

# Key Information Document

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## Product

Product name	Tracker Long Certificate Linked to an Index
Product identifiers	ISIN: DE000DB0XJJ7   WKN: DB0XJJ
PRIIP manufacturer	Deutsche Bank AG. The product issuer is Deutsche Bank AG, London Branch.
Website	www.db.com/contact
Telephone number	Call +49-69-910-00 for more information.
Competent authority of the PRIIP manufacturer	Federal Financial Supervisory Authority (BaFin)
Date of production	9 August 2023

You are about to purchase a product that is not simple and may be difficult to understand.

## 1. What is this product?

**Type** English law governed equity-linked certificates / Return depends on the performance of the underlying / No capital protection against market risk

**Term** The product does not have a fixed term, subject to exercise by the investor or termination by the issuer.

**Objectives** The product is designed to provide a return in the form of a cash payment following exercise by you or termination by the issuer that will depend on the performance of the **underlying**. The product has no fixed term.

(Terms that appear in **bold** in this section are described in more detail in the table(s) below.) You may exercise the product on certain dates and subject to the notice periods set out in the product terms (see "7. Other Relevant Information" below for more information on where you can obtain the product terms). The issuer may also terminate the product on certain dates and subject to the notice periods set out in the product terms. The exercise or termination, as the case may be, will be effective after the period of time indicated in the product terms.

You will in both cases on the **settlement date** receive a cash amount equal to (1) the **reference level** on the **valuation date** multiplied by (2) the **multiplier**.

Following issuance of the product, the **multiplier** is continuously reduced by a margin of 1.01% per annum.

Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

<b>Underlying</b>	DB Croci Germany Perf. Index (Total return index)	<b>Issue date</b>	11 November 2005
<b>Underlying market</b>	Equity	<b>Reference level</b>	The closing level of the <b>underlying</b> as per the <b>reference source</b>
<b>Multiplier</b>	0.01657	<b>Reference source</b>	Deutsche Bank - Cross Asset
<b>Product currency</b>	Euro (EUR)	<b>Valuation date</b>	The trading day on which your exercise becomes effective or our termination becomes effective
<b>Underlying currency</b>	Euro (EUR)	<b>Settlement date / term</b>	The 4th business day following the <b>valuation date</b>

The issuer may terminate the product with immediate effect in the event of obvious written or mathematical errors in the terms and conditions or if certain extraordinary events provided in the terms and conditions occur. Examples of extraordinary events include (1) material changes, particularly in connection with the **underlying**, including where an index ceases to be calculated, and (2) events, in particular due to changes in certain external conditions that hinder the issuer in meeting its obligations in connection with the product or – depending on the terms and conditions of the security – otherwise affect the product and/or the issuer. In case of immediate termination, the return (if any) may be significantly lower than the purchase price, but will reflect the product's market value and, if higher, any minimum redemption (alternatively, in some cases the corresponding compounded amount may be paid out at the product's scheduled maturity). Instead of immediate termination, the issuer may also amend the terms and conditions.

Provided that in the event of any inconsistency and/or conflict between the foregoing paragraph and any applicable law, order, rule or other legal requirement of any governmental or regulatory authority in a territory in which this product is offered, such national requirements shall prevail.

## Intended retail investor

The product is intended for private clients who pursue the objective of general capital formation / asset optimization and have a medium-term investment horizon. This product is a product for clients who have sufficient knowledge and / or experience to make an informed investment decision. The investor can bear losses up to the total loss of the capital invested and attaches no importance to capital protection.

## 2. What are the risks and what could I get in return?

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early or a later stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very unlikely to impact our capacity to pay you.

Inflation erodes the purchasing value of cash over time and this may result in the decline in real terms of any capital reimbursed.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

#### Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

<b>Recommended holding period:</b>		<b>5 years</b>	
<b>Example investment:</b>		EUR 10,000	
Scenarios		<i>If you exit after 1 year</i>	<i>If you exit after 5 years (Recommended holding period)</i>
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	<b>What you might get back after costs</b>	EUR 1,356	EUR 607
	Average return each year	-86.4%	-42.9%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	EUR 3,423	EUR 2,337
	Average return each year	-65.8%	-25.2%
<b>Moderate</b>	<b>What you might get back after costs</b>	EUR 4,631	EUR 4,648
	Average return each year	-53.7%	-14.2%
<b>Favourable</b>	<b>What you might get back after costs</b>	EUR 6,304	EUR 9,168
	Average return each year	-37.0%	-1.7%

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes that have been calculated based on simulations using the past performance of the **underlying** over a period of up to 5 years. The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

### 3. What happens if Deutsche Bank AG, London Branch is unable to pay out?

You are exposed to the risk that the issuer might be unable to fulfil its obligations in respect of the product – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. In case of a crisis of the issuer such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. In doing so, the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the product or convert it into shares of the issuer and suspend rights of the investors. With regard to the basic ranking of the issuer's obligations in the event of action by the resolution authority, please see [www.bafin.de](http://www.bafin.de) and search for the keyword "Haftungskaskade". A total loss of your capital invested is possible. The product is a debt instrument and as such is not covered by any deposit protection scheme.

### 4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested

	<i>If you exit after 1 year</i>	<i>If you exit after 5 years</i>
--	---------------------------------	----------------------------------

## Composition of costs

<b>Total costs</b>	EUR 225	EUR 414
<b>Annual cost impact*</b>	2.3%	1.4% each year
<p>*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -12.8% before costs and -14.2% after costs.</p> <p>We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.</p>		
One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	0.5% of the amount you pay when entering this investment. These costs are already included in the price you pay.	EUR 45
<b>Exit costs</b>	0.6% of your investment amount if you return this product before its settlement date. These costs are already included in the price you receive. The costs indicated assume that normal market conditions apply. If an issuer call or an exercise by you occurs, no exit costs will be incurred.	EUR 56
Ongoing costs taken each year		
<b>Management fees and other administrative or operating costs</b>	1.3% of your investment amount per year. This is an estimate of the actual costs.	EUR 126

## 5. How long should I hold it and can I take money out early?

### Recommended holding period: 5 years

The product aims to provide you with the return described under "1. What is this product?" above.

In addition to selling the product either (1) through the exchange (where the product is listed) or (2) off-exchange you may exercise the product on the Exercise Dates by transmission of an Exercise Notice to the Issuer. You must instruct your depository bank, which is responsible for the order of the transfer of the specified products. Upon effective exercise you will receive a Redemption Amount as described in more detail under "1. What is this product?" above. Save as otherwise disclosed in exit costs (see section "4. What are the costs?" above), no fees or penalties will be charged by the issuer for any such transaction. However if you sell the product in the secondary market you will incur a bid/offer spread. If you should exercise or sell the product before the end of the sample period, the amount you will receive could be – even significantly – lower than the amount you would have otherwise received.

<b>Exchange listing</b>	Euronext - Alternext Amsterdam	<b>Price quotation</b>	Units
<b>Smallest tradable unit</b>	1 unit		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

## 6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: Mainzer Landstrasse 11-17, 60329 Frankfurt am Main, Germany, by email to: [x-markets.team@db.com](mailto:x-markets.team@db.com) or at the following website: [www.xmarkets.db.com](http://www.xmarkets.db.com).

## 7. Other relevant information

Any additional documentation in relation to the product and in particular the prospectus, any supplements thereto and the final terms are published on the manufacturer's website ([www.xmarkets.db.com/DocumentSearch](http://www.xmarkets.db.com/DocumentSearch) ; after entering of the respective ISIN or WKN), all in accordance with legal requirements. In order to obtain more detailed information - and in particular details of the structure and risks associated with an investment in the product - you should read these documents. These documents are also available free of charge from Deutsche Bank AG, Mainzer Landstrasse 11-17, 60329 Frankfurt am Main, Germany, in accordance with legal requirements.
