in a liquid market. See also Risk Factor 4.6 “*Market-making for the Securities*” in the section of this Securities Note entitled “*Risk Factors*”.

Securities are also subject to selling restrictions, purchaser representations and requirements and transfer restrictions that may limit your ability to resell or transfer them (including, but not limited to, those set out in the section of this Securities Note entitled “*Selling and Transfer Restrictions*”).

7. WHAT WILL BE THE PRICE OF YOUR SECURITIES IF YOU ARE ABLE TO SELL YOUR SECURITIES?

If it is possible to sell your Securities, they would be sold for the prevailing bid price in the market. The prevailing bid price may be affected by several factors including the performance of the Reference Asset(s), prevailing interest rates at the time of sale, the time remaining until the stated repayment date, transaction costs and the perceived creditworthiness of the Issuer. It is therefore possible that if you sell your Securities in the secondary market you may receive a price which is lower than your initial investment. See also Risk Factor 3.2 “*Market Value*” in the section of this Securities Note entitled “*Risk Factors*”.

8. IF YOUR SECURITIES ARE LINKED TO A REFERENCE ASSET, WILL YOU HAVE RECOURSE TO THAT ASSET IF THE ISSUER DEFAULTS?

No. The Securities are linked to the performance of the Reference Asset(s), but there is no obligation on the Issuer to hold such Reference Asset. Even if the Issuer does hold the Reference Asset, it will not be held for the benefit of the holders of Securities.

9. HOW MUCH OF YOUR INVESTMENT IS AT RISK?

For all Securities, your investment may be at risk as you may receive a return less than your original investment and may even lose your entire investment. In such circumstances, the value of the Securities can fluctuate and there is no guarantee that the value of the Securities will increase or that they will retain their value. The higher the potential return of your Securities, the greater the risk of loss attached to those Securities will be. You will always be exposed to the credit risk of the Issuer.

See the section of this Securities Note entitled “*Risk Factors*” for more detailed information about the risks relating to the loss of any invested amounts.

10. WHERE DO THE SECURITIES RANK IN THE LIABILITIES OF THE ISSUER?

For Securities with a ranking of “preferred” (as specified in the applicable Issue Terms), such Securities constitute unsecured and unsubordinated preferred liabilities of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated preferred liabilities of the Issuer, subject, however, to statutory priorities conferred to certain unsecured and unsubordinated preferred liabilities in the event of Resolution Measures imposed on the Issuer or in the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer. In accordance with § 46f(5) of the German Banking Act (Kreditwesengesetz, “KWG”), the obligations under such Securities rank in priority of those under debt instruments of the Issuer within the meaning of § 46f(6) sentence 1 KWG (also in conjunction with § 46f(9) KWG) or any successor provision, including eligible liabilities within the meaning of Articles 72a and 72b(2) of The Capital Requirements Regulation (EU) No. 575/2013 (“CRR”).

For Securities with a ranking of “non-preferred” (as specified in the applicable Issue Terms), such Securities constitute unsecured and unsubordinated non-preferred liabilities of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated non-preferred liabilities of the Issuer. This is subject to statutory priorities conferred to certain unsecured and unsubordinated non-preferred liabilities in the event of Resolution Measures imposed on the Issuer or in the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer. In accordance with § 46f(5) KWG, in the event of resolution measures being imposed on the Issuer or in the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against the Issuer, the obligations under such Securities shall rank behind the claims of unsubordinated creditors of the Issuer not qualifying as obligations within the meaning of § 46f(6) sentence 1 KWG (also in conjunction with § 46f(9) KWG) or any successor provision; this

includes eligible liabilities within the meaning of Article 72b(2) CRR where point (d) of such Article does not apply. In any such event, no amounts shall be payable in respect of the Securities until the claims of such other unsubordinated creditors of the Issuer have been satisfied in full.

11. WHO IS THE “HOLDER” OF THE SECURITIES?

In respect of Securities (excluding French Law Notes), the legal **"holder"** of the Securities shall mean the persons who are for the time being the bearers of the Securities, provided, however, that for so long as the Securities or any part of them are represented by a Global Security deposited with any clearing system or with any common depository for such clearing system(s), each person (other than the clearing system(s)) who is for the time being shown in the records of the clearing system(s) as the holder of a particular principal amount of the Securities shall be treated by the Issuer, the Fiscal Agent, the Principal Paying Agent and the Calculation Agent (in each case in respect of the Securities) as the “holder” of that principal amount of the Securities for all purposes (other than with respect to the payment of principal or interest on the Securities, for which purpose the bearer of the relevant Global Security shall be treated as the “holder” of such principal amount of the Securities in accordance with and subject to the terms of the relevant Global Security).

In respect of French Law Notes, the **"holder"** means the person whose name appears in the account of the relevant Account Holder as being entitled to such French Law Notes, in accordance with the applicable laws and regulations and with the applicable rules and procedures of the clearing institution, including, without limitation, Euroclear France or Clearstream, Luxembourg.

12. HOW CAN YOU ENFORCE YOUR RIGHTS AGAINST AN ISSUER IF THE ISSUER HAS FAILED TO MAKE A PAYMENT OF PRINCIPAL ON THE SECURITIES?

The Issuer has executed a deed of covenant in respect of Securities (excluding French Law Notes) which is governed by English law, pursuant to which it covenants in favour of the holders of Securities that in certain circumstances each such holder shall automatically acquire against the Issuer those rights that it would have had if it held and beneficially owned authenticated definitive securities. This means that even if the legal "holder" of the Securities is a depository on behalf of a clearing system, the accountholders in the clearing system will still be able to make a direct claim against the Issuer without having to rely on the depository doing so on their behalf.

Holders of French Law Notes may make a direct claim against the Issuer pursuant to Product Condition 19.

13. HOW ARE PAYMENTS MADE TO YOU?

The Issuer will make payments of coupons and principal or other amounts by paying the total amount payable to the clearing system(s), who will credit the appropriate amount to the account of each accountholder in such clearing system which holds the Securities (which may include your custodian), in each case, in accordance with the rules and policies of the clearing system(s). The Issuer has no obligation to make payments directly to end investors.

14. WHEN ARE PAYMENTS MADE TO INVESTORS?

Each type of Security will have a different redemption date or maturity date (as the case may be). Securities that pay a coupon amount (whether accrued at a fixed or floating rate or calculated by reference to a Reference Rate) will also have coupon payment dates.

15. WHO CALCULATES AMOUNTS PAYABLE TO YOU?

Unless otherwise specified in the relevant Issue Terms, the Issuer will act as the Calculation Agent in respect of Securities, and in such capacity, will determine the performance levels of the Reference Asset(s) on specified valuation dates and will determine any coupon amounts and the redemption amounts payable by the Issuer in respect of such Securities.

16. ARE THE CALCULATION AGENT’S DETERMINATIONS BINDING ON YOU?

All calculations, determinations or adjustments made by the Calculation Agent shall, in the absence of manifest error, be final, conclusive and binding on the holders of the Securities. The Calculation Agent has a discretion to make changes to the terms of your Securities if certain events occur, as set out in the Product Conditions.

However, the Calculation Agent is not required to consult with holder of Securities before making any calculations, determinations or adjustments, and it is expected that it will not do so. You should be aware that the Calculation Agent will likely be either the Issuer or an Affiliate of the Issuer and will act in the interests of the Issuer and not in the interests of the holders of the Securities. Any calculations, determinations or adjustments made by the Calculation

Agent may have a negative effect on the value of the Securities. See also Risk Factor 4 “*Conflicts of Interest in respect of the Securities*” in the section of this Securities Note entitled “*Risk Factors*”.

17. ARE THERE ANY FEES, EXPENSES OR TAXES TO PAY WHEN PURCHASING, HOLDING OR SELLING SECURITIES?

You may incur fees and expenses in relation to the purchase, holding, transfer and sale of Securities. You should always be aware that stamp duties, financial transaction taxes other taxes may have to be paid in accordance with the current or future laws and practices of any relevant country (potentially including countries where the Securities are issued or transferred or where a counterparty is resident). You should consult your selling agent for details of fees, expenses, commissions or other costs payable to your selling agent, and your own tax advisors in order to understand fully the tax implications specific to investment in any Security.

18. UNDER WHAT CIRCUMSTANCES MAY THE SECURITIES BE REDEEMED OR TERMINATED BEFORE THEIR SCHEDULED FINAL REDEMPTION?

18.1 *Events of Default*

A Security may be redeemed early by the relevant Securityholder following an Event of Default (as further described in Product Condition 19). In such circumstances, the amount payable to the relevant Securityholder will be an amount (which may never be less than zero) calculated by the Calculation Agent equal to the fair market value of the Securities held by the relevant Securityholder together with the coupon amount accrued to (but excluding) the day the relevant Event of Default occurred. For such purposes, the fair market value shall be determined by the Calculation Agent acting in good faith and a commercially reasonable manner. For the purposes of determining the fair market value, no account shall be taken of the financial condition of the Issuer, which shall be presumed to be able to perform fully its obligations in respect of the Securities.

18.2 *Illegality or Force Majeure Event*

If the Issuer determines, for reasons beyond its control, that an Illegality Event or Force Majeure Event (as further described in Product Condition 5.11) has occurred, the Issuer may, at its option, redeem the Securities early by giving notice to the holders of the securities.

In such circumstances, the Issuer will, to the extent permitted by applicable law, pay an amount to each Securityholder in respect of each Security held by such holder equal to the fair market value of such Security notwithstanding such illegality or impracticality, as determined by the Calculation Agent acting in good faith and a commercially reasonable manner, together with any coupon amount accrued as provided in Product Condition 4.9.

18.3 *Merger Event*

The Securities may be redeemed early if the Issuer consolidates, amalgamates with, or merges into, or transfers all or substantially all of its assets to, a Reference Entity or vice versa, or the Issuer and a Reference Entity become Affiliates. In such circumstances, each Security will be redeemed by the Issuer at the redemption amount calculated in accordance with Product Condition 5.10 together with any coupon amount accrued as provided in Product Condition 4.8.

18.4 *Issuer Call*

If so specified in the applicable Issue Terms, the Issuer shall have the option to early redeem the Securities by giving notice to the holders of the Securities on not less than the number of business days’ notice specified in the applicable Issue Terms, and in such circumstances the holders of the Securities shall receive an early redemption amount calculated in accordance with Product Condition 5.9, together with any coupon amount accrued as provided in Product Condition 4.7.

18.5 *Administrator/Benchmark Event*

In respect of Securities which are linked to a Reference Rate which is a “benchmark”, the occurrence of an Administrator/Benchmark Event (as further described in Product Condition 8) may cause early redemption of the Securities at their outstanding principal amount.

An Administrator/Benchmark Event may arise if any of the following circumstances occurs or may occur: (1) a benchmark is materially changed or cancelled; or (2) (i) the relevant authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of the benchmark or the administrator or sponsor of the benchmark is not obtained, (ii) an application for authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register is rejected or (iii) any authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or inclusion in any official register is withdrawn; (3) it

is not fair and commercially reasonable from the perspective of the Issuer or the Calculation Agent to continue the use of the benchmark or the Issuer or the Calculation Agent suffer increased costs in each case due to licensing restrictions or changes in licence costs; or (4) a relevant supervisor officially announces a benchmark is longer representative of any relevant underlying market(s).

For the purposes hereof, “**benchmark**” means any figure, level, rate or value by reference to which any amount payable or deliverable under the Securities, or the value of the Securities, is determined in whole or in part, including, without limitation, any benchmark as defined in the EU Benchmark Regulation, as amended from time to time, all as determined by the Calculation Agent in a fair and commercially reasonable manner.

18.6 ***Early redemption of Reference Obligation Only Securities following a Substitution Event***

If the Securities are “Reference Obligation Only Securities” and the Reference Obligation of a Reference Entity is redeemed in full, then each Security will be redeemed in full (in the case of Single Reference Entity Securities) or in part (in the case of Basket Securities) by the Issuer by payment of the relevant early redemption amount on the fifth business day following the relevant Substitution Event Date in accordance with Product Condition 5.12.

"Reference Obligation Only Securities" means any Securities in respect of which (a) "Reference Obligation Only" is specified as the Obligation Category in the applicable Issue Terms and (b) "Standard Reference Obligation" is specified as not applicable in the applicable Issue Terms.

The early redemption of the Securities in any of the circumstances listed above may result in a holder receiving less than its expected return if the Securities had been redeemed as their scheduled final redemption.

The Securities may also be early redeemed following the occurrence of an Event Determination Date. Please see Commonly Asked Question 21 “*What are Credit Linked Securities*” below.

19. **CAN THE ISSUER AMEND THE CONDITIONS OF OR TERMINATE THE SECURITIES ONCE THEY HAVE BEEN ISSUED WITHOUT YOUR CONSENT?**

Yes, under certain circumstances described below.

19.1 ***Modifications***

The Issuer may, to the extent permitted by applicable law and subject as provided below, modify the Conditions of the Securities other than French Law Notes without the consent of the holders in any manner which the Issuer may deem reasonably necessary:

- (a) in order to maintain or preserve the intended commercial purpose of the Securities; or
- (b) if such modification (i) does not materially adversely affect the interests of the holders of the Securities, (ii) is of a formal, minor or technical nature or (iii) is intended to correct a manifest or proven error or to cure, correct or supplement any defective provision contained therein.

With respect to French law Notes issued with a denomination of at EUR 100,000 (or its equivalent in any other currency), the Issuer may modify the Conditions of such French law Notes without the consent of the holders in order to correct a manifest error in accordance with Article L.213-6-3, V of the French Code monétaire et financier.

In each of these cases the Issuer will first satisfy itself that the exercise of the discretion is reasonably necessary and it will consider if there is any reasonable alternative which would not incur additional material costs for the Issuer and/or its affiliates.

19.2 ***Administrator/Benchmark Event***

In respect of Securities which are linked to a Reference Rate which is a “benchmark”, in the event of an Administrator/Benchmark Event (as further described in Product Condition 8), the Issuer may, at its option, amongst other things (A) instruct the Calculation Agent to make such adjustment(s) to the Conditions as it may determine in a fair and commercially reasonable manner appropriate to account for the relevant event or circumstance and, without limitation, such adjustments may (a) consist of one or more amendments and/or be made on one or more dates; (b) be determined by reference to any adjustment(s) in respect of the relevant event or circumstance made in relation to any hedging arrangements in respect of the Securities; and (c) include selecting (a) successor benchmark(s) and making related adjustments to the Conditions of the Securities, including where applicable to reflect any increased costs of the Issuer providing such exposure to the successor benchmark(s), and, in the case of more than one successor benchmark, making provision for allocation of exposure as between the successor benchmarks; or (B) on giving notice to the Securityholders, redeem all but not some only of the Securities at their outstanding principal amount.

19.3 ***Replacement Rate***

If the Issuer determines that a Rate Replacement Event (as further described in Product Condition 1) has occurred in respect of a Reference Rate on or prior to a Coupon Determination Date (the "**Relevant Coupon Determination Date**"), the Relevant Determining Party shall, provided that it confirms the occurrence of such Rate Replacement Event to the Issuer (where the Relevant Determining Party is not the Issuer), determine in its reasonable discretion (i) a Replacement Rate for the relevant Specified Floating Rate and (ii) Replacement Rate Adjustments and promptly inform the Issuer and the Calculation Agent (in each case if not the Relevant Determining Party) of its determinations.

The Replacement Rate (if any) shall replace the Specified Floating Rate and the Conditions of the Securities shall be modified by the Replacement Rate Adjustments so determined for the purposes of determining the Coupon Rate, in each case, for the Coupon Period related to the Coupon Determination Date falling on or, if none, immediately following the Rate Replacement Determination Date and each Coupon Period thereafter.

If a Replacement Rate, any necessary Adjustment Spread and all other relevant Replacement Rate Adjustments are not determined in accordance with the foregoing, the Issuer, or in respect of French Law Notes, the Calculation Agent, may, on giving at least 15 Business Days' notice to the Securityholders in accordance with the Product Conditions up until (but excluding) the Coupon Determination Date immediately following the relevant Coupon Determination Date, redeem all but not some only of the Securities at the Rate Replacement Early Redemption Amount together with coupon accrued to (but excluding) the date of redemption.

19.4 ***Successors***

The Securities may be amended if a "Successor" determination has been made with respect to a Reference Entity in respect of the Securities, as so provided in Product Condition 3.6. Please also see Commonly Asked Questions 21.17 to 21.19 below for more information on "Successors".

19.5 ***Redenomination in Euro***

The Issuer may, without the consent of the Securityholders but upon notice to the Securityholders, elect that, with effect from the Adjustment Date specified in the notice, that the Securities shall be redenominated in euro.

Such election will have the following effect: (a) where the Determined Currency of the Securities is the National Currency Unit of a country which is participating in the third stage of the European Economic and Monetary Union, such Determined Currency shall be deemed to be an amount of euro converted from the original Determined Currency into euro at the Established Rate and after the Adjustment Date, all payments in respect of the Securities will be made in euro as through references in the Conditions to the Determined Currency were to euro; (b) where the Conditions contain a rate of exchange or any of the conditions are expressed in a currency (the "**Original Currency**") of a country which is participating in the third stage of European Economic and Monetary Union, such rate of exchange or any other terms of the Conditions shall be deemed to be expressed in, or, in the case of a rate of exchange, converted into euro at the Established Rate; and (c) such other changes shall be made to the conditions as the Issuer may decide to conform them to conventions then applicable to instruments expressed in euro.

19.6 ***Amendments in accordance with Market Convention***

The Calculation Agent may from time to time amend any provision of the Product Conditions and the Issue Terms in relation to Securities in any manner which the Calculation Agent determines acting in good faith and in a commercially reasonable manner is necessary or desirable from the perspective of the Issuer, the Calculation Agent or any Affiliate of the Issuer hedging the Issuer's obligations in respect of the Securities (i) to incorporate and/or reflect (x) further or alternative documents or protocols from time to time published by ISDA with respect to the documentation, trading or settlement of credit derivative transactions and/or (y) the operation or application of determinations by the Credit Derivatives Determinations Committees and/or (ii) to reflect or account for market practice for credit derivative transactions.

19.7 ***Inconsistency with determinations of the Credit Derivatives Determinations Committees***

If any determination by the Calculation Agent in respect of the Securities is overruled by a decision of the Credit Derivatives Determinations Committees (a "**Committee Determination**") within 90 calendar days of such Calculation Agent's determination, provided that such Committee Determination is made at least 5 Business Days before the Maturity Date, the Calculation Agent's determination shall be substituted by the Committee Determination on and from the date of such determination and the Calculation Agent shall, within a reasonable time period, make all

necessary amendments to the terms of the Securities or undertake all necessary actions to give effect to the adoption of the Committee Determination.

20. HOW IS THE COUPON AMOUNT CALCULATED?

The Securities issued under the Programme may pay either (a) fixed amounts of coupon, (b) variable amounts of coupon or (c) no coupon at all.

20.1 Fixed Coupon Rate

Securities bearing or paying a fixed coupon rate will pay a specified fixed coupon amount on specified coupon payment dates.

The fixed coupon rate may apply to the Securities for the duration of the Securities or for a limited period of time during the life of the Securities. The coupon amount in respect of each coupon period will be calculated on the basis of the day count fraction (if any and as specified in the applicable Issue Terms) and will be payable on specified coupon payment dates.

Investors should be aware that the fixed coupon rate may be less than prevailing interest rates and the prevailing costs of borrowing.

20.2 Floating and other variable Coupon Rate

Securities bearing or paying a floating or other variable coupon rate may either pay a variable coupon amount on specified coupon payment dates or, depending on the fulfilment of certain conditions, pay a variable coupon amount on specified coupon payment dates. The coupon amount payable may be reduced by a fall in the floating or other variable rate.

The floating or other variable coupon rate may apply to the Securities for the duration of the Securities or for a limited period of time during the life of the Securities. Interest in respect of each coupon period will be calculated on the basis of the day count fraction (if any and as specified in the applicable Issue Terms) and will be payable on specified coupon payment dates.

Floating or other variable coupon rates may be determined by reference to a rate determined:

- (a) on the basis of the Reference Rate (as further described in Commonly Asked Question 4 (*What are the Reference Assets to which the Securities may be linked*) above) appearing on the agreed screen page of a (commercial) quotation service or an agreed website. If the Reference Rate for coupon payments is a CMS or other swap rate, the floating rate will be determined by reference to the relevant reference page. The rate is reset periodically. Details of the relevant CMS or other swap rate will be specified in the applicable Issue Terms; or
- (b) in the case of Exempt Securities, on such other basis as may be specified in the applicable Pricing Supplement.

In addition, a margin (if specified in the applicable Issue Terms) may be applied to the floating or other variable coupon rate.

20.3 Other

Coupon bearing Securities may be issued which bear or pay a coupon amount based on any combination of the above, for example bearing or paying coupon based on a combination of fixed and variable rates.

20.4 Fixed to floating switch

The Issuer may (if specified in the applicable Issue Terms) elect on a designated day to switch the rate by reference to which the coupon amount payable in respect of the Securities is calculated from a fixed rate to a floating rate (such switch would take effect from (and including) the designated day). Alternatively, the Securities may instead provide that the switch from a fixed rate to a floating rate happens automatically on the designated date. If the Issuer exercises this right, the return on an investor's investment may be lower than if the Issuer had not switched the rate.

20.5 Floating to fixed switch

The Issuer may (if specified in the applicable Issue Terms) elect on a designated day to switch the rate by reference to which the coupon amount payable in respect of the Securities is calculated from a floating rate to a fixed rate (such

switch would take effect from (and including) the designated day). Alternatively, the Securities may instead provide that the switch from a floating rate to a fixed rate happens automatically on the designated date. If the Issuer exercises this right, the return on an investor's investment may be lower than if the Issuer had not switched the rate.

20.6 ***Cap/Floor***

If specified in the applicable Issue Terms, the variable coupon rate used to calculate the coupon amount payable in respect of the Securities may be subject to a floor (meaning that regardless of the level of such variable rate, it shall never fall below a certain level (i.e. the floor) for the purposes of calculating the coupon amount payable) and/or a cap (meaning that regardless of the level of such variable rate, it shall never be greater than a certain level (i.e. the cap) for the purposes of calculating the coupon amount payable, even if the actual market level of such variable rate was greater than the cap).

20.7 ***Credit Linked***

The coupon amount payable in respect of the Securities may be linked to the credit risk of one or more Reference Entities. Please see Commonly Asked Question 21.13 "*Are the payment of coupon amounts under the Securities effected by the occurrence of an Event Determination Date?*" and Commonly Asked Question 21.14 "*Can payments of coupon amounts under the Securities be suspended by the Calculation Agent if a Potential Credit Event has occurred?*" below.

20.8 ***Range Accrual***

The coupon amount payable in respect of the Securities may be calculated on the basis of a variable rate determined by observing the Reference Rate (as further described in Commonly Asked Question 4 (*What are the Reference Assets to which the Securities may be linked*) above) at specified points (calendar days) within a specified period (referred to as the Accrual Period) and within a certain specified range. The coupon amount payable in respect of the Securities will be calculated based on the frequency with which the Reference Rate falls within the specified range during the relevant Accrual Period. The fewer the number of calendar days the Reference Rate falls within this range during the relevant Accrual Period, the lower the relevant rate and therefore the coupon amount payable in respect of such Accrual Period. As a result, the level of the coupon amount payable in respect of the Securities, and therefore the market value of the Securities, may be more volatile than for floating rate securities that do not include this feature (and may be equal to zero).

20.9 ***Zero Coupon Securities***

Zero Coupon Securities do not pay a coupon amount but instead will pay at redemption an amount which reflects the Nominal Amount (in the case of Notes) or Notional Amount or Reference Amount, as the case may be (in the case of Certificates), as may be multiplied by a specified Additional Rate. In the absence of coupon amounts, the difference between the redemption amount and the issue price of such Securities constitutes the return on the Securities. However, no Additional Rate will be applied if an Event Determination Date has occurred and therefore, in such circumstances an investor will not only not receive any coupon amount but will also not receive any return determined by reference to the Additional Rate.

21. **WHAT ARE CREDIT LINKED SECURITIES?**

Securities issued under the Programme are "Credit Linked Securities", being Securities in respect of which the amount payable at redemption and/or the coupon amount (if any) are linked to the credit risk of one or more Reference Entities (as defined in Commonly Asked Question 4 "*What are the Reference Assets to which Securities may be linked?*").

In exchange for a higher coupon or other return on the Securities in the absence of a Credit Event (as described below in Commonly Asked Question 21.5 "*What is a Credit Event?*") and related Event Determination Date (as described below in Commonly Asked Question 21.7 "*When can an Event Determination Date Occur?*"), you will take the risk that the amount which you receive at redemption will be less than the face value of the Security and/or that any coupon amounts you expect to receive may be reduced if a Reference Entity has, amongst other similar things, become insolvent or defaulted on its obligations, and in such circumstances you may lose some or all of your investment in the Securities.

21.1 ***What is credit risk?***

Credit risk is the risk that a Reference Entity fails to perform its obligations under a transaction or in respect of a debt obligation (including loan agreements entered into or guaranteed by such Reference Entity and securities issued or

guaranteed by such Reference Entity), when those obligations are due to be performed. This is generally (but not exclusively) as a result of a deterioration in its financial condition.

By investing in the Securities, you will be a seller of credit protection (and hence a buyer of credit risk), whilst the Issuer will be a buyer of credit protection (and therefore a seller of credit risk).

21.2 ***What is the difference between a “Credit Linked Security” and a bond issued by a Reference Entity?***

A “Credit Linked Security” gives you exposure to the credit risk of a Reference Entity without having to own a bond or other type of debt obligation of such Reference Entity. The Reference Entity itself is not a party to and has no direct involvement in the “Credit Linked Security” and you will not be able to claim against the Reference Entity for any losses you suffer as a result of a Credit Event of the Reference Entity. You will have no interest in or rights under any obligation of a Reference Entity. An investment in the Securities is not equivalent to an investment in the obligations of a Reference Entity.

The Issuer is not obliged to hold any obligation of the Reference Entity or otherwise have credit risk exposure to the Reference Entity.

In addition to the credit risk of the relevant Reference Entity to which the Securities are linked, you will also be exposed to the credit risk of the Issuer, so even if the Reference Entity is performing well, you may still suffer a loss if the Issuer's creditworthiness declines or it goes bankrupt (see Commonly Asked Question 5 “*Is the market value and amounts payable in respect of your Securities subject to the credit risk of the Issuer?*” above).

21.3 ***What are the types of “Credit Linked Securities” issued under the Programme?***

The following types of “Credit Linked Securities” may be issued under the Programme:

- (a) *Single Reference Entity Securities*: Securities linked to the creditworthiness of a single Reference Entity under which the amount of principal and coupon (if any) payable by the Issuer is dependent on whether a Credit Event has occurred in respect of such Reference Entity;
- (b) *FTD Securities*: Securities linked to the creditworthiness of more than one Reference Entity under which the amount of principal and coupon (if any) payable by the Issuer is dependent on whether a Credit Event has occurred in respect of the “first to default” of such Reference Entities; and
- (c) *Basket Securities*: Securities linked to the creditworthiness of a portfolio of Reference Entities. Under Basket Securities the amount of principal and coupon (if any) payable by the Issuer is dependent on whether a Credit Event in respect of one or more of Reference Entities has occurred. The portfolio of Reference Entities may in some cases be determined in relation to the portfolio of Reference Entities comprising a credit default swap index.

21.4 ***What is ISDA?***

The International Swaps and Derivatives Association, Inc. (“ISDA”) is a trade organisation of participants in the market for over-the-counter derivatives. It is headquartered in New York, and is responsible for creating standardised contracts such as the ISDA Master Agreement and the 2014 ISDA Definitions and a wide range of related documentation, that are used to enter into derivatives transactions. Definitions, confirmations and other documents and information published by ISDA are available on ISDA's website: www.isda.org. Certain publications are available free of charge while others are available to subscribers of the website only.

21.5 ***What is a Credit Event?***

A Credit Event is, broadly speaking, an event which is regarded as being indicative of a default or material decline in the creditworthiness of a Reference Entity.

The Product Conditions specify seven “Credit Events” which may apply to a Reference Entity. Such Credit Events are:

- (a) *Bankruptcy*: broadly, one or more reference entities becomes insolvent or enters into formal bankruptcy or rehabilitation proceedings or an administrator is appointed;
- (b) *Failure to Pay*: subject to a minimum threshold amount, the relevant Reference Entity fails to pay any amounts due on any of its borrowings (including its bonds or loans) or guarantees;

- (c) *Obligation Acceleration*: the relevant Reference Entity defaults on a minimum amount of its borrowings (including its bonds or loans) or guarantees and as a result such obligations are accelerated;
- (d) *Obligation Default*: the relevant Reference Entity defaults on a minimum amount of its borrowings (including its bonds or loans) or guarantees and as a result such obligations are capable of being accelerated;
- (e) *Restructuring*: following a deterioration of the relevant Reference Entity's creditworthiness, any of its borrowings or guarantees, subject to a minimum threshold amount of such borrowings or guarantees, are restructured in such a way as to adversely affect a creditor (such as a reduction or postponement of the interest or principal payable on a bond or loan);
- (f) *Repudiation/Moratorium*: (i) the relevant Reference Entity repudiates or rejects, in whole or in part, its obligations in relation to its borrowings or its guarantees, or it declares or imposes a moratorium with respect to its borrowings or guarantees and (ii) thereafter within a certain period it fails to pay any amounts due on any of its borrowings (including its bonds or loans) or its guarantees, or it restructures any of its borrowings or guarantees in such a way as to adversely affect a creditor; and
- (g) *Governmental Intervention*: as a result of the action taken or announcement made by a governmental authority pursuant to, or by means of, a restructuring and resolution law or regulation (or any other similar law or regulations) applicable to the relevant Reference Entity, certain binding changes are made to the relevant obligations of the relevant Reference Entity. The changes include, without limitation, a reduction in the rate or amount (as applicable) of interest, principal or premium payable when due, a postponement or other deferral of the date or dates for payment of interest, principal or premium, a change in the ranking in priority of payment of any obligation, or a mandatory cancellation, conversion or exchange,

in each case, subject to and as more fully described in the Product Conditions.

Note that a Credit Event will occur regardless of whether it occurs due to (for example) the relevant Reference Entity not being authorised to incur the relevant obligation, the illegality or unenforceability of any obligation, applicable law or regulation or an order of a court or tribunal or any exchange controls or capital requirements being imposed.

21.6 *What Credit Events apply to the Securities?*

In respect of each issue of Securities, the types of Credit Events which may apply in relation to a specified Reference Entity will vary depending on the identity of each Reference Entity and will be determined either by reference to market standards that relate to credit default swaps, as described below, or will be specified in the relevant Issue Terms.

Credit default swaps are transactions in which settlement is triggered by the occurrence of a Credit Event of a particular Reference Entity or Reference Entities referenced in the terms of such transaction. A buyer of credit protection will make one or more payments of premium to the seller of credit protection. In exchange, the seller of credit protection agrees to make payment to the buyer of credit protection following the occurrence of a Credit Event and subject to satisfaction of certain conditions.

Credit default swaps are typically entered into on the basis of standard definitions and provisions published by ISDA. Certain terms of credit default swaps are subject to negotiation between the parties, for example the maturity of each transaction and the price of credit protection purchased. However, many key terms of credit default swaps - for example, the applicable Credit Events - are typically determined by reference to a matrix of market standard terms published by ISDA (the "**Physical Settlement Matrix**"), which recognises a variety of standard terms based on the nature of the relevant Reference Entity (corporate, sovereign, etc.) and its location (Europe, North America etc.). As at the date of this Securities Note, the current version of the Physical Settlement Matrix is available free of charge on ISDA's website at www.isda.org.

The Issue Terms will specify a "Transaction Type" with respect to the relevant Reference Entity. Certain terms of the Securities will be determined for such "Transaction Type" by reference to the most recent version of the Physical Settlement Matrix published by ISDA as at the Trade Date of such Securities. Such terms may vary between particular series of Securities depending on the relevant "Transaction Type" which applies. Furthermore the Physical Settlement Matrix is updated regularly by ISDA and accordingly different Series of Securities may refer to different versions of the Physical Settlement Matrix.

21.7 *When can an Event Determination Event occur?*

An Event Determination Date may occur at any time during the period from, and including, the Credit Event Backstop Date to, and including, the Credit Period End Date (as specified in the applicable Issue Terms and subject to extension

in certain circumstances). You should be aware that Credit Events occurring prior to the Trade Date may, depending on the Conditions of the Securities, be taken into account for the purposes of the Securities.

The Credit Event Backstop Date may fall as early as:

- (a) if "Lookback" is specified as "Applicable" in the relevant Issue Terms (or "Lookback" is not specified as "Not Applicable" in the relevant Issue Terms), and (i) if a Credit Derivatives Determinations Committee (a "CDDC") (see Commonly Asked Question 21.16 (*What are the Credit Derivatives Determinations Committees and how do they affect the Securities?*) below) receives a request to resolve whether or not a Credit Event has occurred in relation to a Reference Entity, 60 calendar days prior to the date of such request; or (ii) otherwise, the date that is 60 calendar days prior to the Trade Date in respect of the relevant Securities; or
- (b) if "Lookback" is specified as "Not Applicable" in the relevant Issue Terms, the Trade Date in respect of the relevant Securities.

Subject as more fully described in the Product Conditions, an Event Determination Date may occur:

- (i) as a result of the publication by ISDA of a resolution by a CDDC that a Credit Event has occurred in relation to that Reference Entity (in which case the Event Determination Date will be the date of the relevant request for a resolution); or
- (ii) in the absence of a resolution of a CDDC, if the Calculation Agent delivers to the Issuer a notice and, if applicable, supporting information derived from specified sources (that is, public news or information sources, the Reference Entity itself, court or other public filings or paying agents, trustees or other intermediaries appointed in respect of obligations of the Reference Entity), in order to trigger settlement of the Securities following a Credit Event.

21.8 ***What are the consequences for the Securities if an Event Determination Date occurs?***

Subject as noted in Commonly Asked Questions 21.9, 21.10 and 21.11 below, following the occurrence of a Credit Event and related Event Determination Date with respect to a Reference Entity:

- (a) Securities which are "Single Reference Entity Securities" or "FTD Securities" will be subject to redemption in whole by payment to the holders of the Redemption Amount; and
- (b) Securities which are "Basket Securities" will be subject to redemption in part by payment to the holders of the Partial Redemption Amount.

In addition, if the relevant Event Determination Date relates to an M(M)R Restructuring Credit Event, if the Calculation Agent so elects, the Securities will be partially redeemed (see Commonly Asked Question 21.12 "*How much will holders receive if the Securities are partially redeemed following an M(M)R Restructuring?*") below.

21.9 ***How is the Redemption Amount or Partial Redemption Amount calculated?***

The Redemption Amount or Partial Redemption Amount is the cash amount which is payable to each holder on redemption or partial redemption (as the case may be) of the Securities. If an Event Determination Date has occurred in respect of a Reference Entity and where "Auction Settlement" applies to the Securities (as described further at Commonly Asked Question 21.10 "*How is the Final Redemption Amount determined if Auction Settlement applies?*" below), unless the Securities are "Fixed Recovery Securities", "Final Redemption Capital Protected Securities" or "Zero Recovery Principal Amount Reduction Securities", the Redemption Amount or Partial Redemption Amount will be determined based on the price of certain eligible obligations of such Reference Entity ("**Deliverable Obligations**"), which may be loans, bonds or other obligations issued directly by such Reference Entity or obligations in respect of which such Reference Entity acts as guarantor (or in certain cases a related asset package), on a specified date following the occurrence of a Credit Event with respect to such Reference Entity. The price of such Deliverable Obligations will be determined by an Auction (as defined below).

Where there is no Auction (as defined below), or where "Cash Settlement" applies in respect of the Securities, the Redemption Amount or Partial Redemption Amount will be determined on a valuation date selected by the Calculation Agent following the occurrence of a Credit Event with respect to such Reference Entity based on bid quotations received by the Calculation Agent from third party dealers for certain eligible obligations of such Reference Entity ("**Valuation Obligations**") that are selected by the Calculation Agent in accordance with the terms of the Securities.

Where the Securities are "First to Default Securities" that are not "Fixed Recovery Securities", "Final Redemption Capital Protected Securities" or "Zero Recovery Principal Amount Reduction Securities", the Redemption Amount

will be calculated by reference to the price of Deliverable Obligations or Valuation Obligations, as applicable, in respect of the first Reference Entity in respect of which an Event Determination Date has occurred.

Fixed Recovery Securities

If an Event Determination Date has occurred in respect of a Reference Entity and the Securities are “Fixed Recovery Securities” and:

- (a) “Single Reference Entity Securities” or “FTD Securities”, the Securities will be redeemed in full and a holder of a Security will receive on the tenth business day following the occurrence of the Event Determination Date the Redemption Amount equal to the product of (i) a fixed percentage (as specified in the applicable Issue Terms) and (ii) the Nominal Amount (in the case of Notes) or Notional Amount or Reference Amount, as the case may be (in the case of Certificates) of such Security; or
- (b) “Basket Securities”, the Securities will be redeemed in part and a holder of a Security will receive on the tenth business day following the occurrence of the Event Determination Date the Partial Redemption Amount equal to the product of (i) a fixed percentage (as specified in the applicable Issue Terms) and (ii) the portion of the Nominal Amount (in the case of Notes) or Notional Amount or Reference Amount, as the case may be (in the case of the Certificates) of such Security, calculated in accordance with the Product Conditions in relation to such Reference Entity’s weighting in the portfolio.

Final Redemption Capital Protected Securities

If an Event Determination Date has occurred in respect of a Reference Entity and the Securities are “Final Redemption Capital Protected Securities”, the Securities will be redeemed in full and a holder of a Security will receive on the Maturity Date (in the case of Notes) or the Redemption Date (in the case of Certificates) (such dates subject to any postponement in accordance with the Product Conditions) the Redemption Amount equal to:

- (a) where the Securities are “Single Reference Entity Securities” or “FTD Securities”, the product of (i) the “Capital Protection Percentage” (as specified in the applicable Issue Terms) and (ii) the Nominal Amount (in the case of Notes) or Notional Amount or Reference Amount, as the case may be (in the case of Certificates) of such Security; or
- (b) where the Securities are “Basket Securities”, the sum of:
 - (i) if an Event Determination has occurred in respect to a Reference Entity in the portfolio, the product of (1) the “Capital Protection Percentage” (as specified in the applicable Issue Terms) and (2) the portion of the Nominal Amount (in the case of Notes) or Notional Amount or Reference Amount, as the case may be (in the case of Certificates) of such Security, calculated in accordance with the Product Conditions in relation to the Reference Entity’s weighting in the portfolio; and
 - (ii) if an Event Determination has not occurred in respect of a Reference Entity in the portfolio, an amount equal to the portion of the Nominal Amount (in the case of Notes) or Notional Amount or Reference Amount, as the case may be (in the case of Certificates) of such Security calculated in accordance with the Product Conditions in relation to such Reference Entity’s weighting in the portfolio.

For the avoidance of doubt, notwithstanding the occurrence of a Credit Event and related Event Determination Date in respect of a Reference Entity, Final Redemption Capital Protected Securities will continue to redeem on the Maturity Date (in the case of Notes) or the Redemption Date (in the case of Certificates).

Zero Recovery Principal Amount Reduction Securities

If an Event Determination Date has occurred in respect of a Reference Entity and the Securities are “Zero Recovery Principal Amount Reduction Securities” and:

- (i) “Single Reference Entity Securities” or “FTD Securities”, the Securities will cease to pay coupon amounts and will be cancelled on the relevant Event Determination Date at zero and the holders of the Securities will lose their entire investment; or
- (ii) “Basket Securities”, the Securities will be partially cancelled on the relevant Event Determination Date in respect of a portion of the outstanding nominal amount (in the case of Notes) or outstanding notional amount (in the case of Certificates) of such Security calculated in accordance with the Product Conditions in relation to such Reference Entity’s weighting in the portfolio. In such circumstances, the loss suffered by investors

on a Credit Event occurring in respect of a Reference Entity will be equal to the entire weighting of that Reference Entity in the portfolio.

21.10 ***How is the Redemption Amount or Partial Redemption Amount determined if “Auction Settlement” applies?***

If "Auction Settlement" applies to the Securities, the Redemption Amount or Partial Redemption Amount (as the case may be) will be determined by reference to a price determined by way of a credit derivatives auction sponsored by ISDA (an "Auction"). The Auction will involve a bidding process by institutions participating in the relevant Auction, pursuant to a bidding procedure set by ISDA, to establish the value of Deliverable Obligations of the relevant Reference Entity (or, in certain cases, a related asset package; see below). The Issuer, the Calculation Agent or its affiliates may act as a participating bidder in any such Auction and may submit bids and offers with respect to the Deliverable Obligations of the Reference Entity or the components of the relevant asset package.

Deliverable Obligations will include obligations of the relevant Reference Entity which satisfy (or, in certain cases, which satisfied, prior to the occurrence of particular Credit Events) certain specified "Deliverable Obligation Categories" and "Deliverable Obligation Characteristics" and may include a wide variety of obligations of the relevant Reference Entity, including bonds, loans, guarantees, payments due under derivatives and repos, trade debts and deposits. The applicable Deliverable Obligation Category and Deliverable Obligation Characteristics are specified in the Standard and will vary from one Reference Entity to another depending on the "Transaction Type" specified in the relevant Issue Terms.

The outcome of any Auction is likely to reflect the prevailing price of the cheapest relevant obligation of the Reference Entity.

In certain circumstances, an Auction may occur in relation to a package of assets received by a holder of one or more obligations of the relevant Reference Entity in connection with the occurrence of a particular Credit Event. An asset package may be comprised of one or a combination of financial or non-financial instruments. Where any component of an asset package is a non-financial instrument, a value may be determined and published by ISDA in respect of that instrument without the need for an auction.

Where "Auction Settlement" applies to the Securities and an Auction occurs, the Redemption Amount or Partial Redemption Amount payable in respect of a Security will be an amount equal to the product of:

- (a) the denomination of the Security (or, in the case of Basket Securities, a portion thereof calculated in accordance with the Product Conditions in relation to the weighting of such Reference Entity in the portfolio); and
- (b) the price (expressed as a percentage) determined through the Auction for certain obligations of such Reference Entity.

In such a case, the Redemption Amount or Partial Redemption Amount will be payable on (i) the day falling the second business day after the date on which such price is determined by the Calculation Agent (or such other date as specified in the applicable Issue Terms) or (ii) if the Securities are "Loss at Final Redemption Securities", the later of (1) the date at (i) above or (2) the Maturity Date (in the case of Notes) or the Redemption Date (in the case of Certificates) (such dates subject to any postponement in accordance with the Product Conditions).

The Redemption Amount or Partial Redemption Amount in such circumstances is likely to be lower than the par value of the Deliverable Obligations of the Reference Entity and will be reflective of a loss experienced by the holder of such Deliverable Obligations. Moreover, the price is likely to reflect the lowest prevailing market value of any Deliverable Obligation.

See further the Appendix to the Product Conditions (*Auction Settlement Terms*) a more detailed description of the auction process.

For the avoidance of doubt, "Auction Settlement" shall not apply to Securities which are "Fixed Recovery Securities", "Final Redemption Capital Protected Securities" or "Zero Recovery Principal Amount Reduction Securities".

21.11 *How is the Redemption Amount or Partial Redemption Amount determined if “Auction Settlement” does not apply?*

If there is not and will not be a relevant Auction for the purposes of the Securities in relation to a particular Event Determination Date or if “Cash Settlement” is specified to apply in respect of the Securities and unless the Securities are “Fixed Recovery Securities”, “Final Redemption Capital Protected Securities” or “Zero Recovery Principal Amount Reduction Securities”, then the Redemption Amount or Partial Redemption Amount will be determined on a valuation date selected by the Calculation Agent on the basis of the bid quotations sought by the Calculation Agent from third party dealers for the Valuation Obligations of the relevant Reference Entity selected in accordance with the terms of the Securities (including, as applicable, a related asset package). The Calculation Agent will be entitled to select the cheapest Valuation Obligation(s) for valuation. This will reduce the Redemption Amount or Partial Redemption Amount payable to the holders of the Securities.

In such case, the Redemption Amount or Partial Redemption Amount payable in respect of a Security will be equal to the product of:

- (a) the Nominal Amount (in the case of Notes) or Notional Amount or Reference Amount, as the case may be (in the case of Certificates) of such Security (or, in the case of Basket Securities, a portion thereof calculated in accordance with the Product Conditions in respect the weighting of such Reference Entity in the portfolio); and
- (b) the price (expressed as a percentage) determined on the basis of bid quotations sought by the Calculation Agent from third party dealers for the Valuation Obligations of the relevant Reference Entity selected by the Calculation Agent in accordance with the Product Conditions.

In such a case, the Redemption Amount or Partial Redemption Amount will be payable on (i) the day falling the second business day after the date on which such price is determined by the Calculation Agent (or such other date as specified in the applicable Issue Terms) or (ii) if the Securities are “Loss at Final Redemption Securities”, the later of (1) the date at (i) above or (2) the Maturity Date (in the case of Notes) or the Redemption Date (in the case of Certificates) (such dates subject to any postponement in accordance with the Product Conditions).

For the avoidance of doubt, “Cash Settlement” as described in this section shall not apply to Securities which are “Fixed Recovery Securities”, “Final Redemption Capital Protected Securities” or “Zero Recovery Principal Amount Reduction Securities”.

21.12 *How much will holders receive if the Securities are partially redeemed following an M(M)R Restructuring?*

If an M(M)R Restructuring Credit Event occurs with respect to the Securities, then, in certain cases, the Calculation Agent may elect to trigger a partial redemption of the Securities.

If the Issuer exercises such right to partially redeem the Securities, each Security will be redeemed in part by an amount that is less than the entire credit protection purchased and sold under the Securities in relation to the Reference Entity (the “**Credit Position**”) with respect to which the M(M)R Restructuring Credit Event occurred (such partial amount the “**Exercise Amount**”). The relevant redemption amount payable is then determined only in respect of such Exercise Amount. The Credit Position is reduced by such Exercise Amount and subsequent determinations of interest and principal under the Securities are determined only in respect of the remaining Credit Position following such reduction.

21.13 *Are the payment of coupon amounts under the Securities effected by the occurrence of an Event Determination Date?*

If an Event Determination Date occurs and the Securities are not “Non Credit Linked Coupon Securities”, coupon amounts may cease to accrue, either in whole or in part, from (and including) the start of the coupon period in which such Event Determination Date occurs or, if “Credit Event Accrued Coupon Securities” is specified in the applicable Issue Terms, from (and including) such Event Determination Date, and investors will receive no or a reduced return on their investment for the remainder of the life of the Securities, notwithstanding that the Securities may remain outstanding until the Maturity Date (in respect of Notes) or Redemption Date (in respect of Certificates).

In a worst case scenario, in respect of Single Reference Entity Securities, provided that the Securities are not Credit Event Accrued Coupon Securities, if an Event Determination Date has occurred prior to the first coupon amount, no coupon amount will be payable in respect of the Securities and investors will receive no return on their investment.

21.14 ***Can payments of coupon amounts under the Securities be suspended by the Calculation Agent if a Potential Credit Event has occurred?***

If, in the determination of the Calculation Agent, on the last day of a coupon period (other than the last coupon period) a Potential Credit Event has occurred but an Event Determination Date has not occurred with respect to a Reference Entity, the payment of any coupon amount in respect of such coupon period may be suspended, notwithstanding that an Event Determination Date has not occurred. In such circumstances, if an Event Determination Date has not occurred on or prior to the relevant coupon payment date for the following coupon period, the coupon amount that would otherwise have been payable in respect of the earlier coupon period may be payable on that next coupon payment date or, if later and applicable, the next succeeding coupon payment date in respect of which, two days before such coupon payment date, the relevant DC Resolution is no longer pending. No further or other amount in respect of such coupon amount shall be payable and no additional amount shall be payable in respect of such delay.

21.15 ***In what circumstances might the maturity of the Securities be extended?***

In certain circumstances, redemption of the Securities may be extended beyond the Scheduled Maturity Date (in the case of Notes) or the Scheduled Redemption Date (in the case of Certificates) even where no Event Determination Date is ultimately deemed to have occurred. For example, if a resolution of a CDDC as to the occurrence of a Credit Event is pending as at the Scheduled Maturity Date (in the case of Notes) or Scheduled Redemption Date (in the case of Certificates) or pending determination of whether a potential Credit Event which occurred on or prior to the Credit Period End Date will become an actual Credit Event within a specified period of time after the Scheduled Maturity Date (in the case of Notes) or Scheduled Redemption Date (in the case of Certificates).

For example, where Grace Period Extension is applicable in respect of the Reference Entity, if a potential Failure to Pay Credit Event occurs prior to the Credit Period End Date and a grace period applies so that the relevant Reference Entity has a period of time in which to try and cure such potential "Failure to Pay" (the end of such period is referred to as the "**Grace Period Extension Date**"), the Maturity Date (in the case of Notes) or Redemption Date (in the case of Certificates) of the Securities may be extended beyond its Scheduled Maturity Date (in the case of Notes) or Scheduled Redemption Date (in the case of Certificates) pending a potential cure of such failure to pay within the applicable grace period.

Similarly, where Repudiation/Moratorium is applicable in respect of the Reference Entity, the Maturity Date (in the case of Notes) or Redemption Date (in the case of Certificates) of the Securities may be extended pending an evaluation as to whether a potential Repudiation/Moratorium Credit Event (the end of such evaluation period is referred to as the "**Repudiation/Moratorium Evaluation Date**") which has occurred prior to the Credit Period End Date will become an actual Repudiation/Moratorium Credit Event.

In such cases the Calculation Agent may extend the final redemption of the Securities beyond their Scheduled Maturity Date (in the case of Notes) or Scheduled Redemption Date (in the case of Certificates) until the Repudiation/Moratorium Evaluation Date or the Grace Period Extension Date (as applicable). In addition, the Calculation Agent may extend the period during which the relevant Credit Event may occur to end on the later of (i) the Credit Period End Date, (ii) the Grace Period Extension Date and (iii) the Repudiation/Moratorium Evaluation Date (the "**Extension Date**").

If on (a) the Scheduled Maturity Date, (b) the Repudiation/Moratorium Evaluation Date or (c) the Grace Period Extension Date (as applicable), an Event Determination Date has not occurred but in the determination of the Calculation Agent a Credit Event, a potential Failure to Pay Credit Event or (if applicable) a potential Repudiation/Moratorium Credit Event may have occurred, the Calculation Agent may extend the Maturity Date (in the case of Notes) or Redemption Date (in the case of Certificates) to the "**Postponed Maturity Date**" or "**Postponed Redemption Date**" (as applicable) of the Securities. If no Event Determination Date ultimately occurs, the "**Postponed Maturity Date**" (in the case of Notes) or the "**Postponed Redemption Date**" (in the case of Certificates) will be a date falling no later than two Business Days after the day that is 90 days after the Scheduled Maturity Date (in the case of Notes) or Scheduled Redemption Date (in the case of Certificates), the Repudiation/Moratorium Evaluation Date or the Grace Period Extension Date (as applicable). If this occurs, the Notification Period (as defined in the Product Conditions) will end on the date falling 90 calendar days after the Scheduled Maturity Date, the Repudiation/Moratorium Evaluation Date or the Grace Period Extension Date, as the case may be, or if such date is not a Business Day, the immediately succeeding Business Day.

In each case, the period of such deferral may be substantial and no interest will accrue in respect of any such deferral if an Event Determination Date occurs. Even if no Event Determination Date occurs, if "Extension Period Interest" is not specified as applicable in the relevant Issue Terms, no interest will accrue in respect of any such deferral.

21.16 ***What are the Credit Derivatives Determinations Committees and how do they affect the Securities?***

The CDDCs were established by ISDA in March 2009 to make determinations that are relevant to the majority of the credit derivatives market and to promote transparency and consistency.

You should note that a CDDC has the power to make binding decisions for the purposes of the Securities on critical issues, including:

- (a) the occurrence of a Credit Event and Event Determination Date;
- (b) whether one or more Auctions will be held in respect of any Reference Entity for which a Credit Event has occurred and the price determined in such Auction;
- (c) if one or more Auctions is to be held, what Deliverable Obligations of the Reference Entity will be used for the purposes of determining the price for each such Auction; and
- (d) the determination of the occurrence of an event, including the occurrence of a "Sovereign Succession Event" and the identity of any "Successors" (whether in connection with a Sovereign Succession Event or otherwise) (see Commonly Asked Question 21.17 "*Is it possible to change a Reference Entity?*" below).

Consequently, holders of the Securities will be bound by any such relevant decisions and the payments on the Securities and the timing of any such payments may be affected by such decisions or determinations. Questions referred to the CDDC and the results of binding votes will be published on www.isda.org.

The CDDCs are regional and there is a CDDC for each of the following five regions: the Americas, Asia (excluding Japan), Australia and New Zealand, Europe, the Middle East and Africa and Japan. The CDDC which is relevant for a particular series of Securities will be the one constituted for the region applicable to the relevant Reference Entity to which a given determination relates.

The proceedings of each CDDC will be governed by rules published from time to time by ISDA. A copy of such rules is available as at the date of this Base Prospectus free of charge at www.isda.org.

Each CDDC is composed of fifteen voting members and three non-voting consultative members. Ten of the voting members are dealer institutions, with eight serving across all regions and two potentially varying by region. The other five voting members are non-dealer institutions that serve across all regions. The three non-voting consultative members consist of one dealer institution and one non-dealer institution that serve across all regions and one dealer institution that could potentially vary by region.

As at the date of this Securities Note, the Issuer is a member of the regional Credit Derivatives Determinations Committee responsible for determining Credit Events, Successors and Sovereign Succession Events, designating a Successor and determining a Substitute Reference Obligation. Membership of Credit Derivatives Determinations Committees will generally be reviewed annually, but Deutsche Bank Aktiengesellschaft may nonetheless continue to be a member of this Credit Derivatives Determinations Committee.

21.17 ***Is it possible to change a Reference Entity?***

The Reference Entity may be changed if a "Successor" determination has been made with respect to the Reference Entity (and, in the case of a Reference Entity that is a sovereign, following the occurrence of a "Sovereign Succession Event") on or after the "Successor Backstop Date" (or, in the case of a "Universal Successor", on or after 1 January 2014), as further described at Product Condition 3.6.

21.18 ***What is a "Successor" to a Reference Entity and how can succession affect the Securities?***

If ISDA publicly announces that a CDDC has resolved that a different entity or entities has or have become successor(s) to the original Reference Entity or the Calculation Agent identifies a Successor to the original Reference Entity, for example where such successor assumes obligations of the original Reference Entity under the latter's bonds or loan, or issues bonds or incurs loans in exchange for bonds or loans of the original Reference Entity, including in certain circumstances as part of a pre-determined series of steps, to which the Securities are linked, then such entity will be deemed to be a "Successor" to the original Reference Entity.

The identity of the original Reference Entity will be treated as having been amended accordingly for the purposes of the Securities so that, following the determination or announcement of a "Successor", the Securities will be linked to the credit risk of the Successor. Where "Financial Reference Entity Terms" applies to the Securities and either "Senior

Level" or "Subordinated Level" has been specified as applicable, the successor in respect of the Securities in respect of which "Subordinated Level" is specified will follow the subordinated debt of the Reference Entity and the successor in respect of the Securities in respect of which "Senior Level" is specified will follow the senior debt (as applicable). The credit risk associated with a Successor or Successors may be different from and could be greater than the credit risk associated with the original Reference Entity.

The events which may lead to the determination or announcement of a Successor may occur at any time from and including the "Successor Backstop Date" (or, in the case of a "Universal Successor" on or after 1 January 2014).

The "Successor Backstop Date" is defined in the Product Conditions.

21.19 *Can a succession occur prior to the Trade Date of the Securities?*

Yes. The Successor Backstop Date may be prior to the Trade Date of the Securities and therefore a succession may occur prior to such Trade Date.

Holders of the Securities should conduct their own review of any recent developments with respect to a Reference Entity by consulting publicly available information. If a request has been delivered to convene a CDDC prior to the Trade Date to determine whether a succession has occurred with respect to a Reference Entity, details of such request may be found on the ISDA website <http://www.isda.org/credit>.

21.20 *What is the role of the Calculation Agent in deciding certain issues or exercising certain rights or options in respect of the Securities?*

The Calculation Agent may make certain determinations relating to the Securities, including (but not limited to) the following:

- (a) in the absence of a determination by the CDDC, whether an Event Determination Date or succession has occurred with respect to a Reference Entity;
- (b) for Securities in respect of which "Cash Settlement" applies, the calculation of the Redemption Amount on the basis of bid quotations from third party dealers;
- (c) following the occurrence of a M(M)R Restructuring Credit Event, to trigger redemption of the Securities in relation to a part or all of the Credit Position in respect of such Reference Entity; and
- (d) where there are multiple Auctions held concurrently, determining the Auction which will apply to the Securities.

Holders should note that any determination and/or calculation by the Calculation Agent shall, in the absence of manifest error, be final and binding on the Issuer and the holders of the Securities.

However, holders should note that where a determination by the Calculation Agent is overruled by a decision of the CDDC within 90 calendar days of such Calculation Agent's determination, the Calculation Agent shall defer to such CDDC determination for the purposes of the Securities provided that provided that such CDDC determination is made at least five business day before the relevant Maturity Date (in the case of Notes) or Redemption Date (in the case of Certificates).

IV. CONSENT TO USE THIS SECURITIES NOTE

V. GENERAL INFORMATION

1. Authorisation

The establishment of the Programme and the issue of Securities thereunder have been duly authorised by the competent representatives of Deutsche Bank.

The establishment of the Programme is considered to be in the ordinary course of Deutsche Bank's business and therefore was not authorised by board resolutions.

Deutsche Bank has obtained or will obtain from time to time all necessary consents, approvals and authorisations in connection with the issue and performance of its obligations under the Securities.

2. Responsibility Statement

Deutsche Bank Aktiengesellschaft (the "**Responsible Person**" and together with its subsidiaries and affiliates "**Deutsche Bank**") with its registered office at Taunusanlage 12, 60325 Frankfurt am Main, Germany accepts responsibility for the information contained in this Securities Note and the Final Terms (or the Pricing Supplement in the case of Exempt Notes) for each Tranche of Securities issued under the Programme and declares that to the best of its knowledge and belief, having taken all reasonable care to ensure that such is the case, the information contained in, or incorporated by reference into, this Securities Note is in accordance with the facts and that this Securities Note makes no omission likely to affect its import.

3. Post Issuance Information

The Issuer does not intend to provide any post-issuance information in relation to any assets underlying any issues of Securities under this Programme, except if required by any applicable law or regulation or if indicated in the applicable Issue Terms.

4. Use of Proceeds

The net proceeds from the issue of any Securities will be applied by the Issuer for its general corporate purposes. A substantial portion of the proceeds from the issue of certain Securities may be used to hedge market risk with respect to such Securities. If, in respect of any particular issue, there is a particular identified use of proceeds, this will be stated in the applicable Issue Terms.

If specified in the applicable Issue Terms, the Issuer will designate, at issuance, an amount corresponding to the net proceeds of an issuance of Green Securities for the financing and/or refinancing of Green Assets or an amount corresponding to the net proceeds corresponding to the net proceeds of an issuance of Social Securities for the financing and/or refinancing of Social Assets, as the case may be, in accordance with the Issuer's Sustainable Instruments Framework (as set out in "*General Description of the Programme – Green and Social Securities*"). If specified in the applicable Issue Terms, the projects or uses which are the subject of, or related to, any Green Assets may be aligned with the Taxonomy Regulation.

The Issue Terms may specify any estimated total expenses and the estimated net proceeds, broken down by their intended use and order of priority in each case. If the Issue Terms do neither specify that the Issuer will designate, at issuance, an amount corresponding to the net proceeds of an issuance of Green Securities for the financing and/or refinancing of Green Assets nor that the Issuer will designate, at issuance, an amount corresponding to the net proceeds of an issuance of Social Securities for the financing and/or refinancing of Social Assets, each in accordance with the Issuer's Sustainable Financing Framework, the Issuer is free in its decisions to use the proceeds from the issue of the Securities and is not obliged to invest them in any other assets.

5. Clearing Systems

The relevant Issue Terms will specify which clearing system or systems (including Euroclear, Clearstream, Luxembourg, Clearstream Frankfurt, Euroclear France or any clearing system through which Securities are

cleared) has/have accepted the relevant Securities for clearance and provide any further appropriate information.

6. **Yield**

In respect of Securities which are Fixed Rate Securities, the yield is calculated at the applicable Issue Date on the basis of the applicable Issue Price and will be specified in the applicable Issue Terms. It is not an indication of future yield.

7. **Listing and Admission to Trading Information**

Application has also been made by the Issuer to the Luxembourg Stock Exchange for Securities issued under the Programme to be listed on the Official List of the Luxembourg Stock Exchange and to be admitted to trading (i) (in the case of Non-Exempt Securities (as defined in the Section entitled "*General Description of the Programme*") on the Luxembourg Stock Exchange's regulated market or the professional segment of the regulated market of the Luxembourg Stock Exchange or (ii) (in the case of Non-Exempt Securities and Exempt Securities) on the "Euro MTF" market of the Luxembourg Stock Exchange or on the professional segment of the "Euro MTF" market of the Luxembourg Stock Exchange.

Securities issued under the Programme may also be admitted to trading or listed on the EuroTLX Market (a multilateral trading facility organised and managed by Borsa Italiana S.p.A ("**Borsa Italiana**"), which is not a regulated market for the purposes of MiFID II.

8. **Green and Social Securities**

General

The establishment of the Issuer's Sustainable Instruments Framework forms part of the Issuer's broader sustainability strategy. The Sustainable Instruments Framework provides for a methodology for its issuance of "use of proceeds" green financing instruments, including Green Securities, as well as for the issuance of "use of proceeds" social financing instruments, including Social Securities. The Sustainable Instruments Framework aligns with the 2021 edition of the Green Bond Principles and the 2023 edition of the Social Bond Principles, administered by the International Capital Market Association ("**ICMA Principles**"), and follows its four core components: Use of Proceeds, Process for Project Evaluation and Selection, Management of Proceeds, and Reporting. It also follows the ICMA Principles' recommendation regarding an external review of the Sustainable Instruments Framework, which has been conducted by Institutional Shareholder Services ESG ("**ISS ESG**"). The results thereof are documented in a second party opinion ("**Second Party Opinion**"), which confirms that the Sustainable Instruments Framework meets the ICMA Principles at the time of its publication.

The following summary information reflects the status of the Sustainable Instruments Framework as of the date of this Offering Circular. Investors should note that the Sustainable Instruments Framework may be updated at any time. The Sustainable Instruments Framework, as updated from time to time, and the Second Party Opinion are available on the website of the Issuer (https://investor-relations.db.com/creditors/prospectuses/sustainable-instruments?language_id=1) or any successor page thereto. None of the Sustainable Instruments Framework, the Second Party Opinion, any report issued by an external reviewer, or any other information contained on the aforementioned website are, and none shall be deemed to be, incorporated by reference into or form part of this Offering Circular.

Use of Proceeds

The Issuer will designate, at issuance, (i) an amount corresponding to the net proceeds from the issuance of Green Securities to finance and/or refinance green assets; and (ii) an amount corresponding to the net proceeds from the issuance of Social Securities to finance and/or refinance social assets, in each case within the Issuer's sustainable asset pool (the "**Sustainable Asset Pool**"). The Sustainable Asset Pool is composed of both loans to and investments in corporations, assets, or projects that are in line with the below requirements and support (a) the transition to a climate-friendly, energy-efficient, and environmentally sustainable global economy ("**Green Assets**"); or (b) further societal progress ("**Social Assets**"). To be eligible for inclusion in the Sustainable Asset Pool as Green Assets, the loan or investment in corporations, assets, or projects must meet at least one of the green eligibility criteria listed below ("**Green Eligibility Criteria**"). To be eligible for inclusion in the Sustainable Asset Pool as Social Assets, the loan or

investment in corporations, assets, or projects must meet at least one of the social eligibility criteria listed below (“**Social Eligibility Criteria**” and, together with the Green Eligibility Criteria, the “**Eligibility Criteria**”). Although the Sustainable Asset Pool is a single pool of assets consisting of Green Assets and Social Assets, the respective assets need to meet different eligibility criteria to qualify as either Green Assets or Social Assets. In the case of general corporate loans to be considered as a Green Asset, at least 90% of the reported revenues of the borrower organization in the relevant fiscal year prior to the inclusion into the Sustainable Asset Pool needs to be attributable to economic activities that fulfil Green Eligibility Criteria. In the case of general corporate loans to be considered as a Social Asset, at least 90% of the reported revenues of the organization in the relevant fiscal year prior to the inclusion into the Sustainable Asset Pool needs to be attributable to economic activities that fulfil Social Eligibility Criteria.

Green Eligibility Criteria and Social Eligibility Criteria may be amended and other green or social eligibility criteria might be added upon future updates of the Sustainable Instruments Framework. Such amendments or additions will not affect the eligibility of any loans or investments in corporations, assets, or projects that have already been included in the Sustainable Asset Pool based on the prevalent eligibility criteria at the time of inclusion. There will only be a single Sustainable Asset Pool but the Issuer will identify eligible assets as being either green or social, even if a certain asset may meet both, the Green Eligibility Criteria and the Social Eligibility Criteria. The below list describes the categories of Green and Social Eligibility Criteria identified in the Sustainable Instruments Framework and maps them to the relevant categories provided by the ICMA Principles and the United Nations Sustainable Development Goals (“SDGs”).¹

Green Eligibility Criteria:

- (i) Renewable Energy (SDG 7, SDG 13): renewable energy projects, including, but not limited to, wind (onshore/offshore), solar (photovoltaic/concentrated solar power), geothermal energy, hydro power and biomass.
- (ii) Energy Efficiency (SDG 7, SDG 13): development and implementation of products or technology that reduce the use of energy. Examples include, but are not limited to, energy efficient lighting (e.g. LEDs), energy storage (e.g. fuel cells), improvement in energy services (e.g. smart grid meters).
- (iii) Green Buildings (SDG 9, SDG 11, SDG 13): construction, acquisition, operation, and renovation of new and existing buildings (with a minimum energy-efficiency upgrade) in the commercial and residential real estate sector, meeting further criteria based on expert certification and energy demand subject to the date the building was built.
- (iv) Clean Transportation (SDG 9, SDG 11, SDG 13): development, manufacture, acquisition, financing, leasing, renting, and operation of means of clean transportation, including required and dedicated components, for rail and road transport (passenger and freight), water transport (passenger and freight), personal mobility or transport devices, and infrastructure for low-carbon transport (land and water) based on low or zero tailpipe emissions of the means of transportation.
- (v) Information and Communications Technology (ICT) (SDG 9, SDG 13): acquisition and capital expenditure relating to energy-efficient data centers and equipment (buildings, cooling, power and data distribution equipment, and monitoring systems) for data processing, hosting, and related activities – storage, manipulation, management, movement, control, display, switching, interchange, transmission, or processing of data through data centers, including edge computing.

Social Eligibility Criteria:

- (i) Affordable Housing (SDG 10, SDG 11): development and provision of adequate and affordable housing for disadvantaged population or communities (with country specific approaches for defining criteria to qualify as disadvantaged population or communities).
- (ii) Access to essential services (SDG 3, SDG 11): promotion and enhancement of access to seniors’ housing with special care.

¹ SDG3: Good health and well-being; SDG 7: Affordable and clean energy; SDG 9: Industry, innovation and infrastructure; SDG10: Reduced inequalities; SDG 11: Sustainable cities and communities; SDG 13: Climate Action

The Issuer explicitly excludes from being eligible to the Sustainable Asset Pool any non-committed or non-performing exposures, as well as loans to businesses or investments in corporations, assets, or projects that are involved in either of the following operations: activities related to the exploration, production, storage or transportation of fossil fuels, nuclear and nuclear-related technologies, weapons, alcohol, tobacco, gambling, and adult entertainment, deforestation of primary tropical forests and degradation of forests, business activities associated with adverse human rights impacts; or activities within or in close proximity to world heritage sites, unless the respective government and UNESCO confirm that such activity will not adversely affect the site's outstanding universal value.

In addition to the requirements specific to the Green Eligibility Criteria or the Social Eligibility Criteria, all loans originated by the Issuer that are potentially eligible for inclusion in the Sustainable Asset Pool are tested against the Issuer's Environmental and Social Policy Framework ("**ES Policy Framework**"). The ES Policy Framework is designed to evaluate potential environmental and social risks that could arise from transactions or interactions with clients.

Process for Asset Evaluation and Selection

The Issuer's process for asset evaluation and selection involves the following elements:

Step 1: Green and social asset screening and preselection: Preselection of Green Assets and Social Assets by the Issuer's originating businesses based on category-specific selection criteria.

Step 2: Internal validation: The Issuer's Group Sustainability and Treasury departments bear the responsibility for performing the internal validation of preselected assets provided by the business units to confirm compliance with the Sustainable Instruments Framework's criteria and to ensure that Green Assets or Social Assets (as the case may be) do not have material negative environmental and/or social impact (as the case may be). The Group Sustainability team has full discretion to object to the inclusion of any asset, ultimately blocking them from being included in the Sustainable Asset Pool in case of any concerns.

Management of Proceeds

An amount corresponding to the net proceeds of any Green Securities issued by the Issuer under the Sustainable Instruments Framework will be designated, at issuance, to finance and/or refinance Green Assets contained in the Issuer's Sustainable Asset Pool, and an amount corresponding to the net proceeds of any Social Securities issued by the Issuer under the Sustainable Instruments Framework will be designated, at issuance, to finance and/or refinance Social Assets contained in such Sustainable Asset Pool. The Green Assets and the Social Assets (as the case may be) have to meet the respective Green Eligibility Criteria or Social Eligibility Criteria (as the case may be) and have been subject to the asset selection and evaluation process. Green Assets and Social Assets validated by the Group Sustainability team are documented in the Issuer's Sustainable Asset Inventory (the "**Inventory**"), which represents the technical record of the Sustainable Asset Pool. Flagging assets to be documented in the Inventory is a mere designation and does not imply any change in ownership, pledge, or lien for the benefit of third parties or change in assignment to a legal entity, branch, or division.

The Issuer strives, at any point in time, to maintain (i) a total amount of Green Assets equal to or larger than the total net proceeds of all Green Securities outstanding and (ii) a larger total amount of Social Assets equal to or larger than the total net proceeds of all Social Securities outstanding. The Issuer is dedicated to substitute maturing loans or other financings with an appropriate alternative as timely as practically possible. The Inventory is routinely monitored internally to detect potential shortfalls. Should a shortfall occur, the Issuer's Treasury department will direct, at its own discretion, an amount corresponding to any shortfall amount towards the Issuer's liquidity portfolio, consisting of cash and/or cash equivalents, and/or other liquid marketable instruments for which the Issuer can demonstrate that they adhere to the exclusion criteria, as referred to above and set out in its Sustainable Instruments Framework.

Reporting

As long as there are any Green Securities or Social Securities outstanding, the Issuer is committed to publish relevant information and documents regarding its Green Securities and/or its Social Securities (as the case may be) in a Sustainable Financing Instruments Report, which will be made available on its investor relations website (www.db.com/ir/) on an annual basis. The report is split into two parts – the allocation

reporting and the impact reporting. In order to ensure sustained compliance of all issued Green Securities and Social Securities with the methodology set out in the Sustainable Instruments Framework, an external reviewer is appointed as annual verifier (currently ISS ESG).

2.2 Status of the Securities

In case of Securities the ranking of which is specified in the relevant Issue Terms as preferred, such Securities constitute unsecured and unsubordinated preferred liabilities of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated preferred liabilities of the Issuer. This is subject to statutory priorities conferred to certain unsecured and unsubordinated preferred liabilities in the event of Resolution Measures imposed on the Issuer or in the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer. In accordance with § 46f(5) of the KWG, the obligations under such Securities rank in priority of those under debt instruments of the Issuer within the meaning of § 46f(6) sentence 1 KWG (also in conjunction with § 46f(9) KWG) or any successor provision, including eligible liabilities within the meaning of Articles 72a and 72b(2) CRR.

In case of Securities the ranking of which is specified in the relevant Issue Terms as non-preferred, such Securities constitute unsecured and unsubordinated non-preferred liabilities of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated non-preferred liabilities of the Issuer. This is subject to statutory priorities conferred to certain unsecured and unsubordinated non-preferred liabilities in the event of Resolution Measures imposed on the Issuer or in the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer. In accordance with § 46f(5) KWG, in the event of resolution measures being imposed on the Issuer or in the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against the Issuer, the obligations under such Securities shall rank behind the claims of unsubordinated creditors of the Issuer not qualifying as obligations within the meaning of § 46f(6) sentence 1 KWG (also in conjunction with § 46f(9) KWG) or any successor provision; this includes eligible liabilities within the meaning of Article 72b(2) CRR where point (d) of such Article does

not apply. In any such event, no amounts shall be payable in respect of the Securities until the claims of such other unsubordinated creditors of the Issuer have been satisfied in full.

If the ranking of the Securities is not specified in the relevant Issue Terms either as preferred or as non-preferred, the ranking of the Securities will be preferred (in this case the Securities should be understood as specified in the relevant Issue Terms as preferred).

2.3 **Credit linked securities**

The Securities are credit linked securities. Securities may be Single Reference Entity Securities, FTD Securities or Basket Securities (which may be Index Basket Securities or Non-Index Basket Securities). Securityholders will be exposed to the credit risk of the Reference Entity(ies). Securityholders are also exposed to the credit risk of the Issuer in performing its obligations when due under the Securities.

2.3.1 *Single Reference Entity Securities*

If the Securities are Single Reference Entity Securities, this Product Condition 2.3.1 shall apply.

If an Event Determination Date has occurred with respect to the Reference Entity, the amounts (if any) payable in respect of the Securities will be reduced and (unless the Securities are Final Redemption Capital Protected Securities) in certain circumstances no amounts may be payable in respect of the Securities. Single Reference Entity Securities may be:

- (a) Fixed Recovery Securities, in which case, if an Event Determination Date has occurred with respect to the Reference Entity, for the purpose of determining the Redemption Amount in respect thereof, the Settlement Price shall be the percentage specified as such in the relevant Issue Terms; or
- (b) Final Redemption Capital Protected Securities, in which case, if an Event Determination Date has occurred with respect to the Reference Entity, the Redemption Amount shall be determined in accordance with Product Condition 5.3 taking into account the Capital Protection Percentage (being such percentage as may be specified in the Issue Terms); or

- (e) Zero Coupon Securities which do not pay any coupon but will pay at redemption, in the absence of an Event Determination Date in respect of the Reference Entity, an amount reflecting the Nominal Amount (in the case of Notes) or Notional Amount or Reference Amount, as the case may be (in the case of Certificates), as may be adjusted by a specified Additional Rate.

Single Reference Entity Securities may pay a Coupon Amount and may be Fixed Rate Securities, Floating Rate Securities, Range Accrual Securities, Fixed/Floating Switch Option Securities, Zero Coupon Securities or Floating/Fixed Switch Option Securities in each case as specified in the relevant Issue Terms. in each case as specified in the applicable Issue Terms.

2.3.2 *Basket Securities*

If the Securities are Basket Securities, this Product Condition 2.3.2 shall apply.

If an Event Determination Date has occurred with respect to one or more Reference Entities, the amounts (if any) payable in respect of the Securities will be reduced, and (unless the Securities are Final Redemption Capital Protected Securities) in certain circumstances no amounts may be payable in respect of the Securities. Where the Securities are Basket Securities, each Security is exposed to the performance of each Reference Entity with respect to principal (save where the Securities are Final Redemption Capital Protected Securities and the Capital Protection Percentage is 100%) and Coupon Amount in respect of a portion of the Nominal Amount equal to the Reference Entity Nominal Amount for such Reference Entity. Basket Securities may be:

- (a) Fixed Recovery Securities, in which case, an Event Determination Date has occurred with respect to a Reference Entity, for the purpose of determining the Redemption Amount in respect of the related Partial Redemption Date, the Settlement Price in respect of such Reference Entity shall be the percentage specified as such in the relevant Issue Terms; or
- (b) Final Redemption Capital Protected Securities, in which case, if an Event Determination Date has occurred with respect to a Reference Entity, the Redemption Amount in respect of the related Partial Redemption Date, shall be determined in accordance with Product Condition 5.3 taking into account the Capital Protection Percentage (being 100 per cent. or such other percentage as may be specified in the relevant Issue Terms); or
- (c) Zero Recovery Principal Amount Reduction Securities, in which case, if an Event Determination Date has occurred with respect to a Reference Entity, the Securities will be partially cancelled with respect to a portion of the Nominal Amount equal to the related Reference Entity Nominal Amount in accordance with Product Condition 5.2.2; or
- (d) neither Fixed Recovery Securities, Final Redemption Capital Protected Securities nor Zero Recovery Principal Amount Reduction Securities and unless otherwise specified in the Issue Terms, in which case, if an Event Determination Date has occurred with respect to a Reference Entity, for the purpose of determining the Redemption Amount in respect of the related Partial Redemption Date, the Settlement Price shall be the percentage determined as set out in Product Condition 1 above.

Basket Securities may pay a Coupon Amount and may be Fixed Rate Securities, Floating Rate Securities, Range Accrual Securities, Fixed/Floating Switch Option Securities or Floating/Fixed Switch Option Securities, in each case as specified in the relevant Issue Terms. In addition, Basket Securities may be:

- (a) Non Credit Linked Coupon Securities, in which case the payment of any Coupon Amount shall not be contingent on the non-occurrence of a Credit Event and related Event Determination Date; or
- (b) Securities that are not Non Credit Linked Coupon Securities, in which case the payment of any Coupon Amount shall be contingent on the non-occurrence of a Credit Event and an Event Determination Date not having occurred with respect thereto in relation to all Reference Entities.

2.3.3 *FTD Securities*

If the Securities are FTD Securities, this Product Condition 2.3.3 shall apply.

If an Event Determination Date has occurred with respect to a Reference Entity, the amounts (if any) payable in respect of the Securities will be reduced, and in certain circumstances no amounts may be payable in respect of the Securities. FTD Securities may be:

- (a) Fixed Recovery Securities, in which case, if an Event Determination Date has occurred with respect to a Reference Entity, for the purpose of determining the Redemption Amount in respect thereof, the Settlement Price shall be the percentage specified as such in the relevant Issue Terms;
- (b) Zero Recovery Principal Amount Reduction Securities, in which case, if an Event Determination Date has occurred with respect to a Reference Entity, the Securities will be cancelled with respect to the entire Nominal Amount in accordance with Product Condition 3; or
- (c) neither Fixed Recovery Securities nor Zero Recovery Principal Amount Reduction Securities, in which case and unless otherwise specified in the relevant Issue Terms, if an Event Determination Date has occurred with respect to a Reference Entity, for the purpose of determining the Redemption Amount in respect thereof, the Settlement Price shall be the percentage determined as set out in Product Condition 1 above.

FTD Securities may pay a Coupon Amount and may be Fixed Rate Securities, Floating Rate Securities, Range Accrual Securities, Fixed/Floating Switch Option Securities, Floating/Fixed Switch Option Securities or Securities that pay a Coupon Amount on a different basis, in each case as specified in the relevant Issue Terms. In addition, FTD Securities may be:

- (a) Non Credit Linked Coupon Securities, in which case the payment of any Coupon Amount shall not be contingent on the non-occurrence of a Credit Event; and
- (b) Securities that are not Non Credit Linked Coupon Securities, in which case the payment of any Coupon Amount shall be contingent on the non-occurrence of a Credit Event and an Event Determination Date not having occurred with respect thereto in relation to any one Reference Entity.

In respect of FTD Securities and subject as provided in Product Condition 3.9 (if applicable) below and the definition of Event Determination Date, an Event Determination Date may only occur on one occasion and consequently a Credit Event Notice may only be delivered on one occasion. If an Event Determination Date occurs in respect of more than one Reference Entity on the same date, the Calculation Agent shall determine in good faith and a commercially reasonable manner which Reference Entity is the Reference Entity in respect of which the Event Determination Date has occurred. The Final Price or Auction Final Price, as applicable, will be that calculated or published, as applicable, in respect of the Reference Entity in respect of which the Event Determination Date has occurred, provided that, notwithstanding that Securities are FTD Securities, if a Credit Event Notice is delivered in respect of an Exercise Amount pursuant to Product Condition 3.9, a Credit Event Notice may be delivered and an Event Determination Date may occur on one further occasion in respect of a Reference Entity other than the Reference Entity the subject of such Event Determination Date, in which circumstances the provisions shall apply to the principal amount outstanding of each Security. For the avoidance of doubt, this paragraph is without prejudice to the provisions of Product Condition 3.9 and any subsequent Credit Event Notices which may be delivered and occasions on which Conditions to Settlement may be satisfied in respect of the Reference Entity the subject of the Restructuring.

3. **Credit Terms**

3.1 **Interpretation**

Any references herein to an Auction, Convened DC Voting Members, Credit Derivatives Auction Settlement Terms, Credit Derivatives Determinations Committee, DC Resolution, DC Rules, DC Secretary Announcement or Resolution (in each case howsoever described) shall be deemed to be only to that which would be relevant or applicable under or in relation to credit derivatives transactions incorporating the 2014 ISDA Definitions.

In the case of Securities for which more than one Reference Entity is specified in the applicable Issue Terms, all references to "the Reference Entity" herein shall be construed to refer to the Reference Entity in respect of which of the relevant determination falls to be made at any relevant time and all related provisions and determinations will be construed accordingly.

For the avoidance of doubt no Securities will be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (a) any relevant Reference Entity does not exist on, or ceases to exist on or following, the Trade Date; and/or
- (b) Obligations, Valuation Obligations or the Reference Obligation do not exist on, or cease to exist on or following, the Trade Date.

Any references to ISDA will include any other entity which succeeds to or is performing functions previously undertaken by ISDA in relation to Credit Derivatives Determinations Committees and references to Credit Derivatives Determinations Committees in relation to ISDA will include any successor thereto and the Calculation Agent may make such adjustments to this Product Condition 3 and the applicable Issue Terms as it determines appropriate to account for the application of these provisions.

3.2 **Inconsistency With Determinations Of The Credit Derivatives Determinations Committees**

If any determination by the Calculation Agent in respect of the Securities is overruled by a decision of the Credit Derivatives Determinations Committees (a "**Committee Determination**") within 90 calendar days of such Calculation Agent's determination, provided that such Committee Determination is made at least five Business Days before the Maturity Date, the Calculation Agent's determination shall be substituted by the Committee Determination on and from the date of such determination and the Calculation Agent shall, within a reasonable time period, make all necessary amendments to the terms of the Securities or undertake all necessary actions to give effect to the adoption of the Committee Determination.

3.3 **Credit Events**

3.3.1 *Event Determination Date*

In respect of a Reference Entity, an "**Event Determination Date**" means either:

- (a) a Credit Event Resolution Request Date occurs on or following the Trade Date and a DC Credit Event Announcement occurs with respect thereto during the Notification Period, the date on which such DC Credit Event Announcement occurred; or
- (b) if the Calculation Agent delivers a Credit Event Notice to the Issuer that is effective and if "Notice of Publicly Available Information" is specified as applying in the applicable Issue Terms, a Notice of Publicly Available Information, that is effective, in each case, during the Notification Period, the Notice Delivery Date,

provided that,

- (i) in the case of sub-paragraph (a) above, no Event Determination Date will occur with respect to an event and any Event Determination Date previously determined with respect to an event shall be deemed not to have occurred if a DC No Credit Event Announcement occurs with respect to such event prior to the Auction Final Price Determination Date, Valuation Date or Maturity Date, as applicable; and
- (ii) unless the Securities are Zero Recovery Principal Amount Reduction Securities, if following the delivery of the Credit Event Notice by the Calculation Agent, a Credit Event Resolution Request Date occurs in relation to the event referred to in the Credit Event Notice and prior to the Valuation Date or Maturity Date, as applicable:
 - (A) the Credit Event Notice is deemed to be revoked in accordance with its definition, the relevant Event Determination Date shall be deemed not to have occurred; or

- (B) a DC Credit Event Announcement occurs with respect to such event and the relevant Reference Entity or Obligation thereof, the Calculation Agent shall revoke the Credit Event Notice by giving notice to the Issuer, in which case the relevant Event Determination Date shall be deemed not to have occurred in accordance with sub-paragraph (b) above but shall be deemed to have occurred in accordance with sub-paragraph (a) above.

If, in accordance with the provisions above, (i) following the determination of an Event Determination Date, such Event Determination Date is deemed (a) to have occurred on a date that is different from the date that was originally determined to be the Event Determination Date or (b) not to have occurred or (ii) an Event Determination Date is deemed to have occurred prior to a preceding Coupon Payment Date, if any, the Calculation Agent will determine, acting in good faith and a commercially reasonable manner, (A) such adjustment(s) to these Product Conditions (including any adjustment to payment amounts) as may be required to achieve as far as practicable the same economic position of Securityholders as would have prevailed had an Event Determination Date not occurred on such deemed date of occurrence and (B) the effective date of such adjustment(s), including any reductions to the Redemption Amount necessary to reflect the fact that an Event Determination Date may have occurred prior to a preceding Coupon Payment Date, if any.

3.4 Auction Settlement

If an Event Determination Date occurs and "Auction Settlement" is specified in the applicable Issue Terms, and the Securities are being redeemed in accordance with the relevant provisions of Product Condition 5.2, the Settlement Price in respect of a Reference Entity, subject as provided in Product Condition 5.2, will be equal to the Auction Final Price in respect of such Reference Entity, provided that if the relevant Event Determination Date is subsequently deemed not to have occurred in accordance with the definition thereof, the redemption of the Securities shall be cancelled and the Securities shall continue in accordance with their terms as if the relevant Event Determination Date had not occurred, subject to such adjustments as the Calculation Agent determines appropriate acting in good faith and a commercially reasonable manner to reflect the retrospective effect of this proviso (including, without limitation, adjusting the due date for payment of any amount payable under the Securities). The Issuer shall give notice to the Securityholders in accordance with Product Condition 10 that the relevant Event Determination Date is deemed not to have occurred as soon as practicable thereafter.

If:

- (a) unless settlement has occurred in accordance with the relevant provision of Product Condition 5.2, an Event Determination Date occurs pursuant to sub-paragraph (a) of the definition thereof and on or prior to the Auction Cut-Off Date:
 - (i) a No Auction Announcement Date occurs (and, in circumstances where such No Auction Announcement Date occurs pursuant to sub-paragraphs (ii) or (iii) of the definition of No Auction Announcement Date), the Calculation Agent has not exercised the Movement Option);
 - (ii) no No Auction Announcement Date has occurred but the relevant Credit Derivatives Determinations Committee has not determined that one or more Auctions will be held in accordance with any Credit Derivatives Auction Settlement Terms in relation to obligations of appropriate seniority of the Reference Entity;
 - (iii) an Auction Cancellation Date occurs; or
 - (iv) the Calculation Agent determines that it is not reasonably likely that an Auction will be held in accordance with any Credit Derivatives Auction Settlement Terms in relation to obligations of appropriate seniority of the Reference Entity and gives notice of such to the Issuer (the date on which the Calculation Agent gives such notice, the "**Calculation Agent No Auction Determination Date**"); or
- (b) an Event Determination Date occurs pursuant to sub-paragraph (b) of the definition thereof and no Credit Event Resolution Request Date has occurred on or prior to the date falling three Business Days after such Event Determination Date,

then, the Issuer shall determine the Settlement Price in accordance with the Cash Settlement provisions set out in Product Condition 3.5.

3.5 **Cash Settlement**

If an Event Determination Date occurs and "Cash Settlement" is specified in the applicable Issue Terms or if the Cash Settlement provisions apply in accordance with Product Condition 3.4, and the Securities are being redeemed in accordance with the relevant provisions of Product Condition 5.2, the Settlement Price in respect of a Reference Entity will be equal to the Final Price in respect of such Reference Entity, provided that if the relevant Event Determination Date is subsequently deemed not to have occurred in accordance with the definition thereof, the redemption of the Securities shall be cancelled and the Securities shall continue in accordance with their terms as if the relevant Event Determination Date had not occurred, subject to such adjustments as the Calculation Agent determines appropriate acting in good faith and a commercially reasonable manner to reflect the retrospective effect of this proviso (including, without limitation, adjusting the due date for payment of any amount payable under the Securities). The Issuer shall give notice to the Securityholders in accordance with Product Condition 10 that the relevant Event Determination Date is deemed not to have occurred as soon as practicable thereafter.

3.6 **Successors**

3.6.1 *Successors*

A "**Successor**" means, in respect of a Reference Entity and subject to paragraph (c) below:

- (a) the entity or entities, if any, determined as set forth below:
 - (i) subject to paragraph (vii) below, if one entity succeeds, either directly or as a provider of a Relevant Guarantee, to 75 per cent. or more of the Relevant Obligations of the Reference Entity, that entity will be the sole Successor;
 - (ii) if only one entity succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent. (but less than 75 per cent.) of the Relevant Obligations of the Reference Entity, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than 25 per cent. of the Relevant Obligations will be the sole Successor;
 - (iii) if more than one entity each succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent. of the Relevant Obligations of the Reference Entity, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than 25 per cent. of the Relevant Obligations will each be a Successor and these Product Conditions and/or the applicable Issue Terms will be adjusted as provided below;
 - (iv) if one or more entity each succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent. of the Relevant Obligations of the Reference Entity, and more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor and these Product Conditions and/or the applicable Issue Terms will be adjusted as provided below;
 - (v) if one or more entities succeeds, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity will not be changed in any way as a result of such succession;
 - (vi) if one or more entities succeeds, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (provided that if two or more entities succeed to an equal percentage of Relevant Obligations, each such entity will be a Successor and these Product Conditions and/or the applicable Issue Terms will be adjusted as provided below); and

- (vii) in respect of a Reference Entity which is not a Sovereign, if one entity assumes all of the obligations (including at least one Relevant Obligation) of the Reference Entity, and at the time of the determination either (A) the Reference Entity has ceased to exist, or (B) the Reference Entity is in the process of being dissolved (howsoever described) and the Reference Entity has not issued or incurred any Borrowed Money obligation at any time since the legally effective date of the assumption, such entity (the "**Universal Successor**") will be the sole Successor.
- (b) The Calculation Agent will be responsible for determining, as soon as reasonably practicable after delivery of a Successor Notice and with effect from the Succession Date, any Successor or Successors under paragraph (a) above; provided that the Calculation Agent will not make such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

The Calculation Agent will make all calculations and determinations required to be made under this definition of Successor acting in good faith and a commercially reasonable manner on the basis of Eligible Information and as soon as practicable after any such calculation or determination will notify (which notification may be by telephone) the Issuer of such calculation or determination and make such calculation or determination available for inspection by Securityholder(s) at the specified office of the Agent.

In calculating the percentages used to determine whether an entity qualifies as a Successor under paragraph (a) above, if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

- (c) An entity may only be a Successor if:
 - (i) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after 1 January 2014;
 - (ii) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and
 - (iii) where the Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event.
- (d) For purposes of this definition of Successor, "**succeed**" means, with respect to a Reference Entity and its Relevant Obligations, that an entity other than the Reference Entity (i) assumes or becomes liable for such Relevant Obligations whether by operation of law or pursuant to any agreement (including, with respect to a Reference Entity that is a Sovereign, any protocol, treaty, convention, accord, concord, entente, pact or other agreement), or (ii) issues Bonds or incurs Loans (the "**Exchange Bonds or Loans**") that are exchanged for Relevant Obligations, and in either case the Reference Entity is not thereafter a direct obligor or a provider of a Relevant Guarantee with respect to such Relevant Obligations or such Exchange Bonds or Loans, as applicable. For purposes of this definition of Successor, "**succeeded**" and "**succession**" shall be construed accordingly.
- (e) In the case of an exchange offer, the determination required pursuant to paragraph (a) above shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.
- (f) If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

3.6.2 *Determination of Successors – FTD Securities*

Notwithstanding the provisions of Product Condition 3.6.1 above and sub-paragraph (b) of the definition of "Reference Entity", where the Securities are FTD Securities, Product Condition 3.6.1 above shall be subject to this Product Condition 3.6.2.

Where one or more Reference Entities (each an "**Affected Reference Entity**") and/or the Issuer would, but for this provision, be identified as a Successor pursuant thereto and at least one other entity which is not a Reference Entity or the Issuer is also identified as a "Successor" for the purposes of any succession (each such entity a "**Valid Successor**"), each Affected Reference Entity and/or the Issuer, as applicable, shall not be regarded as a "Successor" for the purposes of the Securities and each Valid Successor shall be a "Successor" for the purposes of the Securities as provided herein. Where pursuant to the provisions above or paragraph (b) of the definition of "Reference Entity", one or more Reference Entities (each an "**Affected Reference Entity**") and/or the Issuer would, but for this provision, be identified as a Successor thereto but no other entities (that are not Reference Entities or the Issuer) are identified as a Successor in respect of the relevant succession, each Affected Reference Entity and/or the Issuer, as applicable, shall not be regarded as a "Successor" for the purposes of the Securities and, in respect of each Affected Reference Entity or the Issuer, as applicable, the Calculation Agent shall use reasonable endeavours to (a) select an Alternative Reference Entity to be the Successor in respect of the relevant succession and (b) select an Alternative Reference Obligation to be the Reference Obligation in respect of such Alternative Reference Entity after the relevant succession and the Calculation Agent may make such adjustments to these Product Conditions and/or the applicable Issue Terms as it determines necessary or desirable to reflect such Alternative Reference Entity and Alternative Reference Obligation. If the Calculation Agent is unable to select an Alternative Reference Entity or an Alternative Reference Obligation, then: (i) no Successor shall be appointed; (ii) the Affected Reference Entity shall be deemed to have ceased to be a Reference Entity; and (iii) that portion of any Coupon Amount payable which is referable to the purchase of credit protection purchased by the Issuer under the Securities in respect of the Affected Reference Entity shall be reduced accordingly as determined by the Calculation Agent in good faith and a commercially reasonable manner, in each case with effect from the date determined by the Calculation Agent to be the date on which the relevant event was effective.

Where:

"Alternative Reference Entity" means an entity which satisfies both the Industry Requirement and the Spread Requirement as determined by the Calculation Agent in good faith and a commercially reasonable manner;

"Alternative Reference Obligation" means any obligation of the Alternative Reference Entity selected by the Calculation Agent in good faith and a commercially reasonable manner which, as far as practicable, in the determination of the Calculation Agent is substantially similar in economic terms to the relevant Reference Obligation of the Reference Entity to which the event leading to the determination of a Successor relates and provided that the Calculation Agent may select the Standard Reference Obligation with respect to the Alternative Reference Entity to be the Alternative Reference Obligation;

"Industry Requirement" means an entity that is in the same industry group specified by Moody's Investor Service, Inc. or any successor to the rating business thereof or Standard & Poor's Rating Services, a division of The McGraw-Hill Companies, Inc. or any successor to the rating business thereof as the Reference Entity to which the relevant event leading to the determination of a Successor relates, as determined by the Calculation Agent in good faith and a commercially reasonable manner;

"Spread" means the bid-side quotation obtained by the Calculation Agent from such leading dealer in the credit default swap market selected by the Calculation Agent in good faith and a commercially reasonable manner for a credit default swap in respect of the relevant entity with a credit protection period commencing on the date determined by the Calculation Agent to be the date of the relevant event leading to the determination of a Successor and ending on the Credit Period End Date and with the Reference Obligation(s) applicable to such entity; and

"Spread Requirement" means an entity that, as at the date of selection, has a Spread not greater than the product of (a) the Spread Requirement Percentage specified in the applicable Issue Terms and (b) the Spread of the Reference Entity to which the relevant event relates, immediately prior to the relevant event leading

to the determination of a Successor, as determined by the Calculation Agent in good faith and a commercially reasonable manner.

3.6.3 *Adjustment to the conditions following Multiple Successors*

Where more than one Successor has been determined in accordance with this Product Condition 3.6 in respect of a Reference Entity, the Calculation Agent shall adjust such of the Product Conditions and/or the applicable Issue Terms as it acting in good faith and a commercially reasonable manner shall determine to be appropriate, including without limitation:

- (a) to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner for the purposes of Product Condition 9.2 if it adjusts these Product Conditions in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Securities under the provisions of the 2014 ISDA Definitions;
- (b) the relevant Reference Entity Nominal Amount(s); and
- (c) the Reference Obligation(s) (if applicable).

Upon the Calculation Agent making any such adjustment, the Issuer shall give notice as soon as practicable to Securityholders in accordance with Product Condition 10, stating the adjustment to the Product Conditions and giving brief details of the relevant event.

3.7 **Substitute Reference Obligations**

A "**Substitute Reference Obligation**" means, with respect to a Non-Standard Reference Obligation to which a Substitution Event has occurred, the obligation that will replace the Non-Standard Reference Obligation, determined by the Calculation Agent as follows:

- (a) is a Borrowed Money obligation of the Reference Entity (either directly or as provider of a guarantee), the Calculation Agent shall identify the Substitute Reference Obligation in accordance with paragraphs (c), (d) and (e) below to replace the Non-Standard Reference Obligation; provided that the Calculation Agent will not identify an obligation as the Substitute Reference Obligation if, at the time of the determination, such obligation has already been rejected as the Substitute Reference Obligation by the relevant Credit Derivatives Determinations Committee and such obligation has not changed materially since the date of the relevant DC Resolution.
- (b) If any of the events set forth under paragraph (a) or (c) of the definition of Substitution Event have occurred with respect to the Non-Standard Reference Obligation, the Non-Standard Reference Obligation will cease to be the Reference Obligation (other than for purposes of the "Not Subordinated" Obligation Characteristic or "Not Subordinated" Valuation Obligation Characteristic and paragraph (c)(ii) below). If the event set forth in paragraph (b) of the definition of Substitution Event has occurred with respect to the Non-Standard Reference Obligation and no Substitute Reference Obligation is available, the Non-Standard Reference Obligation will continue to be the Reference Obligation until the Substitute Reference Obligation is identified or, if earlier, until any of the events set forth under paragraph (a) or (c) of the definition of Substitution Event occur with respect to such Non-Standard Reference Obligation.
- (c) The Substitute Reference Obligation shall be an obligation that on the Substitution Date:
 - (i) is a Borrowed Money obligation of the Reference Entity (either directly or as provider of a guarantee);
 - (ii) satisfies the Not Subordinated Valuation Obligation Characteristic as of the date it was issued or incurred (without reflecting any change to the priority of payment after such date) and on the Substitution Date; and

- (iii) (A) if the Non-Standard Reference Obligation was a Conforming Reference Obligation when issued or incurred and immediately prior to the Substitution Event Date:
 - (I) is a Valuation Obligation (other than a Loan) determined in accordance with paragraph (a) of the definition of Valuation Obligation; or if no such obligation is available,
 - (II) is a Loan (other than a Private-side Loan) which constitutes a Valuation Obligation determined in accordance with paragraph (a) of the definition of Valuation Obligation;
 - (B) if the Non-Standard Reference Obligation was a Bond (or any other Borrowed Money obligation other than a Loan) which was a Non-Conforming Reference Obligation when issued or incurred and/or immediately prior to the Substitution Event Date:
 - (I) is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,
 - (II) is a Valuation Obligation (other than a Loan) determined in accordance with paragraph (a) of the definition of Valuation Obligation; or if no such obligation is available,
 - (III) is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such obligation is available,
 - (IV) is a Loan (other than a Private-side Loan) which constitutes a Valuation Obligation determined in accordance with paragraph (a) of the definition of Valuation Obligation; or
 - (C) if the Non-Standard Reference Obligation was a Loan which was a Non-Conforming Reference Obligation when incurred and/or immediately prior to the Substitution Event Date:
 - (I) is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such obligation is available,
 - (II) is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,
 - (III) is a Valuation Obligation (other than a Loan) determined in accordance with paragraph (a) of the definition of Valuation Obligation; or if no such obligation is available,
 - (IV) is a Loan (other than a Private-side Loan) which constitutes a Valuation Obligation determined in accordance with paragraph (a) of the definition of Valuation Obligation.
- (d) If more than one potential Substitute Reference Obligation is identified pursuant to the process described in paragraph (c) above, the Substitute Reference Obligation will be the potential Substitute Reference Obligation that most closely preserves the economic equivalent of the delivery and/or payment obligations of the Issuer under the Securities, as determined by the Calculation Agent acting in good faith and a commercially reasonable manner. The Calculation Agent will notify (which notification may be by telephone) the Issuer of the Substitute Reference Obligation as soon as reasonably practicable after it has been identified in accordance with paragraph (c) above and the Substitute Reference Obligation shall replace the Non-Standard Reference Obligation immediately upon such notification.
- (e) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Calculation Agent determines that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation, then, subject to paragraph (a) above and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in

accordance with paragraph (b) above, the Calculation Agent shall continue to attempt to identify the Substitute Reference Obligation.

- (f) For the avoidance of doubt, no Substitute Reference Obligation shall be determined in respect of any Securities that are Reference Obligation Only Securities.

The Issuer shall give notice to Securityholders in accordance with Product Condition 10 of any determination of a Substitute Reference Obligation as soon as reasonably practicable thereafter.

3.8 Method for Determining Valuation Obligations

- (a) For the purposes of sub-paragraph (a) of the definition of Valuation Obligation, the term "Valuation Obligation" may be defined as each obligation of a Reference Entity described by the Valuation Obligation Category as being applicable in the relevant Issue Terms and subject to below, having each of the Valuation Obligation Characteristics, if any, specified as being applicable in the relevant Issue Terms, in each case, as of the Valuation Date.
- (b) If (a) any of the Valuation Obligation Characteristics "Listed", "Not Domestic Issuance" or "Not Bearer" are specified as being applicable in the relevant Issue Terms, the applicable Issue Terms shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Bonds, (b) the Valuation Obligation Characteristic "Transferable" is specified as being applicable in the relevant Issue Terms, the applicable Issue Terms shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Valuation Obligations that are not Loans, or (c) any of the Valuation Obligation Characteristics "Assignable Loan", "Consent Required Loan" or "Direct Loan Participation" is specified as being applicable in the relevant Issue Terms, the relevant Issue Terms shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Loans.
- (c) If more than one of "Assignable Loan", "Consent Required Loan" and "Direct Loan Participation" are specified as Valuation Obligation Characteristics in the relevant Issue Terms, the Valuation Obligations may include any Loan that satisfies any one of such Valuation Obligation Characteristics specified and need not satisfy all such Valuation Obligation Characteristics.
- (d) If an Obligation or a Valuation Obligation is a Relevant Guarantee, the following will apply:
 - (i) For purposes of the application of the "Obligation Category" or the "Valuation Obligation Category", the Relevant Guarantee shall be deemed to satisfy the same category or categories as those that describe the Underlying Obligation;
 - (ii) For purposes of the application of the Obligation Characteristics or the Valuation Obligation Characteristics, both the Relevant Guarantee and the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or Valuation Obligation Characteristics, if any, specified in the relevant Issue Terms from the following list: "Not Subordinated", "Specified Currency", "Not Sovereign Lender", "Not Domestic Currency" and "Not Domestic Law";
 - (iii) For purposes of the application of the Obligation Characteristics or the Valuation Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or Valuation Obligation Characteristics, if any, specified in the relevant Issue Terms from the following list: "Listed", "Not Domestic Issuance", "Assignable Loan", "Consent Required Loan", "Direct Loan Participation", "Transferable", "Maximum Maturity", "Accelerated" or "Matured", and "Not Bearer"; and
 - (iv) For purposes of the application of the Obligation Characteristics or the Valuation Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.
- (e) For purposes of the application of the Valuation Obligation Characteristic "Maximum Maturity", remaining maturity shall be determined on the basis of the terms of the Valuation Obligation in

effect at the time of making such determination and, in the case of a Valuation Obligation that is due and payable, the remaining maturity shall be zero.

- (f) If "Financial Reference Entity Terms" and "Governmental Intervention" are specified as being applicable in the relevant Issue Terms, if an obligation would otherwise satisfy a particular Obligation Characteristic or Valuation Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Obligation Characteristic or Valuation Obligation Characteristic.
- (g) For purposes of determining the applicability of Valuation Obligation Characteristics and the requirements specified in sub-paragraphs (i) and (j) below in respect of a Prior Valuation Obligation or a Package Observable Bond, any such determination shall be made by reference to the terms of the relevant obligation in effect immediately prior to the Asset Package Credit Event.
- (h) If "Subordinated European Insurance Terms" is specified as being applicable in the relevant Issue Terms, if an obligation would otherwise satisfy the "Maximum Maturity" Valuation Obligation Characteristic, the existence of any Solvency Capital Provisions in such obligation shall not cause it to fail to satisfy such Valuation Obligation Characteristic.
- (i) If, for the purpose of a Reference Entity in respect of which a Restructuring has occurred, "Mod R" is specified as being applicable in the relevant Issue Terms, and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Valuation Obligation is a Prior Valuation Obligation and Asset Package Valuation applies due to a Governmental Intervention, the Valuation Obligation may only be an obligation which, as determined by the Calculation Agent (acting in good faith and a commercially reasonable manner), (A) is a Fully Transferable Obligation and (B) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date, in each case, as of the Valuation Date.
- (j) If, for the purpose of a Reference Entity in respect of which a Restructuring has occurred, "Mod Mod R" is specified as being applicable in the relevant Issue Terms, and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Valuation Obligation is a Prior Valuation Obligation and Asset Package Valuation applies due to a Governmental Intervention, a Valuation Obligation may only be an obligation which, as determined by the Calculation Agent (acting in good faith and a commercially reasonable manner), (A) is a Conditionally Transferable Obligation and (B) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of the Valuation Date. Notwithstanding the foregoing, for purposes of this sub-paragraph (j), in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.
- (k) For the purposes of making a determination pursuant to sub-paragraphs (i) and (j) above, the final maturity date shall, subject to sub-paragraph (j) above, be determined on the basis of the terms of the Valuation Obligation in effect at the time of making such determination and, in the case of a Valuation Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.
- (l) In selecting any Valuation Obligations hereunder, the Calculation Agent is under no obligation to the Holders or any other person and, provided that the obligation selected meets the criteria in the definition of "Valuation Obligation", is entitled, and indeed will endeavour, to select obligations with the lowest price of any obligations which meet such criteria, but will not be liable to any person if a lower price is obtained as a result of that selection than would have been obtained if a different selection had been made, or for any other consequence of the relevant selection. In making any selection, the Calculation Agent will not be liable to account to the Holders or any

other person for any profit or other benefit to it or any of its affiliates which may result directly or indirectly from any such selection.

3.9 Credit Event Notice after M(M)R Restructuring

- (a) Upon the occurrence of an M(M)R Restructuring with respect to a Reference Entity (other than where, following the associated Event Determination Date, the Remaining Credit Position of such Reference Entity is greater than zero) and subject as provided in the definition of "Credit Event", no further Event Determination Date, Potential Failure to Pay or Potential Repudiation/Moratorium may occur with respect to such Reference Entity.
 - (b) Upon the occurrence of an Event Determination Date relating only to an M(M)R Restructuring with respect to a Reference Entity, the Calculation Agent may deliver multiple Credit Event Notices with respect to a Reference Entity that has been subject to an Event Determination Date relating only to an M(M)R Restructuring, each such Credit Event Notice that relates only to an M(M)R Restructuring specifying the relevant portion (as determined by the Calculation Agent acting in good faith and a commercially reasonable manner) of the Credit Position of the Reference Entity to which such Credit Event Notice applies (the "**Exercise Amount**").
 - (c) Where the Credit Event Notice does not specify an Exercise Amount, the entire Credit Position (or, as the case may be, Remaining Credit Position) will be deemed to have been specified as the Exercise Amount.
 - (d) Such Reference Entity shall be treated as a separate Defaulted Credit in respect of each relevant Exercise Amount and all provisions related to the calculation of principal and interest payable under the Securities shall be construed accordingly.
 - (e) Notwithstanding the provisions of these Product Conditions:
 - (i) where the Securities provide that following the occurrence of an Event Determination Date (and satisfaction of any conditions related thereto) the Redemption Amount shall become due, the Redemption Amount shall not become due following the occurrence of an Event Determination Date relating only to an M(M)R Restructuring except for in respect of any Exercise Amount(s) specified; and
 - (ii) once a Credit Event Notice relating only to an M(M)R Restructuring has been given in respect of a Reference Entity, any determination relating to any change or potential change in the amount(s) or timing(s) of interest and/or principal payable in respect of the Securities, in relation to any Credit Event for which any Exercise Amount has been specified, shall only be in respect of any relevant Exercise Amount(s) specified as of the relevant date of determination, and otherwise shall be in respect of the entire Remaining Credit Position. For any Defaulted Credit in respect of which an Exercise Amount was not specified as of the relevant date of determination of such Defaulted Credit, after any relevant Exercise Amount is specified, the Remaining Credit Position shall be reduced accordingly and the provisions otherwise applicable in respect of such Defaulted Credit shall continue to apply to the extent of any Remaining Credit Position following such reduction,
- and, the principal amount of each such Security not so redeemed in part shall remain outstanding and coupon shall accrue on the principal amount outstanding of such Security as provided in Product Condition 4 (adjusted in such manner as the Calculation Agent acting in good faith and a commercially reasonable manner determines to be appropriate) and (ii) the provisions Product Condition 5 shall apply to such principal amount outstanding of such Security in the event that subsequent Credit Event Notices are delivered in respect of the Reference Entity that was the subject of the Restructuring
- (f) As used herein, "Remaining Credit Position" means, in respect of each Reference Entity in respect of which M(M)R Restructuring is specified as being applicable, at any time, the initial Credit Position of such Reference Entity, less the aggregate of all Exercise Amounts (if any) in respect of such Reference Entity. For all the purposes hereof, insofar as the Remaining Credit Position of any

Reference Entity in respect of which M(M)R Restructuring is specified as being applicable is, at any time, greater than zero, such Reference Entity shall be treated as a non-Defaulted Credit.

- (g) If the provisions of this Product Condition 3.9 apply in respect of the Securities (excluding French Law Notes) on redemption of part of each such Security, the relevant Global Security, shall be endorsed to reflect such part redemption.

3.10 Timings

The Calculation Agent will determine the day on which an event occurs for purposes of these Product Conditions on the basis the demarcation of days shall be made by reference to Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

In addition, if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time), irrespective of the time zone of its place of payment.

Certain determinations made by the Calculation Agent hereunder relate to the applicability of certain ISDA or ISDA committee determinations, announcements, resolutions or other actions (each an "**ISDA Determination**") to the Securities. Unless otherwise expressly stated herein, any dates and timings hereunder that are determined on the basis of the relevant dates and timings of any applicable ISDA Determination shall not be affected by any delay in the determination by the Calculation Agent that such ISDA Determination is applicable, but shall be determined on the basis of the relevant dates and timings of such applicable ISDA Determination without regard to any such delay. Unless the context otherwise requires, any capitalised term that is used and defined herein that is also defined for purposes of an applicable ISDA Determination shall, where used in connection with such ISDA Determination, have the meaning given to such term for purposes of such ISDA Determination but shall also relate to the corresponding term as defined herein.

3.11 2019 Narrowly Tailored Credit Event Supplement

In respect of each Reference Entity that is not a Sovereign, unless "NTCE Supplement" is stated to be not applicable in the relevant Issue Terms, from (and including) (A) the Implementation Date (as defined in the ISDA 2019 NTCE Protocol published by ISDA on August 27, 2019 on its website at www.isda.org (or any successor website thereto)); or (B) in the case of Securities referencing Reference Entities comprising a third party credit index (whether tranching or untranching) which has an index annex date (or analogous date) that is prior to such Implementation Date, the Trade Date:

- (a) in respect of each such Reference Entity, each of "Fallback Discounting" and "Credit Deterioration Requirement" shall be deemed to be applicable in the related Issue Terms; and
- (b) the Product Conditions shall be amended as follows:
 - (i) the definition of Outstanding Principal Balance in Product Condition 1 above shall be deleted and the following substituted therefor:

""**Outstanding Principal Balance**" of an obligation will be calculated as follows:

- (i) first, by determining, in respect of the obligation, the amount of the Reference Entity's principal payment obligations and, subject as provided below, the Reference Entity's accrued but unpaid interest payment obligations (which, in the case of a Guarantee will be the lower of (A) the Outstanding Principal Balance (including accrued but unpaid interest, where applicable) of the Underlying Obligation (determined as if references to the Reference Entity were references to the Underlying Obligor) and (B) the amount of the Fixed Cap, if any);
- (ii) second, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation, (A) is subject to any Prohibited Action, or (B) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or

circumstance (other than by way of (I) payment or (II) a Permitted Contingency) (the amount determined in sub-paragraph (i) less any amounts subtracted in accordance with this sub-paragraph (ii), the "**Non-Contingent Amount**"); and

- (iii) third, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance,

in each case, determined:

- (A) unless otherwise specified, in accordance with the terms of the obligation in effect on the Valuation Date; and
- (B) with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

For the purposes of sub-paragraph (B) above, "applicable laws" shall include any bankruptcy or insolvency law or other law affecting creditors' rights to which the relevant obligation is, or may become, subject.

If "**Fallback Discounting**" is specified as applicable in the related Issue Terms, then notwithstanding the above, if (i) the Outstanding Principal Balance of an obligation is not reduced or discounted under sub-paragraph (B) above, (ii) that obligation is either a Bond that has an issue price less than ninety-five per cent of the principal redemption amount or a Loan where the amount advanced is less than ninety-five per cent of the principal repayment amount, and (iii) such Bond or Loan does not include provisions relating to the accretion over time of the amount which would be payable on an early redemption or repayment of such Bond or Loan that are customary for the applicable type of Bond or Loan as the case may be, then the Outstanding Principal Balance of such Bond or Loan shall be the lesser of (a) the Non-Contingent Amount; and (b) an amount determined by the Calculation Agent by straight line interpolation between the issue price of the Bond or the amount advanced under the Loan and the principal redemption amount or principal repayment amount, as applicable.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than ninety-five per cent of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

- (A) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the "**Original Obligation(s)**") at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and
- (B) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the relevant Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a holder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee.

Where Cash Settlement is specified to be the Settlement Method (or if the Cash Settlement provisions apply in accordance with Product Condition 3.4), Exclude Accrued Interest shall, unless otherwise specified in the relevant Issue Terms, be applicable."; and

- (ii) the definition of Failure to Pay in Product Condition 1 above shall be deleted and the following substituted therefor:

"Failure to Pay" means, after the expiration of any applicable Grace Period (after the satisfaction of any conditions precedent to the commencement of such Grace Period), the failure by the Reference Entity to make, when and where due, any payments in an aggregate amount of not less than the Payment Requirement under one or more Obligations, in accordance with the terms of such Obligations at the time of such failure.

If "Credit Deterioration Requirement" is specified as applicable in the related Issue Terms, then, notwithstanding the foregoing, it shall not constitute a Failure to Pay if such failure does not directly or indirectly either result from, or result in, a deterioration in the creditworthiness or financial condition of the Reference Entity.

If an occurrence that would constitute a Failure to Pay (i) is a result of a redenomination that occurs as a result of action taken by a Governmental Authority which is of general application in the jurisdiction of such Governmental Authority and (ii) a freely available market rate of conversion existed at the time of the redenomination, then such occurrence will be deemed not to constitute a Failure to Pay unless the redenomination itself constituted a reduction in the rate or amount of interest, principal or premium payable (as determined by reference to such freely available market rate of conversion) at the time of such redenomination."

3.12 **Additional Provisions for Senior Non-Preferred Reference Obligations**

In respect of any Reference Entity in respect of which the Transaction Type is "European Senior Non Preferred Financial Corporate" or "Standard European Senior Non Preferred Financial Corporate" the following provisions shall be applicable only in respect of such Reference Entity (and where there is any conflict between this Product Condition 3.12 and any other provisions of these Product Conditions, this Product Condition 3.12 shall apply).

- (a) **"Senior Non-Preferred Credit Position"** means a Credit Position attributable to a Reference Entity in respect of which this Product Condition 3.12 is specified as applicable. A Senior Non-Preferred Transaction shall constitute a Subordinated Credit Position for the purposes of such definition.
- (b) **"Senior Non-Preferred Obligation"** means any obligation of the Reference Entity which is Subordinated only to any unsubordinated Borrowed Money Obligations of the Reference Entity but not further or otherwise, or which would be so Subordinated if any unsubordinated Borrowed Money Obligations of the Reference Entity existed, and which ranks above Traditional Subordinated Obligations of the Reference Entity or which would so rank if any Traditional Subordinated Obligations of the Reference Entity existed. A Senior Non-Preferred Obligation shall constitute a Subordinated Obligation for the purposes of such definition.
- (c) **"Traditional Subordinated Obligation"** means (a) Tier 2 Subordinated Obligations of the Reference Entity; (b) any obligations of the Reference Entity which rank or are expressed to rank *pari passu* with any Tier 2 Subordinated Obligations of the Reference Entity; and (c) any obligations of the Reference Entity which are Subordinated to the obligations thereto described in (a) and (b) above shall each (without limitation) constitute a "Traditional Subordinated Obligation" in respect of a Senior Non Preferred Obligation. A Traditional Subordinated Obligation shall constitute a Further Subordinated Obligation for the purposes of such definition.
- (d) **"Tier 2 Subordinated Obligation"** means any obligation of the Reference Entity which meets the conditions set out in Article 63 of Regulation 575/2013 of the European Parliament and of the Council of 26 June 2013, as such Article may be amended or replaced from time to time (the **"CRR"**) or which are (or were at any time) otherwise eligible as a Tier 2 item in accordance with the CRR.
- (e) **"Subordination"** shall have the meaning ascribed to that term in Product Condition 1 above and such term shall be applied in the assessment of any Obligation without regard to how the Obligation is described by the laws of any relevant jurisdiction, including any characterisation of the Obligation as senior or unsubordinated by the laws of any relevant jurisdiction.
- (f) The definition of **"Reference Obligation"** in Product Condition 1 above is hereby amended by adding the following proviso to the end of paragraph (a)(i) of such definition immediately following the words "if any":

"Provided That, irrespective of any Original Non-Standard Reference Obligation specified in the Issue Terms, if (1) a Senior Non-Preferred Level Standard Reference Obligation of the Reference Entity is specified on the SRO List, such Standard Reference Obligation shall be deemed to constitute the Reference Obligation, or (2) no such Senior Non-Preferred Level Standard Reference Obligation of the Reference Entity is specified on the SRO List but such Standard Reference Obligation has previously been specified on the SRO List, there shall be deemed to be no Reference Obligation applicable and such previously specified Senior Non-Preferred Level Standard Reference Obligation of the Reference Entity shall be deemed to constitute the Prior Reference Obligation".

(g) **"Seniority Level"** means Senior Non-Preferred Level.

3.13 **Provisions taken from the ISDA supplement titled "2014 Sovereign No Asset Package Delivery Supplement to the 2014 ISDA Credit Derivatives Definitions" (published on 15 September 2014)**

If "2014 Sovereign No Asset Package Delivery Supplement to the 2014 ISDA Credit Derivatives Definitions (Product Condition 3.13)" is specified to be applicable in the applicable Issue Terms, the following provisions will apply:

Notwithstanding anything to the contrary, it shall be deemed that no Package Observable Bond exists with respect to any Reference Entity that is a Sovereign and where the "2014 Sovereign No Asset Package Delivery Supplement to the 2014 ISDA Credit Derivatives Definitions" is specified as applicable in respect of the Transaction Type in respect of such Reference Entity in the Standard, (even if such a Package Observable Bond has been published by ISDA) and accordingly, Asset Package Valuation shall not apply thereto

3.14 **Amendments in accordance with Market Convention**

The Calculation Agent may from time to time amend any provision of these Product Conditions and the applicable Issue Terms in any manner which the Calculation Agent determines acting in good faith and in a commercially reasonable manner is necessary or desirable from the perspective of the Issuer, the Calculation Agent or any Affiliate of the Issuer hedging the Issuer's obligations in respect of the Securities (i) to incorporate and/or reflect (x) further or alternative documents or protocols from time to time published by ISDA with respect to the documentation, trading or settlement of credit derivative transactions and/or (y) the operation or application of determinations by the Credit Derivatives Determinations Committees and/or (ii) to reflect or account for market practice for credit derivative transactions. Any amendment made in accordance with this Product Condition 3.14 shall be notified to Securityholders in accordance with Product Condition 10.

3.15 **Physical Settlement Matrix**

Subject as provided in the applicable Issue Terms, in respect of a Reference Entity, the elections in the Physical Settlement Matrix in respect of the Transaction Type in respect of such Reference Entity shall apply for the purposes of such Issue Terms. 4. **Coupon Amount**

4.1 **Coupon Amount**

4.1.1 *Coupon Amount – Single Reference Entity Securities*

If the Securities are Single Reference Entity Securities which are not Non Credit Linked Coupon Securities or Zero Coupon Securities, this Product Condition 4.1.1 shall apply.

Unless an Event Determination Date has occurred with respect to the Reference Entity and subject as provided in this Product Condition 4, each Security pays the Coupon Amount (if any) in respect of each Coupon Period on the relevant Coupon Payment Date.

Each Coupon Amount payable under the Securities represents an amount payable by the Issuer (i) as consideration for the use of the Nominal Amount in respect of a Security, (ii) as compensation for and recognition of the assumption of the risk that in certain circumstances no Coupon Amount may be payable and (iii) as compensation for and in recognition of the assumption of the risk that in certain circumstances the aggregate amounts payable on redemption of a Security may be less than the Nominal Amount.

Subject as provided in this Product Condition 4, the Coupon Amount payable in respect of the Securities for any Coupon Period (each a "**Coupon Amount**") shall be calculated by the Calculation Agent as the product of:

- (a) the Coupon Calculation Amount;
- (b) the Coupon Rate for such Coupon Period; and
- (c) the Day Count Fraction for such Coupon Period (if any),

the result of which shall be rounded down to the nearest sub-unit of the relevant currency, with 0.005 being rounded upwards.

4.1.2 *Coupon Amount – Basket Securities*

If the Securities are Basket Securities which are not Non Credit Linked Coupon Securities, this Product Condition 4.1.2 shall apply.

Unless an Event Determination Date has occurred with respect to the number of Reference Entities which results in the Coupon Calculation Amount being reduced to zero and subject as provided in this Product Condition 4, each Security pays the Coupon Amount (if any) in respect of each Coupon Period on the relevant Coupon Payment Date.

The Replacement Rate (if any) so determined, subject to the application of the Adjustment Spread as set out herein, shall replace the relevant Specified Floating Rate and these Conditions shall be furthermore modified by the Replacement Rate Adjustments so determined for the purposes of determining the Coupon Rate in each case for the Coupon Period related to the Coupon Determination Date falling on or, if none, immediately following the Replacement Rate Determination Date and each Coupon Period thereafter (subject to the subsequent occurrence of a Rate Replacement Event in respect of the Replacement Rate). The Issuer, or in respect of French Law Notes, the Calculation Agent shall give notice to the Securityholders in accordance with Product Condition 10 of the Replacement Rate and the Replacement Rate Adjustments as soon as practicable after the Replacement Rate Determination Date.

If a Replacement Rate, any necessary Adjustment Spread and all other relevant Replacement Rate Adjustments are not determined in accordance with the foregoing, the Issuer, or in respect of French Law Notes, the Calculation Agent may, on giving at least 15 Business Days' notice to the Securityholders in accordance with Product Condition 10 up until (but excluding) the Coupon Determination Date immediately following the Relevant Coupon Determination Date, redeem all but not some only of the Securities at the Rate Replacement Early Redemption Amount together with coupon accrued to (but

Furthermore, if an Event Determination Date occurs after a Notice of Early Redemption (the “**Original Notice of Early Redemption**”) has been given but it is subsequently determined that the Event Determination Date is deemed not to have occurred, the Issuer may at any time thereafter, at least five Business Days prior to the next Issuer Early Redemption Date (if any) (the “**Early Redemption Reset Date**”), redeem all of the Securities then outstanding by issuing a Notice of Early Redemption (the “**Second Notice of Early Redemption**”) specifying an Early Redemption Date. Furthermore, if an Event Determination Date occurs after a Notice of Early Redemption has been given, but it is subsequently determined that the Event Determination Date is deemed not to have occurred, the Issuer may at any time thereafter, at least five Business Days prior to the next Issuer Early Redemption Date (the "**Early Redemption Date Reset Date**"), redeem all of the Securities then outstanding by issuing a Notice of Early Redemption specifying an Early Redemption Date. The Early Redemption Date specified in such Notice of Early Redemption shall be not less than five Business Days from the date that such notice is given.

Furthermore, if an Event Determination Date occurs after a Notice of Early Redemption (the "**Original Notice of Early Redemption**") has been given but it is subsequently determined that the Event Determination Date is deemed not to have occurred, the Issuer may at any time thereafter, at least five Business Days prior to the next Issuer Early Redemption Date (if any) (the "**Early Redemption Reset Date**"), redeem all of the Securities then outstanding by issuing a Notice of Early Redemption (the "**Second Notice of Early Redemption**") specifying an Early Redemption Date. - (a) the statement that the Securities are to be redeemed;
- (b) the Early Redemption Date, which must fall on an Issuer Early Redemption Date; and
- (c) the Redemption Amount and accrued Coupon Amount payable.

5.10 **Redemption following a Merger Event**

In the event that in the determination of the Calculation Agent a Merger Event has occurred, the Issuer may give notice to the Securityholders in accordance with Product Condition 10 and redeem all but not some only of the Securities, each Security being redeemed by the Issuer at the Merger Event Redemption Amount (if any) together with any Coupon Amount accrued as provided in Product Condition 4.8 on the Merger Event Redemption Date.

For the purposes of this Product Condition 5.10:

"Merger Event" means, where the Securities are not FTD Securities, that at any time during the period from (and including) the Issue Date to (but excluding) the Scheduled Maturity Date the Issuer consolidates or amalgamates with, or merges into, or transfers all or substantially all of its assets to, a Reference Entity or vice versa, as applicable, or the Issuer and a Reference Entity become Affiliates;

"Merger Event Redemption Date" means the day falling 10 Business Days after the date on which notice of early redemption is given to the Securityholders in accordance with Product Condition 10;

“Merger Event Redemption Amount” means an amount (which may never be less than zero) calculated by the Calculation Agent equal to:

- (a) where the Securities are Single Reference Entity Securities, the Nominal Amount, subject (if the Securities are Final Redemption Capital Protected Securities only) to a minimum amount equal to the Minimum Redemption Amount;
- (b) where the Securities are Basket Securities and:
 - (i) where the Securities are not Zero Recovery Principal Amount Reduction Securities or Fixed Recovery Securities, the sum of (A) the Outstanding Nominal Amount as of the Merger Redemption Date and (B) the Reference Entity Nominal Amounts for each Reference Entity with respect to which an Event Determination Date has occurred and the relevant Settlement Price is not determined as of the Merger Event Redemption Date, subject (if the Securities are Final Redemption Capital Protected Securities only) to a minimum amount equal to the Minimum Redemption Amount;
 - (ii) where the Securities are Zero Recovery Principal Amount Reduction Securities, the Outstanding Nominal Amount as of the Merger Event Redemption Date; and
 - (iii) where the Securities are Fixed Recovery Securities, the sum of (A) the Outstanding Nominal Amount as of the Merger Event Redemption Date and (B) the Reference Entity Nominal Amounts for each Reference Entity with respect to which an Event Determination Date has occurred and the relevant Partial Redemption Date has not occurred as of the Merger Event Redemption Date multiplied by the Settlement Price, subject (if the Securities are Final Redemption Capital Protected Securities only) to a minimum amount equal to the Minimum Redemption Amount.

5.11 **Early redemption or termination for extraordinary reasons, illegality and force majeure**

If the Issuer determines that, for reasons beyond its control:

- (a) an event or circumstance (other than any action taken by the Issuer) occurs after the Issue Date of the Securities as a result of which it becomes unlawful under any applicable law (including without limitation the laws of any country in which payment, delivery or compliance is required by the Issuer), on any day, or it would be unlawful if the relevant payment, delivery or compliance were required on that day, for the Issuer, in respect of the Securities to:
 - (i) make or receive payments;
 - (ii) perform any absolute or contingent obligation to make a payment or delivery;
 - (iii) receive a payment or delivery; or
 - (iv) comply with any other material provision,(an “**Illegality Event**”); or
- (b) a force majeure or act of state occurs after the Issue Date of the Securities, and the Issuer cannot, using all reasonable efforts (which will not require the Issuer to incur a loss, other than immaterial, incidental expenses), overcome such prevention, impossibility or impracticability, in respect of the Securities and either:
 - (i) the Issuer is prevented from performing any absolute or contingent obligation to make a payment or delivery, from receiving a payment or delivery, or from complying with any other material provision (or would be so prevented if such payment, delivery or compliance were required on that day); or
 - (ii) it becomes impossible or impracticable for the Issuer to perform any absolute or contingent obligation to make a payment or delivery, to receive a payment or delivery, or to comply with any other material provision,

(a “**Force Majeure Event**”),

the Issuer may, at its discretion and without obligation, redeem the Securities early by giving notice to the Securityholders in accordance with Product Condition 10.

Should any one or more of the provisions contained in the Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

If the Issuer redeems the Securities early in accordance with this provision, then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Securityholder in respect of each Security held by such holder equal to the fair market value of a Security notwithstanding such illegality or impracticality as determined by the Calculation Agent acting in good faith and a commercially reasonable manner. For the avoidance of doubt the amount determined by the Calculation Agent may be zero, but may not be less than zero. Payments will be made in such manner as shall be notified to the Securityholders in accordance with Product Condition 10.

5.12 **Early redemption of Reference Obligation Only Securities following a Substitution Event**

- (a) If the Securities are Reference Obligation Only Securities relating to a single Reference Entity and the event set out in paragraph (a) of the definition of Substitution Event above occurs with respect to the Reference Obligation, then each Security will be redeemed by the Issuer by payment of the Early Redemption Amount on the fifth Business Day following the relevant Substitution Event Date.

For the purposes of this Product Condition 5.12(a):

“**Early Redemption Amount**” means the Redemption Amount determined in accordance with Product Condition 5.1 as if the Substitution Event Date were the Maturity Date.

- (b) If the Securities are Reference Obligation Only Securities and either Zero Recovery Principal Amount Reduction Securities that are Basket Securities or Fixed Recovery Securities and the event set out in paragraph (a) of the definition of Substitution Event occurs with respect to the Reference Obligation of a Reference Entity, then each Security will be redeemed in part by the Issuer by payment of the Early Redemption Amount on the fifth Business Day following the relevant Substitution Event Date. Thereupon the relevant Reference Entity shall be deemed to have ceased to be a Reference Entity and the Calculation Agent will adjust such of these Product Conditions and/or the applicable Issue Terms as it determines appropriate acting in good faith and a commercially reasonable manner to reflect such redemption in part and change to the portfolio of Reference Entities, including without limitation, the Outstanding Nominal Amount.

For the purposes of this Product Condition 5.12(b):

“**Credit Event Reduction Amount**” means, in respect of a Reference Entity, an amount in the Determined Currency calculated by the Calculation Agent acting in good faith and a commercially reasonable manner equal to the product of (a) the Nominal Amount and (b) the Reference Entity Weighting in respect of such Reference Entity.

“**Early Redemption Amount**” means, in respect of the partial redemption of the Outstanding Nominal Amount of Securities, be an amount in the Determined Currency calculated by the Calculation Agent equal to the Credit Event Reduction Amount in respect of the relevant Reference.

5.13 **Redemption by Instalments**

Unless previously redeemed or purchased and cancelled in accordance with these Product Conditions, and subject as provided below, each Security that provides for Instalment Dates and Instalment Amounts shall be partially redeemed on each Instalment Date at the related Instalment Amount and the Outstanding Nominal Amount of each such Security shall be reduced by the Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the Nominal Amount of such Security, such proportion) for all purposes with effect from the related Instalment Date, unless payment of the Instalment Amount is improperly withheld or refused, in which case, such amount shall remain outstanding until the date on which payment in full of the amount outstanding relating to such Instalment Amount is made, and

each of the Outstanding Nominal Amount and the Aggregate Nominal Amount in respect of the Securities shall be adjusted by the Calculation Agent acting in good faith and a commercial reasonable manner to reflect the reduction of the Outstanding Nominal Amount in respect of each Security and any reference to payment of the Nominal Amount, or any amount calculated by reference to the Nominal Amount, shall be deemed to refer to the Outstanding Nominal Amount.

If, in the determination of the Calculation Agent, a Potential Credit Event has occurred on or prior to an Instalment Date but an Event Determination Date has not occurred with respect to the Reference Entity, no Instalment Amount will be payable in respect of Securities on the relevant Instalment Date, notwithstanding that an Event Determination Date has not occurred (such Instalment Amount that would have been payable, a "**Postponed Instalment Amount**"), provided that, if,

- (i) an Event Determination Date has not occurred on or prior to the following Instalment Date (or, if none, the Maturity Cut-Off Date), the Postponed Instalment Amount will be payable on such date and Instalment Amounts will continue to be payable as provided herein thereafter; or
- (ii) an Event Determination Date has not occurred but a notice has been delivered to ISDA in accordance with the DC Rules requesting that a Credit Derivatives Determinations Committee be convened to Resolve whether an event that constitutes a Credit Event has occurred with respect to a Reference Entity but ISDA has not publicly announced the relevant DC Resolution, the Postponed Instalment Amount will be payable on the next succeeding Instalment Date in respect of which, two days before such Instalment Date, the relevant DC Resolution is no longer pending.

No further or other amount in respect of such Instalment Amount shall be payable and no additional amount shall be payable in respect of such delay.

6. **Purchases**

The Issuer may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold, in accordance with applicable laws and regulations, or surrendered for cancellation.

In the case of French Law Notes cleared through Euroclear France, the cancellation shall be made by transfer to an account in accordance with the rules and procedures of Euroclear France. Any French Law Notes so cancelled or, where applicable, transferred for cancellation may not be re-issued or resold and the obligations of the Issuer in respect of any such French Law Notes shall be discharged.

7. **Payments**

7.1 **Method of payment**

7.1.1 *Method of payment relating to Securities other than French Law Notes*

Unless otherwise provided in the conditions, any amounts payable to the Securityholders will be transferred by an Agent on behalf of the Issuer to the relevant Clearing Agent for distribution to the Securityholders. Payments to a Clearing Agent will be made in accordance with the rules of such Clearing Agent.

The Issuer will be discharged from its payment obligations by payment to, or to the order of, the relevant Clearing Agent in respect of the amount so paid. Each of the persons shown in the records of a Clearing Agent as the holder of a particular number of the Securities must look solely to the relevant Clearing Agent for his share of each such payment so made by the Issuer to, or to the order of, the relevant Clearing Agent.

All payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment and subject to the provisions of Product Condition 12.

If a payment of any amount payable to a Securityholder, according to the rules of the relevant Clearing Agent, cannot be made in the Determined Currency, such payment shall be made in the currency principally used by the relevant Clearing Agent for payments to Securityholders holding accounts with such Clearing Agent, following a conversion of the relevant amount from the Determined Currency, using the rate of exchange determined by the Calculation Agent by reference to such sources as the Calculation Agent may, acting in good faith and a commercially reasonable manner, determine to be appropriate.

7.1.2 *Method of payment relating to French Law Notes*

Payments of any amount in respect of the French Law Notes shall be made by transfer to the account denominated in the relevant currency of the relevant Account Holders for the benefit of the holders of French Law Notes. All payments validly made to such Account Holders will be an effective discharge of the Issuer in respect of such payments.

7.2 **Presentation**

7.2.1 *Presentation relating to Securities other than French Law Notes*

Payments of principal and Coupon Amount will, subject as provided below, be made in the manner provided in Product Condition 7.1 and otherwise in the manner specified in the Global Security against presentation or surrender, as the case may be, of the Global Security at the specified office of any Agent. A record of each payment made against presentation or surrender of the Global Security, distinguishing between any payment of principal and any payment of Coupon Amount, will be made on the Global Security by the relevant Agent and such record shall be prima facie evidence that the payment in question has been made.

The bearer of the relevant Security shall be the only person entitled to receive payments of principal or Coupon Amount and the Issuer will be discharged by payment to, or to the order of, the bearer of the Global Security in respect of the amount so paid. Each of the persons shown in the records of a Clearing Agent as the holder of a particular Nominal Amount of the Securities must look solely to the relevant Clearing Agent for his share of each such payment so made by the Issuer to, or to the order of, the bearer of the Global Security.

Any claim to receive payments under the Securities, will be time-barred unless the Global Security has been presented within a period of ten years in relation to the payment of the principal and five years in relation to the payment of Coupon Amount or such longer period as may apply under relevant statute.

7.2.2 *Prescription of French Law Notes*

Any claim to receive payments under the French Law Notes, will be time-barred unless the French Law Note has been presented within a period of ten years in relation to the payment of the principal and five years in relation to the payment of Coupon Amount or such longer period as may apply under relevant statute.

7.3 **Payment Day**

If any date for payment of any amount in respect of any Security is not a Payment Day, the holder shall not be entitled to payment until the next following Payment Day and shall not be entitled to any Coupon Amount or other payment in respect of such delay.

7.4 **Business Day Convention**

If any date referred to in these Product Conditions or the relevant Issue Terms that is specified to be subject to adjustment in accordance with the Business Day Convention would otherwise fall on a day that is not a Business Day, then if the "Business Day Convention" specified is (A) the Floating Rate Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would fall into the next calendar month, in which event (i) such date shall be brought forward to the immediately preceding Business Day and (ii) each subsequent such date (if any) shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment, (B) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day, (C) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (D) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

7.5 **Liability for calculations and determinations**

In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent and any Agent shall have any responsibility for any errors or omissions in the calculation of any amount payable hereunder or in any other determination pursuant to the provisions hereof.

7.6 **Securityholder Expenses**

The obligation of the Issuer to make payment is subject to prior full payment of any amount due to be paid by the Securityholder to the Issuer pursuant to the conditions. In particular, such due amount includes any applicable Securityholder Expenses. Any due amount will, as far as covered by a cash amount(s) to be paid according to the conditions, be directly subtracted from such cash amount(s). As long as a due amount has not been settled by a Securityholder, no payment shall be made by the Issuer under the Securities to such Securityholder.

7.7 **Redemption and settlement risk**

Redemption of, and any payment in respect of, the Securities is subject to all applicable laws, regulations and practices in force at all relevant times, and neither the Issuer nor any Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. Neither the Issuer nor the Agents shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.

8. **Administrator/Benchmark Event**

8.1 **Administrator/Benchmark Event**

Subject as provided in Product Conditions 4.13, 4.14, 4.15 and 4.16, in the event that an Administrator/Benchmark Event occurs, the Issuer may (at its option):

- (a) instruct the Calculation Agent to make such adjustment(s) to the Product Conditions as it may determine in a fair and commercially reasonable manner appropriate to account for the relevant event or circumstance and, without limitation, such adjustments may (a) consist of one or more amendments and/or be made on one or more dates; (b) be determined by reference to any adjustment(s) in respect of the relevant event or circumstance made in relation to any hedging arrangements in respect of the Securities; and (c) include selecting (a) successor benchmark(s) and making related adjustments to the Product Conditions, including where applicable to reflect any increased costs of the Issuer providing such exposure to the successor benchmark(s), and, in the case of more than one successor benchmark, making provision for allocation of exposure as between the successor benchmarks; or
- (b) on giving notice to the Securityholders in accordance with Product Condition 10 (*Notices*), redeem all but not some only of the Securities at their outstanding principal amount.

For the avoidance of doubt, the above is additional (subject to the following sentence) and without prejudice, to any other terms of the Securities. In the event that under any other terms of the Securities any other consequences could apply in relation to an event or occurrence the subject of an Administrator/Benchmark Event, the Issuer shall determine which terms shall apply in a fair and commercially reasonable manner.

For the purposes of this Product Condition 8.1:

“Administrator/Benchmark Event” means that the Calculation Agent determines that (1) a Benchmark Modification or Cessation Event has occurred or will occur; (2) any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of a relevant Benchmark or the administrator or sponsor of a relevant Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that the Issuer or the Calculation Agent or any other entity is not, or will not be, permitted under any applicable law or regulation to use the relevant Benchmark to perform its or their respective obligations under the Securities; (3) it is not fair and commercially reasonable to continue the use of the Benchmark in connection with the Securities from the

perspective of the Issuer or the Calculation Agent or the Issuer or the Calculation Agent suffers or will suffer an increased cost, in each case, as a result of any applicable licensing restrictions or changes in the cost of obtaining or maintaining any relevant licence (including, without limitation, where the Issuer, the Calculation Agent or any other entity is required to hold a valid licence in order to issue or perform its obligations in respect of the Securities and for any reason such licence is either not obtained, not renewed or is revoked or there is a material change in the cost of obtaining or renewing such licence); or (4) there has been an official announcement by the supervisor of the administrator and/or sponsor of a relevant Benchmark that the relevant Benchmark is no longer representative of any relevant underlying market(s).

“Benchmark” means any figure, level, rate or value by reference to which any amount payable or deliverable under the Securities, or the value of the Securities, is determined in whole or in part, including, without limitation, any benchmark as defined in the BMR, all as determined by the Calculation Agent in a fair and commercially reasonable manner.

“Benchmark Modification or Cessation Event” means, in respect of the Benchmark, any of the following:

- (a) any material change in such Benchmark; or
- (b) the permanent or indefinite cancellation or cessation in the provision of such Benchmark.

“BMR” means (Regulation (EU) 2016/1011) of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014, as amended from time to time.

9. **Agents, Calculation Agent, determinations and modifications**

9.1 **Agents**

The Issuer reserves the right at any time to vary or terminate the appointment of any Agent and to appoint additional Agents, provided that no termination of appointment of the Fiscal Agent shall become effective until a replacement Fiscal Agent shall have been appointed and provided that, if and to the extent that any of the Securities are listed on any stock exchange or publicly offered in any jurisdiction, there shall be an Agent having a specified office in each country if so required by the rules and regulations of each such stock exchange and the securities regulators in each such jurisdiction. Notice of any appointment, or termination of appointment, or any change in the specified office, of any Agent will be given to Securityholders in accordance with Product Condition 10. The Agents act solely as agents of the Issuer and do not assume any obligation or duty to, or any relationship of agency or trust for or with, any Securityholder. Any calculations or determinations in respect of the Securities made by an Agent shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders.

9.2 **Calculation Agent**

In respect of a Series of Securities, the Issuer shall be the Calculation Agent in respect of the Securities unless otherwise specified in the relevant Issue Terms or if the Issuer decides to appoint a successor Calculation Agent in accordance with the provisions below.

The Issuer reserves the right at any time to appoint another institution as the Calculation Agent, provided that no termination of appointment of the existing Calculation Agent shall become effective until a successor Calculation Agent has been appointed. Notice of any such termination or appointment will be given to the Securityholders in accordance with Product Condition 10.

In respect of Securities other than French Law Notes, the Calculation Agent acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders. In respect of French Law Notes, the Calculation Agent acts as an independent expert and the determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

Whenever the Calculation Agent is required to make any determination it may, inter alia, decide issues of construction and legal interpretation. Unless otherwise provided herein, in performing its duties pursuant

to the Securities, the Calculation Agent shall act in good faith and a commercially reasonable manner. Notice of any such modification will be given to the Securityholders in accordance with Product Condition 10 but failure to give, or non-receipt of, such notice will not affect the validity of any such modification.

The Issuer may exercise the above discretion for the reasons or in the circumstances described above (i.e. in order to maintain or preserve the intended commercial purpose of the Product Conditions and/or the applicable Issue Terms or if such modification does not materially adversely affect the interests of the Securityholders or is of a formal, minor or technical nature or is intended to correct any errors or defective provisions in the Product Conditions and/or the applicable Issue Terms). In each of these cases the Issuer will first satisfy itself that the exercise of the discretion is reasonably necessary and it will consider if there is any reasonable alternative which would not incur additional material costs for the Issuer and/or its Affiliates. For such purposes, the fair market value shall be determined by the Calculation Agent acting in good faith and a commercially reasonable manner. For the purposes of determining the fair market value, no account shall be taken of the financial condition of the Issuer, which shall be presumed to be able to perform fully its obligations in respect of the Securities.

The same applies to any gaps in the Product Conditions.

21. **Governing Law and Place of Jurisdiction**

Appendix to the Product Conditions

Auction Settlement Terms

If an Event Determination Date occurs with respect to a Reference Entity and Auction Settlement applies, the Redemption Amount with respect to the Securities will be calculated based on the Auction Final Price for such Reference Entity (if any). This Appendix contains a summary of certain provisions of the Credit Derivatives Auction Settlement Terms, as published by the International Swaps and Derivatives Association, Inc. ("ISDA") on 12 March 2009 as Annex B to the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions (the "**Form of Auction Settlement Terms**") and is qualified by reference to the detailed provisions thereof. This Appendix does not form part of the Product Conditions. The following does not purport to be a complete summary and prospective investors must refer to the Form of Auction Settlement Terms (as defined below) for detailed information regarding the auction methodology set forth therein (the "**Auction Methodology**"). The Auction and the Auction Methodology apply to credit default swaps on the Reference Entity and do not apply specifically to the Securities; however, if a Credit Event occurs and an Auction is held, the Calculation Agent will apply the Auction Final Price to the Securities. See Product Condition 3.4 (*Auction Settlement*). A copy of the Form of Auction Settlement Terms is currently available at:

<https://www.isda.org/a/kS6EE/Auction-Settlement-Terms-CLEAN.doc>

Securityholders should be aware that this summary of the Form of Auction Settlement Terms is accurate only as of the date of this Securities Note and such Form of Auction Settlement Terms may be amended in accordance with the Rules (as defined below) at any time (and from time to time) at a later date without consultation with the Securityholders. At any time after the date of this Securities Note, the latest Form of Auction Settlement Terms will be available on the ISDA website at www.isda.org (or any successor website thereto). Further, notwithstanding the fact that the Form of Auction Settlement Terms (as may be amended from time to time) appears on the ISDA website, the Credit Derivatives Determinations Committees have the power to amend the form of Credit Derivatives Auction Settlement Terms for a particular auction and this summary may therefore not be accurate in all cases.

Capitalised terms used but not defined in this summary have the meaning specified in the Form of Auction Settlement Terms and the Rules (as defined below). All times of day in this summary refer to such times in New York City.

Publication of Credit Derivatives Auction Settlement Terms

Pursuant to the Credit Derivatives Determinations Committees Rules, as published by ISDA on its website at www.isda.org (or any successor website thereto) from time to time and as amended from time to time in accordance with the terms thereof (the "**Rules**"), a Credit Derivatives Determinations Committee may determine that a Credit Event has occurred in respect of a Reference Entity (such entity, an "**Affected Reference Entity**") and that one or more auctions will be held in order to settle affected transactions referencing such Affected Reference Entity based upon an Auction Final Price determined according to an auction procedure set forth in the Form of Auction Settlement Terms (each, an "**Auction**"). If an Auction is to be held, the Credit Derivatives Determinations Committee will publish Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity, based upon the Form of Auction Settlement Terms. In doing so, the Credit Derivatives Determinations Committee will make several related determinations, including the Auction Date, the Participating Bidders and the supplemental terms that are detailed in Schedule 1 to the Form of Auction Settlement Terms. The Credit Derivatives Determinations Committee may also amend the Form of Auction Settlement Terms for a particular auction and may determine that a public comment period is necessary in order to effect such an amendment if such amendment is not contemplated by the Rules.

Auction Methodology

Determining the Auction Currency Rate

On the Auction Currency Fixing Date, the Administrators will determine the rate of conversion (each, an "**Auction Currency Rate**") as between the Relevant Currency and the currency of denomination of each Deliverable Obligation (each, a "**Relevant Pairing**") by reference to a Currency Rate Source or, if such Currency Rate Source is unavailable, by seeking mid-market rates of conversion from Participating Bidders (determined by each such Participating Bidder in a commercially reasonable manner) for each such Relevant Pairing. If rates of conversion are sought from Participating Bidders and more than three such rates are obtained by the Administrators, the Auction Currency Rate will be the arithmetic mean of such rates, without regard to the rates having the highest and lowest values. If exactly three rates are obtained, the Auction Currency Rate will be the rate remaining after disregarding the rates having the

highest and lowest values. For this purpose, if more than one rate has the same highest or lowest value, then one of such rates shall be disregarded. If fewer than three rates are obtained, it will be deemed that the Auction Currency Rate cannot be determined for such Relevant Pairing.

Initial Bidding Period

During the Initial Bidding Period, Participating Bidders will submit to the Administrators: (a) Initial Market Bids; (b) Initial Market Offers; (c) Dealer Physical Settlement Requests; and (d) Customer Physical Settlement Requests (to the extent received from customers).

Initial Market Bids and Initial Market Offers are firm quotations, expressed as percentages, to enter into credit derivative transactions in respect of the Affected Reference Entity on terms equivalent to the Representative Auction-Settled Transaction.

The Initial Market Bid and Initial Market Offer submitted by each Participating Bidder must differ by no more than the Maximum Initial Market Bid-Offer Spread of par and must be an integral multiple of the Relevant Pricing Increment. The Initial Market Bid must be less than the Initial Market Offer.

Dealer Physical Settlement Requests and Customer Physical Settlement Requests are firm commitments, submitted by a Participating Bidder, on its own behalf or on behalf of a customer, as applicable, to enter into a Representative Auction-Settled Transaction, in each case, as seller (in which case, such commitment will be a "**Physical Settlement Buy Request**") or buyer (in which case, such commitment will be a "**Physical Settlement Sell Request**"). Each Dealer Physical Settlement Request must be, to the best of such Participating Bidder's knowledge and belief, in the same direction as, and not in excess of, its Market Position. Each Customer Physical Settlement Request must be, to the best of the relevant customer's knowledge and belief (aggregated with all Customer Physical Settlement Requests submitted by such customer), in the same direction as, and not in excess of, its Market Position.

If the Administrators do not receive valid Initial Market Bids and Initial Market Offers from at least a minimum number of Participating Bidders (as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity), the timeline will be adjusted and the Initial Bidding Period extended, with the Auction recommencing at such time(s) specified by the Administrators, otherwise it will proceed as follows.

Determination of Open Interest, Initial Market Midpoint and Adjustment Amounts

The Administrators will calculate the Open Interest, the Initial Market Midpoint and any Adjustment Amounts in respect of the Auction.

The Open Interest is the difference between all Physical Settlement Sell Requests and all Physical Settlement Buy Requests.

To determine the Initial Market Midpoint, the Administrators will: (a) sort the Initial Market Bids in descending order and the Initial Market Offers in ascending order, identifying non-tradable markets for which bids are lower than offers; (b) sort non-tradable markets in terms of tightness of spread between Initial Market Bid and Initial Market Offer; and (c) identify that half of the non-tradable markets with the tightest spreads. The Initial Market Midpoint is determined as the arithmetic mean of the Initial Market Bids and Initial Market Offers contained in the half of non-tradable markets with the tightest spreads.

Any Participating Bidder whose Initial Market Bid or Initial Market Offer forms part of a tradable market will be required to make a payment to ISDA on the third Business Day after the Auction Final Price Determination Date (an "**Adjustment Amount**"), calculated in accordance with the Auction Methodology. Any payments of Adjustment Amounts shall be used by ISDA to defray any costs related to any auction that ISDA has coordinated, or that ISDA will in the future coordinate, for purposes of settlement of credit derivative transactions.

If for any reason no single Initial Market Midpoint can be determined, the procedure set out above may be repeated. At or prior to the Initial Bidding Information Publication Time on any day on which the Initial Bidding Period has successfully concluded, the Administrators publish the Open Interest, the Initial Market Midpoint and the details of any Adjustment Amounts in respect of the Auction.

If the Open Interest is zero, the Auction Final Price will be the Initial Market Midpoint.

Submission of Limit Order Submissions

In the event that the Open Interest does not equal zero, a subsequent bidding period will be commenced during the Initial Bidding Period which: (a) if the Open Interest is an offer to sell Deliverable Obligations, Participating Bidders submit Limit Bids; or (b) if the Open Interest is a bid to purchase Deliverable Obligations, Limit Offers, in each case, on behalf of customers and for their own account.

Matching bids and offers

If the Open Interest is a bid to purchase Deliverable Obligations, the Administrators will match the Open Interest against all Initial Market Offers and Limit Offers, as further described in the Auction Methodology. If the Open Interest is an offer to sell Deliverable Obligations, the Administrators will match the Open Interest against all Initial Market Bids and Limit Bids, as further described in the Auction Methodology.

(i) Auction Final Price when the Open Interest is Filled

The Auction Final Price will be the price associated with the matched market that is the highest offer or the lowest bid, as applicable, provided that: (a) if the Open Interest is an offer to sell and the price associated with the lowest matched bid is more than the Cap Amount higher than the Initial Market Midpoint, then the Auction Final Price will be the Initial Market Midpoint plus the Cap Amount; and (b) if the Open Interest is a bid to purchase and the price associated with the highest offer is more than the Cap Amount lower than the Initial Market Midpoint, then the Auction Final Price will be the Initial market Midpoint minus the Cap Amount.

(ii) Auction Final Price when the Open Interest is Not Filled

If, once all the Initial Market Bids and Limit Bids or Initial Market Offers and Limit Offers, as applicable, have been matched to the Open Interest, part of the Open Interest remains, the Auction Final Price will be: (a) if the Open Interest is a bid to purchase Deliverable Obligations, the greater of (i) 100 per cent and (ii) the highest Limit Offer or Initial Market Offer received; or (b) if the Open Interest is an offer to sell Deliverable Obligations, zero.

100 per cent. Cap to Auction Final Price

In all cases, if the Auction Final Price determined pursuant to the Auction Methodology is greater than 100 per cent., then the Auction Final Price will be deemed to be 100 per cent.

Publication of Auction Final Price

At or prior to the Subsequent Bidding Information Publication Time on any day on which the subsequent bidding period has successfully concluded, the Administrators will publish on their websites: (a) the Auction Final Price; (b) the names of the Participating Bidders who submitted bids, offers, valid Dealer Physical Settlement Requests and valid Customer Physical Settlement Requests, together with the details of all such bids and offers submitted by each; and (c) the details and size of all matched trades.

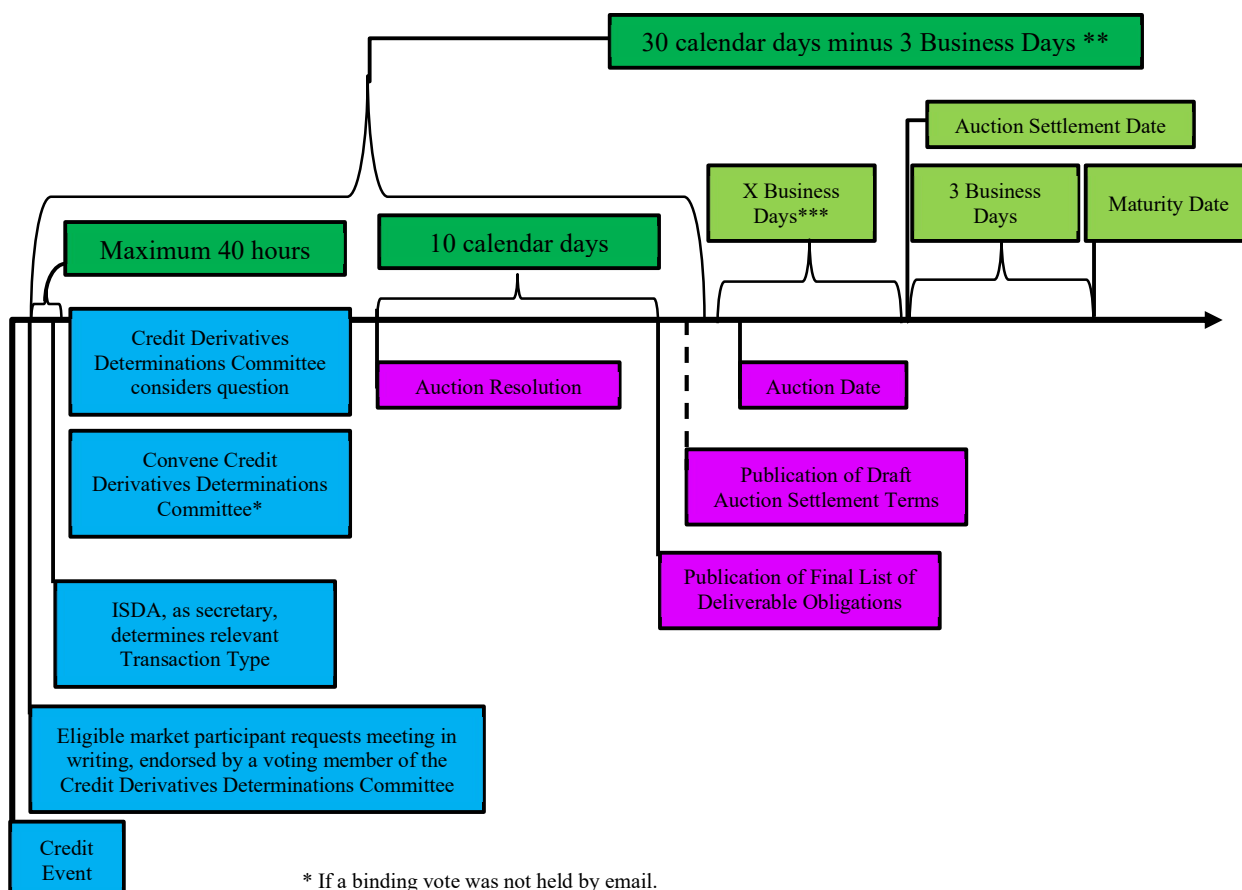

Timing of Auction Settlement Provisions

If an Auction is held in respect of an Affected Reference Entity, it is expected that the relevant Auction Date will occur on the third Business Day immediately prior to the 30th calendar day after which the relevant Credit Derivatives Determinations Committee received the request from an eligible market participant (endorsed by a member of the relevant Credit Derivatives Determinations Committee) to resolve whether a Credit Event has occurred with respect to such Reference Entity.

In respect of an Affected Reference Entity for which an Auction is held, the Auction Settlement Date will occur on a Business Day following the Auction Final Price Determination Date, as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity (or if not specified in such Credit Derivatives Auction Settlement Terms, the third Business Day following the Auction Final Price Determination Date).

The expected timeline is illustrated in the diagram below. Securityholders should be aware that this expected timeline is subject to amendment (and may be subject to acceleration or delay) upon agreement by at least 80 per cent. (by number) of the voting members of the relevant Credit Derivatives Determinations Committee.

Execution of Trades Formed in the Auction

Each Participating Bidder whose Limit Bid or Initial Market Bid (or Limit Offer or Initial Market Offer if applicable) is matched against the Open Interest, and each Participating Bidder that submitted a Customer Physical Settlement Request or Dealer Physical Settlement Request, is deemed to have entered into a Representative Auction-Settled Transaction, and each customer that submitted such a Limit Bid, Limit Offer, or Physical Settlement Request is deemed to have entered into a Representative Auction-Settled Transaction with the dealer through whom the customer submitted such bid or offer. Accordingly, each such Participating Bidder or customer that is a seller of Deliverable Obligations pursuant to a trade formed in the auction must deliver to the buyer to whom such Participating Bidder or customer has been matched a Notice of Physical Settlement indicating the Deliverable Obligations that it will deliver, and such Deliverable Obligations will be sold to the buyer in exchange for payment of the relevant Auction Final Price.

"Auction Currency Fixing Date" means, with respect to a relevant transaction type included in: (a) the Americas, the business day prior to the Auction Date; and (b) any other region, two business days prior to the Auction Date; and in each case as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity.

Form of Pricing Supplement

[MiFID II product governance / Professional investors and ECPs only target market] – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Securities has led to the conclusion that: (i) the target market for the Securities is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, "**MiFID II**"); and (ii) all channels for distribution of the Securities to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Securities (a "**distributor**") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.⁷⁰

[UK MiFIR product governance / Professional investors and ECPs only target market] – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Securities has led to the conclusion that: (i) the target market for the Securities is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook ("**COBS**"), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, "**UK MiFIR**"); and (ii) all channels for distribution of the Securities to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Securities (a "**distributor**") should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.⁷¹

X. TAXATION

A. GENERAL TAXATION INFORMATION

Purchasers and sellers of Securities may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of transfer in addition to the issue price or purchase price of the Securities. The Issuer assumes no responsibility for withholding tax at source.

Transactions involving the Securities (including purchases, transfers, exercise or non-exercise or redemption), the accrual or receipt of any interest payable on the Securities and the death of a holder of any Securities may have tax consequences for holders and potential purchasers which may depend, amongst other things, upon the tax status of the holder or potential purchaser and may relate to – amongst other taxes and duties - stamp duty, stamp duty reserve tax, income tax, corporation tax, trade tax, capital gains tax, withholding tax, solidarity surcharge and inheritance tax.

Product Condition 11 (*Taxation*) should also be considered carefully by all potential purchasers of any Securities.

THE TAX LEGISLATION OF EACH COUNTRY OF WHICH THE INVESTOR IS A RESIDENT OR OTHERWISE SUBJECT TO TAXATION AND OF THE ISSUER'S COUNTRY OF INCORPORATION MAY HAVE AN IMPACT ON THE INCOME RECEIVED FROM THE SECURITIES. PROSPECTIVE PURCHASERS OF SECURITIES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF SECURITIES.

B. SWISS TAXATION

The following is a summary based on legislation as of the date of this Base Prospectus. It does not aim to be a comprehensive description of all the Swiss tax considerations that may be relevant for a decision to invest in Securities. The tax treatment for each investor depends on the particular situation. All investors are advised to consult with their professional tax advisors as to the respective Swiss tax consequences of the purchase, ownership, disposition, lapse, exercise or redemption of Securities (or options embedded therein) in light of their particular circumstances.

Swiss Federal Stamp Taxes

The issuance of Securities to the initial holders at the original offering price (primary market) is not subject to the Swiss federal issuance stamp tax and the Swiss federal securities turnover tax (*Umsatzabgabe*), except that the issuance of Securities which classify as fund-like instruments may be subject to Swiss federal securities turnover tax of up to 0.3 per cent. on the offering price, however, only if a Swiss securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the transaction and, additionally, if no exemption applies.

Dealings in Securities (secondary market) which classify as pure derivative financial instruments (such as call and put options, including low exercise price options with a maturity not exceeding twelve months, futures with a maximal pre-financing of 25 per cent., fully-funded securities statically replicating an index or a basket of at least five shares and with a fixed maturity or an annual redemption right) are exempt from Swiss federal securities turnover tax. Dealings in other Securities may be subject to Swiss federal securities turnover tax of up to 0.3 per cent. on the consideration paid, however, only if a Swiss securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the transaction and, additionally, if no exemption applies.

The physical delivery of a Security at exercise or redemption to the holder of the Security may be subject to Swiss federal securities turnover tax of 0.3 per cent. in case a Security issued by an issuer outside Switzerland is delivered and of 0.15 per cent. in case a Security issued by a Swiss domestic issuer is delivered, however, in each case, only if a Swiss domestic securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the delivery and, additionally, if no exemption applies.

Swiss Federal Withholding Tax

Payments under the Securities are not subject to Swiss federal withholding tax, PROVIDED THAT the Issuer is at all times resident and managed outside Switzerland for Swiss tax purposes and that the proceeds are used outside Switzerland at all times.

Income Taxation

Non-Swiss resident holders

A holder of a Security who is not resident in Switzerland and who during the taxation year has not engaged in a trade or business carried on through a permanent establishment or fixed place of business in Switzerland will in respect of such Security not be subject to income tax in Switzerland.

Securities held as Private Assets by a Swiss resident holder

(a) Pure Derivative Financial Instruments

A capital gain realised by an individual on the sale or redemption of a Security which classifies as a true derivative financial instrument for tax purposes (such as a true call or put option on equities or commodities (including low exercise price options provided their term does not exceed one year or, where the term does exceed one year, the premium paid at issuance does not exceed 50 per cent. of the value of the Underlying Obligation at the time of issuance), future on equities or commodities, replicating an index or a fixed basket of at least five shares and with a fixed maturity or an annual redemption right and with a maturity not exceeding twelve months) and which is held as part of the individual's private assets is a tax-free private capital gain. Conversely, a capital loss realised on the sale or redemption of such a Security cannot be set off against taxable income. Dividend equivalents paid under such a Security constitute taxable investment income.

(b) Structured Securities

If a Security is composed of one or more derivatives and a bond (resulting e.g. from up-front payment of exercise price, purchase price, etc.) and therefore classifies as a structured financial instrument for tax purposes, its income taxation depends on whether (i) the embedded bond component and the embedded derivative financial instrument(s) are reported separately from each other, or, alternatively, if the Security is a standard product, the value of the embedded bond component and the value of the embedded derivative financial instrument(s) can at any time be determined analytically by using standard valuation programmes, and (ii) the Security classifies as a structured instrument with or without a predominant one-time interest payment:

Non-transparent derivative financial instruments: If the embedded bond is not recorded separately from the embedded derivative financial instrument(s) and if the values of the embedded bond and the embedded derivative financial instrument(s) cannot be determined analytically (as described above), then the Security classifies as non-transparent structured financial instrument and any return over the initial investment as taxable interest payment. Non-transparent derivative financial instruments generally include a predominant one-time interest payment and are taxed in accordance with the principles set forth below under "*Transparent derivative financial instruments with a predominant one-time interest payment*".

Transparent derivative financial instruments without a predominant one-time interest payment: If the embedded bond is recorded separately from the embedded derivative financial instrument(s) or if the values of the embedded bond and the embedded derivative financial instrument(s) can be determined analytically (as described above) and if the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time interest payment such as an original issue discount or a repayment premium (see below "*Transparent derivative financial instruments with a predominant one-time interest payment*"), then a person who is an individual resident in Switzerland holding such a Security as a private asset is required to include any periodic and one-time interest payments received on the Security in his or her personal income tax return for the relevant tax period and will be taxable on any net taxable income (including such amounts) for the relevant tax period. Option premium received by such a person under, and a gain, including in respect of coupon amount accrued, or a loss, respectively, realised on the sale of, such a Security is a tax-free private capital gain, a non-tax-deductible private capital loss, respectively.

Transparent derivative financial instruments with a predominant one-time interest payment: If the embedded bond is recorded separately from the embedded derivative financial instrument(s) or if the values of the embedded bond and the embedded derivative financial instrument(s) can be determined analytically (as described above) and if the yield-to-maturity predominantly derives from a one-time interest payment such as an original issue discount or a repayment premium and not from periodic interest payments, then a person who is an individual resident in Switzerland holding such a Security as a private asset, is required to include any periodic interest payments received on the Security and, in addition, any amount equal to the difference between the value of the Security at redemption or sale, as applicable, and its value at issuance or secondary market purchase, as applicable, converted in each case into Swiss Francs at the exchange rate prevailing at the time of sale or redemption, issuance or purchase, respectively, in his or her personal income tax return for the relevant tax period and will be taxable on any net taxable income (including such amounts, i.e., including, *inter alia*, any gain in respect of coupon amount accrued, interest rate or foreign exchange rate) for the relevant tax period. Any compensation received by such a holder for the embedded derivative, i.e., option premium received under, and any residual gain, and a loss, respectively, realised on the sale of, such a Security is a tax-free private capital gain, a non-tax-deductible private capital loss, respectively. Notwithstanding the foregoing, such a holder may offset any decrease in value realised by him or her within the same taxation period on sale or redemption of such a Security against any gain (including periodic interest payments) realised by him or her from other Securities with a predominant one-time interest payment.

(c) *Bonds*

Structured products which are linked to the credit risk of an underlying reference value or a basket of such values (commonly referred to as credit linked notes or similar) are generally treated the same way as bonds for Swiss tax purposes.

Bonds without a predominant one-time interest payment: If a Security classifies for tax purposes as a straight bond, i.e. as an instrument without derivative financial instrument(s) embedded in such Security, and if such Security does not include a predominant one-time interest payment (i.e., its yield-to-maturity predominantly derives from periodic interest payments and not from a one-time interest payment such as an original issue discount or a repayment premium), then a person who is an individual resident in Switzerland holding such a Security as a private asset is required to include any periodic and one-time interest payments received on such Security, converted into Swiss Francs at the exchange rate prevailing at the time of payment, in his or her personal income tax return for the relevant tax period and is taxable on any net taxable income (including such amounts) for the relevant tax period. A gain, including, *inter alia*, in respect of coupon amount accrued or interest rate or foreign exchange rate, a loss, respectively, realised on the sale of such a Security is a tax-free private capital gain, a non-tax-deductible private capital loss, respectively.

Bonds with a predominant one-time interest payment: If a Security classifies for tax purposes as straight bond, i.e. as instrument without derivative financial instruments embedded in such Security, and if such Security includes a predominant one-time interest payment (i.e., its yield-to-maturity predominantly derives from a one-time interest payment such as an original issue discount or a repayment premium and not from periodic interest payments), then a person who is an individual resident in Switzerland holding such a Security as a private asset, is required to include any periodic interest payments received on the Security and, in addition, any amount equal to the difference between the value of the Security at redemption or sale, as applicable, and its value at issuance or secondary market purchase, as applicable, converted in each case into Swiss Francs at the exchange rate prevailing at the time of sale or redemption, issuance or purchase, respectively, in his or her personal income tax return for the relevant tax period and will be taxable on any net taxable income (including such amounts, i.e., including, *inter alia*, any gain in respect of coupon amount accrued, interest rate or foreign exchange rate) for the relevant tax period. Notwithstanding the above, such a holder may offset any decrease in value realised by him or her within the same taxation period on sale or redemption of such a Security against any gain (including periodic interest payments) realised by him or her from other Securities with a predominant one-time interest payment.

(d) *Fund-like Securities*

A Security which is classified as fund-like instrument will be considered a pass-through instrument for Swiss tax purposes if dividend and interest income (less attributable costs) from, and capital gains and losses (less costs attributable) realised on, the underlying investments, are reported and distributed separately. Under such conditions, an individual holding a fund-like Security as part of his or her private assets receives taxable income (which he or she must report annually) over such portion of distributions (in case the fund is distributing the income realised on the underlying investments) or credits (in case the fund

is reinvesting the income realised on the underlying investment) as derive from dividends and interest (less attributable costs) on the underlying instruments. Any distributions or credits deriving from capital gains realised on the underlying investments constitute a tax-free private capital gain, and any respective loss a non-tax-deductible private capital loss. Any gain realised within a taxation period on the sale of a fund-like Security (including accrued dividends and interest) is exempt from income taxation as a private capital gain, and, conversely, any loss realised on such a Security a non-tax-deductible capital loss.

Securities held as Assets of a Swiss Business (including deemed Professional Securities Dealers)

Corporate entities and individuals who hold Securities as part of a trade or business in Switzerland, in the case of residents abroad carried on through a permanent establishment or a fixed place of business in Switzerland, are required to recognise any payments on, and any capital gains or losses realised on the sale or redemption of, such Securities (irrespective of their classification) in their income statement for the respective taxation period and will be taxed on any net taxable earnings for such period.

The same taxation treatment also applies to Swiss-resident individuals who for income tax purposes, are classified as "professional Securities dealers" for reasons of, *inter alia*, frequent dealing and leveraged investments in Securities.

Swiss Facilitation of the Implementation of the U.S. Foreign Account Tax Compliance Act

Switzerland has concluded an intergovernmental agreement with the U.S. to facilitate the implementation of the U.S. Foreign Account Tax Compliance Act ("FATCA"). The agreement ensures that the accounts held by U.S. persons with Swiss financial institutions are disclosed to the U.S. tax authorities either with the consent of the account holder or by means of group requests within the scope of administrative assistance. Information will not be transferred automatically in the absence of consent, and instead will be exchanged only within the scope of administrative assistance on the basis of the double taxation agreement between the U.S. and Switzerland. On 27 June 2024, the Swiss Federal Council signed a new FATCA agreement with the U.S. changing the current direct-notification-based regime to a regime where the relevant information is sent to the Swiss Federal Tax Administration, which in turn provides the information to the U.S. tax authorities. Subject to ratification by the Swiss parliament, the new FATCA agreement is expected to enter into force 1 January 2027.

Automatic Exchange of Information in Tax Matters

On November 19, 2014, Switzerland signed the Multilateral Competent Authority Agreement (the "MCAA"). The MCAA is based on article 6 of the OECD/Council of Europe administrative assistance convention and is intended to ensure the uniform implementation of Automatic Exchange of Information (the "AEOI"). The Federal Act on the International Automatic Exchange of Information in Tax Matters (the "AEOI Act") entered into force on January 1, 2017. The AEOI Act is the legal basis for the implementation of the AEOI standard in Switzerland.

The AEOI is being introduced in Switzerland through bilateral agreements or multilateral agreements. The agreements have, and will be, concluded on the basis of guaranteed reciprocity, compliance with the principle of speciality (i.e. the information exchanged may only be used to assess and levy taxes (and for criminal tax proceedings)) and adequate data protection.

Based on such multilateral or bilateral agreements and the implementing laws of Switzerland, Switzerland exchanges data in respect of financial assets, including, as the case may be, Securities, held in, and income derived thereon and credited to, accounts or deposits with a paying agent in Switzerland for the benefit of individuals resident in a EU Member State or in a treaty state.

C. ITALIAN TAX CONSIDERATIONS

The following is a general overview of current Italian laws and practices relating to the tax regimes concerning the purchase, ownership and disposal of the Securities by Italian and non-Italian resident Securityholders and does not in any way constitute, nor should it be relied upon as being, a tax advice or a tax opinion covering any or all of the relevant taxes connected to the purchase, ownership or disposal of the Securities by Italian or non-Italian resident investors. It does not purport to be a complete analysis of all tax regimes that may be relevant to a decision to purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of prospective beneficial owners of Securities, some of which may be subject to special rules. This overview is based upon Italian tax laws

and published practice in effect as at the date of this Programme which may be subject to change, potentially with retroactive effect.

Prospective purchasers should be aware that the applicable tax regime depends on individual circumstances of each Securityholder: as a consequence they should consult their tax advisers as to the consequences under Italian tax laws and under the tax laws of the country in which they are resident for tax purposes and of any other potentially relevant jurisdiction of acquiring, holding and disposing of Securities and receiving payments of interest, principal and/or other amounts under the Securities, including in particular the effect of any state, regional or local tax laws.

Italian tax treatment of the Securities (Warrants, Certificates and Notes)

The Securities may be subject to different tax regimes depending on whether:

- (a) they represent derivative financial instruments or bundles of derivative financial instruments, through which the Securityholders purchase indirectly underlying financial instruments; or
- (b) they represent a debt instrument implying a "use of capital" (*impiego di capitale*), through which the Securityholders transfer to the Issuer a certain amount of capital, for the economic exploitation of the same, subject to the right to obtain a (partial or entire) reimbursement of such amount at maturity.

1.1 Securities representing derivative financial instruments or bundles of derivative financial instruments

Payments in respect of Securities qualifying as securitised derivative financial instruments as well as capital gains of the Securities received by Securityholders which are (a) Italian resident companies or similar entities (including Italian permanent establishments of non-Italian residents to which the Securities are effectively connected), (b) Italian resident partnerships carrying out commercial activities or similar commercial entities (c) Italian resident individuals engaged in entrepreneurial activities to which the Securities are effectively connected, are included in the relevant Securityholder's taxable income and are therefore subject to the Italian corporate income tax (IRES, currently levied at the rate of 24 per cent. - 27.5 per cent. rate in case the Securityholder is a credit or a financial institution other than a management company of an undertaking for collective investment or "*società di intermediazione mobiliare*" ("**SIM**")), or to personal income tax (IRPEF, currently levied at progressive rates between 23% up to 43% plus regional and municipal surtaxes), as the case may be, according to the ordinary rules. In certain cases, depending on the status of the Securityholder, such proceeds may also have to be included in its taxable base for regional income tax on business activities (IRAP, currently levied at the general rate of 3.9 per cent., increased to 4.65 per cent. and 5.90 per cent. in case, respectively, of banks and other financial institutions and insurance companies. IRAP rate may be varied up to 0.92 per cent. by certain Italian regions).

According to Article 5 of Legislative Decree No. 461 of 21 November 1997 ("**Decree 461**"), payments in respect of Securities as well as capital gains realised by (a) Italian resident individuals not engaged in entrepreneurial activities to which the Securities are effectively connected, (b) an Italian partnership (other than a *società in nome collettivo* or *società in accomandita semplice* or similar partnership) or a de facto partnership not carrying out commercial activities or professional associations or (c) an Italian private or public institution not carrying out mainly or exclusively commercial activities, upon the sale for consideration or redemption of the Securities are subject to a substitute tax (*imposta sostitutiva*) currently at rate of 26 per cent.. In respect of the application of the substitute tax, the Securityholders listed above may opt for one of the three regimes described below:

- (a) Under the tax declaration regime ("**Tax Declaration Regime**"), which is the standard regime for the taxation of capital gains, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all payments in respect of Securities and all capital gains, net of any incurred capital loss of the same nature, realised pursuant to all sales or redemptions of the Securities carried out during any given tax year. The overall capital gains realised in any tax year, net of any relevant incurred capital loss of the same nature, must be reported in the annual tax return and *imposta sostitutiva* must be paid on such gains together with any balance income tax due for the relevant

year. Capital losses in excess of capital gains may be carried forward against capital gains of the same nature realised in any of the four succeeding tax years;

- (b) as an alternative to the Tax Declaration Regime, the Securityholders may elect to pay the *imposta sostitutiva* separately on payments received in respect of Securities and capital gains realised on each sale or redemption of the Securities under the so called "*regime del risparmio amministrato*" provided for by Article 6 of Decree 461 (the "**Administrative Savings Regime**"). Such separate taxation of capital gains is allowed subject to (i) the Securities being deposited with Italian banks, SIMs or certain authorised financial intermediaries (or permanent establishments in Italy of foreign intermediaries) and (ii) an express election for the Administrative Savings Regime being timely made in writing by the relevant Securityholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Securities, as well as on capital gains realized as at revocation of its mandate, net of any relevant incurred capital loss of the same nature, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Securityholder or using funds provided by the Securityholder for this purpose. Where a sale or redemption of the Securities results in a capital loss, such loss may be offset against with capital gains of the same nature subsequently realised, within the same relationship of deposit, in the same tax year or in the following tax years up to the fourth. Under the Administrative Savings Regime, the Securityholder is not required to declare the capital gains in the annual tax return;
- (c) where the Securities are part of a portfolio managed under the so called "*regime del risparmio gestito*" provided for by Article 7 of Decree 461 (the "**Asset Management Regime**") by an Italian asset management company or an authorized financial intermediary, any payments received as well as capital gains realised upon sale, transfer or redemption of the Securities will not be subject to the substitute tax on capital gains but will contribute the determination of the annual accrued appreciation of the managed portfolio, subject to 26 per cent. annual substitutive tax, to be paid by the managing authorised intermediary. Any depreciation of the managed portfolio at year end may be carried forward against appreciation accrued in each of the following years up to the fourth. Under the Asset Management Regime, the Securityholder is not required to declare the capital gains in the annual tax return.

Subject to certain limitations and requirements (including a minimum holding period), capital gains in respect of Securities realised upon sale, transfer or redemption by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity may be exempt from taxation, including the 26 per cent. *imposta sostitutiva*, if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) pursuant Article 1, paragraph 100 – 114, of Law No. 232 of 11 December 2016, as subsequently amended and restated from time to time, and for long-term individual savings accounts established from 1 January 2020, by Article 13-bis of Decree No. 124 of 26 October 2019, converted into Law with amendments by Law No. 157 of 19 December 2019 as subsequently amended and restated from time to time.

Any capital gains on Securities (as well as increase or decrease of their relevant fair market value) held by Italian resident open-ended or closed-ended collective investment funds, SICAVs or SICAFs not mainly investing in real estate assets and governed by Legislative Decree No. 44 of 4 March 2014 (the "**UCIs**") contribute to determine the increase in value of the managed assets of the UCIs accrued at the end of each tax year. UCIs will not be subject to taxation on such increase, but a withholding tax of 26% will apply, in certain circumstances, to distributions made in favour of unitholders or shareholders.

Under the current regime provided by Law Decree No. 351 of 25 September 2001 converted with amendments by Law No. 410 of 23 November 2001, where a Securityholder is an Italian resident real estate investment fund established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 or an Italian SICAF, to which the provisions of Legislative Decree No. 44 of 4 March 2014 applies (the "**Real Estate UCIs**"), capital gains realised will be subject neither to substitute tax nor to any other income tax in the hands of the Real Estate UCI. The income of the Real Estate UCI, depending on the status and percentage of participation by the unitholders/shareholders, is (i) directly subject to tax in their hands or (ii) subject to a withholding tax at the rate of 26 per cent. upon distribution or redemption or disposal of the units/shares.

Any capital gains on Securities held by a Securityholders who is an Italian pension fund (subject to the regime provided for by Article 17 of Legislative Decree No. 252 of 5 December 2005) will be included in

the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent. ad hoc annual substitute tax.

Non-Italian resident investors

Capital gains realised by non-Italian resident Securityholders without a permanent establishment in Italy to which the Securities are effectively connected from the sale or redemption of Securities not traded on regulated markets issued by a non-Italian resident issuer may in certain circumstances be taxable in Italy, if the Securities are held in Italy.

However, where the Securities are not traded on a regulated market in Italy or abroad, pursuant to the provisions of Decree No. 461, non-Italian resident beneficial owners of the Securities with no permanent establishment in Italy to which the Securities are effectively connected are exempt from the substitute tax in the Republic of Italy on any capital gains realised upon sale for consideration or redemption of the Securities if they are resident for tax purposes in a state or territory included in the "White List" (i.e. Decree of the Minister of Finance dated 4 September, 1996, as amended and supplemented from time to time and to be updated every six months period according to Article 11, par. 4, let. c) of Legislative Decree No. 239 of 1 April 1996. Last amendment made on 23 March 2017). The same exemption applies where the beneficial owners of the Securities are (i) international entities or organisations established in accordance with international agreements ratified by Italy; (ii) certain foreign institutional investors established in countries included in the White List, even if they do not have the status of taxpayers in their own country of residence; or (iii) Central Banks or entities which manage, inter alia, the official reserves of a foreign State. Under these circumstances, if non-Italian residents without a permanent establishment in Italy to which the Securities are effectively connected elect for the Asset Management Regime or are subject to the Administrative Savings Regime, exemption from Italian capital gains tax will apply upon condition that they provide in time with the authorised financial intermediary an appropriate self-declaration (*autocertificazione*) stating that they meet the requirement indicated above. Additional statements may be required for non-Italian resident Securityholders who are institutional investors.

Non-Italian resident individuals or entities without a permanent establishment in Italy to which the Securities are connected that may benefit from a double taxation treaty with the Republic of Italy providing that capital gains realised upon the sale or redemption of Securities are to be taxed only in the country of tax residence of the recipient, will not be subject to the substitute tax in the Republic of Italy on any capital gains realised upon the sale or redemption of Securities. In such a case, in order to benefit from this exemption from Italian taxation on capital gains, non-Italian resident Securityholders who hold the Securities with an Italian authorised financial intermediary and elect to be subject to the Asset Management Regime or are subject to the Administrative Savings Regime, may be required to produce in due time to the Italian authorised financial intermediary appropriate documents which include, inter alia, a statement from the competent tax authorities of the country of residence.

Please note that for a non-Italian resident, the Administrative Savings Regime shall automatically apply, unless it is expressly waived this regime, where the Securities are deposited in custody or administration with an Italian resident authorised financial intermediary or permanent establishment in the Republic of Italy of a foreign intermediary.

Securities representing debt instruments implying a "use of capital" not having 100 per cent. capital reimbursement

In the case of Securities representing debt instruments implying a "use of capital" not guaranteeing the total reimbursement of the principal, under Italian tax law they should qualify as "atypical securities" (*titoli atipici*) pursuant to Law Decree No. 512 of 30 September 1983, and payments in respect of such Securities received by Italian investors would be subject to the following regime:

- (a) if the Securities are placed (*collocati*) in Italy, payments made to individual investors holding the Securities not in connection with an entrepreneurial activity will be subject to a 26 per cent final withholding tax. This withholding tax is levied by the entrusted Italian resident bank or financial intermediary, if any, that is involved in the collection of payments on the Securities, in the repurchase or in the transfer of the Securities;
- (b) if the Securities are not placed (*collocati*) in Italy or in any case where payments on the Securities are not received through an entrusted Italian resident bank or financial intermediary (that is involved in the collection of payments on the Securities, in the repurchase or in the transfer thereof)

and no withholding tax is levied, the individual beneficial owners will be required to declare the payments in their income tax return and subject them to a final substitute tax at a rate of 26 per cent. The Italian individual Securityholder may elect instead to pay ordinary IRPEF at the progressive rates applicable to them in respect of the payments; if so, the Investor should generally benefit from a tax credit for withholding taxes applied outside Italy, if any.

The 26 per cent. withholding tax does not apply to payments made to an Italian resident Securityholder which is (i) an Italian resident commercial partnership, (ii) an Italian resident company or a similar Italian resident commercial entity (including the Italian permanent establishment of foreign entities to which the Program Securities are effectively connected) and (iii) a commercial private or public institution. In particular, in such cases, payments must be included in the relevant Securityholder's annual income tax return to be therefore subject to ordinary Italian business income taxation (and, in certain circumstances, depending on the status of the Securityholder, also to IRAP and the beneficial owners should be generally entitled to a tax credit for any withholding tax applied outside Italy).

Subject to certain limitations and requirements (including a minimum holding period), capital gains in respect of Securities realised upon sale, transfer or redemption by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity may be exempt from taxation, including the 26 per cent. *imposta sostitutiva*, if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) pursuant Article 1, paragraph 100 – 114, of Law No. 232 of 11 December 2016, as subsequently amended and restated from time to time, and for long-term individual savings accounts established from 1 January 2020, by Article 13-bis of Decree No. 124 of 26 October 2019, converted into Law with amendments by Law No. 157 of 19 December 2019 as subsequently amended and restated from time to time.

Capital gains tax

Italian resident investors

Any gain obtained from the sale or the exercise of the Securities would be subject to the same tax regime as described under "1.1 Securities representing derivative financial instruments or bundles of derivative financial instruments", above.

Subject to certain limitations and requirements (including a minimum holding period), capital gains in respect of Securities realised upon sale, transfer or redemption by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity may be exempt from taxation, including the 26 per cent. *imposta sostitutiva*, if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) pursuant Article 1, paragraph 100 – 114, of Law No. 232 of 11 December 2016, as subsequently amended and restated from time to time, and for long-term individual savings accounts established from 1 January 2020, by Article 13-bis of Decree No. 124 of 26 October 2019, converted into Law with amendments by Law No. 157 of 19 December 2019 as subsequently amended and restated from time to time.

Non-Italian resident investors

Any gain obtained from the sale or the exercise of the Securities would be subject to the same tax regime as described under "1.1 Securities representing derivative financial instruments or bundles of derivative financial instruments", above.

1.2 Inheritance and gift tax

Transfers of any valuable assets (including the Securities) as a result of death or *inter vivos* gift (or other transfers for no consideration) and the creation of liens on such assets for a specific purpose (*vincoli di destinazione*) are taxed as follows:

- (a) four per cent. if the transfer is made to spouses and direct descendants or ancestors; in this case, the transfer is subject to tax on that part of the value that exceeds EUR 1,000,000 (per beneficiary);
- (b) six per cent. if the transfer is made to brothers and sisters; in this case, the transfer is subject to the tax on that part of the value that exceeds EUR 100,000 (per beneficiary);

- (c) six per cent. if the transfer is made to relatives up to the fourth degree (*parenti fino al quarto grado*), to persons related by direct affinity as well as to persons related by collateral affinity up to the third degree (*affini in linea retta nonché affini in linea collaterale fino al terzo grado*); and
- (d) eight per cent. in all other cases.

If the transfer is made in favour of persons with severe disabilities, the tax applies on that part of the value that exceeds EUR 1,500,000.

Subject to certain limitations and requirements, transfers of Securities as a result of death (but not as a result of an *inter vivos* gift or other transfers for no consideration) of Italian resident individuals holding the Securities not in connection with an entrepreneurial activity may be exempt from Italian inheritance tax if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) pursuant Article 1, paragraph 100 – 114, of Law No. 232 of 11 December 2016, as subsequently amended and restated from time to time, and for long-term individual savings account established from 1 January 2020, by Article 13-bis of Decree No. 124 of 26 October 2019, converted into Law with amendments by Law No. 157 of 19 December 2019 as subsequently amended and restated from time to time.

1.3 **Transfer tax and registration tax**

Contracts relating to the transfer of securities are subject to registration tax as follows: (i) public deeds and notarised deeds (*atti pubblici e scritture private autenticate*) executed in Italy are subject to fixed registration tax at rate of Euro 200; (ii) private deeds (*scritture private autenticate*) are subject to registration tax at rate of Euro 200 only in case of use or voluntary registration.

1.4 **Stamp duty**

Pursuant to Article 13 par. 2/ter of the tariff Part I attached to Presidential Decree No. 642 of 26 October 1972, as amended by Article 1 par. 581 of Law No. 147 of 27 December 2013, a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by financial intermediaries to their clients and relating to securities and financial instruments. The stamp duty applies at a rate of 0.20 per cent.; this stamp duty is determined on the basis of the market value or – if no market value is available – the nominal value or redemption amount of the Securities held. The stamp duty cannot exceed the amount of Euro 14,000 if the recipient of the periodic reporting communications is an entity (i.e. not an individual).

It may be understood that the stamp duty applies both to Italian resident and non-Italian resident investors, to the extent that the Securities are held with an Italian-based financial intermediary.

The periodic reporting communications are considered to be sent at least once a year, even for instruments for which is not mandatory nor the deposit nor the release or the drafting of the periodic reporting communication. In case of reporting periods of less than 12 months, the stamp duty is payable pro-rata.

Based on the wording of the law and the implementing decree issued by the Italian Ministry of Economy on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 20 June 2012) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

1.5 **Wealth tax**

Pursuant to Article 19 of Law Decree No. 201 of 6 December 2011, as amended by Article 1 par. 582 of Law No. 147 of 27 December 2013, Italian resident individuals holding the Securities abroad are required to pay a wealth tax (IVAFE) at a rate of 0.20 per cent. for each year. This tax is calculated on the market

value of the Securities proportionally to the respective holding period or – if no market value is available – their nominal value or the redemption value.

Taxpayers are entitled to an Italian tax credit equivalent to the amount of any wealth tax paid in the State where the Securities are held (up to an amount equal to the IVAFE due).

The Securities held abroad are excluded from the scope of IVAFE, if such Securities are administered by Italian financial intermediaries pursuant to an administration agreement.

1.6 Tax monitoring obligations

Italian resident individuals (and certain other entities) are required to report in their yearly income tax return, according to Law Decree No. 167 of 28 June 1990, converted into law by Law No. 227 of 4 August 1990, for tax monitoring purposes, the amount of Securities held abroad (or beneficially owned abroad under Italian anti-money laundering provisions). This also applies in the case that at the end of the tax year, Securities are no longer held by the above Italian resident individuals and entities.

However, the above reporting obligation is not required in case the financial assets are deposited for management with Italian banks, SIMs, fiduciary companies or other professional intermediaries, indicated in article 1 of Decree No. 167 of 28 June 1990, or if one of such intermediaries intervenes, also as a counterpart, in their transfer, provided that income deriving from such financial assets is collected through the intervention of such an intermediary.

D. FRENCH TAX CONSIDERATIONS

The following is a summary based on French legislation as of the date of this Base Prospectus. It does not take into account any legislative reforms that may be introduced in 2026 and after, notably under the Finance bill. Furthermore, it does not aim to be a comprehensive description of all the French tax considerations that may be relevant for a decision to invest in Securities. This summary is limited to the tax treatment for French tax residents investing in French law Notes.

1.1. Income received from the Securities

As a preliminary remark, it is worth noting that Article 131 ter of the French Tax Code (“FTC”) provides that the Securities issued in France by foreign or international bodies with the authorisation of the French Minister of the Economy and Finance are treated in the same way as French Securities for the purposes notably of the withholding tax provided for in Article 125 A of the FTC.

a. On the date of the payment

In principle, and subject to certain exceptions, on the date of the payment of the income received from the Securities, individuals who are French tax residents within the meaning of article 4 B of the FTC are subject to a non-final withholding tax (French “*prélèvement forfaitaire non-libératoire*” or “PFNL”) at a rate of 12.8% on the gross amount of income received⁸⁵.

This withholding tax is filed and paid online by the paying institution if it is established in France. Where the paying institution is established outside of France, the PFNL is filed and paid, within the first 15 days of the month following the month in which the income was paid, either by (i) the taxpayer himself or (ii) the paying institution where this paying institution (a) is established in a State Member of the European Union or in another State party to the Agreement on the European Economic Area which has entered into an administrative assistance agreement with France with a view to preventing tax fraud and tax avoidance and (b) has been mandated for this purpose by the taxpayer.

Pursuant to the French tax authorities (“FTA”) guidelines, the paying institution could notably be “*persons or bodies, including public funds, who pay or collect coupons or instruments representing coupons on transferable securities and those who purchase such coupons or instruments already due or in payment, or who act as intermediaries in their negotiation*”⁸⁶.

⁸⁵ Article 125 A of the FTC.

⁸⁶ BOI- RPPM-RCM-30-20-20/12/2019 §20.

In the case at hand, we understand that the paying institution is Deutsche Bank AG, acting either through its head office in Frankfurt am Main or through its London branch:

- if the paying institution is Deutsche Bank AG, acting through its head office in Frankfurt am Main, i.e. is established in a State Member of the European Union, the PFNL should be filed and paid within the first 15 days of the month following the month in which the income was paid, either by (i) the taxpayer himself or (ii) the paying institution if it has been mandated for this purpose by the taxpayer;

- if the paying institution is Deutsche Bank AG, acting through its London branch, i.e. is established outside of France in a State which is not Member of the European Union, the PFNL should be filed and paid by the taxpayer himself within the first 15 days of the month following the month in which the income was paid to the taxpayer.

However, individuals belonging to a tax household whose reference tax income for the penultimate year, as defined in Article 1417, IV, 1° of the FTC, is less than €50,000 for single, divorced or widowed taxpayers, and less than €75,000 for taxpayers subject to joint taxation, may apply for exemption from the PFNL under the conditions set out in article 242 quater of the FTC, i.e. by producing to the paying institution, no later than 30 November of the year preceding the year during which the income is paid, a statement on honour mentioning that their reference tax income based on the tax assessment issued in respect of the income for the penultimate year preceding the year during which the payment is made is below the thresholds of €50,000 euros or €75,000 euros as the case may be. However, taxpayers who acquire shares after the deadline for filing the aforementioned exemption request may, under certain conditions, file this exemption request with their paying institution when they acquire these shares⁸⁷.

Where the paying institution is established outside France, only individuals who belong to a tax household whose reference tax income for the penultimate year, as defined in Article 1417, IV, 1° of the FTC, is equal to or greater than the thresholds mentioned in the previous paragraph, are subject to the PFNL⁸⁸.

In addition, when the investor receives income from the Securities, this income is also subject, with certain exceptions, to social security contributions at the rate of 17.2%, which are filed and paid online at the same time as the PFNL. Investors are advised to consult their usual advisor to determine the terms and conditions for payment of social security contributions.

b. At the time of final taxation

At the time of the final taxations, income received from Securities are subject to personal income tax (after deduction of the PFNL) (i) at the flat rate of 12,8% (French “*prélèvement forfaitaire unique*” or “**PFU**”)⁸⁹, to which social security contributions at the rate of 17,2% shall be added, or (ii) subject to the irrevocable option of the taxpayer, under the progressive scale of personal income tax. If the taxpayer opts for the progressive scale, all income falling within the scope of the PFU will be subject to the taxation under the progressive scale.

Furthermore, if the taxpayer opts for the progressive scale, the General social contribution (French “*contribution sociale généralisée*” or “**CSG**”) will be deductible from the taxable income of the taxpayer up to 6.8%.

Ultimately, the PFNL withheld on the date of payment of the income is deductible from the personal income tax due with respect to the year during which such income was paid and any surplus is refundable. Investors are advised to consult their usual tax adviser to determine whether any exceptions to the PFNL apply and, if so, how the PFNL can be offset against their income tax.

- (a) it has only made and will only make an offer of Securities to the public in Switzerland, other than pursuant to an exemption under Article 36(1) FinSA or where such offer does not qualify as a public offer in Switzerland, if the applicable Final Terms in respect of any Securities published according to Article 64 FinSA specify "Swiss Non-exempt Offer" as applicable, in the "Swiss Offer Period" specified in the applicable Final Terms, and if consent has been granted to use the Base Prospectus and the applicable Final Terms for a public offer in Switzerland in accordance with Article 36(4) FinSA; or

For these purposes "public offer" refers to the respective definitions in Article 3(g) and (h) FinSA and as further detailed in the implementing Financial Services Ordinance (FinSO).

The offering of the Securities has not been registered pursuant to Italian securities legislation and, accordingly, no Securities may be offered, sold or delivered, nor may copies of this Base Prospectus, any Final Terms or of any other document relating to the Securities be distributed in the Republic of Italy, except:

Any offer, sale of the Securities in the Republic of Italy or distribution of copies of this Base Prospectus, any Final Terms or any other document relating to the Securities in the Republic of Italy under (a) or (b) above must be:

- ii. in compliance with Article 129 of the Banking Act, as amended and the implementing guidelines of the Bank of Italy, as amended from time to time, with regard, *inter alia*, to the reporting obligations required; and
- iii. in compliance with any other applicable laws and regulations (including Article 100-bis of the Financial Services Act, where applicable) or requirement imposed by CONSOB or the Bank of Italy or other Italian authority.

Please note that in accordance with Article 100-bis of the Financial Services Act, where no exemption under (b) above applies, the subsequent distribution of the Securities on the secondary market in Italy must be made in compliance with the rules on offers of securities to be made to the public provided under the Financial Services Act and the Regulation 11971/1999. Furthermore, where the Securities are placed solely

with “qualified investors” and are then systematically (“**sistematicamente**”) resold on the secondary market at any time in the 12 months following such placing, purchasers of Securities who are acting outside of the course of their business or profession may in certain circumstances be entitled to declare such purchase void and, in addition, to claim damages from any authorised person at whose premises the Securities were purchased, unless an exemption provided under the Financial Services Act applies.
