

Key Information Document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Product name	Floater Note
Product identifiers	ISIN: DE000DE04XK4 WKN: DE04XK
PRIIP manufacturer	Deutsche Bank AG. The product issuer is Deutsche Bank AG, Frankfurt.
Website	www.db.com/contact
Telephone number	Call +49-69-910-00 for more information.
Competent authority of the PRIIP manufacturer	German Federal Financial Supervisory Authority (BaFin)
Date of production	20 June 2022

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type German law governed notes

Objectives

(Terms that appear in **bold** in this section are described in more detail in the table(s) below.)

The product is designed to provide (1) a return in the form of variable interest payments calculated by reference to the **reference rate** and (2) repayment of the **product notional amount** on the **maturity date**.

Interest: On each **interest payment date** you will receive an interest payment calculated by multiplying the **product notional amount** by the applicable **interest rate** and then applying the **day count fraction** to adjust this amount to reflect the length of the relevant **interest period**. The relevant dates and interest rates are shown in the table(s) below.

Interest payment dates	Interest rates
24 April 2017	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 July 2017	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 October 2017	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 January 2018	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 April 2018	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 July 2018	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 October 2018	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 January 2019	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 April 2019	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 July 2019	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 October 2019	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 January 2020	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 April 2020	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 July 2020	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 October 2020	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 January 2021	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 April 2021	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 July 2021	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 October 2021	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 January 2022	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 April 2022	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 July 2022	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
24 October 2022	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%
Maturity date	A per annum rate equal to 3M EURIBOR, subject to a floor of 0.70%

Termination on the maturity date: On termination of the product on the **maturity date** you will receive EUR 100.00.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

When purchasing this product during its lifetime, the purchase price does not include accrued interest on a pro rata basis.

However, you will also be required to pay accrued interest on a pro rata basis if you purchase the product during its lifetime.

Reference rate	3M EURIBOR The level of the reference rate for any interest period will be determined by reference to Refinitiv screen page <EURIBOR3MD=> at 11:00 a.m. (Frankfurt am Main local time) 2 business days prior to the beginning of that interest period	Issue date	20 January 2017
Underlying market	Interest rates	Maturity date / term	24 January 2023
Product notional amount	EUR 100	Interest period	Each period from, and including, an interest payment date (or 24 January 2017, in the case of the initial interest period) to, but excluding, the next interest payment date (or the maturity date , in the case of the final interest period)
Product currency	Euro (EUR)	Day count fraction	30/360

The issuer may terminate the product with immediate effect in the event of obvious written or mathematical errors in the terms and conditions or if certain extraordinary events provided in the terms and conditions occur. Examples of extraordinary events include (1) material changes and (2) events, in particular due to changes in certain external conditions that hinder the issuer in meeting its obligations in connection with the product or – depending on the terms and conditions of the security – otherwise affect the product and/or the issuer. In case of immediate termination, the return (if any) may be significantly lower than the purchase price, but will reflect the product's market value and, if higher, any minimum redemption (alternatively, in some cases the corresponding compounded amount may be paid out at the product's scheduled maturity). Instead of immediate termination, the issuer may also amend the terms and conditions.

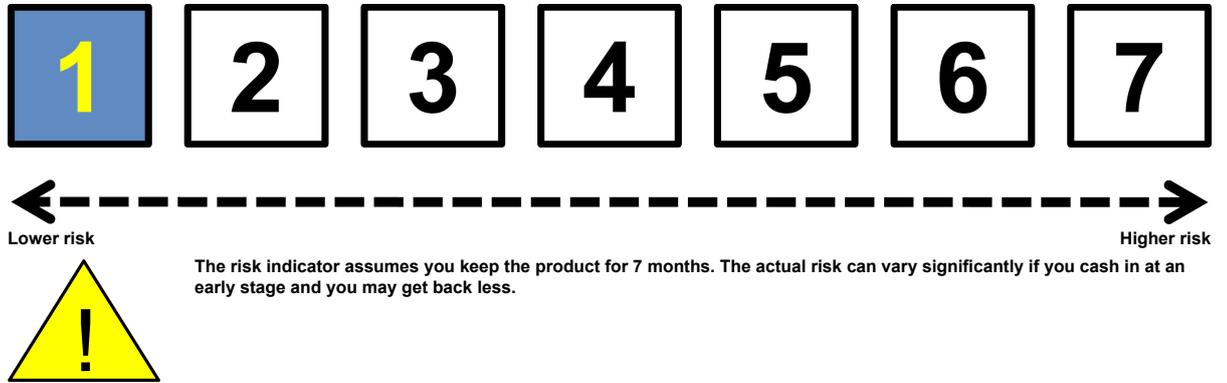

Provided that in the event of any inconsistency and/or conflict between the foregoing paragraph and any applicable law, order, rule or other legal requirement of any governmental or regulatory authority in a territory in which this product is offered, such national requirements shall prevail.

Intended retail investor

The product is intended for private clients who pursue the objective of general capital formation/asset optimization and have a short-term investment horizon. This product is a product for clients who have sufficient knowledge and / or experience to make an informed investment decision. The investor cannot bear any losses on the capital invested and attaches importance to capital protection.

2. What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

You are entitled to receive back at least 100.00% of your capital. However, this protection against future market performance will not apply if you cash in before maturity or in case of immediate termination by the issuer.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

Investment: EUR 10,000		7 months (Recommended holding period)
Scenarios		
Stress scenario	What you might get back after costs Percentage return (not annualised)	EUR 10,046.28 0.46%
Unfavourable scenario	What you might get back after costs Percentage return (not annualised)	EUR 10,046.28 0.46%
Moderate scenario	What you might get back after costs Percentage return (not annualised)	EUR 10,046.28 0.46%
Favourable scenario	What you might get back after costs Percentage return (not annualised)	EUR 10,046.28 0.46%

The average returns shown in the above table are not annualised, which means they may not be comparable to the average returns shown in other key information documents.

This table shows the money you could get back over the next 7 months under different scenarios, assuming that you invest EUR 10,000.

The scenarios shown illustrate how your investment could perform. The recommended holding period for this product is less than one year. The figures are therefore not calculated on a per year basis, but for the recommended holding period. Figures in this section and "4. What are the costs?" are therefore not comparable with figures given for products with a recommended holding period of at least one year. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

3. What happens if Deutsche Bank AG, Frankfurt is unable to pay out?

You are exposed to the risk that the issuer might be unable to fulfil its obligations in respect of the product – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. In case of a crisis of the issuer such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. In doing so, the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the product or convert it into shares of the issuer and suspend rights of the investors. With regard to the basic ranking of the issuer's obligations in the event of action by the resolution authority, please see www.bafin.de and search for the keyword "Haftungskaskade". A total loss of your capital invested is possible. The product is a debt instrument and as such is not covered by any deposit protection scheme.

4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for the recommended holding period. They include potential early exit penalties. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future.

Costs over time

Investment: EUR 10,000		If you cash in at the end of the recommended holding period
Scenarios		
Total costs		EUR 0.00
Impact on return (RIY)		0.00%

The reduction in yield shown in the above table is not annualised, which means it may not be comparable to the reduction in yield values shown in other key information documents.

The "Total costs" in the table above represents in monetary terms the aggregated amount of costs associated with the investment, assuming the product performs in line with the moderate performance scenario. The "Impact on return" represents how much the expected costs of the product would affect your return in such scenario.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Composition of costs

The table below shows:

- The impact of the different types of costs on the investment return you might get at the end of the recommended holding period
- The meaning of the different cost categories.

The table shows the impact on return.

Cost Category	Cost Type	Impact on Return	Description
One-off costs	Entry costs	0.00%	The impact of the costs already included in the price.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs per year	0.00%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	-	The impact of the costs that we take for managing your investment for the recommended holding period.

5. How long should I hold it and can I take money out early?

Recommended holding period: 7 months

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 24 January 2023 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (where the product is listed) or (2) off-exchange. No fees or penalties will be charged by the issuer for any such transaction. However if you sell the product in the secondary market you will incur a bid/offer spread. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

Exchange listing	Börse Stuttgart and Deutsche Börse AG	Last exchange trading day	20 January 2023 (Börse Stuttgart) and 20 January 2023 (Deutsche Börse AG)
Smallest tradable unit	EUR 100	Price quotation	Percentage

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at:

Jurisdiction	Postal address	Email address	Website
