You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

$$
\overline{\text { Type }}--------\overline{\text { German law governed notes }}
$$

Term $\quad$ The product has a fixed term and will be due on 5 November 2025.

Objectives
(Terms that appear in bold in this section are described in more detail in the table(s) below.)

The product is designed to provide (1) a return in the form of interest payments calculated by reference to the relevant interest rate and (2) repayment of the product notional amount on the maturity date.

Interest: On each interest payment date you will receive an interest payment calculated by multiplying the product notional amount by the applicable interest rate and then applying the day count fraction to adjust this amount to reflect the length of the relevant interest period. The relevant dates and interest rates are shown in the table(s) below.

| Interest payment dates | Interest rates | Details |
| :---: | :---: | :---: |
| 5 November 2021 | 1.10\% per annum | - |
| 5 November 2022 | 1.10\% per annum | - |
| 5 November 2023 | A per annum rate equal to USD CMS Rate 1Y, subject to a floor of $1.00 \%$ and a cap of $3.00 \%$ | USD CMS Rate 1 Y will be determined by reference to ICE screen page <USDSFIX1Y=> at 11:00 a.m. (New York local time) 2 business days prior to the beginning of the interest period |
| 5 November 2024 | A per annum rate equal to 1 Y USD-Spread-Adjusted ICE Swap Rate, subject to a floor of $1.00 \%$ and a cap of $3.00 \%$ | 1 Y USD-Spread-Adjusted ICE Swap Rate will be determined by reference to BBG screen page USISOA01 Index at 11:00 a.m. <br> (New York local time) 2 business days prior to the beginning of the interest period |
| Maturity date | A per annum rate equal to 1 Y USD-Spread-Adjusted ICE Swap Rate, subject to a floor of $1.00 \%$ and a cap of $3.00 \%$ | 1Y USD-Spread-Adjusted ICE Swap Rate will be determined by reference to BBG screen page USISOA01 Index at 11:00 a.m. <br> (New York local time) 2 business days prior to the beginning of the interest period |

Termination on the maturity date: On termination of the product on the maturity date you will receive USD 100.00.
Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.
When purchasing this product during its lifetime, the purchase price does not include accrued interest on a pro rata basis.
However, you will also be required to pay accrued interest on a pro rata basis if you purchase the product during its lifetime.

| Reference rate 1 | USD CMS Rate 1 Y <br> The level of the reference rate for any interest period will be determined by reference to ICE screen page <USDSFIX1Y=> at 11:00 a.m. (New York local time) 2 business days prior to the beginning of that interest period | Issue date | 3 November 2020 |

## Product notiona

 amountProduct currency
USD 100
U.S. Dollar (USD)

The issuer may terminate the product with immediate effect in the event of obvious written or mathematical errors in the terms and conditions or if certain extraordinary events provided in the terms and conditions occur. Examples of extraordinary events include (1) material changes and (2) events, in particular due to changes in certain external conditions that hinder the issuer in meeting its obligations in connection with the product or - depending on the terms and conditions of the security - otherwise affect the product and/or the issuer. In case of immediate termination, the return (if any) may be significantly lower than the purchase price, but will reflect the product's market value and, if higher, any minimum redemption (alternatively, in some cases the corresponding compounded amount may be paid out at the product's scheduled maturity). Instead of immediate termination, the issuer may also amend the terms and conditions.
Provided that in the event of any inconsistency and/or conflict between the foregoing paragraph and any applicable law, order, rule or other legal requirement of any governmental or regulatory authority in a territory in which this product is offered, such national requirements shall prevail.

The product is intended for private clients who pursue the objective of general capital formation/asset optimization and have a shortterm investment horizon. This product is a product for clients who have sufficient knowledge and / or experience to make an informed investment decision. The investor cannot bear any losses on the capital invested and attaches importance to capital protection.
2. What are the risks and what could I get in return?

Performance scenarios

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this product as 1 out of 7 , which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.
To the extent the currency of the country in which you purchase this product or your account currency differs from the product currency, please be aware of currency risk. You will receive payments in a different currency so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
Inflation erodes the purchasing value of cash over time and this may result in the decline in real terms of any capital reimbursed or interest you may be paid under the investment.
You are entitled to receive back at least $100.00 \%$ of your capital. However, this protection against future market performance will not apply if you cash in before maturity or in case of immediate termination by the issuer.
If we are not able to pay you what is owed, you could lose your entire investment.
What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.
The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

| Recommended holding period: |  | 1 year and 7 months |  |
| :---: | :---: | :---: | :---: |
| Example investment: |  | USD 10,000 |  |
| Scenarios |  | If you exit after 1 year | If you exit after 1 year and 7 months |
|  |  |  | (Recommended holding period) |
| Minimum | USD 10,626. The return is only guaranteed if you hold the product to maturity. You could lose some or all of your investment. |  |  |
| Stress | What you might get back after costs Average return each year | $\begin{gathered} \text { USD 10,470 } \\ 4.7 \% \end{gathered}$ | $\begin{gathered} \text { USD 11,042 } \\ 6.4 \% \end{gathered}$ |
| Unfavourable | What you might get back after costs Average return each year | $\begin{gathered} \text { USD 10,550 } \\ 5.5 \% \end{gathered}$ | $\begin{gathered} \text { USD 11,042 } \\ 6.4 \% \end{gathered}$ |
| Moderate | What you might get back after costs Average return each year | $\begin{gathered} \text { USD 10,575 } \\ 5.7 \% \end{gathered}$ | $\begin{gathered} \text { USD 11,042 } \\ 6.4 \% \end{gathered}$ |
| Favourable | What you might get back after costs Average return each year | $\begin{gathered} \text { USD 10,594 } \\ 5.9 \% \end{gathered}$ | $\begin{gathered} \text { USD 11,042 } \\ 6.4 \% \end{gathered}$ |

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes that have been calculated based on simulations using the reference asset's past performance over a period of up to 5 years. The stress scenario shows what you might get back in extreme market circumstances. This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you do not have a guarantee and you may have to pay extra costs.
The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## 3. What happens if Deutsche Bank AG, Frankfurt is unable to pay out?

You are exposed to the risk that the issuer might be unable to fulfil its obligations in respect of the product - e.g. in the event of insolvency (inability to pay / overindebtedness) or an administrative order of resolution measures. In case of a crisis of the issuer such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. In doing so, the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the product or convert it into shares of the issuer and suspend rights of the investors. With regard to the basic ranking of the issuer's obligations in the event of action by the resolution authority, please see www.bafin.de and search for the keyword "Haftungskaskade". A total loss of your capital invested is possible. The product is a debt instrument and as such is not covered by any deposit protection scheme.

## 4. What are the costs?

 affect your investment.
Costs over time

Composition of
costs
The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:

- In the first year you would get back the amount that you invested ( $0 \%$ annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested

|  | If you exit after $\mathbf{1}$ year | If you exit after $\mathbf{1}$ year and $\mathbf{7}$ months |
| :--- | :---: | :---: |
| Total costs | USD 105 | USD 0 |
| Annual cost impact* | $1.1 \%$ | $0.0 \%$ each year |

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be $6.4 \%$ before costs and $6.4 \%$ after costs.
We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

|  | One-off costs upon entry or exit | If you exit <br> after 1 year |
| :--- | :--- | :---: |
| Entry costs | $0.0 \%$ of the amount you pay when entering this investment. These costs are already <br> included in the price you pay. | USD 0 |
| Exit costs | $1.1 \%$ of your investment amount if you return this product before its settlement date. <br> These costs are already included in the price you receive. The costs indicated assume <br> that normal market conditions apply. | USD 105 |

## 5. How long should I hold it and can I take money out early?

## Recommended holding period: 1 year and 7 months

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 5 November 2025 (maturity).
The product does not guarantee the possibility to disinvest other than by selling the product off-exchange. Save as otherwise disclosed in exit costs (see section " 4 . What are the costs?" above), no fees or penalties will be charged by the issuer for any such transaction. However if you sell the product in the secondary market you will incur a bid/offer spread. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

| Exchange listing | Luxembourg Stock Exchange (Main Segment) | Last exchange trading day | 3 November 2025 |
| :--- | :--- | :--- | :--- |
| Smallest tradable unit | USD 100 | Price quotation | Percentage |

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

## 6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.
Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: Mainzer Landstrasse 11-17, 60329 Frankfurt am Main, Germany, by email to: x-markets.team@db.com or at the following website: www.xmarkets.db.com.

## 7. Other relevant information

Any additional documentation in relation to the product and in particular the prospectus, any supplements thereto and the final terms are published on the manufacturer's website (www.xmarkets.db.com/DocumentSearch ; after entering of the respective ISIN or WKN), all in accordance with legal requirements. In order to obtain more detailed information - and in particular details of the structure and risks associated with an investment in the product - you should read these documents. These documents are also available free of charge from Deutsche Bank AG, Mainzer Landstrasse 11-17, 60329 Frankfurt am Main, Germany, in accordance with legal requirements.
